 - 2023

Company Profile:

Hessan Machinery (Guangzhou) Co., Ltd, located in Shawan Town, Panyu District, Guangzhou City, has been dedicated to the research & development & production of board laminating machine and profile wrapping machine. We launched China's first PUR board laminating line in 2007. With nearly 20 years of hard work, "Hessan" brand has won praise and reputation for its first-class quality and first-class service.

We launched China's first PUR board laminating line in 2007. With over 20 years of hard work, "Hessan" brand has won praise and reputation for its first-class quality and first-class service.

• At present, the main products of the company include:

1. PUR standard board laminating production line: suitable for laminating PET film, PVC film, PP film, aluminum film, as well as acrylic sheet, fireproof sheet, aluminum sheet, stone plate and other sheets, providing professional solutions according to customer needs.
2. Board/profile wrapping machine: applicable to various boards, indoor/outdoor profiles surface wrapping, etc.
3. White glue laminating production line: suitable for cold white glue laminates with decorative paper and PVC film.
4. Other production lines: acrylic-PVC composite equipment, PET-PVC film composite equipment, honeycomb door laminating line, flooring laminating line.
5. Other supporting equipment: automatic board loading/unloading machine, turnover machine, sanding machine, dust removal machine, pearl cotton laying machine, PVC slitting machine, glue hot melt machine, etc.

Quotation :

Product name	Spe.	Qty	Unit	Unit price (USD)	Total amount (USD)	Remarks
HY-TE- 1350 Hot stamping machine	φ190*1350	1	set	\$28000.00	\$28000.00	
TOTAL AMOUNT					USD28000.00	FOB Guangzhou

Price term: FOB Guangzhou In USD

Payment: 30 % deposit should be paid and 70 % balance should be paid afterconfirm before loading.

Packing: Plastic film

Time of delivery: 35 days after confirming the order

Installation:

We will provide the installation service for the customer as requested. If the buyer request the seller to do the service in the seller's work place, the charge for applying visa, round tickets should be paid by the buyer as well as the food and hotel. USD100 per day should be paid for each technician's salary. Machine is under one year guarantee.

Hot stamping production line:

Technical Specification	
Width of panel	1300mm
Thickness of panel	2.5-40mm
Width of flim	1300mm
Feeding spead	2-3pcs /min
Total power	38kw
overall dimension	10.5m×2.4m×3.3m
Control method	PLC control

◆ Scope of application:

Glue: TPU films ,EVA films

Base material: wood panels, medium fiberboard, plywood, particle board, PVC polymer foam board, wood-plastic panels, aluminum-plastic panels, honeycomb panels, calcium silicate panels and so on.

Surface material: PVC film, melamine paper, decorative paper, etc.

Pictures of the machine:

Mod1:Conveyor + Dust clean + Preheating oven

Description: The conveying table is guided by leaning hill, anti-static sisal dust removal, bilateral synchronized manual adjustment of the thickness of the plate, and electric heat pipe heating baking channel.

1. transmission power:

2.75kw

2. Conveyor Roller:

φ 190×1350

3.Total wattage:

15.55KW

Mod2: Lamingating machine+ Recovered film

Description: After the adhesive layer is laminated to the board surface, The rest of the film is electrically wound up.

1.transmission power:	2.2kw	
2. Conveyor Roller:	φ 190 × 1350	
3.Total wattage:	20.5kw	

Mod13: Conveyor + Preheating oven

Description: Inlet conveyor with preheating oven

1. transmission power:	2.75kw
2. Conveyor Roller:	φ 190 × 1350
3.Total wattage:	15kw

Mod4:Film laminating machine+Protective device+Crane

Description: The film releasing shaft is air-expanding shaft with pneumatic brake. After sticking the PVC, put a protective film on the surface to prevent scratches, the film releasing shaft is air-expanding shaft with pneumatic brake, the maximum load capacity of the crane is 200kg.

<p>1. Conveyor Roller:</p>	<p>ϕ 190 1350</p>	
<p>2.Total wattage:</p>	<p>4.75kw</p>	

Mod5:Unloading conveyor

Description: Table for the finished production.

**1. Conveyor
Roller:**

$\varnothing 63 \times 1190$

2.Total wattage:

**provide by
laminating
machine.**
