ALUMINIUM LOUVER

ABOUT YFA.

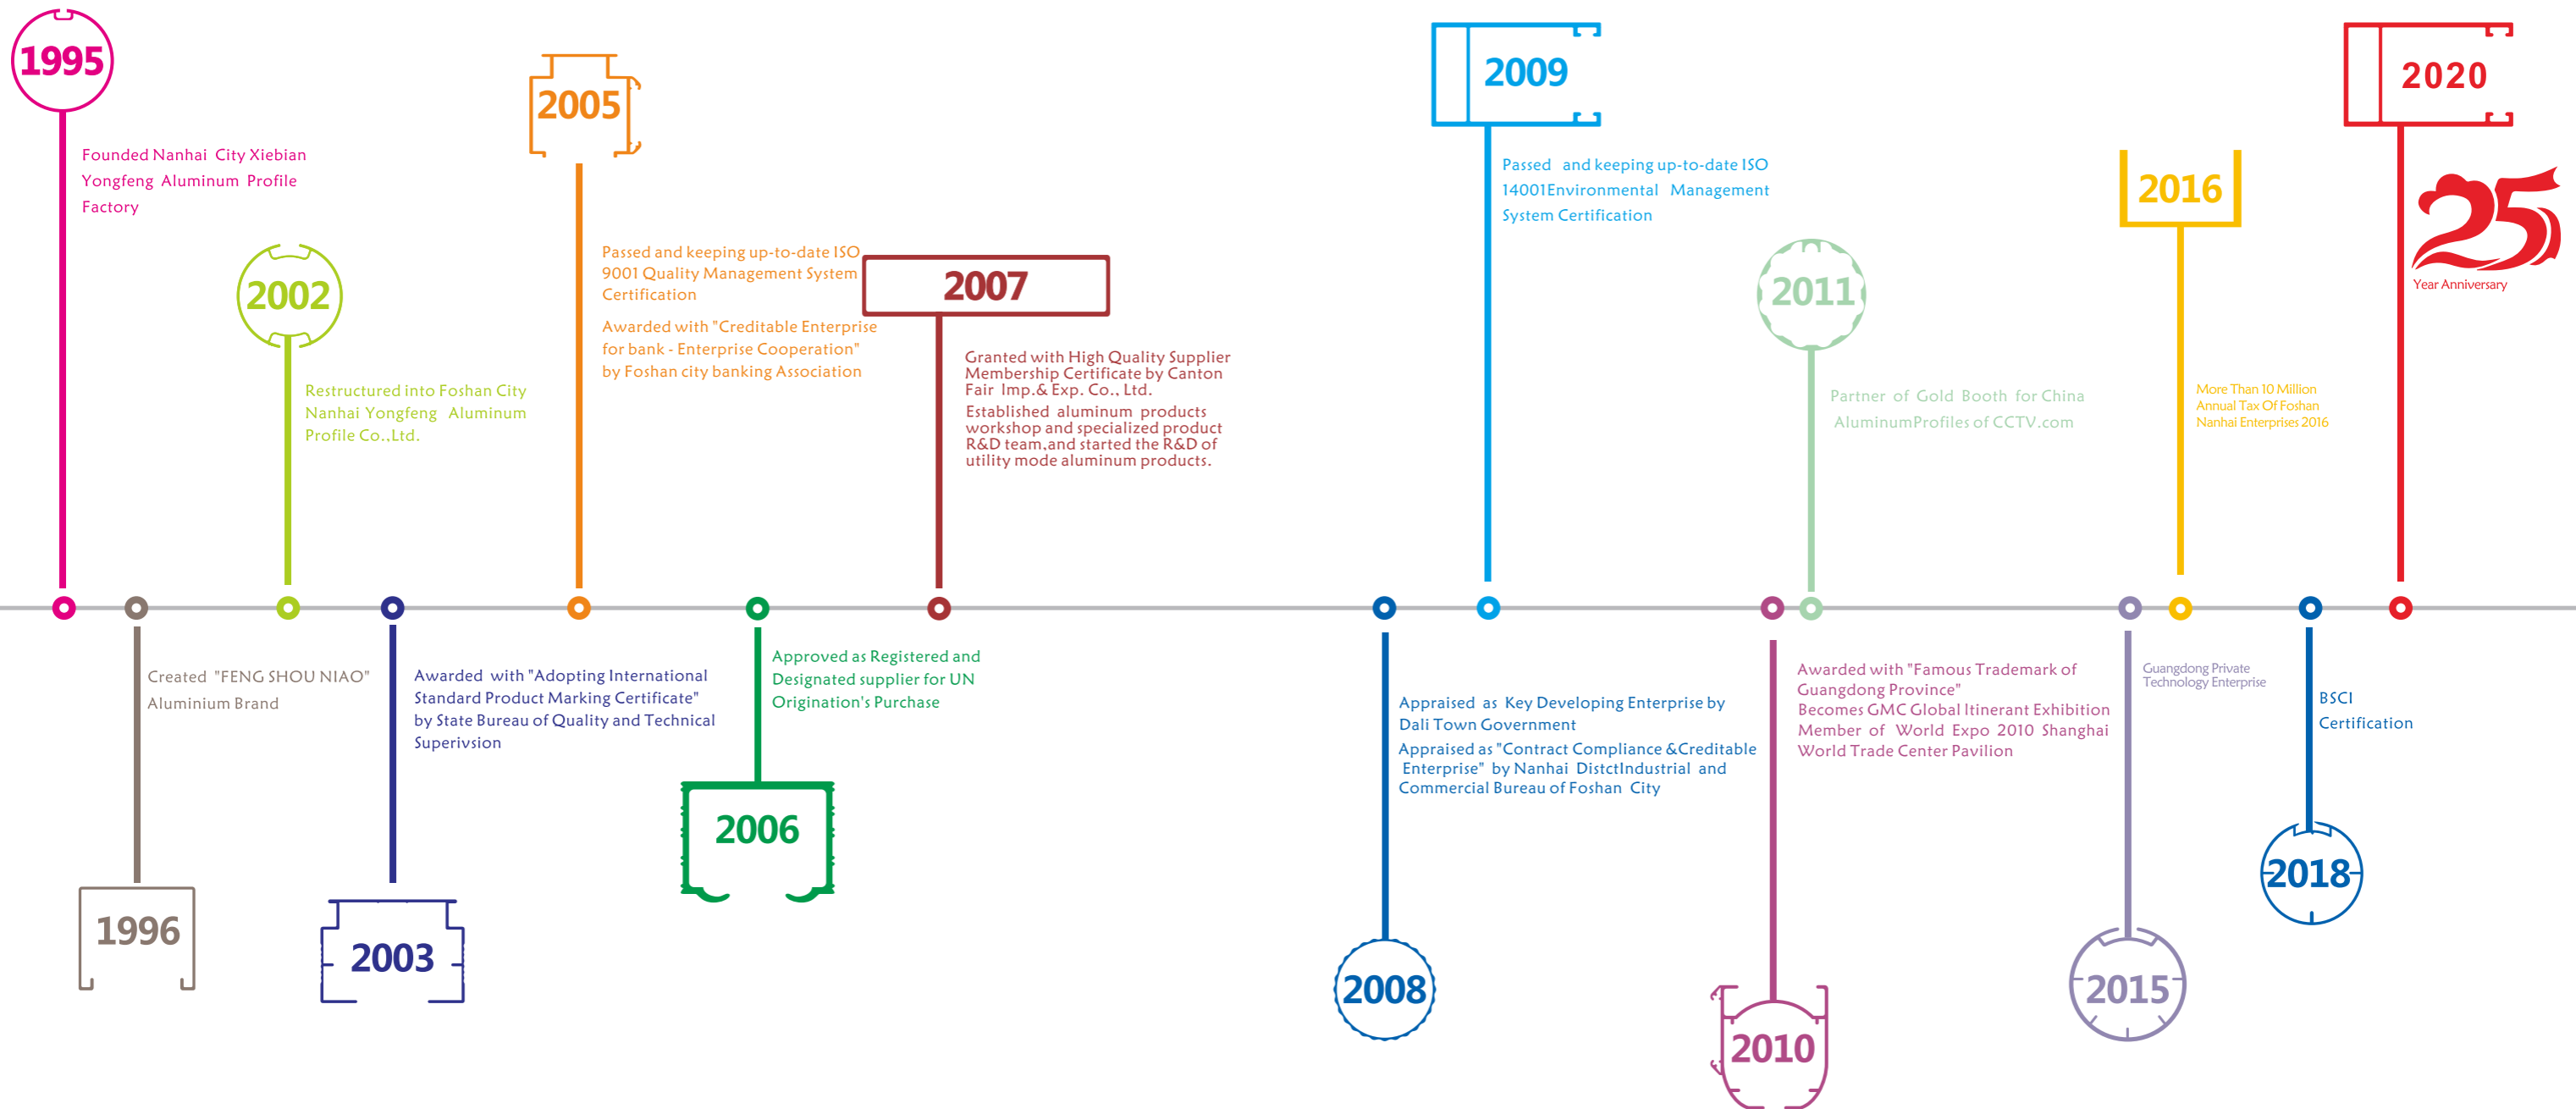

Foshan City Nanhai Yongfeng Aluminum Co., Ltd. was founded and risen in Dali Town of Nanhai District of Foshan City – China Nonferrous Metal Production Base. Started from the former Nanhai City Xiebian Yongfeng Aluminum Profile Factory (founded in October 1995), the Company restructured into limited company in November 2002.

By experiencing up and downs in the market competitions for more than a decade, Yongfeng had forged a complete production system from product design, extrusion, painting and profile forming, and established the product mix and market strategy that is based on aluminum profiles and led by aluminum products.

Though not having a long-standing history like a century enterprise, by virtue of Yongfeng People's perseverant pursuit of development, and edified under the decorous enterprise culture "Try my best to do", Yongfeng People constantly strive to become stronger and keeps continuous innovation. In future, Yongfeng shall retain and carry out the spirit of "Do the best", provides the employees, customer and partners with a sustainable platform advancing with time, and build the future together!

ABOUT HISTORY.

ABOUT ALUMINUM PRODUCTS

1. Safety Protection

Each type of aluminum products passed safety test, having a high level of safety protection performance, and the each type of aluminum products made of aluminum alloy profile has excellent performance on hardness, impact resistance etc. aspects which could serve with good safe protection effect.

2. Energy Conservation And Environment-friendly

All products are energy saving type, no rusting and corrosion in using process, and no secondary pollution in later period reconditioning. The product surface is treated with powder spraying, reaching the quality assurance of no decoloring for 10-20 years, which is very suitable for outdoor applications, meanwhile, various sun shading products could be served to regulate the light and the temperature of the surroundings, and reduce the power consumption greatly.

3. Fashionable And Beautiful

The product is of novel design, coordinated with abundant colors and easy mounting, which could match the overall visual effect of various project.

4. High Technology Contents

The products are with high level technologies, many patents are supplied in the physical products, and gained recognition from international market for its technology contents, reduce the powder consumption greatly.

☆50x50mm as frame, operable elliptical blades, fit between floor and ceiling

Optional blades

4237491

4237528

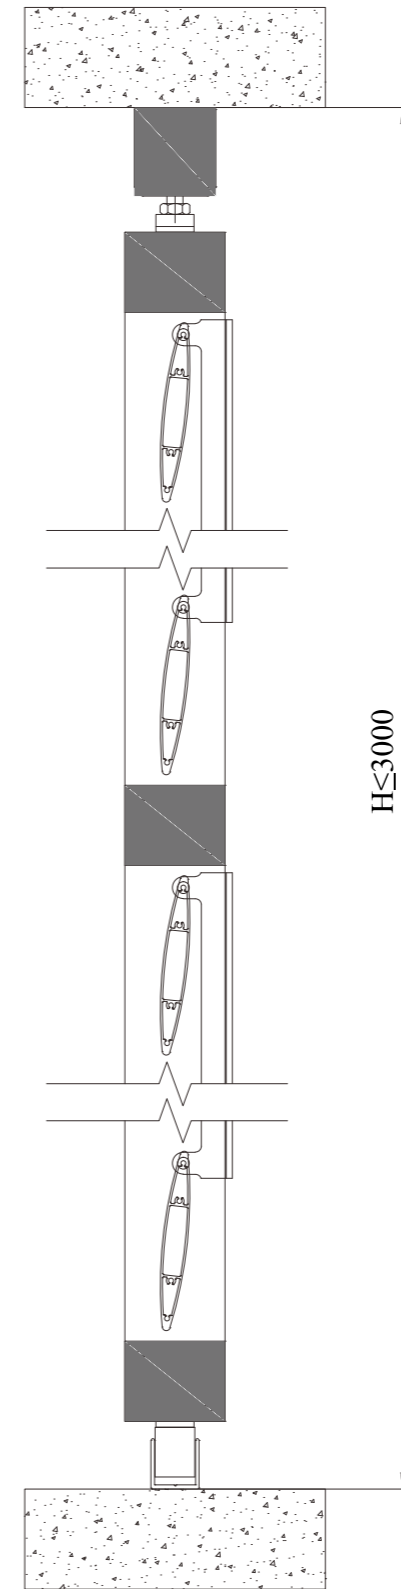

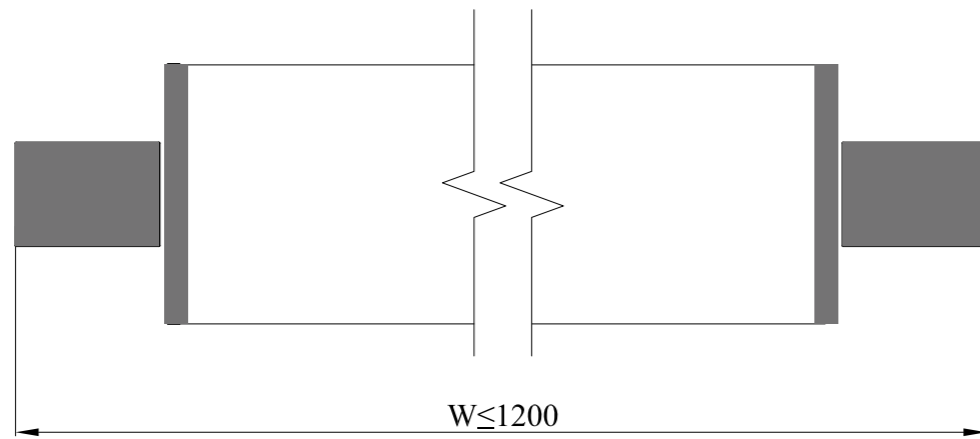

4237405

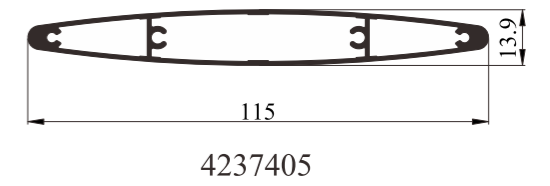

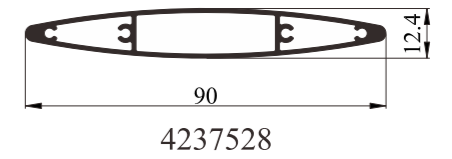

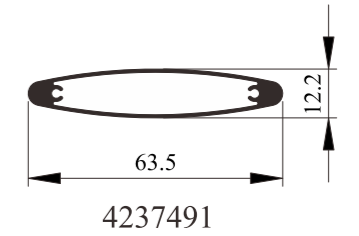

This design is assembly delivery.

