

Guangzhou Hessan Woodworking Machinery Co., Ltd

HY3200CMEMBRANE PRESS MACHINE

 Project Proposal and Quotation
 2024

Company Profile:

Hessan Machinery (Guangzhou) Co., Ltd, located in Shawan Town, Panyu District, GuangzhouCity, has been dedicated to the research & development & production of board laminating machine and profile wrapping machine. We launched China's first PUR board laminating line in 2007. With nearly 20 years of hard work, "Hessan" brand has won praise and reputation for its first-class quality and first-class service.

We launched China's first PUR board laminating line in 2007. With nearly 20 years of hard work, "Hessan" brand has won praise and reputation for its first-class quality and first-class service.

• At present, the main products of the company include:

1. PUR standard board laminating production line: suitable for laminating PET film, PVC film, PP film, aluminum film, as well as acrylic sheet, fireproof sheet, aluminum sheet, stone plate and other sheets, providing professional solutions according to customer needs.

2. Board/profile wrapping machine: applicable to various boards, indoor/outdoor profiles surface wrapping, ect.

3. White glue laminating production line: suitable for cold white glue laminates with decorative paper and PVC film.

4. Other production lines: acrylic-PVC composite equipment, PET-PVC film composite equipment, honeycomb door laminating line, flooring laminating line.Membrane Press Machine.

5. Other supporting equipment: automatic board loading/unloading machine, turnover machine, sanding machine, dust removal machine, pearl cotton laying machine, PVC slitting machine, glue hot melt machine, etc.

>>> EQUIPMENT PRESENTATION

This machine can be used to paste PVC,ABS,etc film on furniture,cabinets,loudspeakers, reliefdoors,decoration panels for walls and other abnormal decoration shapes with a special silicon sheet.

FEATURES

- The electrical part is fully automatic and digitalized control, the components produced by famousenterprises with top quality.
- Heat transfer oil heating system and high quality heat preservation material can ensure even heating and energy saving.
- The integrated movement electromotor produces less noise and seldom breaks down.
- Adopt Germany Becker vacuum pump, wich are stable and reliable with simple maintenance work.it isquick to pump out, with lower trouble rate; it has ultra-large gas tank with double air channels to flow through, large amount of the ventilation and huge explosive force.
- Main components are produced by numerical control machining center to ensure its high precision.
- The racks are all composed of manganese steel plate, the whole frame is reasonable, can support 500 tons of pressure.
- The heating system adopts the heat conduction oil for heating circularly, the temperature is even, and machine has the bottom heating, can enable the product to achieve an ideal effect.
- Control system adopts JP Omron PLC,Operated by manmachine interface,the automation degree is high,has four working modes,can adapt for different workpieces.
- We promise the perfect quality, the maintains for one year, momentarily provide the technical support and the professional training.

HY3200C MEMBRANE PRESS MACHINE

>>> TECHNICAL PARAMETERS

Outside size: 12000x2150x 2250mm
 Table size : 3000 x1320x50 mm(INNER SIZE)
◆ - Working size : 3000 x1300x40 mm
• - Working Voltage : 380V/50Hz or Basis on client
country
• - Negative(-) pressure:0~0.095mpa
Positive(+) pressure:0.5~0.6mpa
♦ - Membrane pressure:0.3~0.5mpa
• Oil pressure:10mpa (low press:4 top P25kw)
• - Working Speed :2~4 min/1 time
• - Maximum processing hight: 50mm
• - Central supply system:>1 M3
Pressure of supply system:>0.5 M3
Total power: 52.6kw (half power after running)
Top heating: 25.2kw (half power after running)
Inder heating:14.4kw (half power after running)
A - Conducting oil pump:0.4kw
+ - Hydraulic station:Integrated System
• - Vacuum pump:# 100

- Control system:PLC (OMRON)
- Temperature control: Temperature controller set temperature
- Heater system: oil heater system
- Total weight:16000kgs

Unit:mm

Price list:

No.	Item name	Spcs	QTY	UNIT	Price (USD)	Remark
1	HY3200C	3000mm	1	SET	USD75,000	1.Price term: FOB Guangzhou 2.Payment: T/T 30% deposit and 70% balance should be paid before loading. 3.Packing: Plastic film 4.Time of delivery: 6 weeks after confirm the deposit received.

>> >> FUNCTION

- -only function 4 have to uninstall silicon, function 3 only use silicon to heating film.
- Function 1 normal and fastest. Function 2 suitable for small part pvc
- Function 3 best for silicon.special Function 3 model 2.-Function 4 suitable in hot place

	MODEL	SUI FILM	HEATING MODE	PRESSURE MODE	MAX PRESSURE
Function 1	Working 1	Matt finish	PVC touch silicon	Silicon press	Max 4kg/cm2
Function	Working 2	High glossy	PVC touch silicon	Silicon press	Max 4kg/cm2
Function 1	Working 1	High glossy	PVC no move	Silicon press	Max 4kg/cm2
Function	Working 2	Matt finish	PVC no move	Silicon press	Max 4kg/cm2
Function 1	Working 1	Matt finish	PVC touch silicon	Air pressure	Max 5kg/cm2
Function	Working 2	High glossy	PVC no move	Air pressure	Max 5kg/cm2
	Working 1	Matt finish	PVC touch top heat board	Air pressure	Max 7kg/cm2
Function 1	Working 2	High glossy	PVC no move	Air pressure	Max 7kg/cm2

>>> >> DAILY OUTPUT CALCULATION

According to the fact that the dimension of the working table is 2600x1300mm, the dimension of your products is not only

one or two type size, and the space between the work piece is 50mm, therefore, the placing layout is as follows:

The working table can be place with 12 work pieces,(for example) 5min per filming, 22 hours/day for 2 shifts a day, so the

daily output of one machine is: 12pcs x (60min/6) x 22hours = 2640pcs. The calculation method is the same for the work

pieces with pieces with different dimensions, thus the daily output can be calculated easily.

>> PVC cutting system

» » » WORKING TABLE MODEL

MODEL I (CLASSIC)

TWO HEAD TWO TABLE TWO SIDE MOVE

USUALLY, JF JUST WORKING FOR DOOR ETC PRODUCT, SUGGEST USE ECONOMY MODEL, THIS ONE BETTER BECAUSE SMALLER AREA NEEDS, AND POSSIBLE SAVE WORKER AND WORKING TIME.

BUT IF THE TIME OF PREPARATION NEED VERY LONG TIME, TOO MUCH LONGER THAN THE LAMINATING TIME, WILL BE NOT SUGGEST, CUZ AFTER THE LAMINATING ON PRODUCT WITH PVC OR OTHER FILM, IF KEEP HEATING IN HEATING ROOM WITH HIGH TEMPERATURE, WILL BE NO GOOD FOR PVC SHINING AND COLOR.

>>> EQUIPMENT COMPONENTS QUOTATION

	ITEM NUMBER	NAME	MANUFACTURER'S NAME	DESCRIPTION					
	METER								
1	YXCH100-1	VACUUM METER	SHUANGHUA	DISPLAY VACUUM PRESSURE
