

Laiyuan Lake Theme Park Interactive Light Show(Hebei,China)

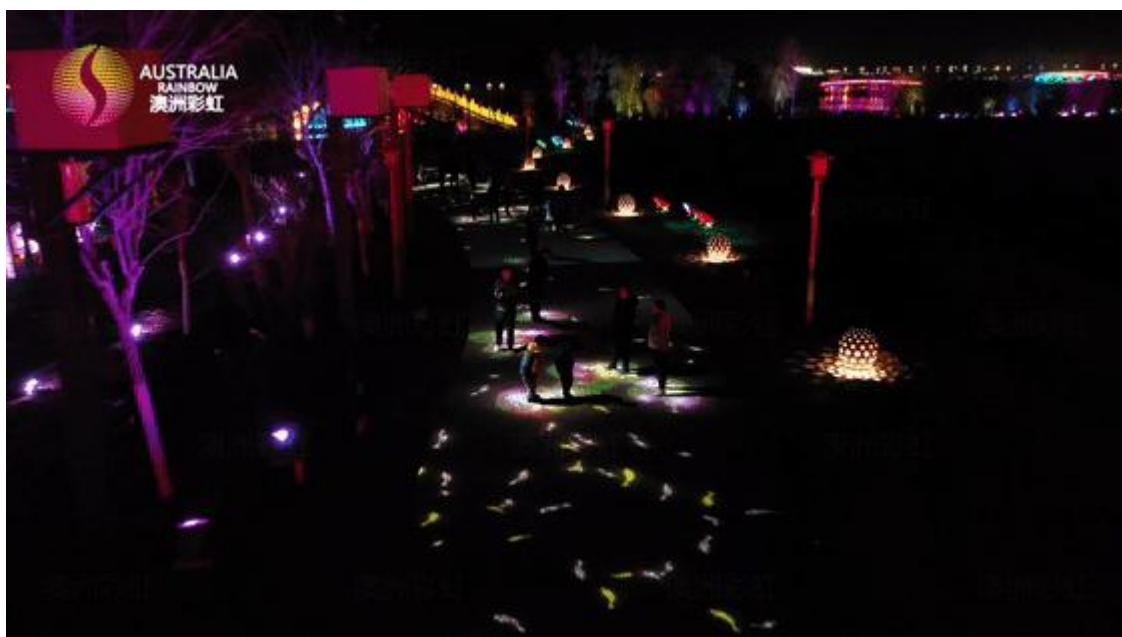

The total planned area of the light show project is about 450,000 square meters. Under the principle of not destroying the ecological environment, the design concept of "ecology, humanity and interaction" is reflected, embodying the theme of "ecological Laiyuan, the most beautiful Laiyuan", and the beautiful water dance on the lake. The show is the core performing arts center. Combining the 2 km-long light belt around the main road around the lake, it integrates light, shadow, water show, interaction, projection, laser, installation art and other multimedia comprehensive interpretations. Experience the content and value, establish the ecological Laiyuan brand, and create a new experience-based eco-tourism scenic spot integrating ecology, health, leisure, entertainment and vacation.

The lighting project takes the main entrance of Laiyuan Lake as the starting point, and the main road of 2 kilometers long as the main axis. The tree

landscape, lake island, multiple pavilions and seven bridges constitute a natural landscape garden, ancient charm garden, The overall design plan of the four thematic sections of the Colorful Imagination Garden and the Fantasy Discovery Park. Each park has different themes designed according to its natural features and landscapes. The biggest highlight is that interactive digital technology can be seen everywhere along the road. For example, the ancient charm style garden uses digital technology and installation art to interpret the local representative cultural symbol: Hebei Lai Source Bangzi, anti-Japanese hero Wang Erxiao and so on. The design pays attention to the experience of tourists, so that tourists can relive the history and culture in light and shadow, and enjoy the joy of exploration in traveling.

The Laiyuan Lake scenic area created by the new lighting has reached a new height. The bright light and shadow under the reasonable and scientific design feel the rich humanistic atmosphere. The night scene is gorgeous and magnificent, and the artistic conception is far-reaching. It is like traveling in a dream light and shadow world.