☆50x36mm as frame, operable elliptical blades, fit between floor and ceiling

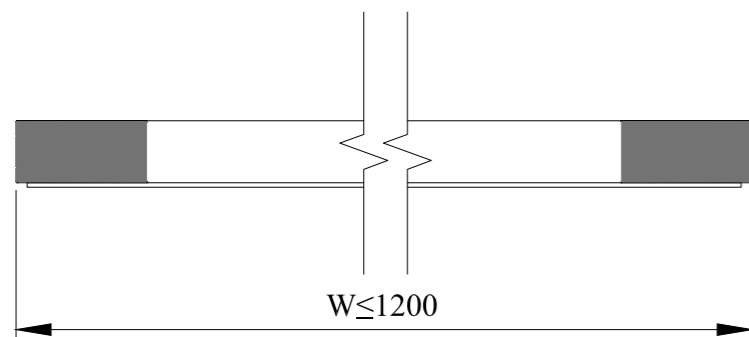

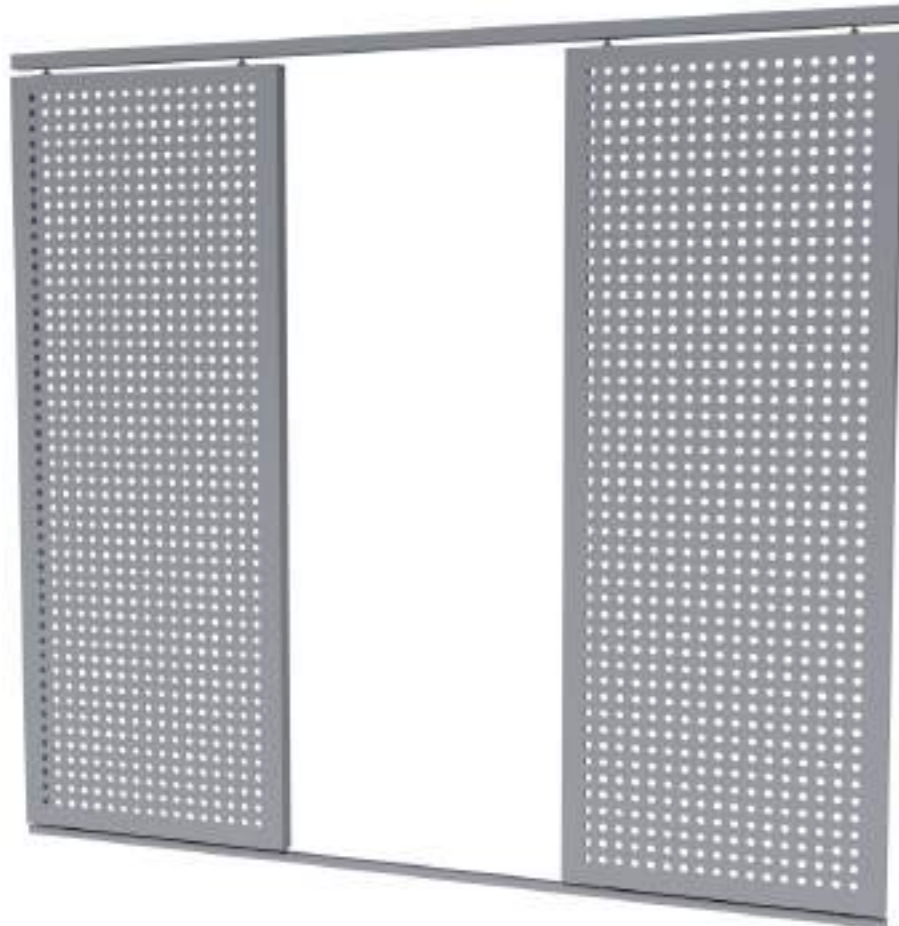

Optional blades

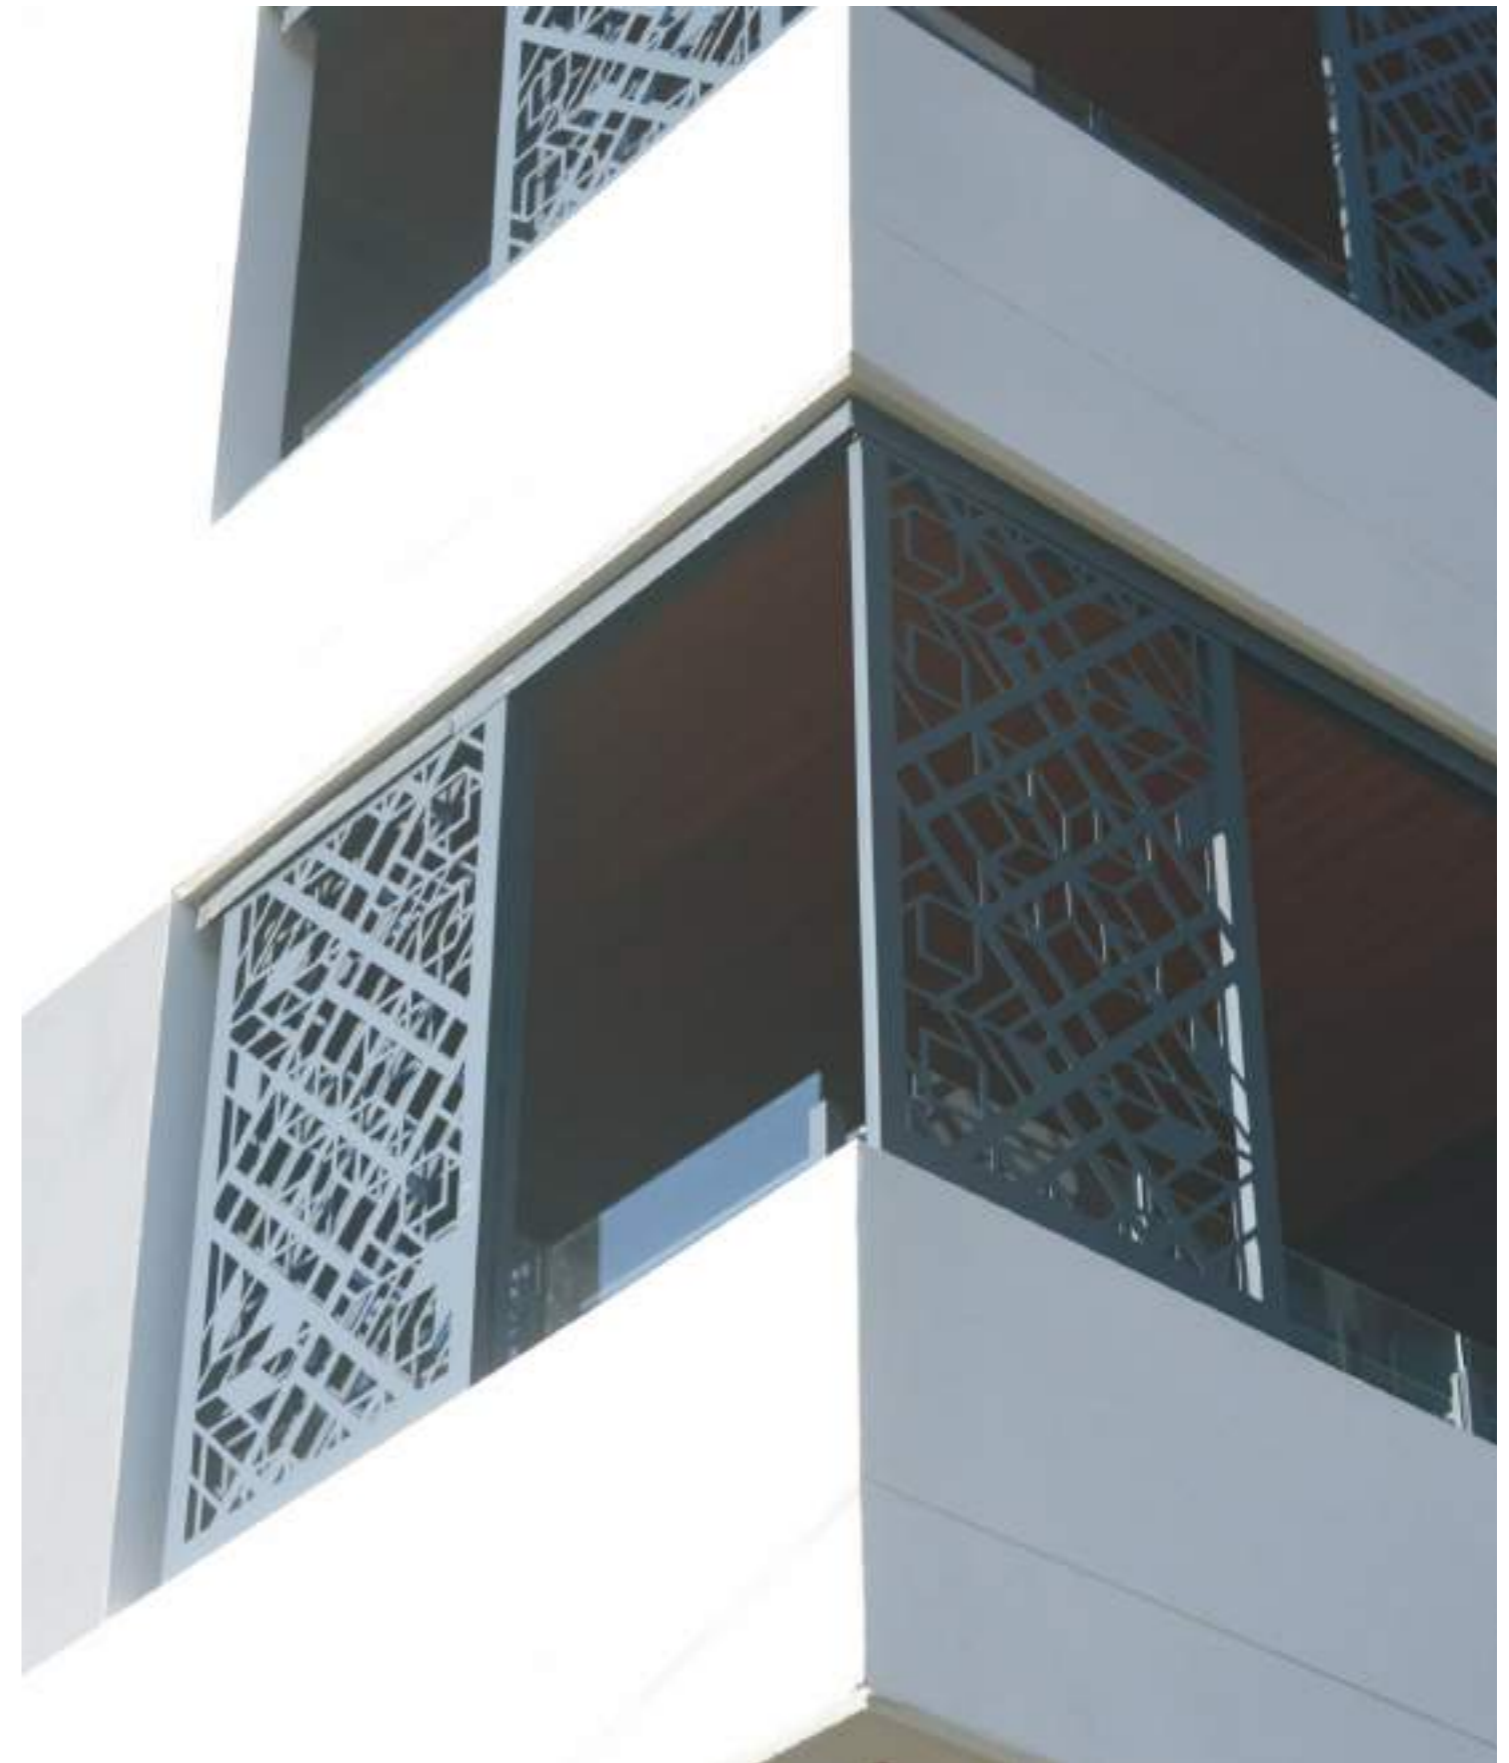

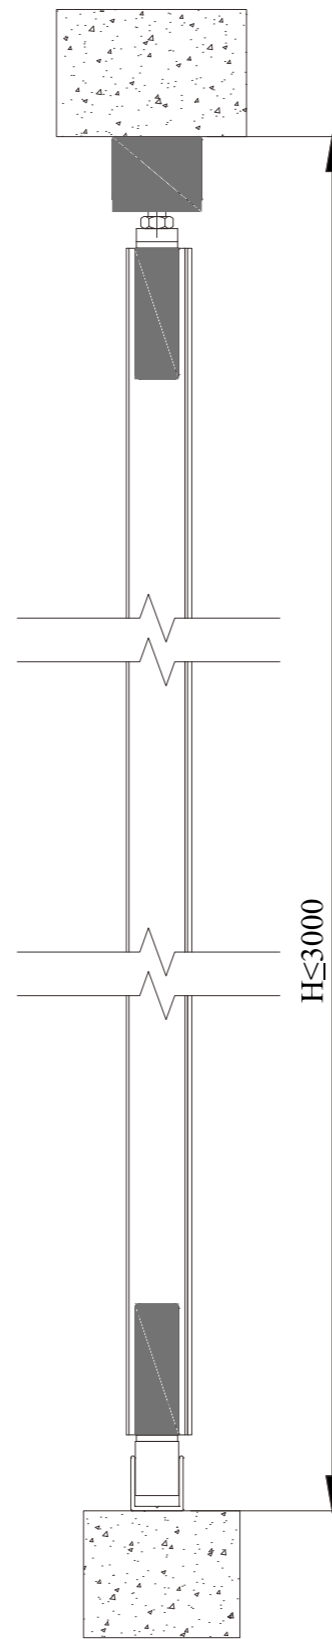

This design is assembly delivery.

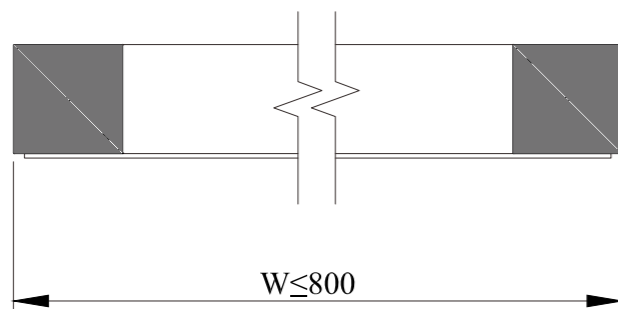

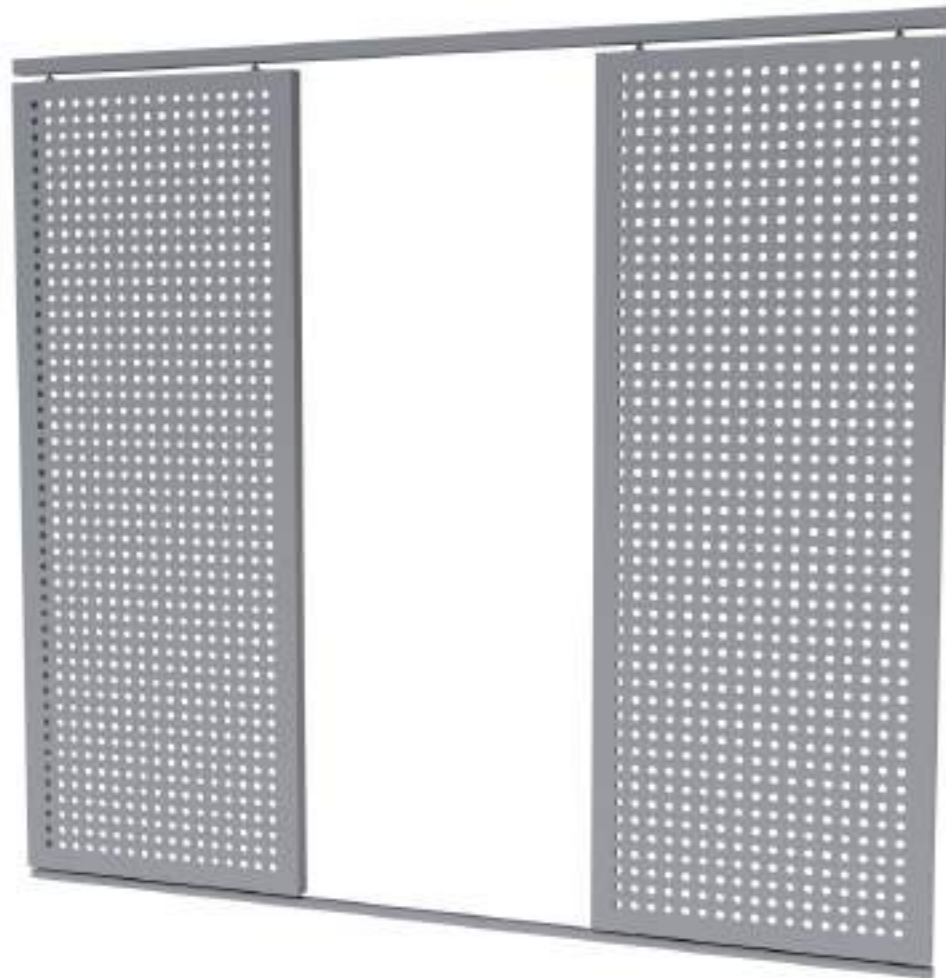

☆60x28mm as frame, aluminium perforated sheet, fit between floor and ceiling

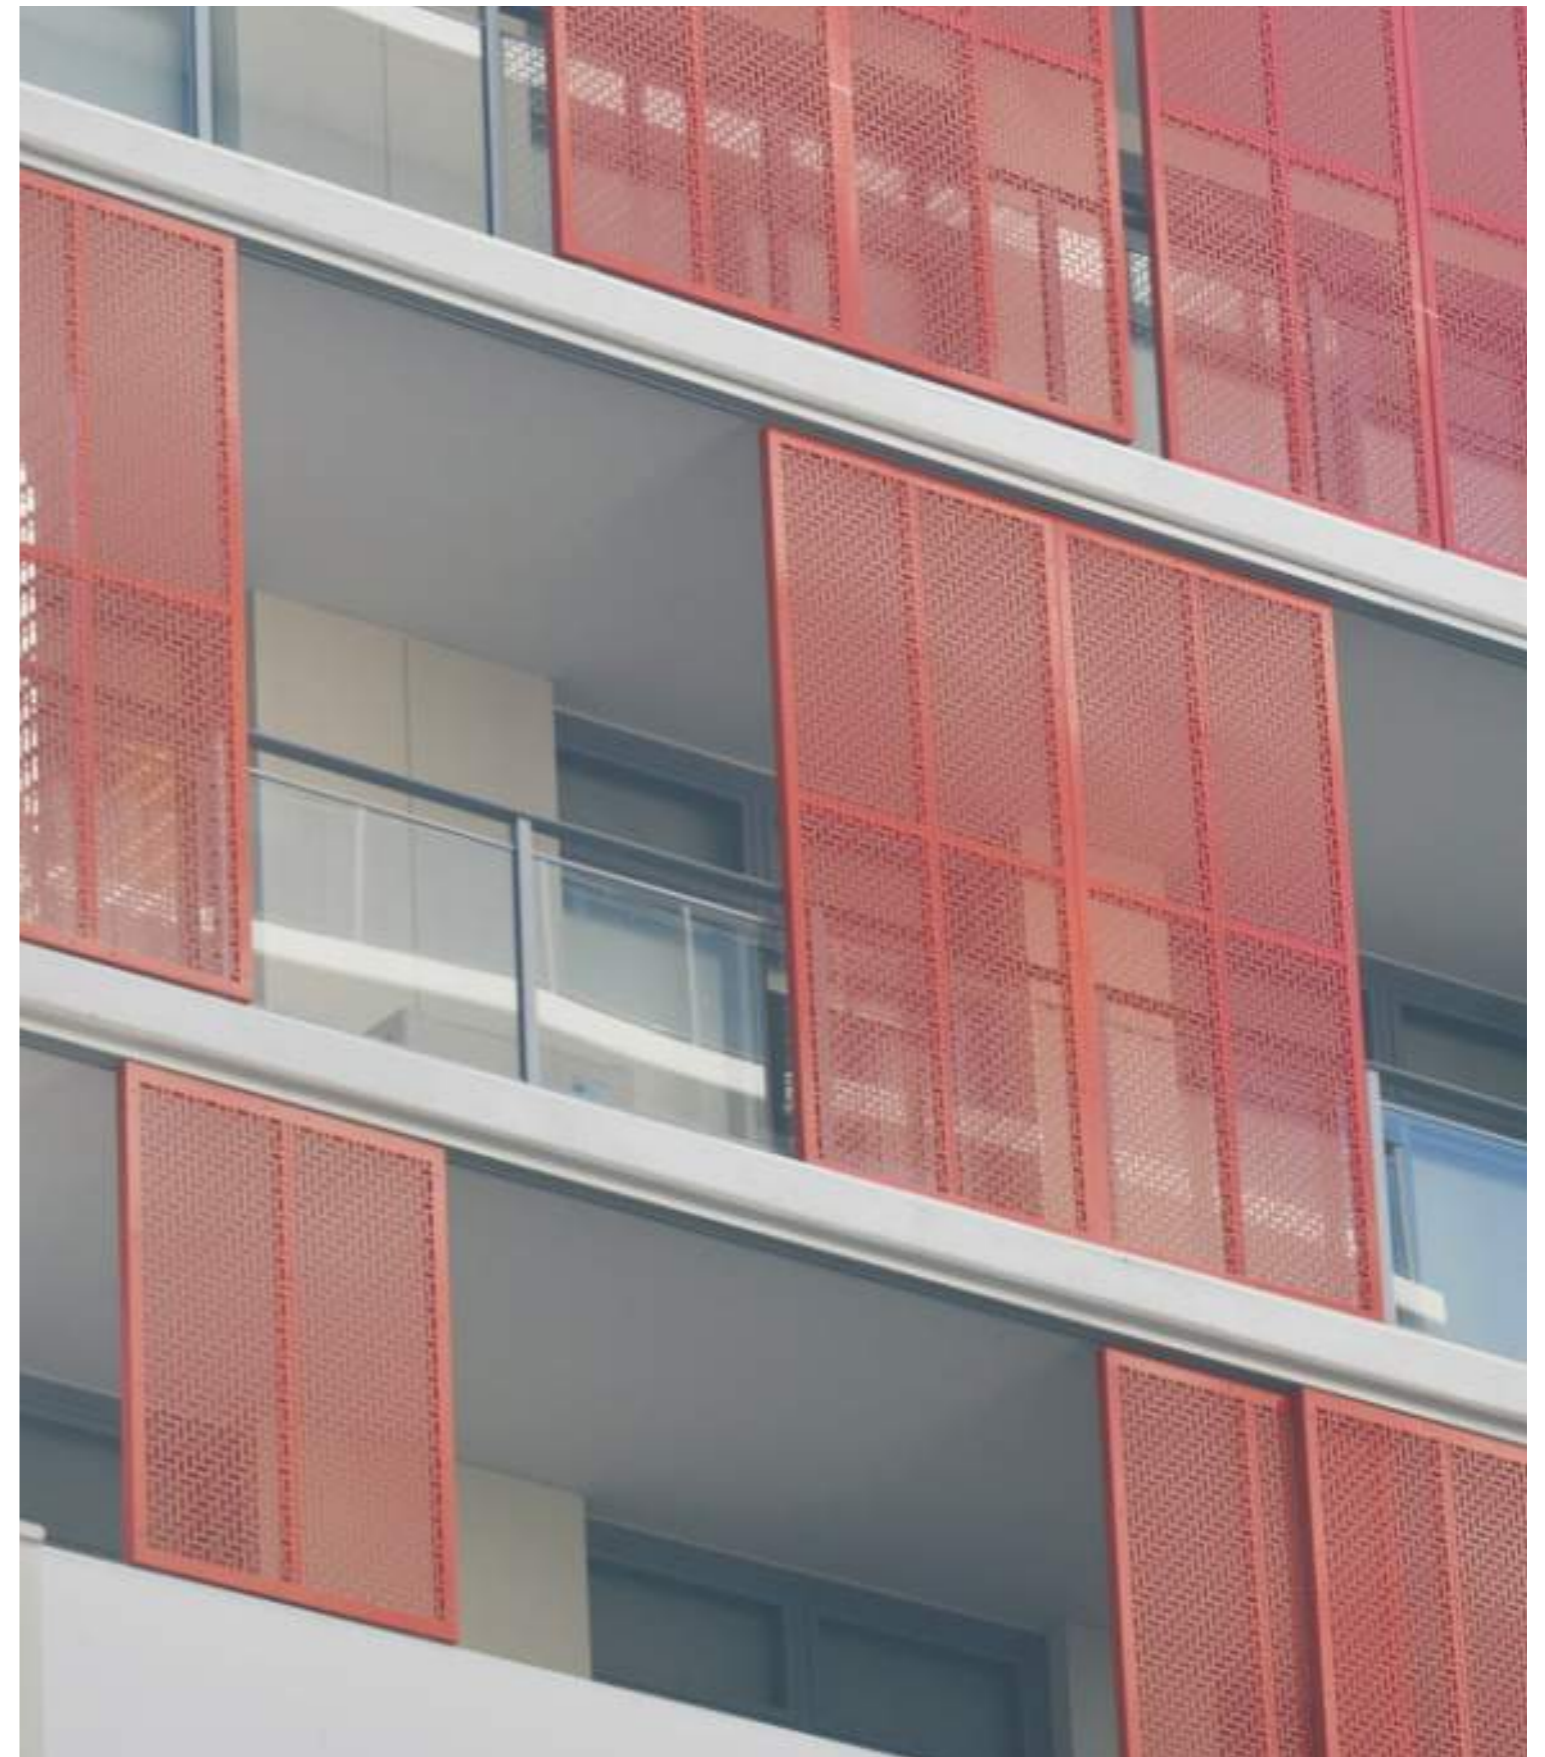

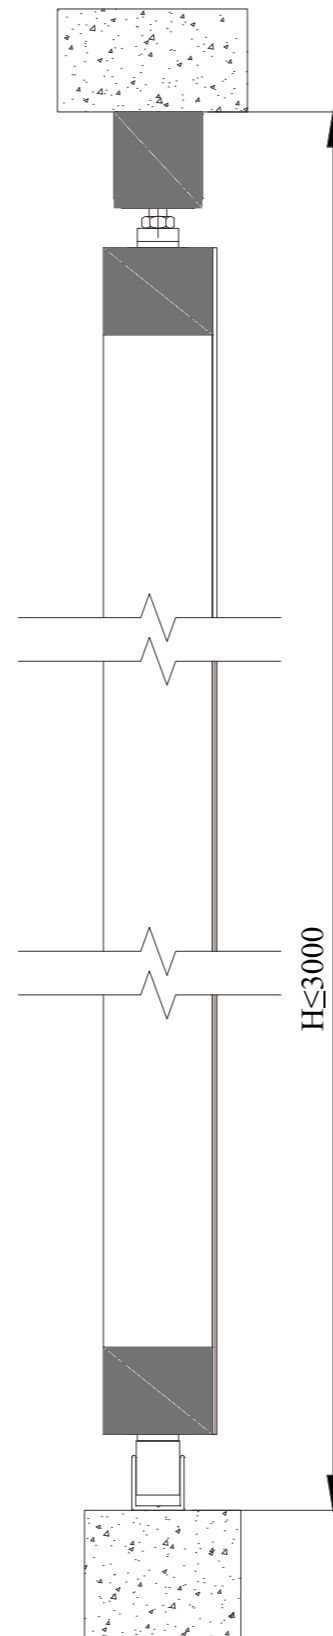

This design is assembly delivery.

