ABOUT US

Founded in 2016, Hemera Glass began its journey in a modest single room with just two worktables. Today, we operate from a modern facility spanning over 5,000 square meters, supported by a network of over 50 agents and numerous joint manufacturers—a testament to our rapid growth and strong industry presence.

With over a decade of expertise in glass manufacturing, we specialize in producing a wide array of products including borosilicate glass storage containers, teapots, homeware, storage jars, and innovative home accessories. Our core technologies cover artificial blowing, semi-automatic and automatic machine blowing, carving, decorating fire, sandblasting, frosting, and bronzing.

Our heat-resistant items, such as coffee pots, teapots, and mugs, are crafted from high borosilicate glass, known for its eco-friendliness and superior properties—excellent chemical stability, low thermal expansion, and the ability to withstand temperatures from -4°F to 302°F.

We welcome OEM and ODM collaborations, accepting custom designs, logos, and packaging even with small MOQs. Committed to “Best Quality, Best Price & Best Service,” we implement strict quality control and prioritize customer satisfaction through continuous R&D. Each year, we introduce new products that emphasize sustainable materials and intelligent design, keeping pace with market trends.

Our philosophy goes beyond meeting expectations—we aim to enhance daily life through quality, innovation, and thoughtful design. By building lasting relationships with clients and suppliers, we deliver reliable service and consistently exceed project goals.

Backed by a solid network and rich experience, Hemera Glass manages international projects efficiently, creating smooth commercial flows for our partners. Our products have reached customers worldwide, helping businesses enhance their market performance.

We are proud of our reputation for excellence in product quality, customer support, and packaging. As we grow, our dedication to each customer remains unchanged.

Thank you for considering Hemera Glass. We look forward to partnering with you and contributing to the success of your business.
