TEALTH
MADE IN CHINA
135°C

- Low heat generation
  Safer in treatment process
- Motor with LED
  E-type connection
- Brushless motor
  Maintenance free
- 2,000-40,000r/min

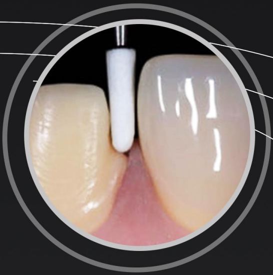
- Lower vibrations, Less noise

High performance Brushless Motor

More torque output

Constant torque output during the process

refined trimming

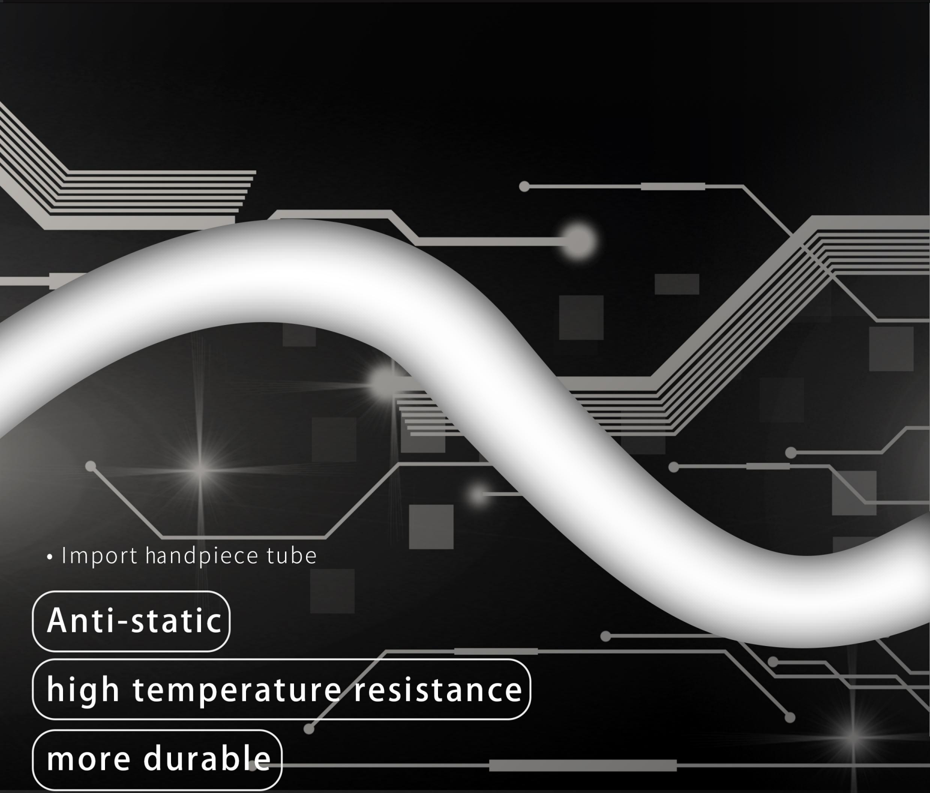


Air motors/ turbines

Effectively improve the

precision of trimming and tooth preparation

Strong and **Powerful** significantly improves the efficiency of crown splitting and decay removing



- Import handpiece tube

Anti-static

high temperature resistance

more durable