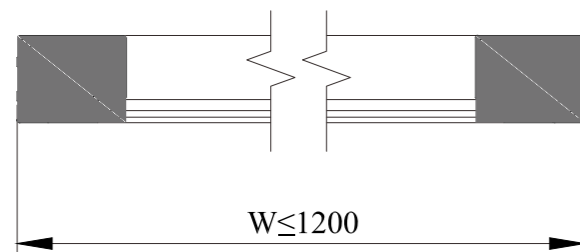

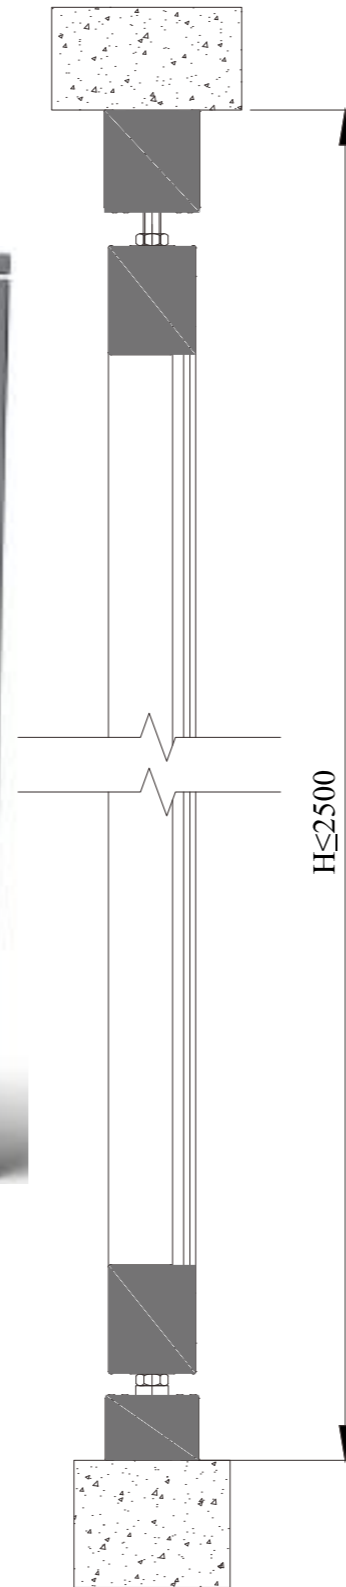

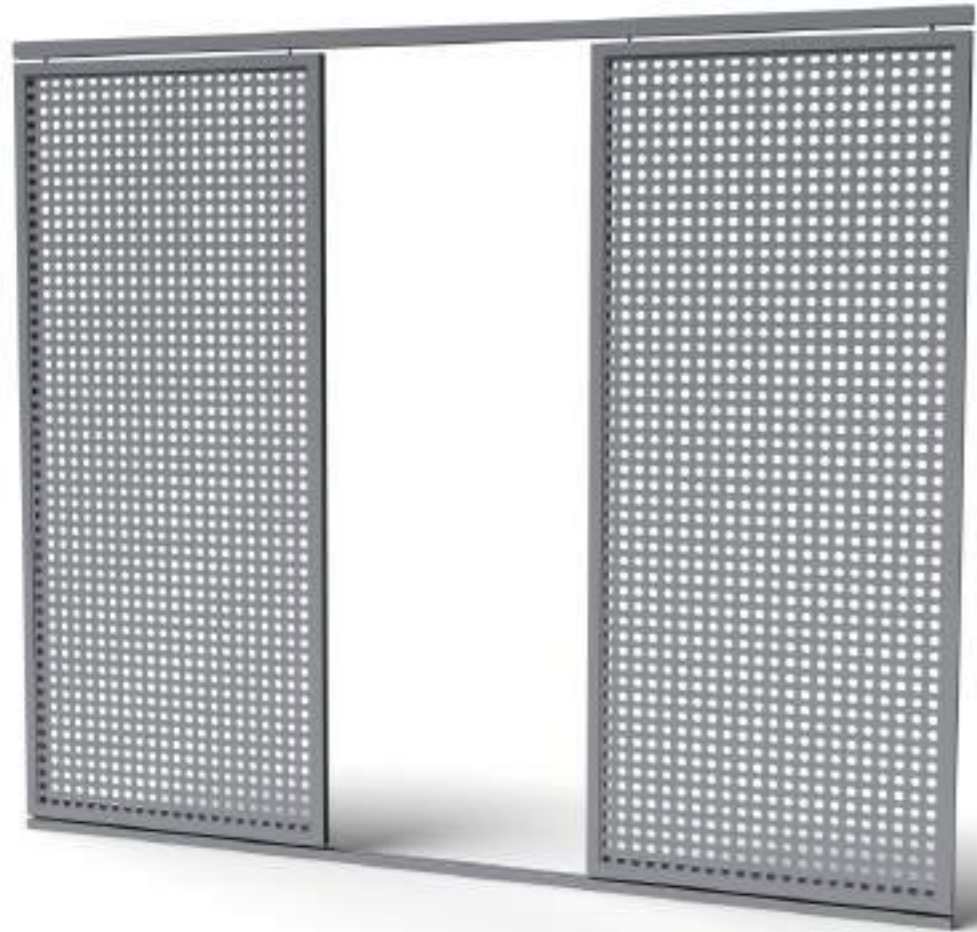

☆50x50mm as frame, aluminium perforated sheet, fit between floor and ceiling

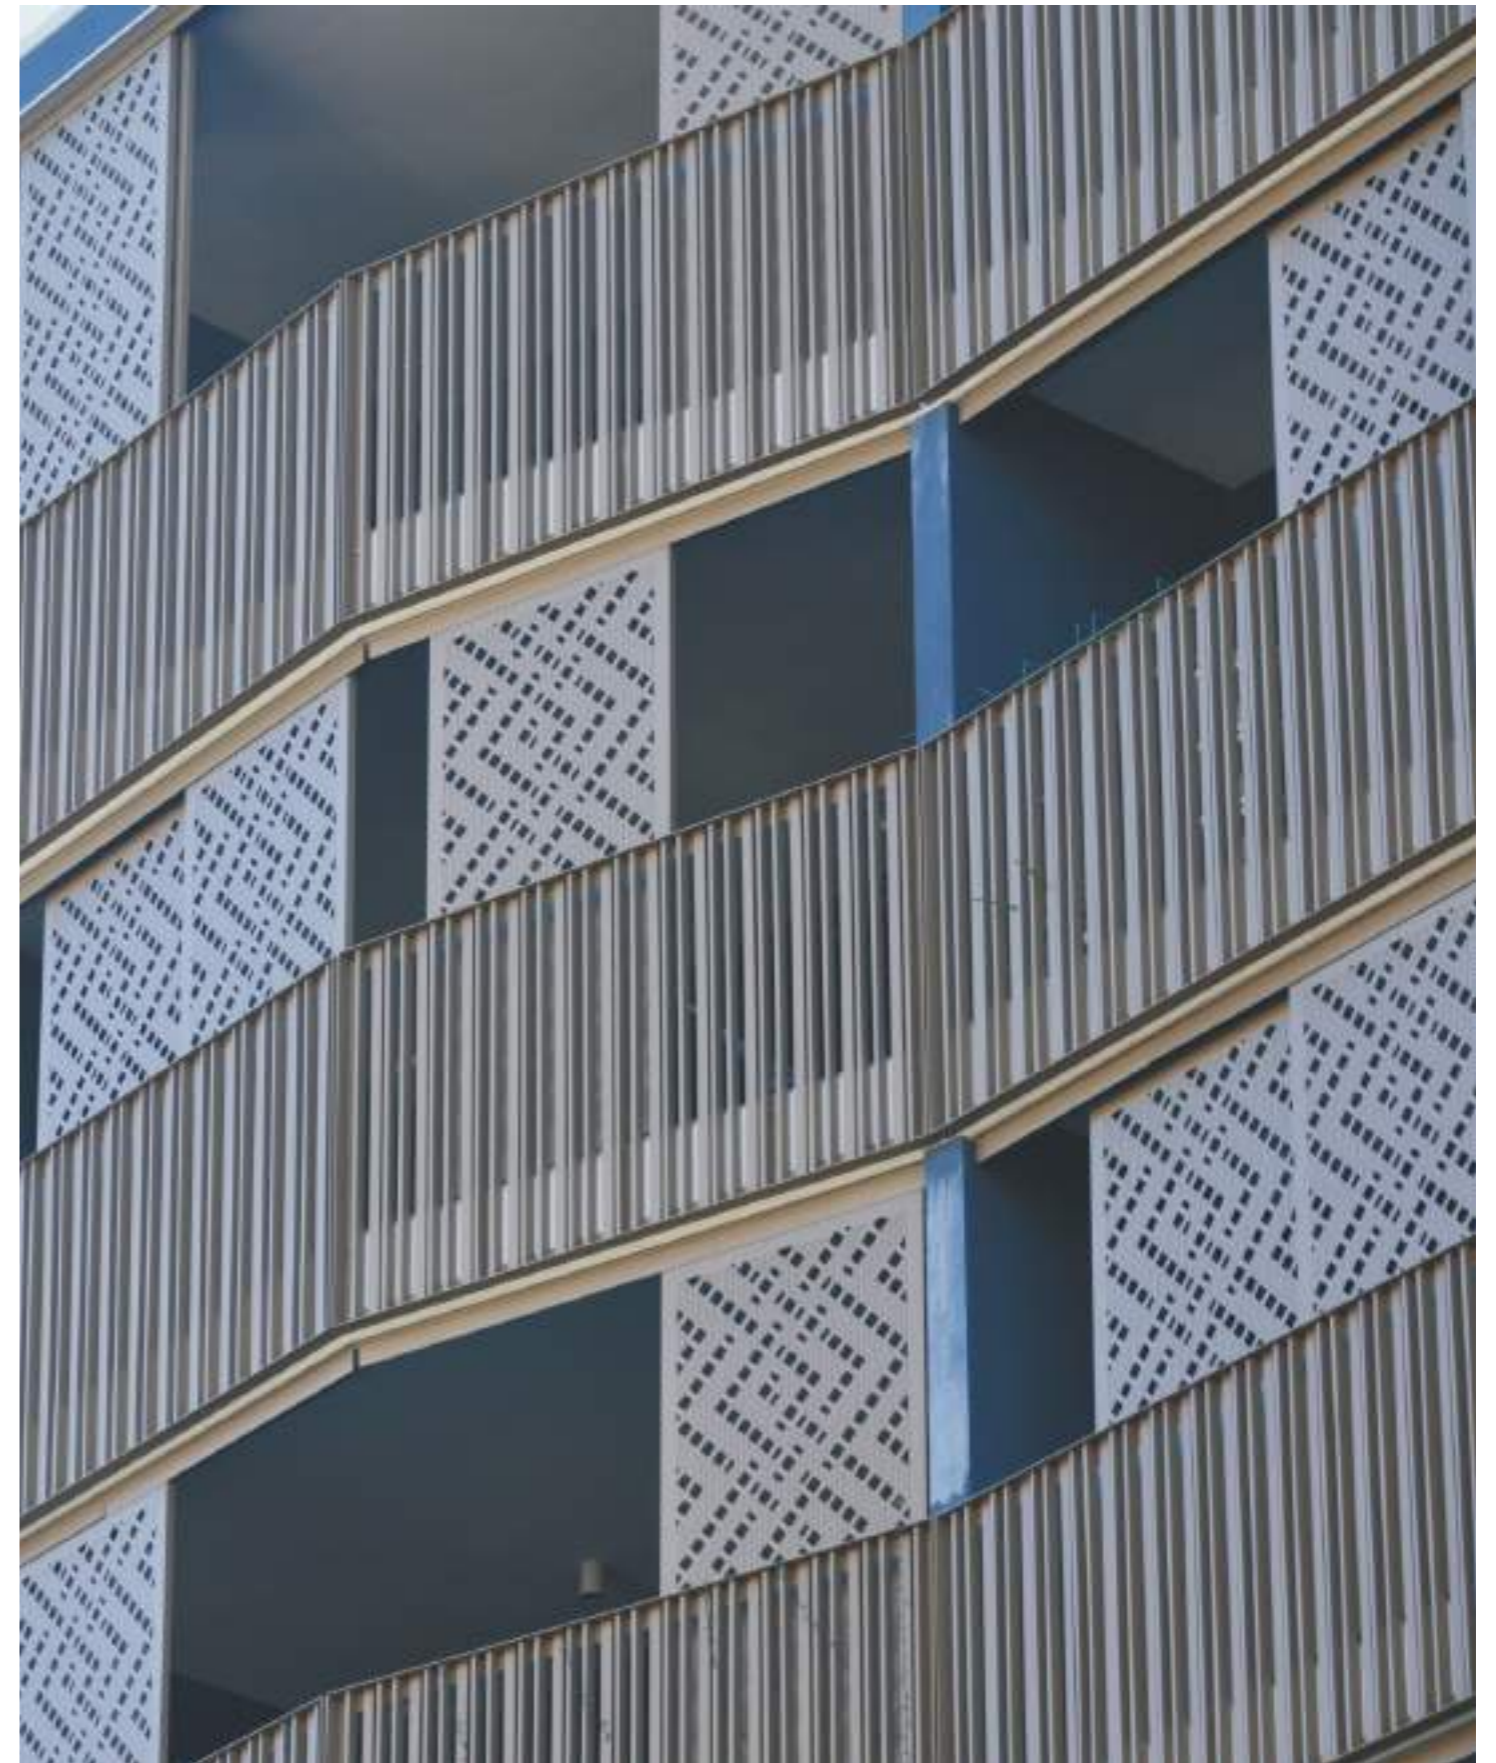

This design is assembly delivery.

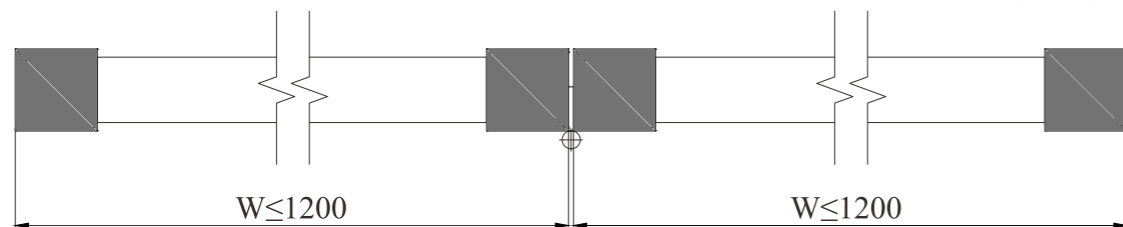

☆50x40mm as frame, frame is hidden, aluminium perforated sheet, fit between floor and ceiling

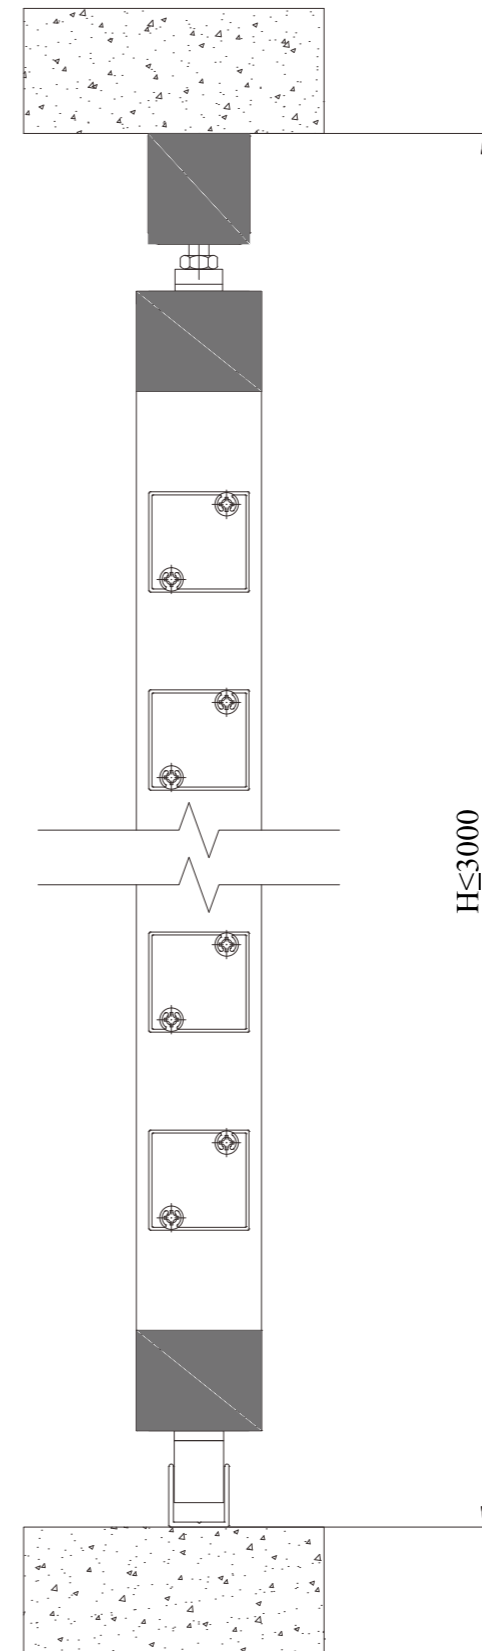

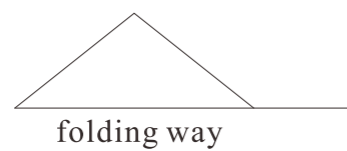

This design is assembly delivery.

☆50x50mm as frame, fixed square blades, fit between floor and ceiling

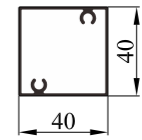

Any pitch is available.

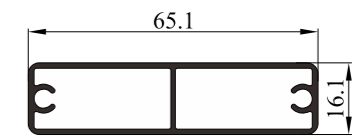

This design is assembly delivery.

