WHY CHOOSE FULLSTAR?

Production Capacity

2 plants & 1 industrial zone
28,000 square meters covering land
1,200 workers
100x40HQ containers per month

Advantage

Competitive price
High-quality products
On-time delivery
Excellent service
Effective management in factory

Sales Team

Young and promising
High educated
Good control on English
Full-experienced on exporting procedure

Quality

All products comply with ISO
Manufacturing regulations and process
(ISO13485)strictly,and
Conform to intemational standards as CE.
TYPE 3/4/5/6,TYPE 5&6,FDA registered,etc.

Fullstar are committed to delivering the best services and reliable products for all of our customers with our passion and creativity.

ABOUT FULLSTAR

1993

The first factory
started

2009

The second factory
established

900

Around 900 workers

90,000

It covers a land of 90,000
square meters

FULLSTAR NON-WOVEN PRODUCTS CO., LTD was founded in 1993, with two industrial zones, and one trading company. The general factory is located at Xiantao, Hubei Province which is famous for non-woven industry. The company is focused on processing production and selling of non-woven products guided by export, covering the fields of health, personal care, food safety and industrial protection. All product lines in the disposable medical scope registered with the CE and FDA, also are fulfilled the quality management system for medical devices ISO 13485, which has been widely recognized by the international market.

FUSHI PROTECTIVE PRODUCTS CO., LTD is the first factory started in 1993, which is majorly disposable medical products manufacturing plant – offering finest world-class quality products to meet the increasing needs coming from a variety of hospitals, clinics, patients, staffs, making solutions to them or any environmental problems that challenge the healthcare industry. It manufactures a complete line of protective consumables from head to toe, consisting of face masks, surgical gowns, isolation gowns, lab coats, coveralls, scrubs, head wear, shoe/sleeve and boot covers, etc. It covers a land of 75,000 square meters, around 450 workers, built as an industrial zone.

FULLSTAR

FULLSTAR NON-WOVEN PRODUCTS CO.,LTD is the second factory established in 2009, covering a land of 15,000 square meters , more than 350 workers which firmly enhances the productivity of our FULLSTAR GROUP. It is committed to providing the ultimate solutions in personal protection & hygiene coming from the industrial, catering, farming areas. Workers need to be safe and comfortable and their employees need options with demands increased gradually. That' s why FULLSTAR NON-WOVEN PRODUCTS CO.,LTD constructed to offer a complete line of personal protective products, selected from coveralls, lab coats, jackets, smocks , protective gowns, aprons, caps and head/feet covers etc. It is aimed to meet the customer' s requirements for keeping workers safe from hazardous particulates, liquids and chemicals.

FULLSTAR INTERNATIONAL CO.,LTD is functioned as our independent trading company, established in 2005 with an energetic and experienced sales team. The operation principle is gaining international recognition from worldwide customers to offer competitive out-sourced products and services to customers as needful in every aspect. With our quality product range, experienced sales and technical support teams, competitive sourcing channels, efficient dispatch systems, we have the ability to successfully supply our extensive product range and help customers to make concentrated purchase of what they need in consolidation.

During the past years, Fullstar has always insisted on the principles of honesty and trustworthiness, product quality and safety first. We have moved forward steadily and realized enterprise sales growth annually. We have exported to more than seventy countries and regions, and set up a sales network worldwide. Fullstar will continue to accumulate strength to achieve a leap forward with quality and innovation so that we can stand tall and firm in the international market in the future.
