

### Hydrogen Gas Tube Skid Container Data Sheet (10 tubes)

Tube Skid Container	Net Weight (without chassis)	26880Kg	Jumbo Tube	Tube Qty	10PCS
	H2 Loading Weight	340Kg		Total Water Volume	23M <sup>3</sup>
	Total Weight (without chassis)	27220Kg		Hydratastic Test Pressure	334bar
	H2 Loading Volume	5796NM <sup>3</sup>		(ODxWTKxL)	φ559x13.7x10950mm
	Working Pressure	200bar	Remark	Chassis	Three axis
	Leakage Test Pressure	200bar		Ball valve manufacturer	Parker of USA
	Working Temp	-20~50℃		Service	15 years
	Container Diemension	12192x2438x1890mm		Approval	BV, ISO, CE
Bursting discs	Burst Pressure	334bar	Release-hole Diameter	≥φ20	
	10-tube Skid Container		10-tube Skid Container mounted on chassis		

**Note:**

1. Delivery schedule: within 30 days after Sales Contract;
2. Port of loading: Qingdao, China;
3. Term of payment: 30% down payment before production, 70% balance before shipment;
4. Third party inspection: by BV, charged on supplier.