Optional blades

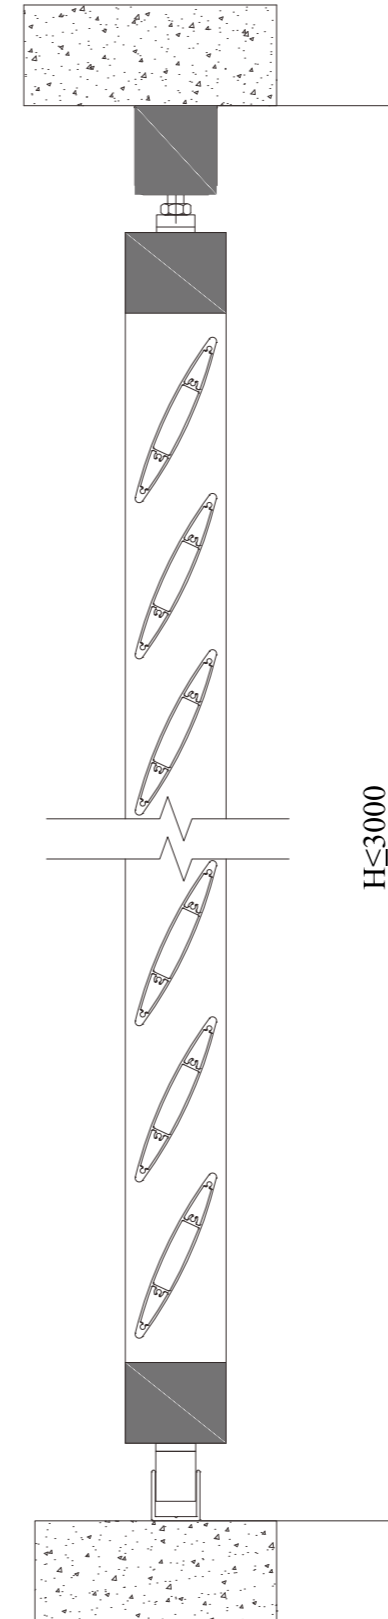

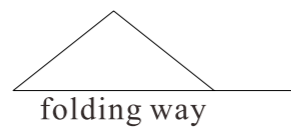

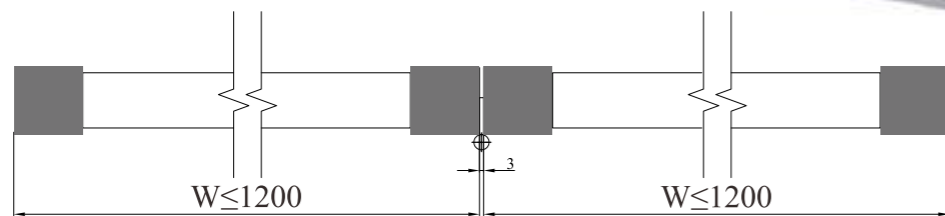

42371393

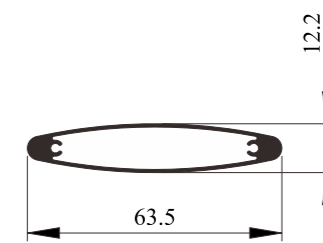

9400454

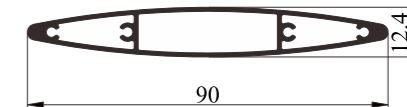

☆50x50mm as frame, fixed elliptical blades, fit between floor and ceiling

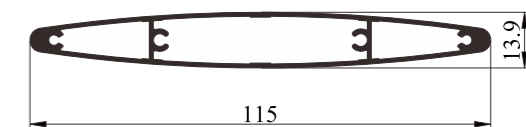

Optional blades

4237491

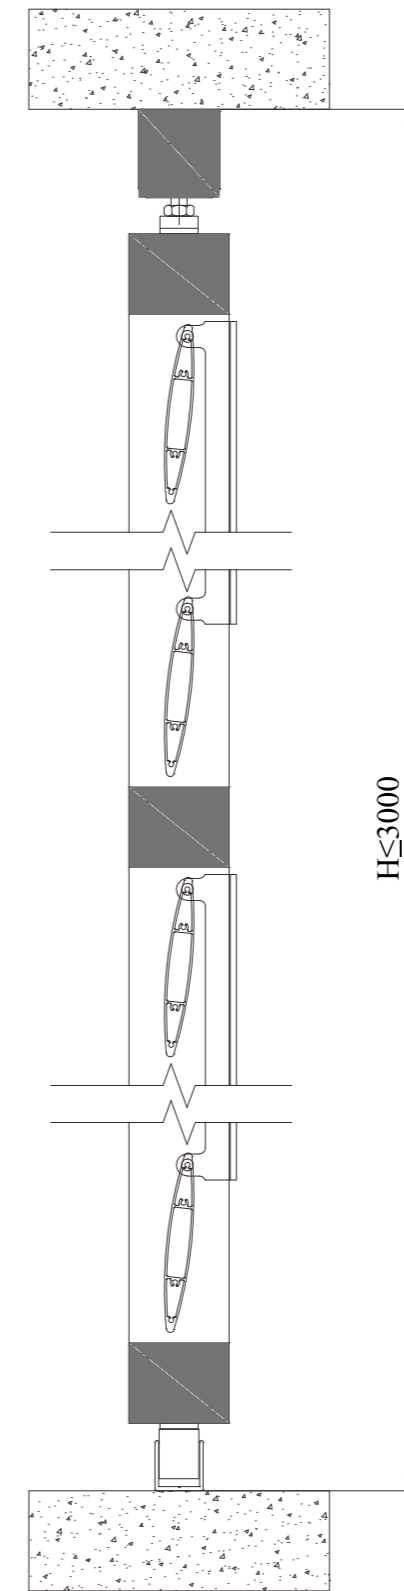

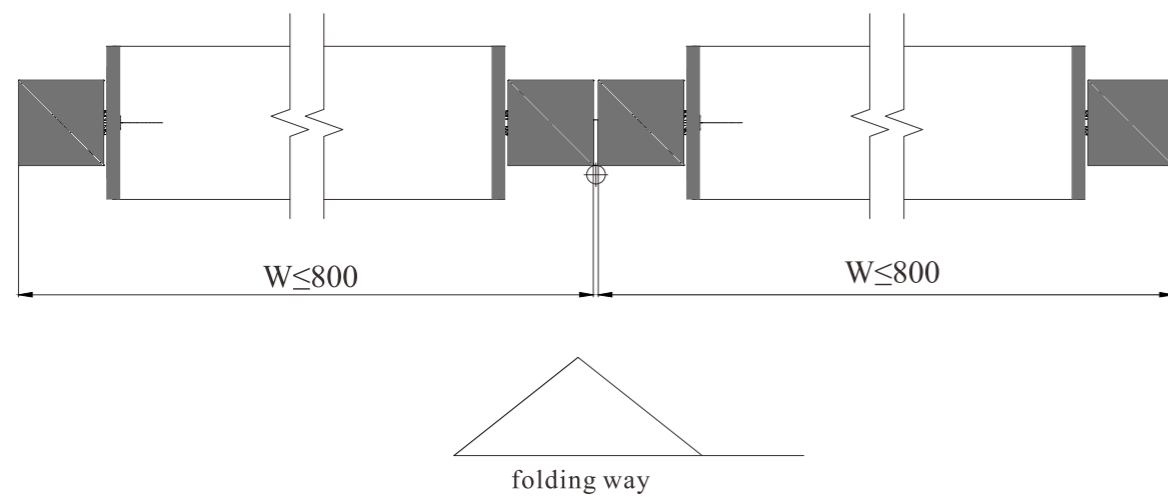

4237528

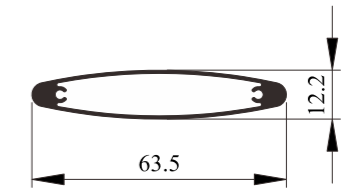

4237405

This design is assembly delivery.

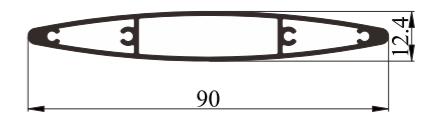

☆50x50mm as frame, operable elliptical blades, fit between floor and ceiling

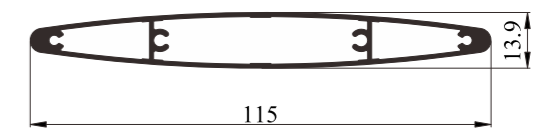

Optional blades

4237491

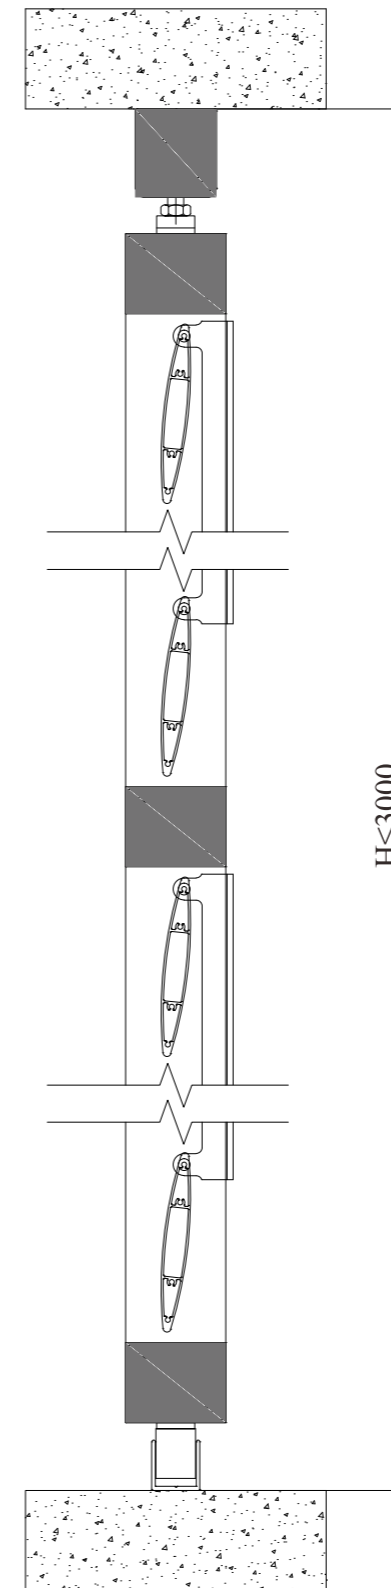

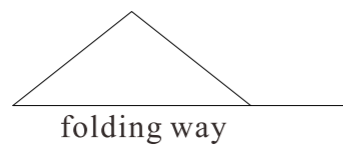

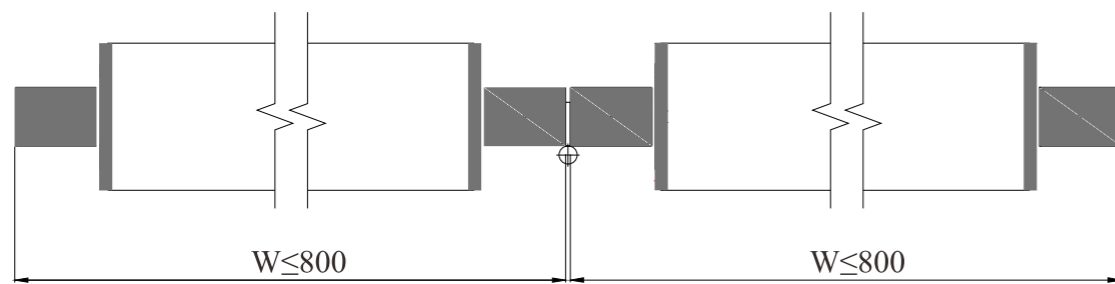

4237528

4237405

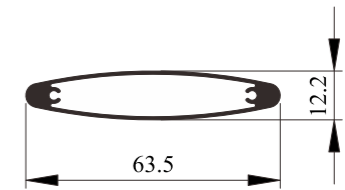

This design is assembly delivery.

☆50x36mm as frame, operable elliptical blades, fit between floor and ceiling

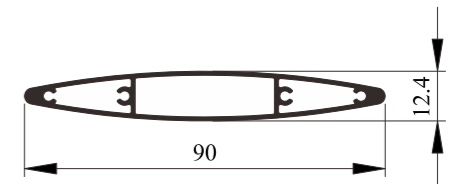

This design is assembly delivery.

