

TCXT Permanent Magnetic Drum

It is used to separate magnetic impurities from bulk materials. It is an ideal equipment for flour, rice milling, feeding enterprises.

- Self design
- Unpowered machine
- Ideal equipment

Model	Items	Diameter (mm)	Magnetic induction intensity(mT)	Output(t/h)		Efficiency (%)
				Powdery material r=0.5	Granular material r=0.75	
TCXT12		120	≥300	5-8	6-10	>99
TCXT15		150	≥300	10-15	15-20	>99
