HIGOLD®

Intelligent Purification Cleaning Sink

Create a healthy fresh world

Is it really clean to wash your ingredients by hand every day?

The ingredients contain various bacteria/pesticides/hormones, which is very difficult to remove by traditional hand washing

HIGOLD®

Meat hormone

Antibiotics, clenbuterol, animal residues affect children's physical development

Fruit and vegetable pesticide residue

Long-term consumption can cause chronic poisoning

Remove sand from shells

It's very difficult to remove sand from shells by conventional cleaning methods

INTELLIGENT KITCHEN SINK

Strong cleansing power
Enjoy fresh food

HIGOLD®

Deep cleaning

Dual-catalyst purification

Practical double bowls sink

Energy and water saving

Three advanced technologies Wash ingredients with one key operation

0 ozone, 0 consumables, 0 additive0 residual
Provide healthy food
Pregnant women and babies eat at ease

HIGOLD®

01

Ultrasonic shocking 3mins

Stripping of sand and dirt

02

Turbine scouring 3mins

Wash the stains away

03

Purification and detoxification 6mins

Purification of pesticide residue

Ultrasonic shocking without hidden dirt

01

High frequency ultrasonic shock
Easily shake off sand and parasites, Enjoy the seafood feast healthily

HIGOLD®

40KHZ Ultrasonic wave → Bubble → Shock wave → Stain shedding

Say goodbye to various cleaning problems

Wash thoroughly and precisely, stripping dirt deeply

HIGOLD®

Clean without hidden mud

Turbine scouring powerful decontamination

02

Automatically turn on turbine scouring,
create a high-pressure water flow
Increasing the cleaning efficiency

HIGOLD®

Dual-catalyst purification

03

Water catalyst decompose water molecules and produce self-purification factors Combined with UV ray photo catalyst to remove pesticide residue

HIGOLD®

Water catalyst
Decompose pesticide residue

Photo catalyst
UV ray purification

Water is decomposed by the purification module to form strong oxidizing hydroxy ions

Higold initiates purification and self-cleaning technology

Self-cleaning is also performed during the purification process
Lasting and strong purification capacity

HIGOLD®

Self-cleaning technology

Powerful purification

Longer lifetime

Alternate acid-base position in turn

Invention Patent No.: CN201910116449.7

Authoritative testing and certification
Witness purifying and cleaning power

HIGOLD®

Report No.:WTF20F12101443F

Pesticide residue detection	Removal rate	Bacterial detection	Removal rate
DDVP	Up to 90%	Moniliaalbican	97.6%
Cyhalothrin	Up to 90.1%	Escherichia coli	98.4%
Deltamethyrin	90.9%	Staphylococcus aureus	99%

Transparent black crystal window

No need to open the cover
the whole process of washing is visualized

HIGOLD®

Wear-resistant and anti-dirty

sound-isolation and noise-reduction

Splash-proof

Also high-efficient use of water

The purification cleaning sink is designed with different washing modes for different ingredients

HIGOLD®

15L high water level

【Cleaning】【Purification】mode

Suitable for seafood and meat purification

Partition design to meet both conventional washing and ultrasonic cleaning

Not only can clean deeply but also meet the daily conventional washing demand

HIGOLD®

304 Stainless Steel Handmade Sink

Hydrophobic and oleophobic easy to clean

Intelligent purification sink

Healthier food purification

Diversified intelligent interaction

Two options for intelligent interactive
Fancy control of intelligent appliance

HIGOLD®

01

Intelligent connected WIFI version

Connect with your smartphone through
the cloud linkage
Control at ease to operate at every
corner of the house

Item No. : 973012

09:28
09:54

02

AI voice control version

Touch-free by intelligent control
No longer worry about operation by dirty hands

Item No. : 973016

Intimate details
Quality guarantee

HIGOLD®

01

Automatic water inlet and drainage

No trouble and worry

02

One-key purification cleaning

No need to adjust more convenient

03

Safe child lock

Prevent children from touching by mistake

04

Waterproof black crystal panel

Easy to clean

Product Specification

HIGOLD®

Name : **Intelligent connected WIFI version / 973012**

AI voice control version / 973016

Body Material : **304 Stainless Steel** Steel thickness : **1.2mm**

Product process : **SS brushed** Faucet hole : **35mm**

R corner : **R10** Soap dispenser hole : **28mm**

Voltage frequency : **220V** Usage Environment : **5**℃~**45**℃

Rated power : **300W** Overall product weight : **19.8kg**

Overall product size	Topmount cutout size
Length **820mm** Width **480mm** Height **370mm**	Length **800mm** Width **460mm**
Flushmount Cutout Size	Bowl Size
Entrance Size Length **822mm** Width **482mm** Height **3.5mm** Cutout Size Length **800mm** Width **460mm**	Big Bowl Length **405mm** Width **380mm** Small Bowl Length **310mm** Width **310mm**

* Unit: mm Manual measurement, pls. refer to the actual product for the accurate size

Product List

HIGOLD®

Intelligent Purification Cleaning Sink

Drainer

Drainage pipe

Wire basket

INTELLIGENT PURIFICATION CLEANING SINK

INTELLIGENT KITCHEN SINK