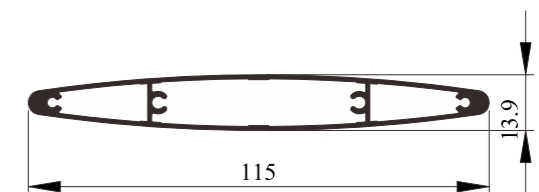

Optional blades

4237491

4237528

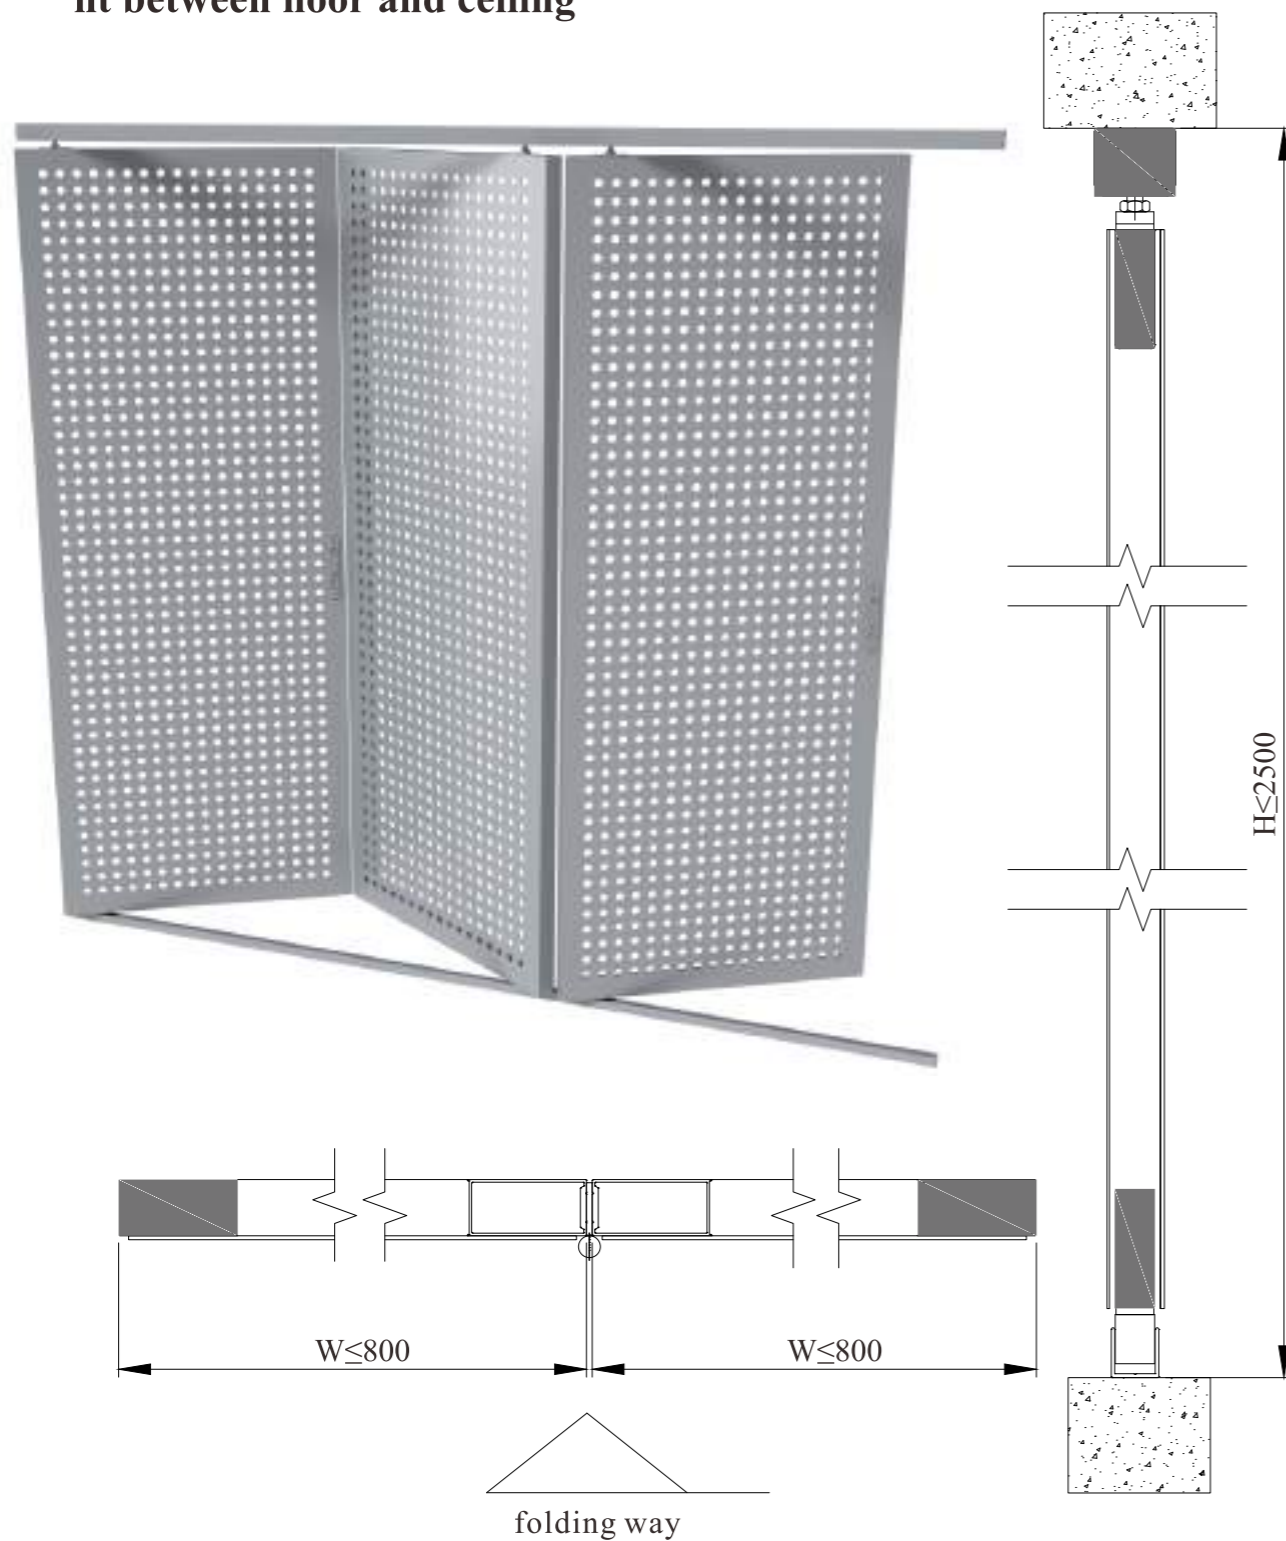

4237405

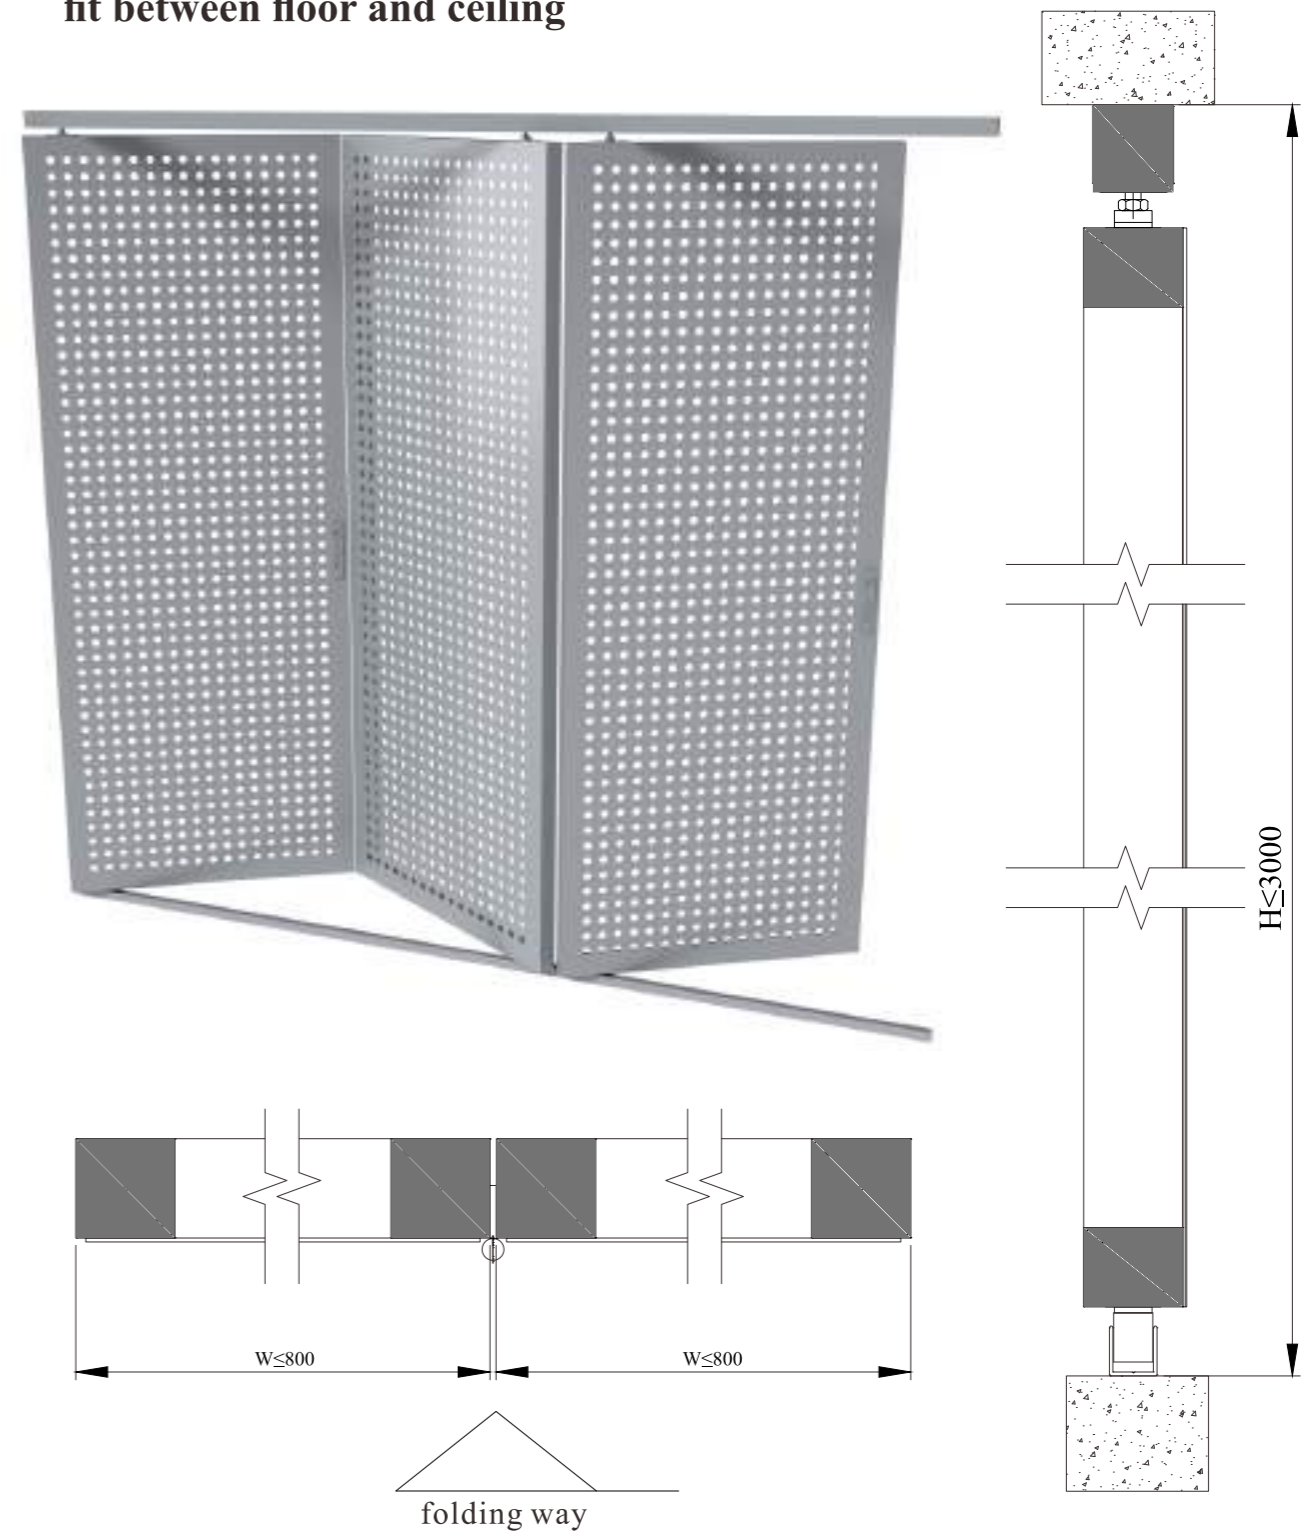

☆60x28mm as frame, aluminium perforated sheet, fit between floor and ceiling

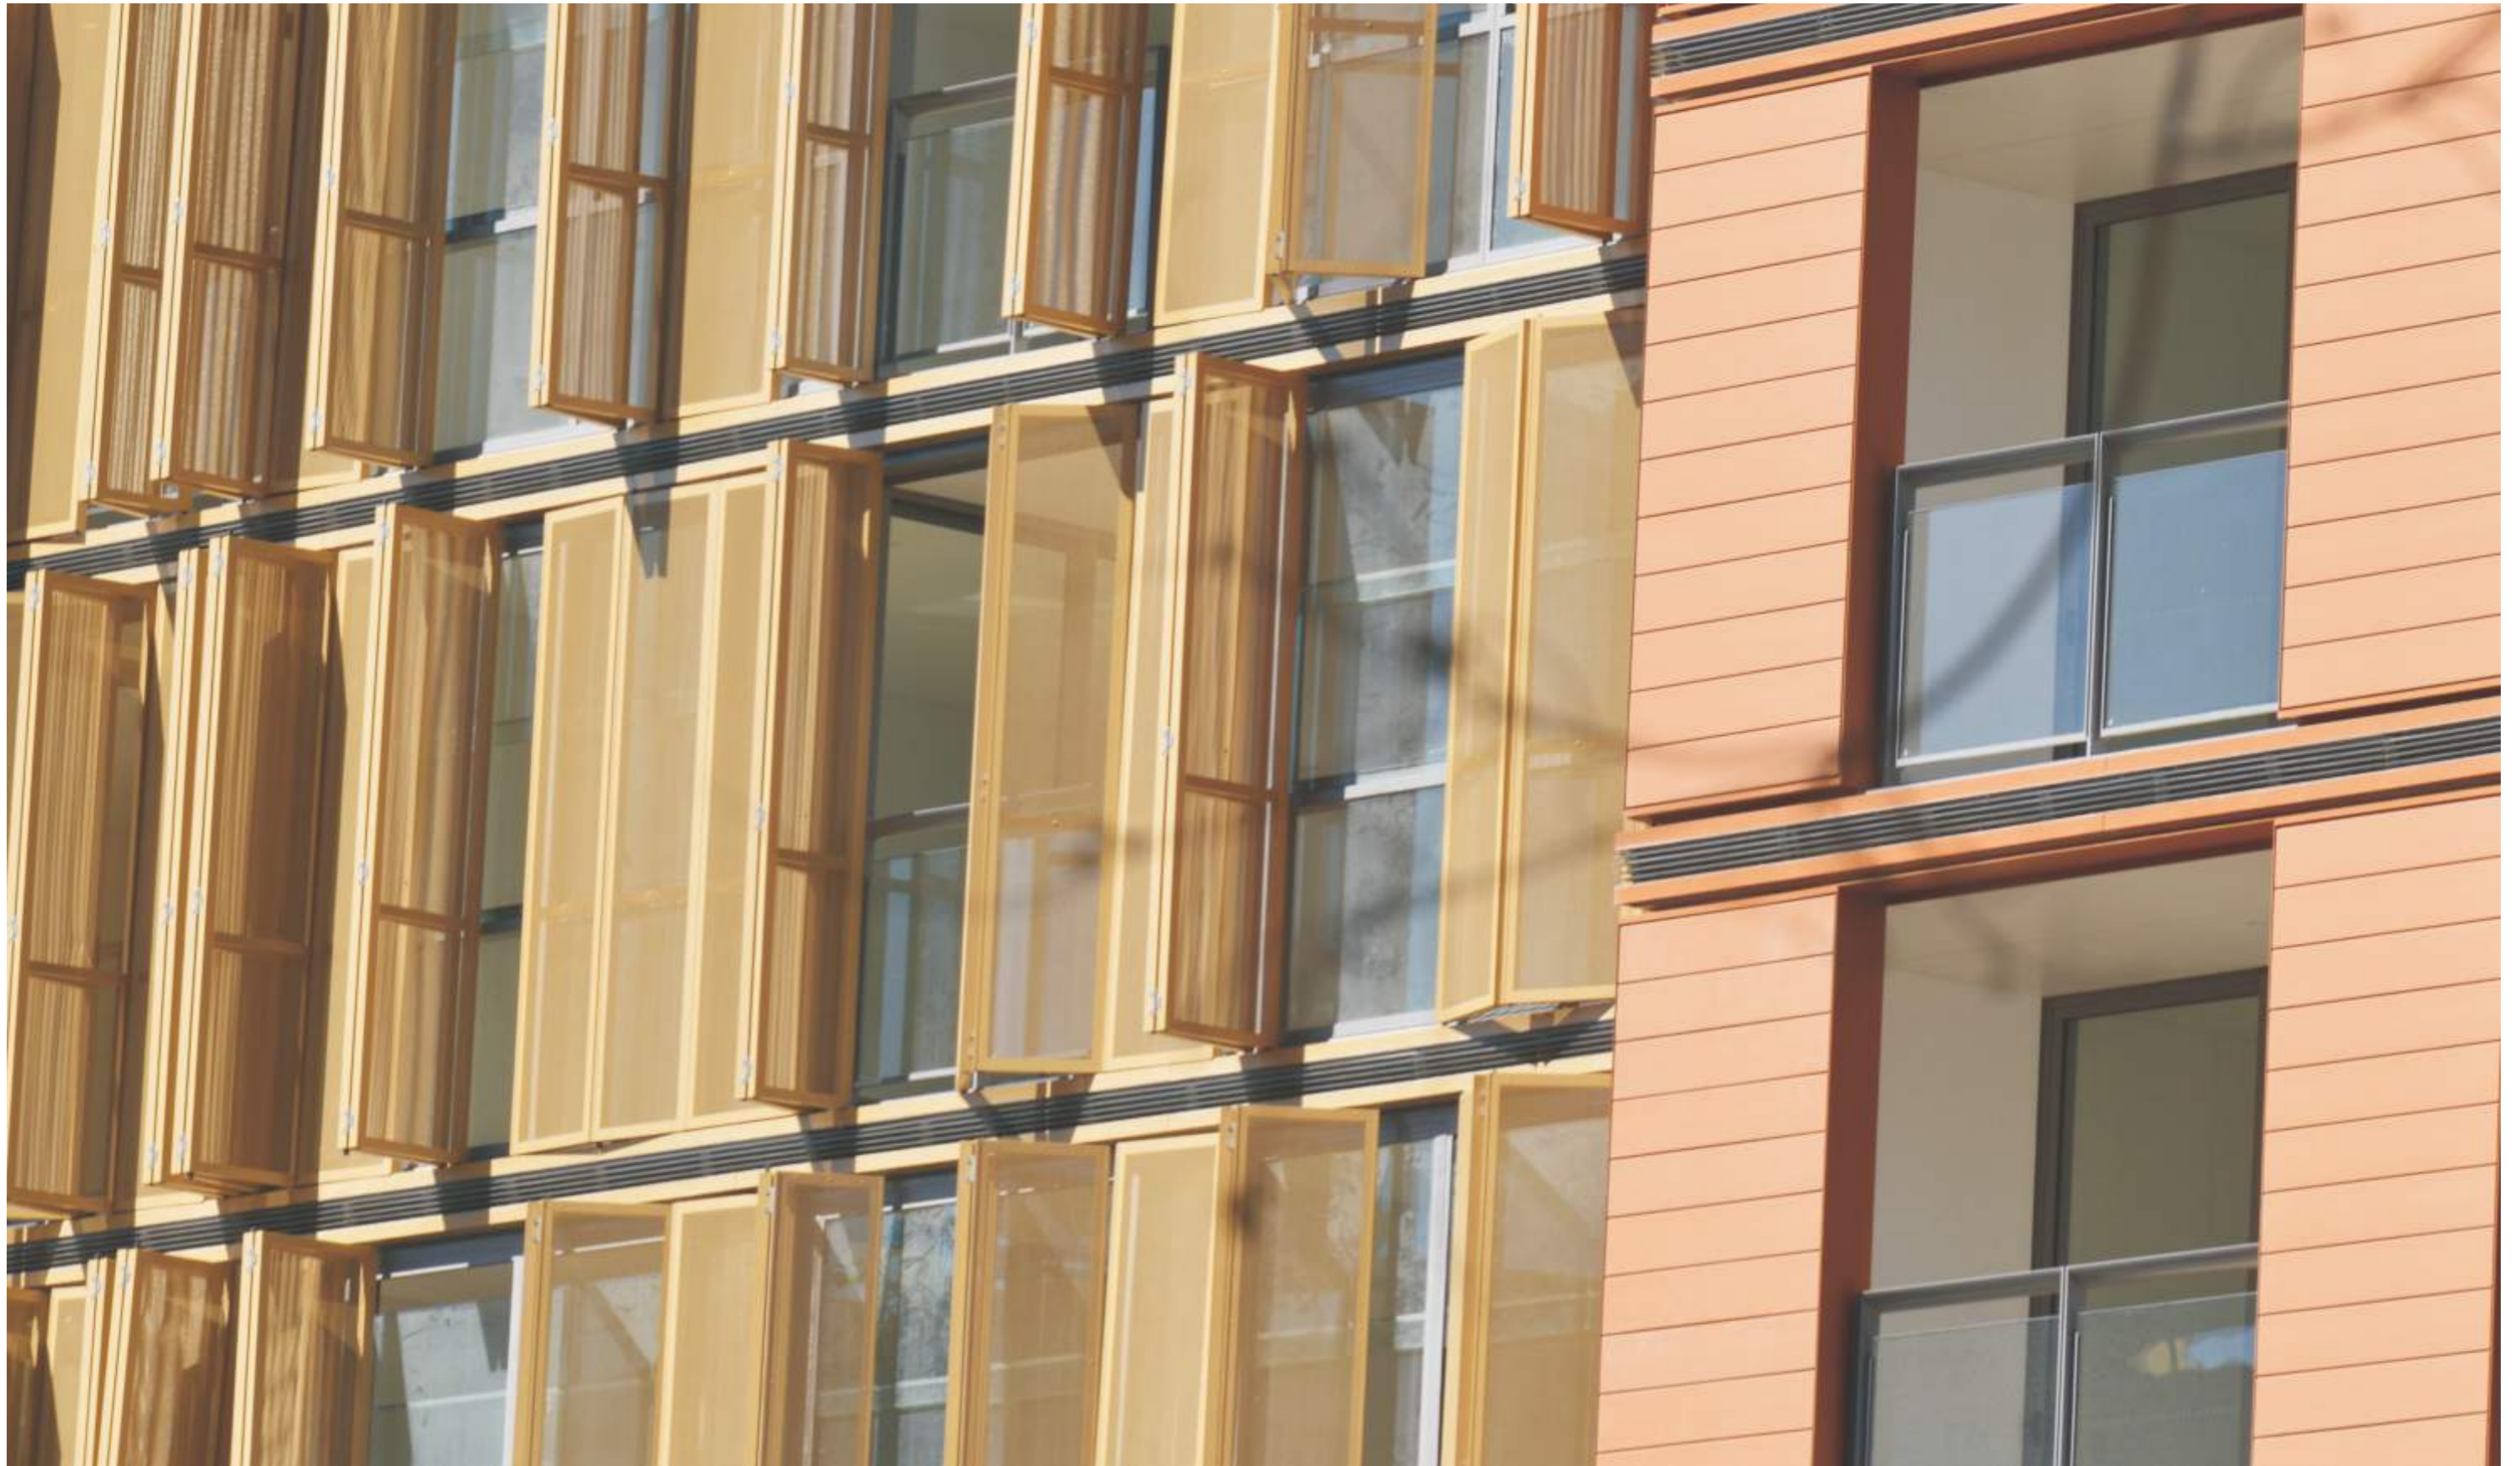

This design is assembly delivery.

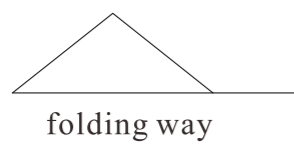

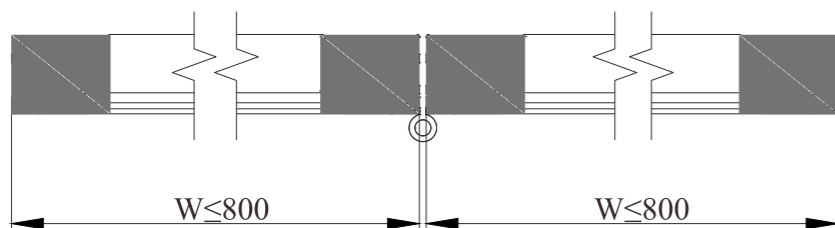

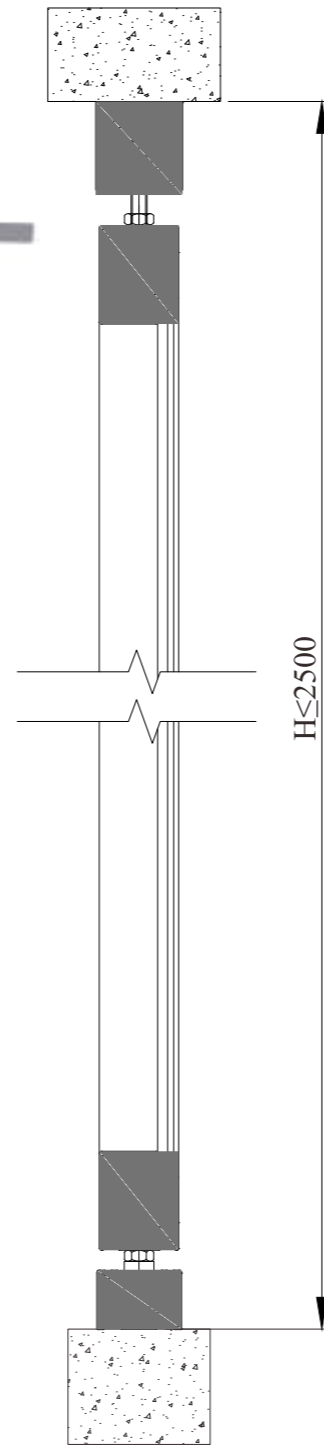

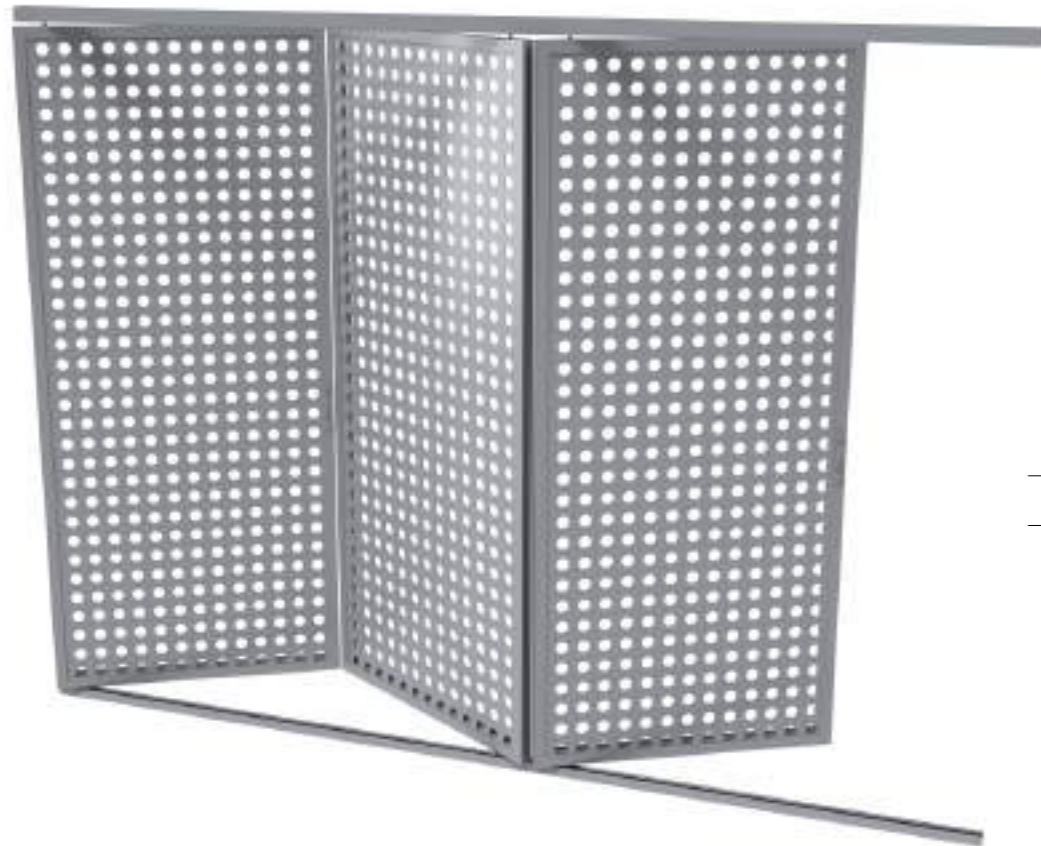

☆50x50mm as frame, aluminium perforated sheet, fit between floor and ceiling

This design is assembly delivery.

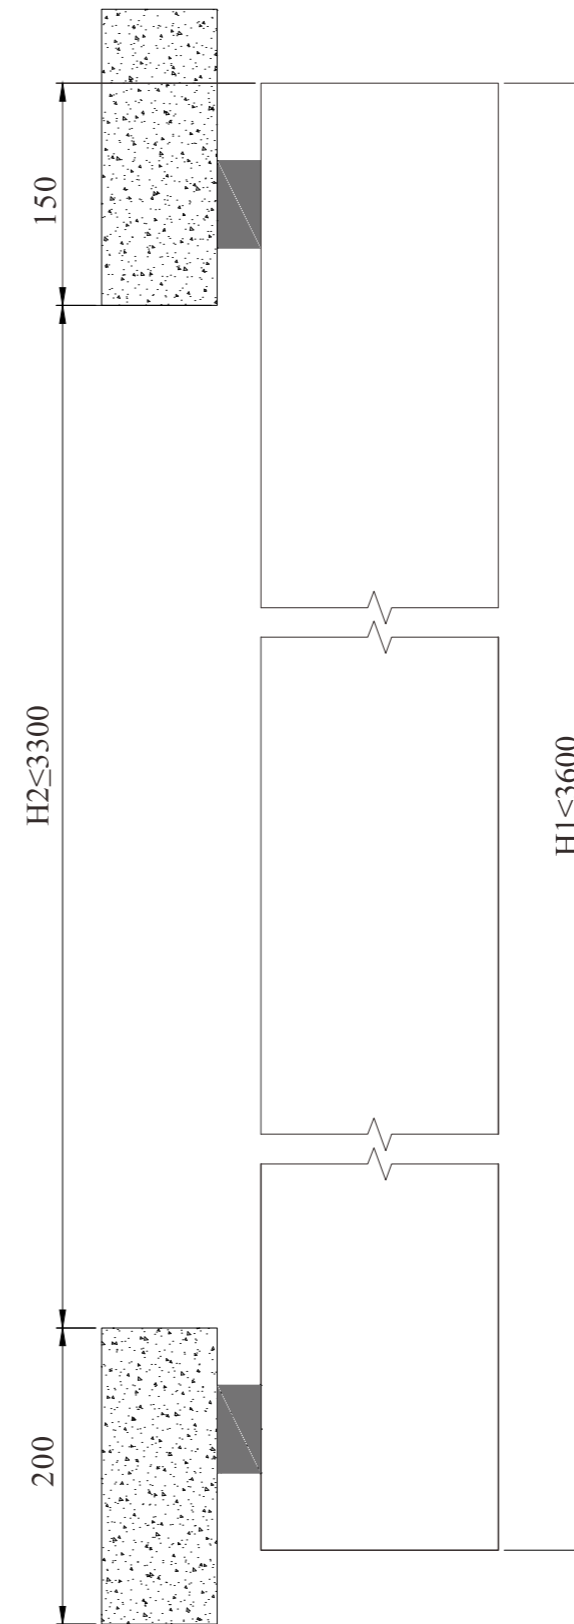

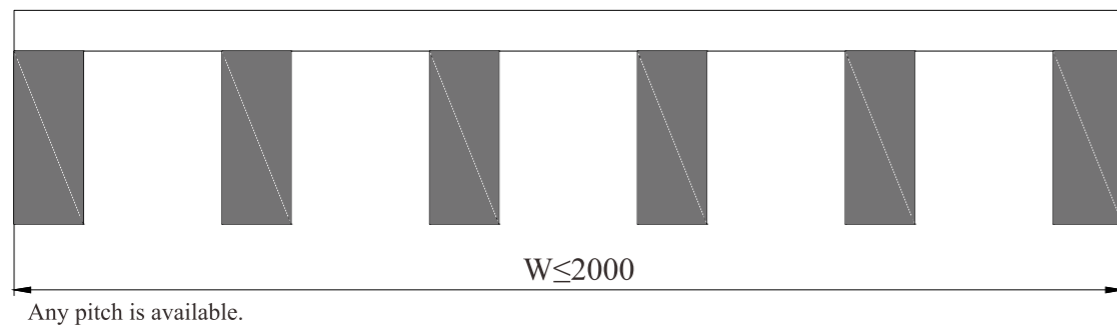

☆50x40mm as frame, frame is hidden, aluminium perforated sheet, fit between floor and ceiling

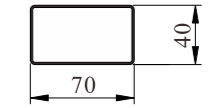

This design is assembly delivery.

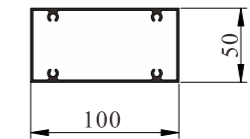

☆ Square blades, vertical assembly, face fit on walls

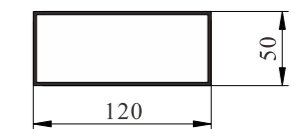

Optional blades

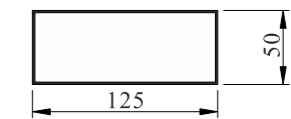

9400482

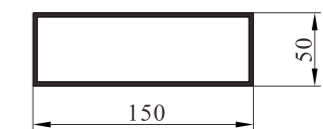

42371368

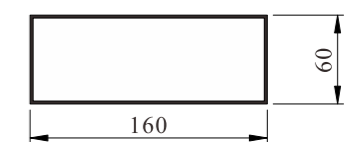

9400260

9400533

9400523

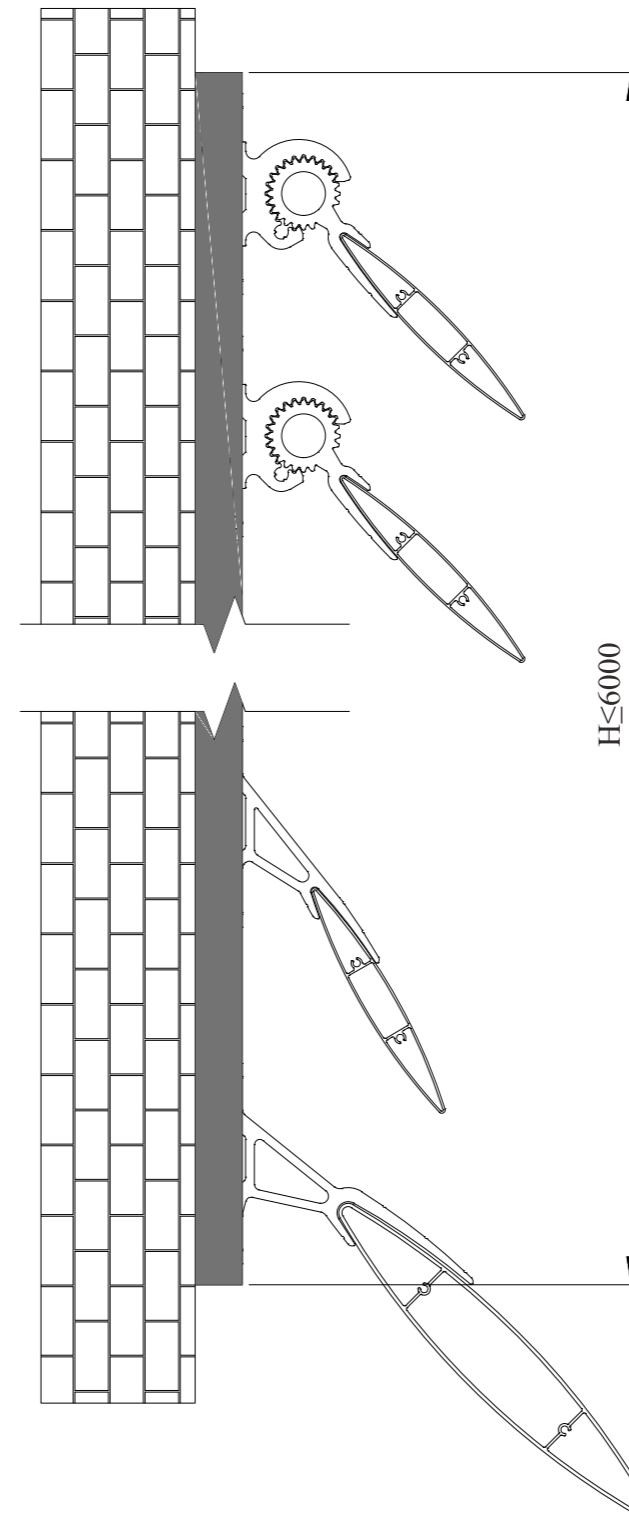

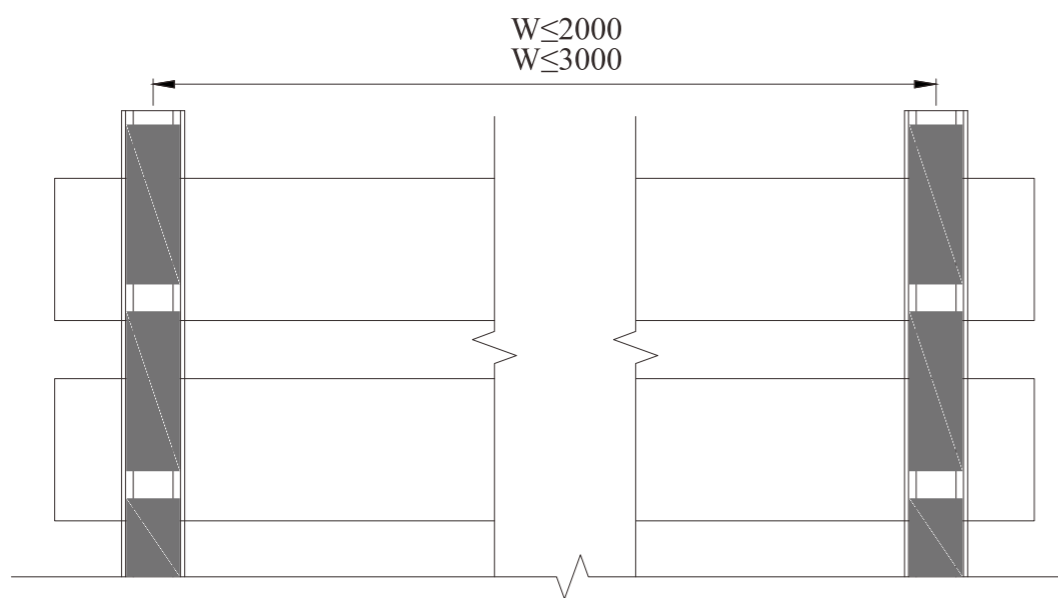

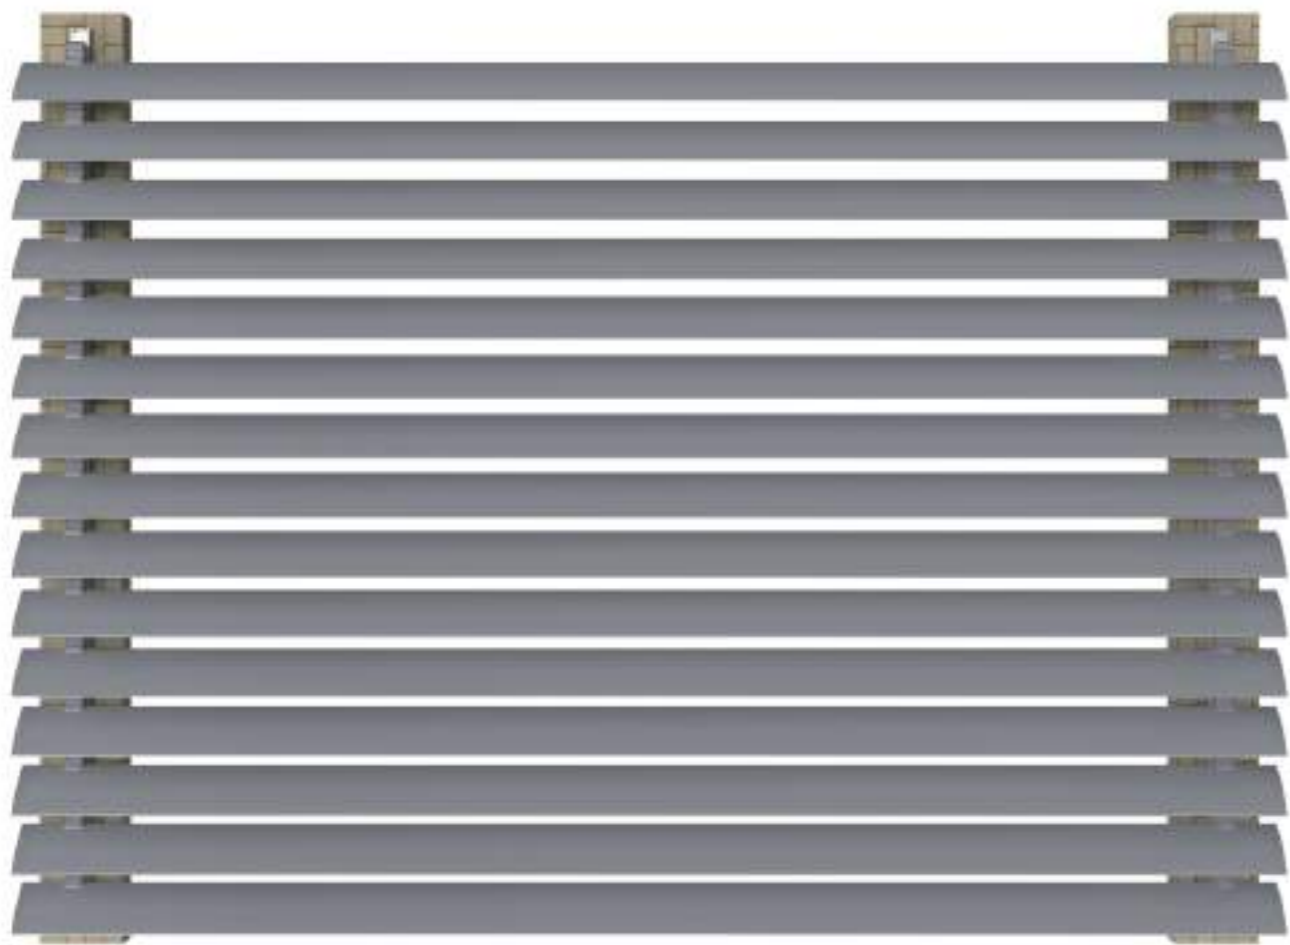

9400382

This design can be kits loose pack delivery or assembly delivery.

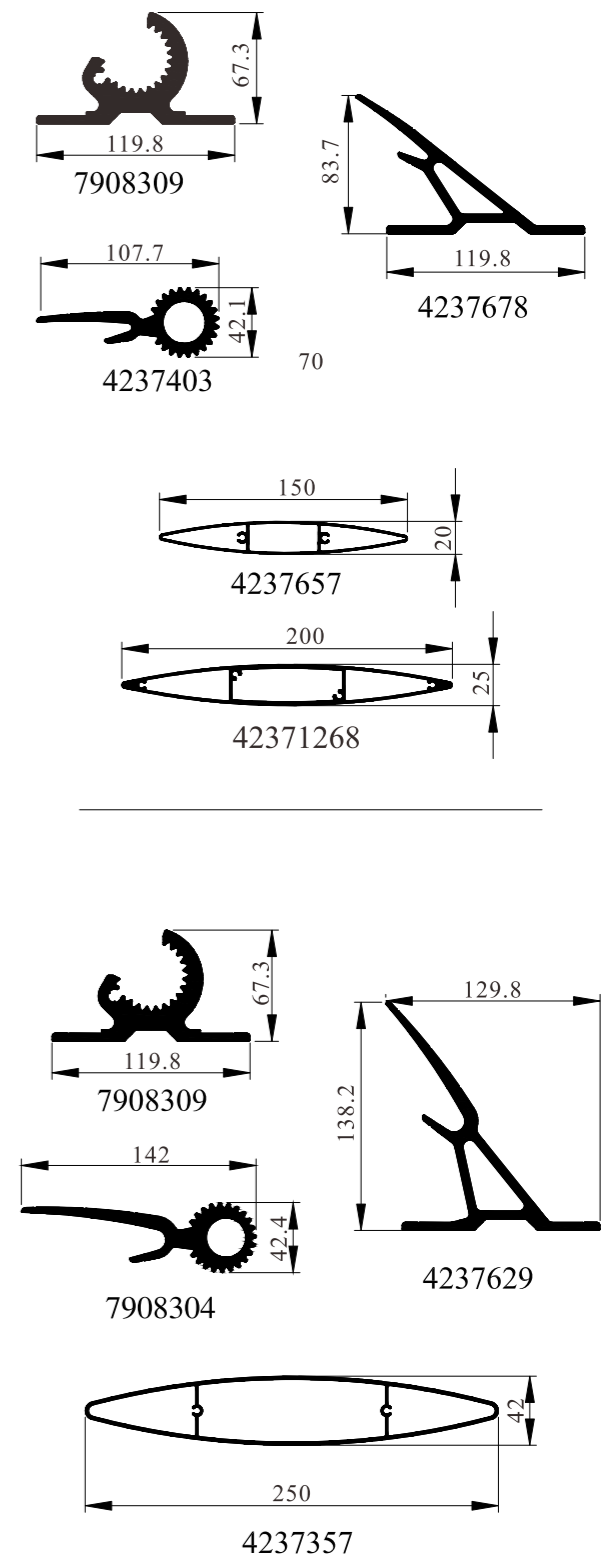

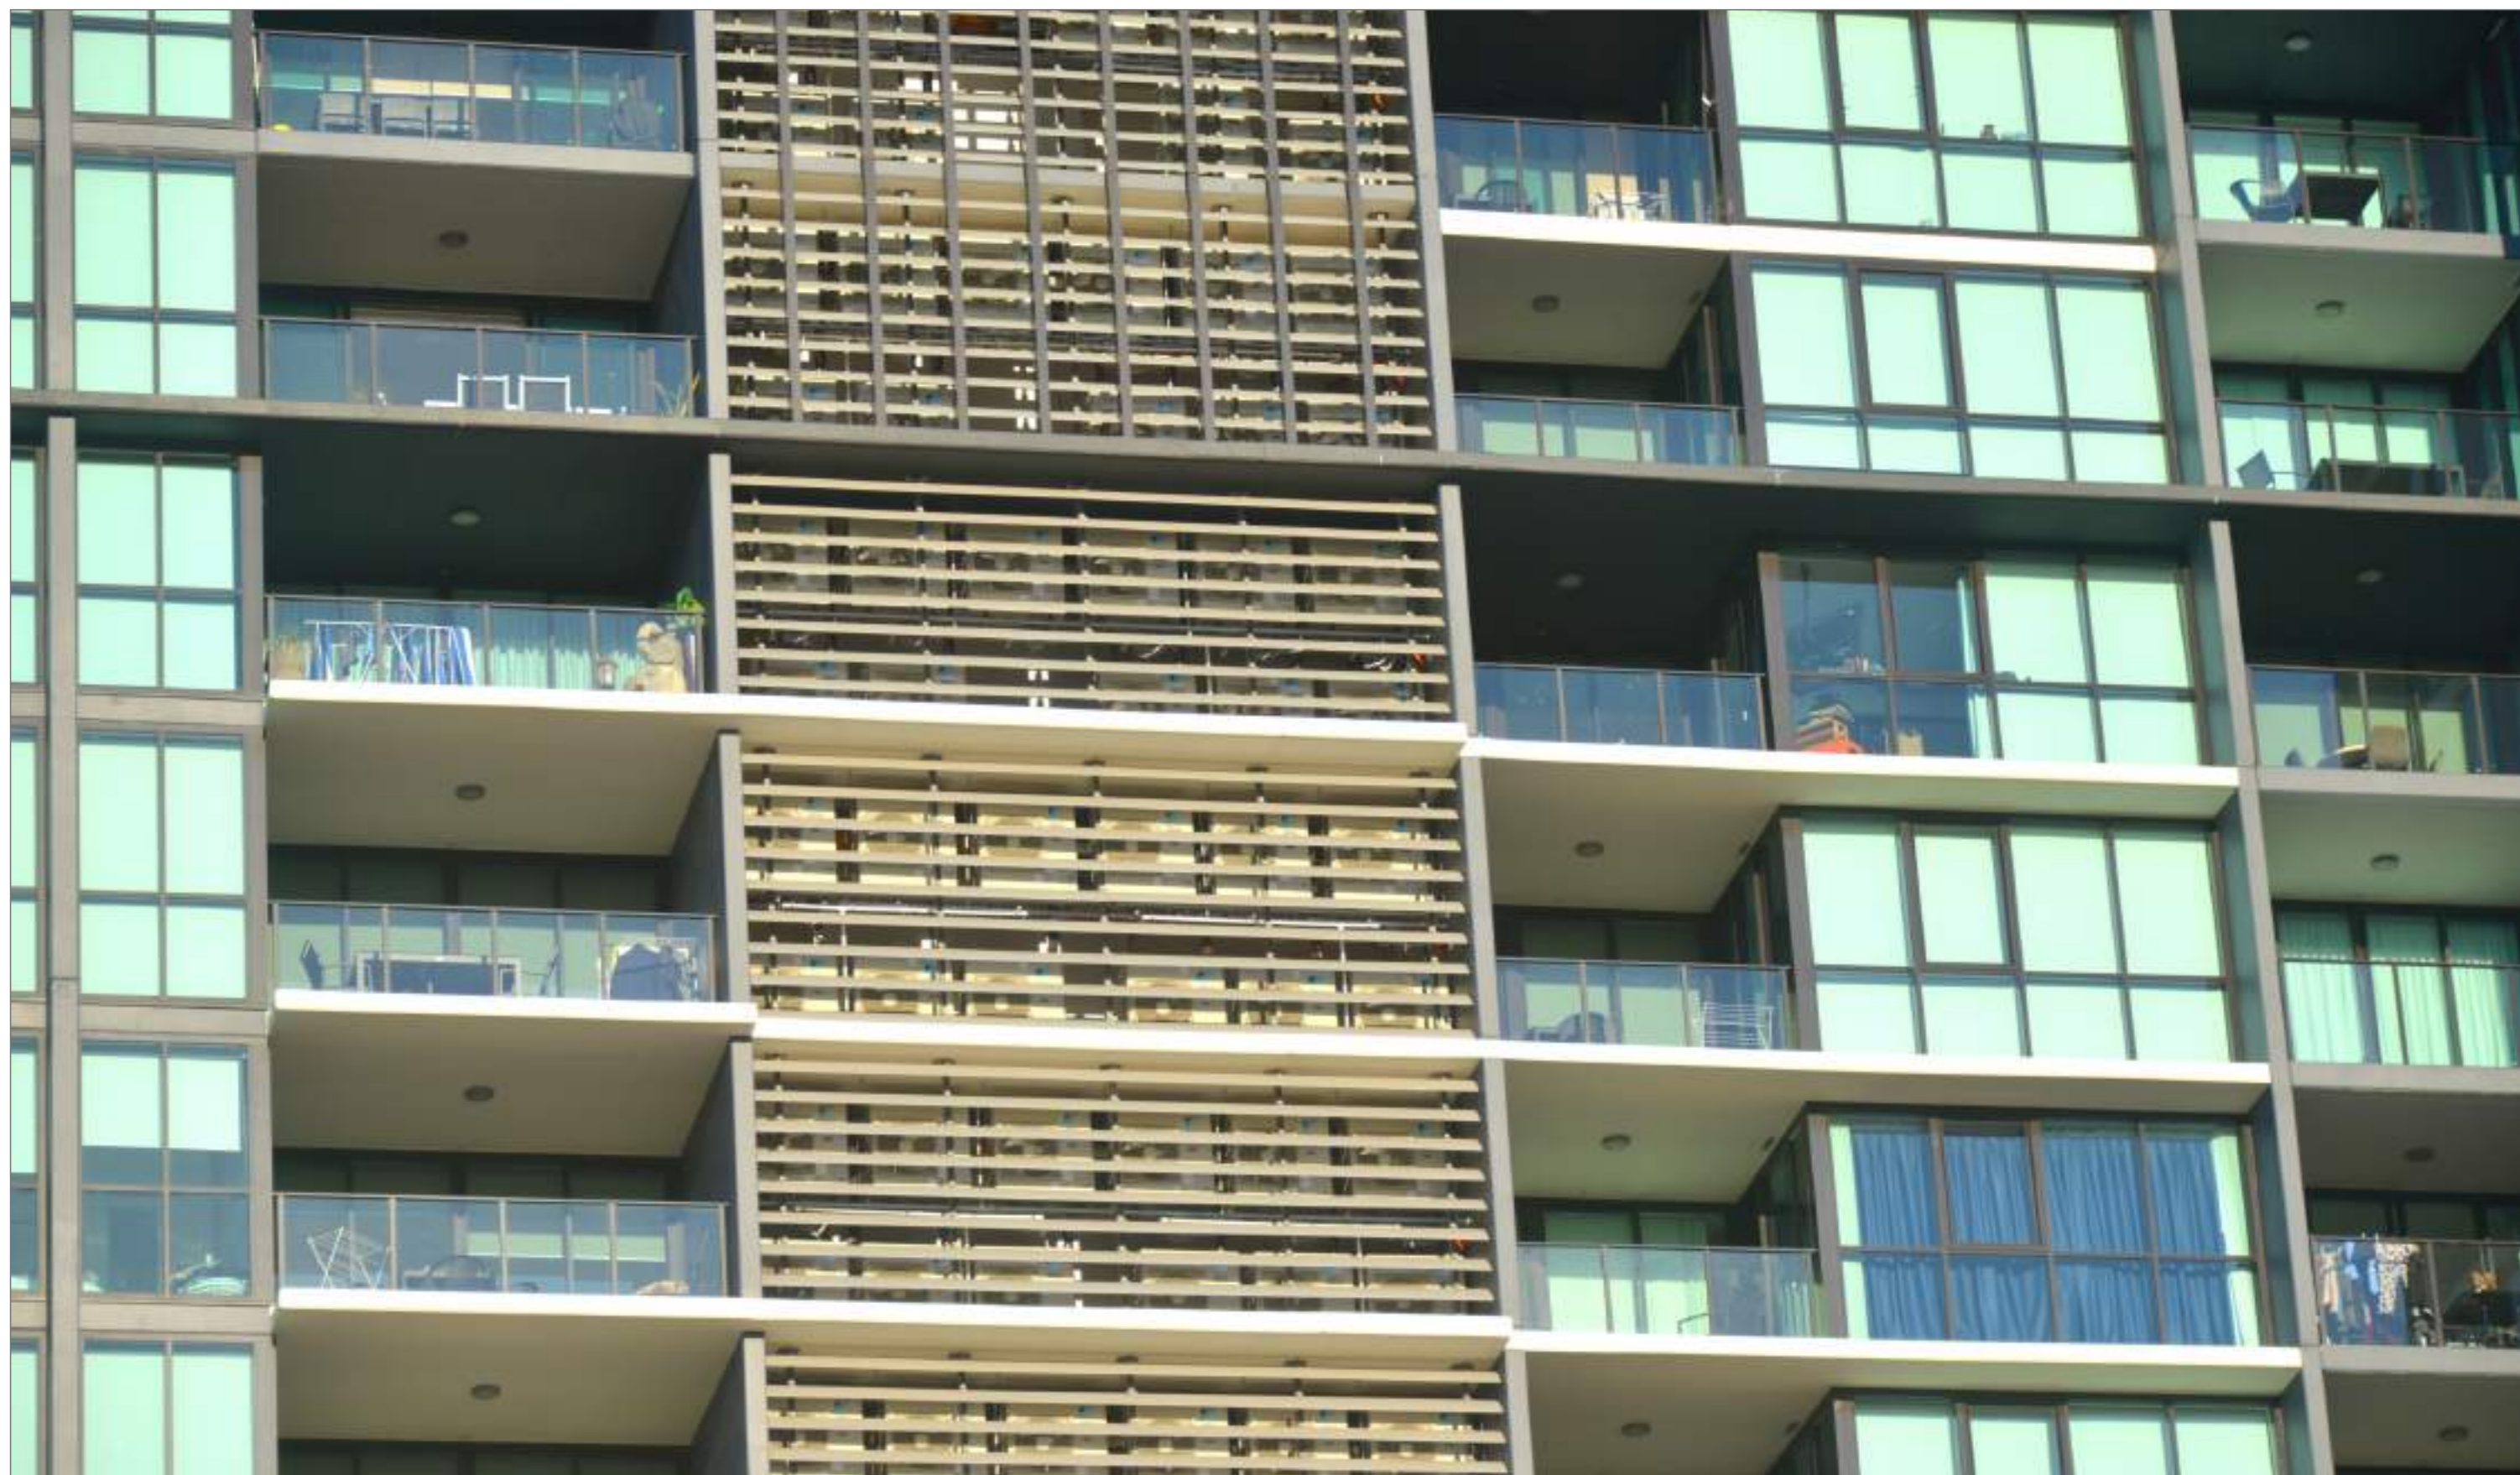

☆ Elliptical blades, horizontal assembly, over-hang on walls

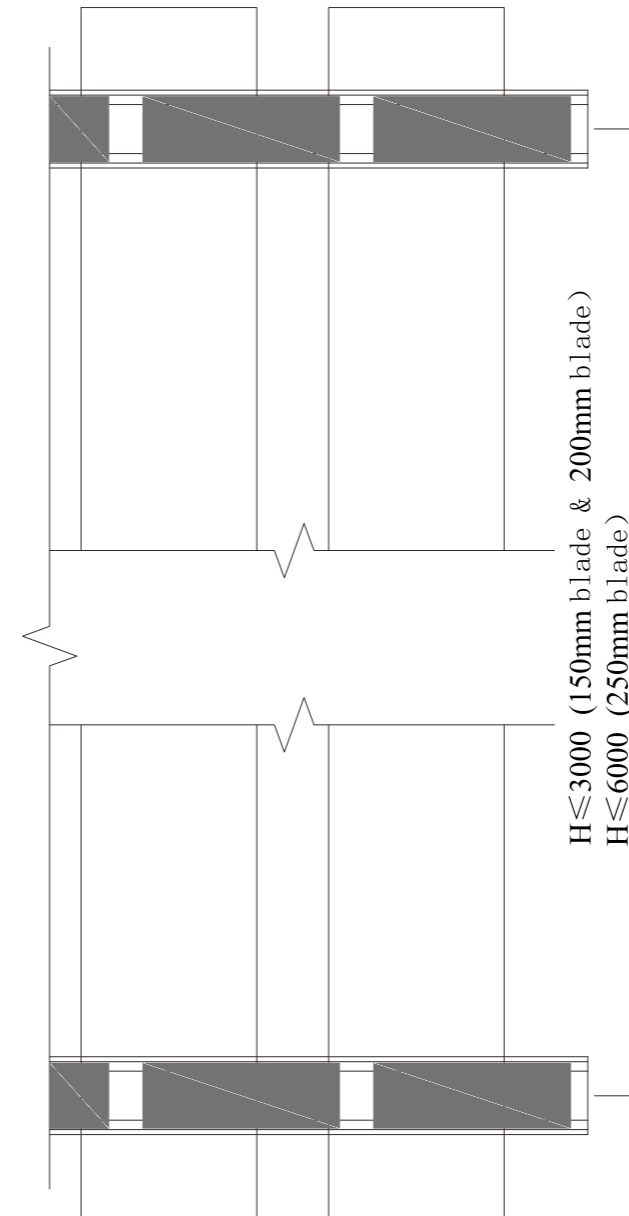

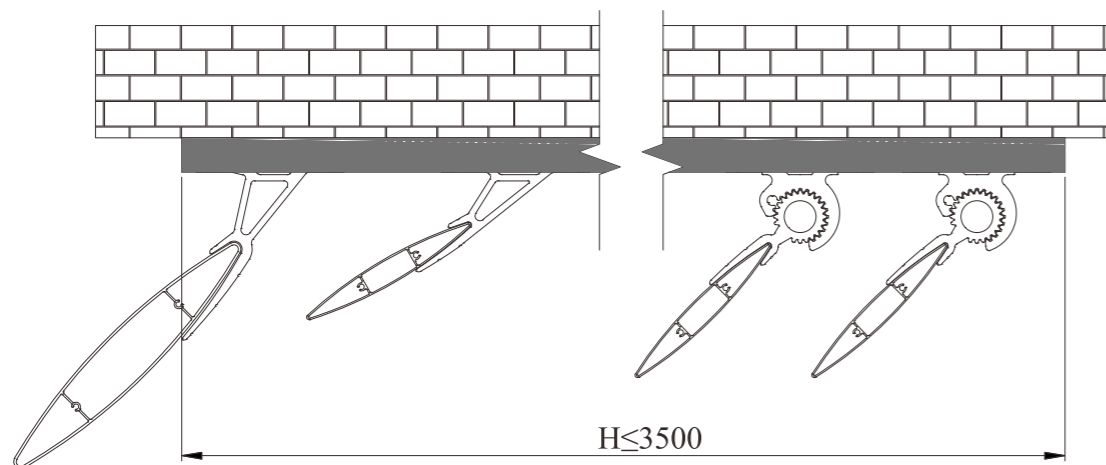

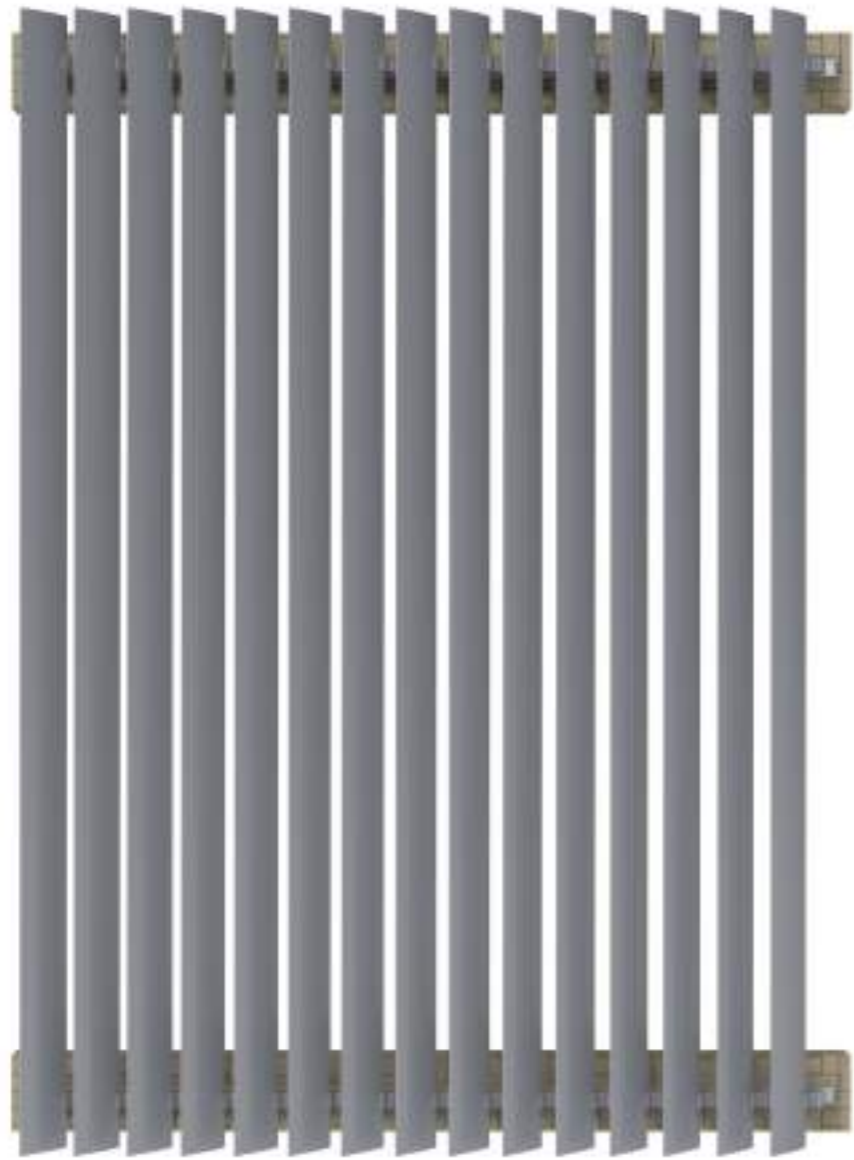

This design is kits loose pack delivery.

Optional blades

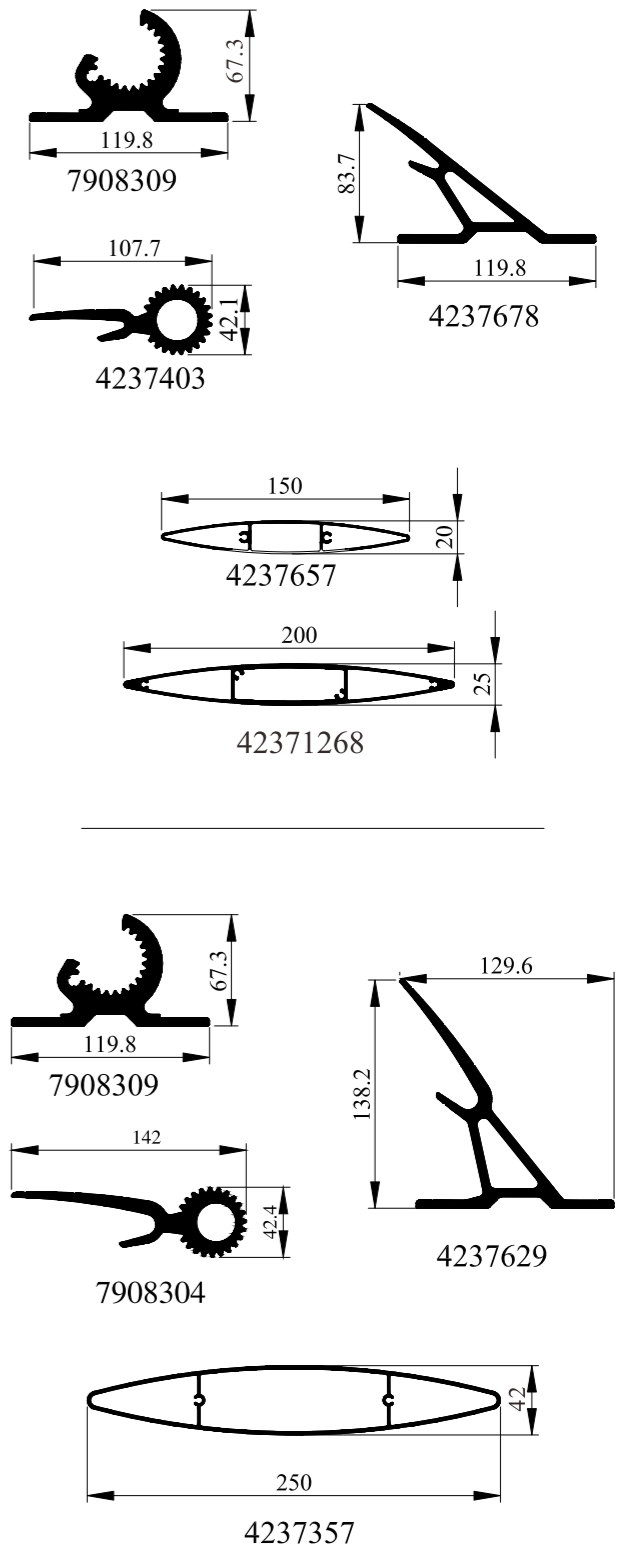

☆ Elliptical blades, vertical assembly, over-hang on walls

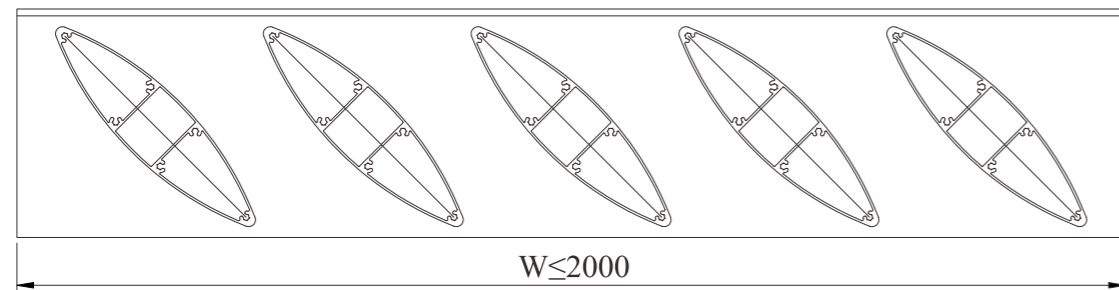

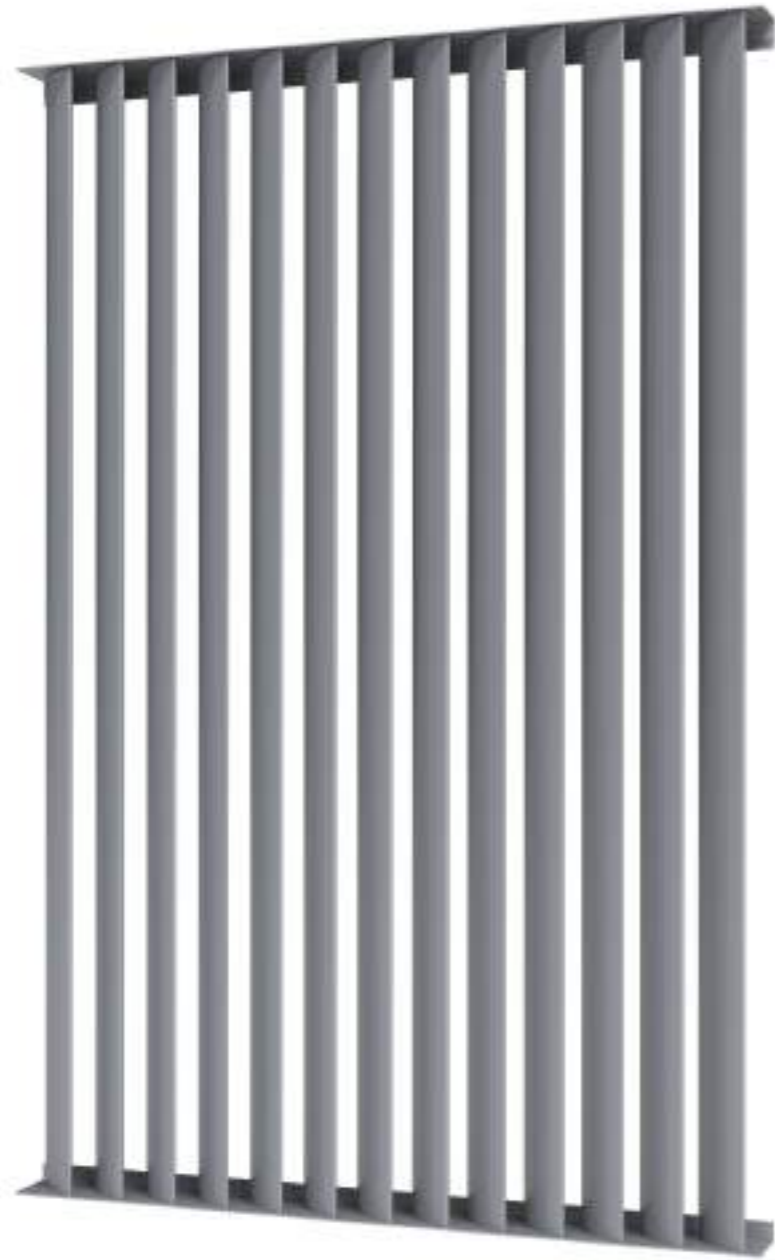

This design is kits loose pack delivery.

Optional blades

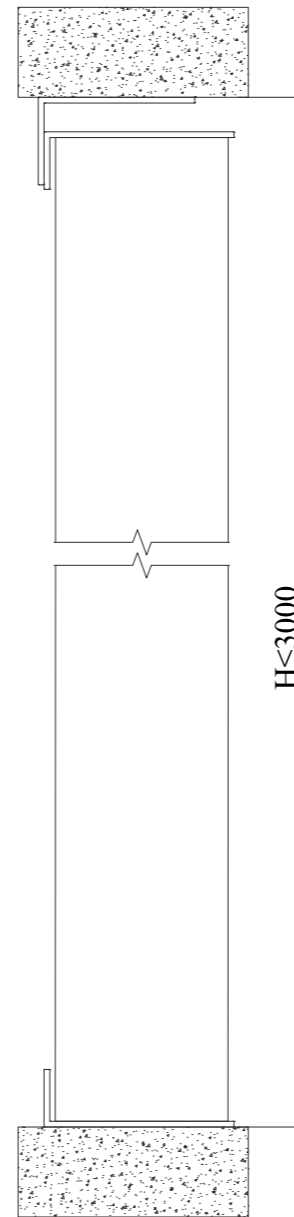

☆ Elliptical blades, vertical assembly, fit between floor and ceiling

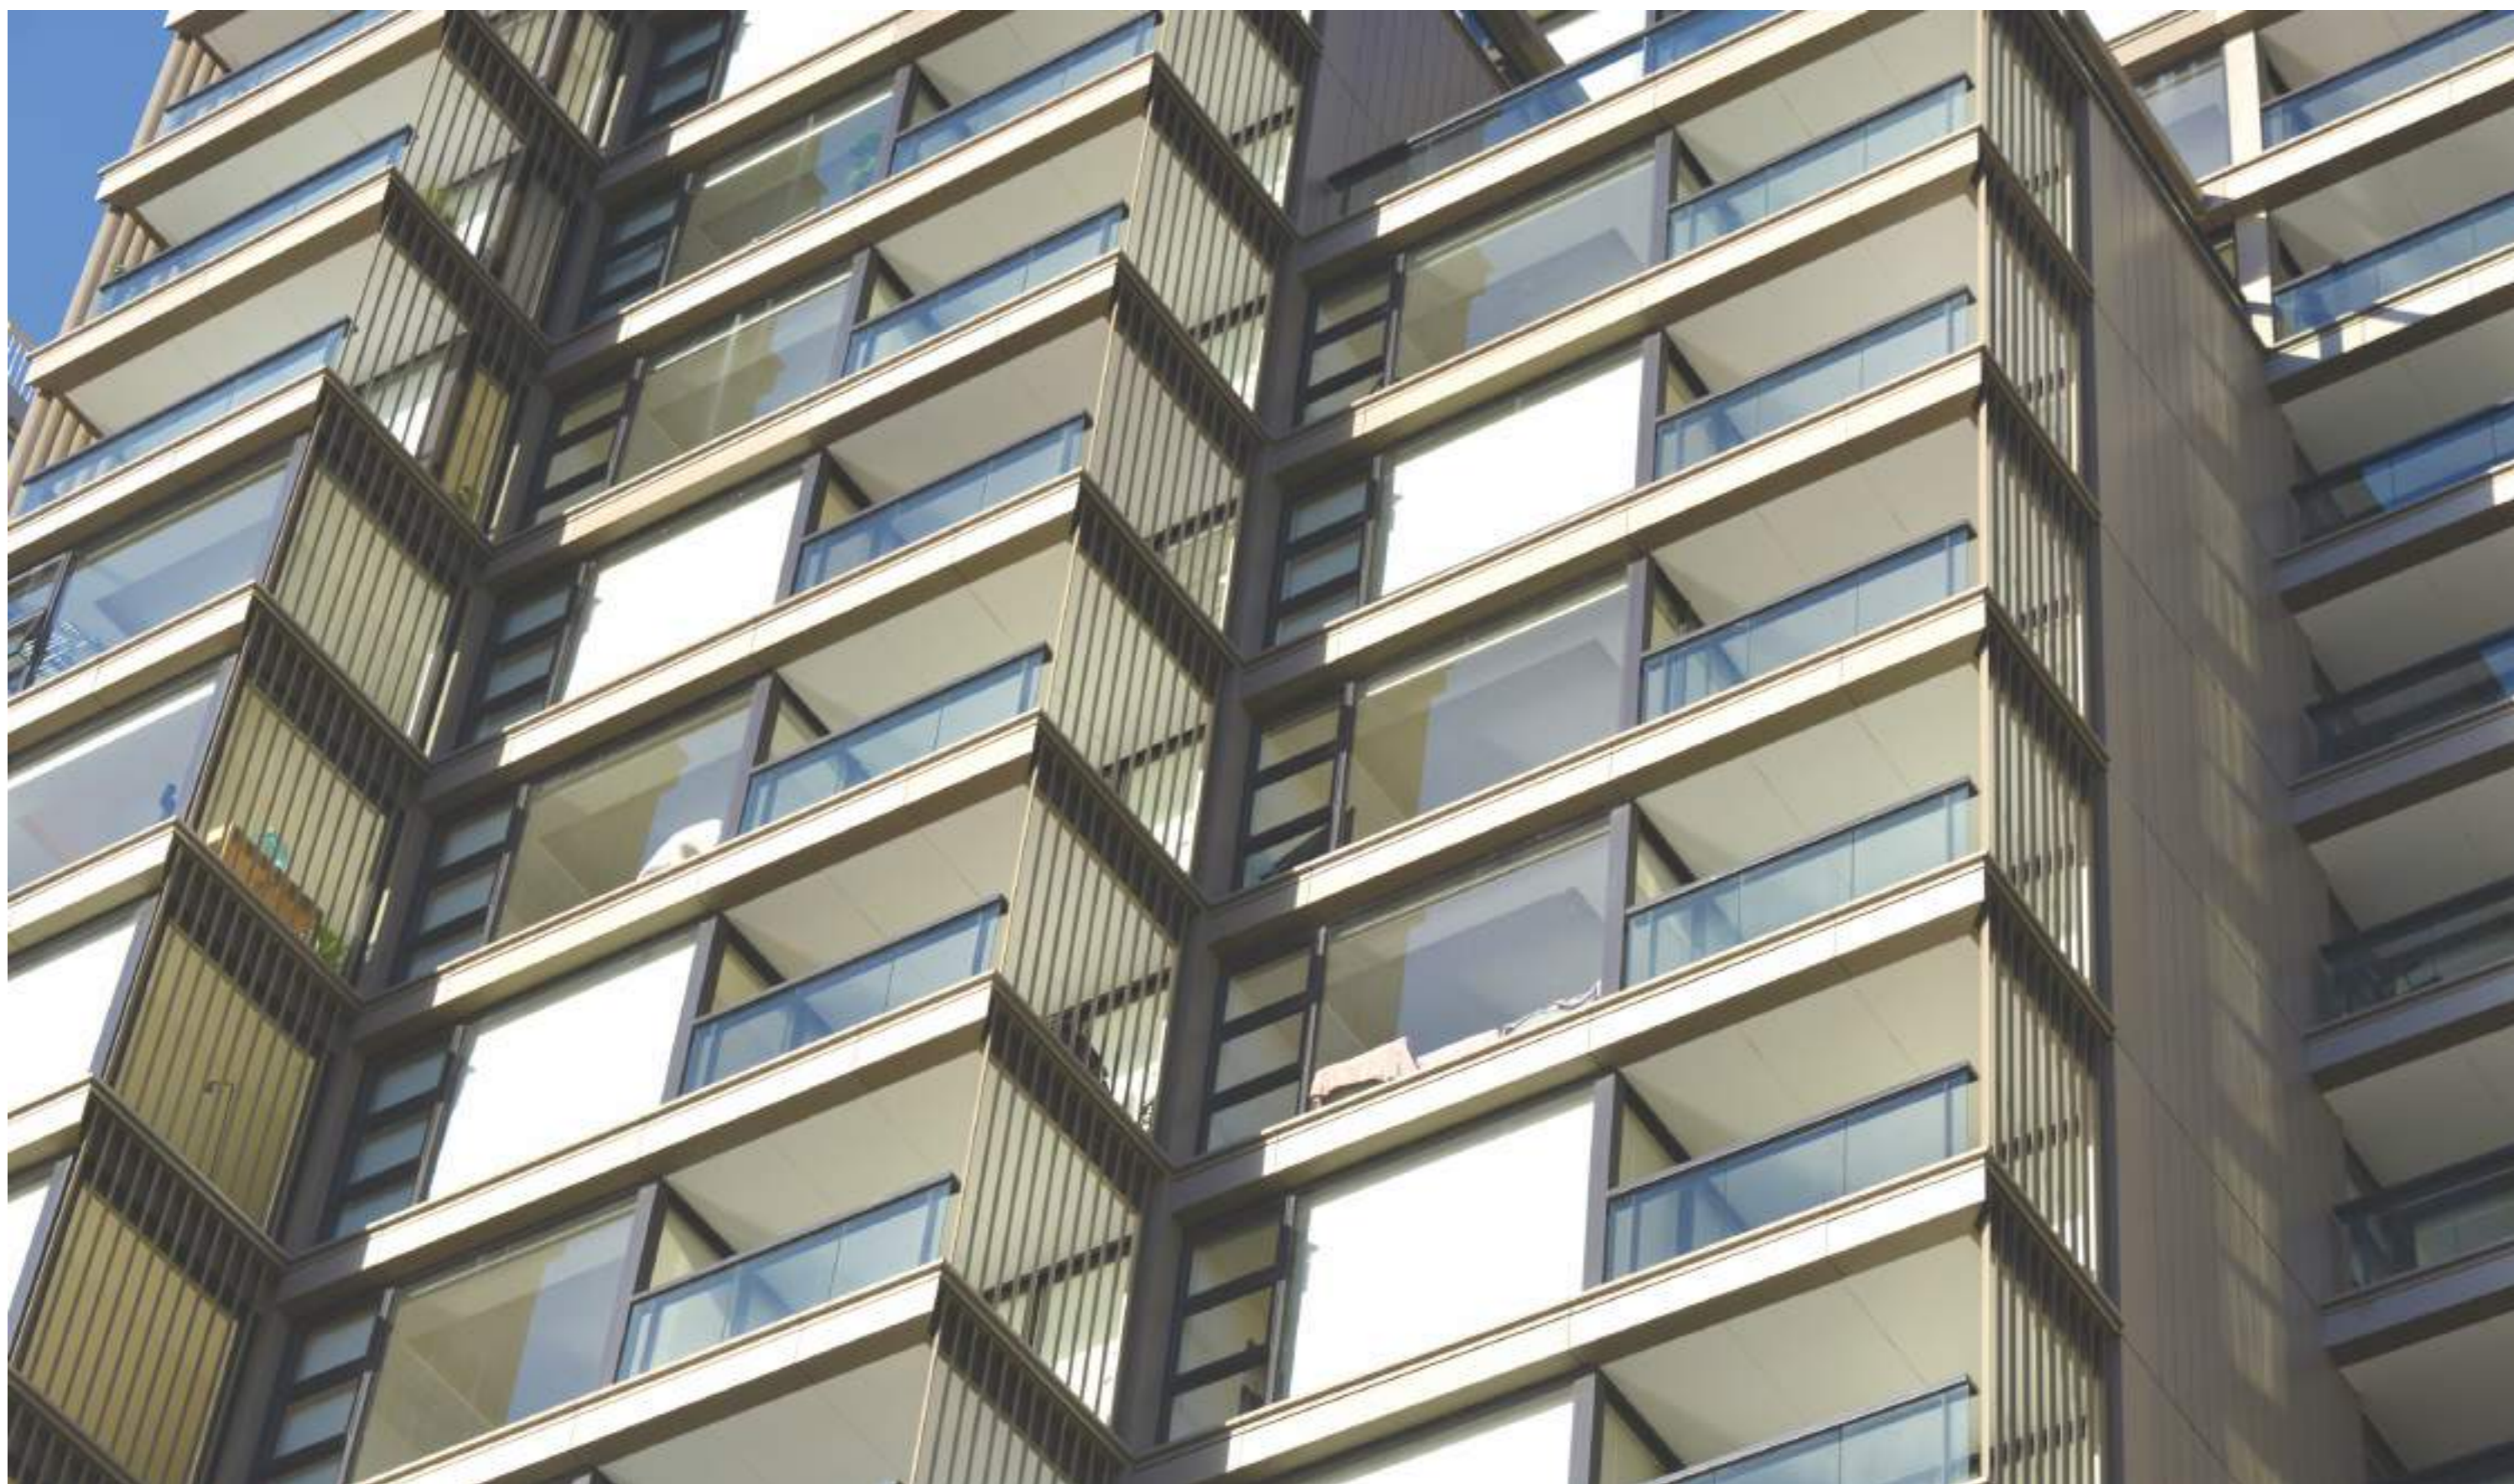

Any pitch is available.

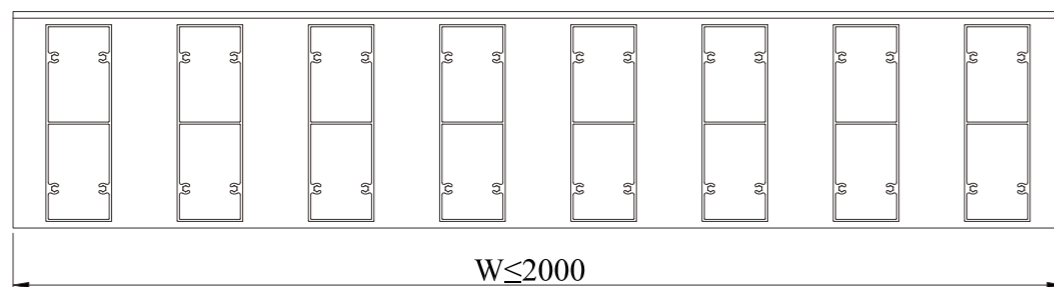

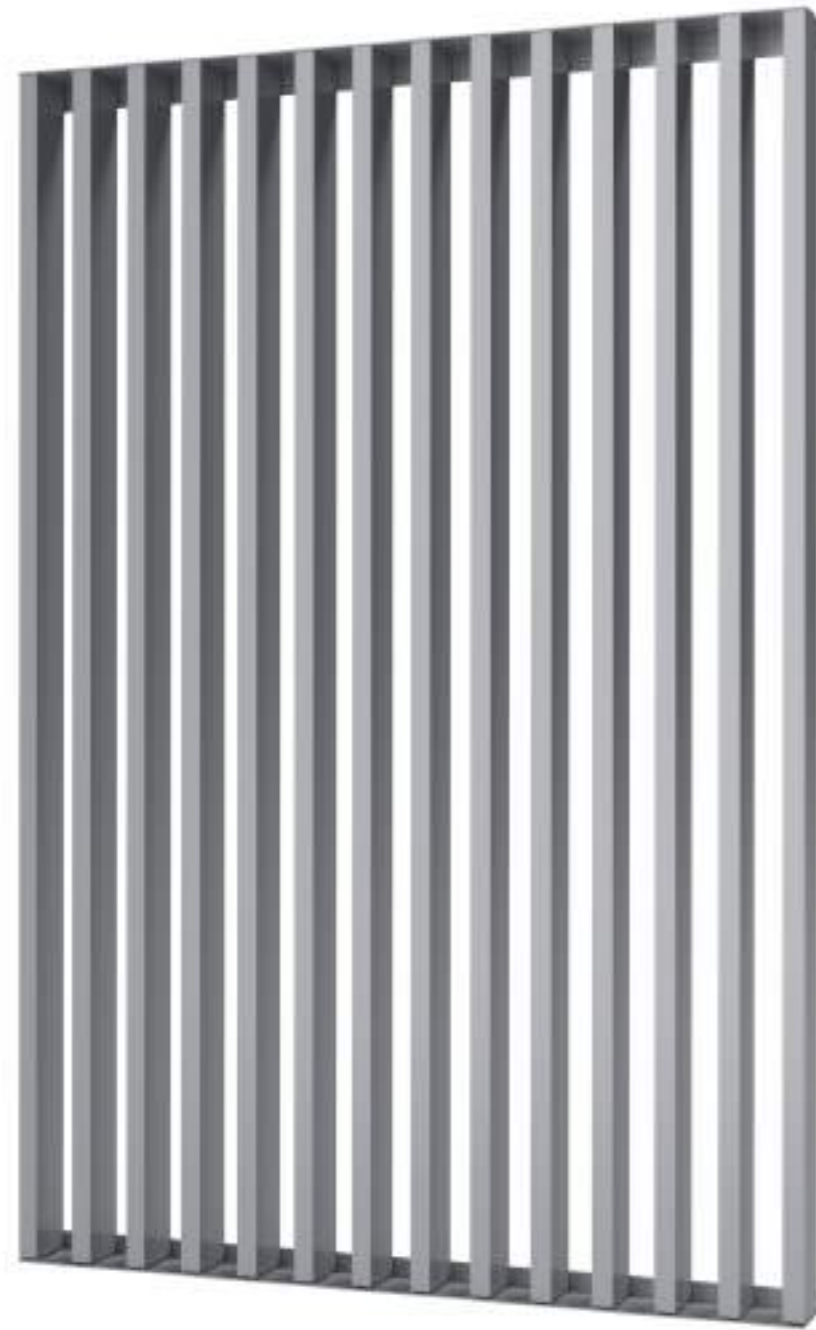

Optional blades

42371030	9300367
4237357	9300367
42371286	9300367
42371238	9300367
42371268	9300367
4237976	9300367
4237353	9300376
42371115	9300376
42371165	9300359

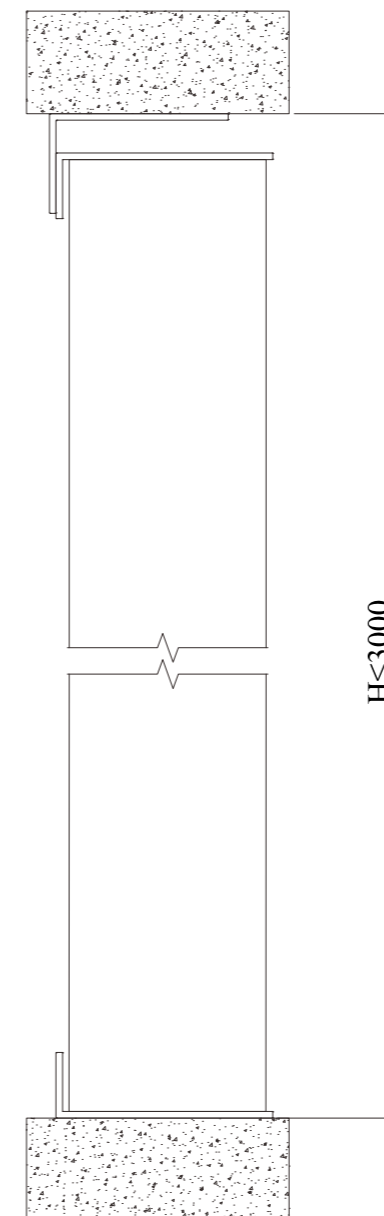

This design can be kits loose pack delivery or assembly delivery.

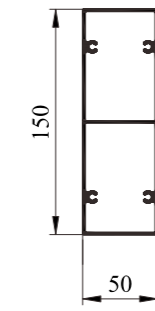

☆ Square blades, 90 degree vertical assembly, fit between floor and ceiling

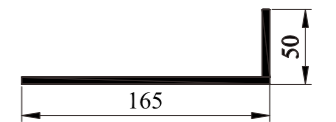

Any pitch is available.
