PRODUCT CONCEPT

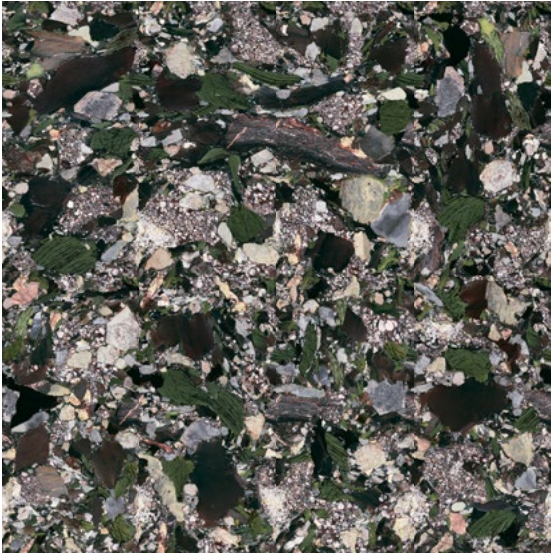

The unique eight patterns of Gani Continuous Big can be expanded vertically and horizontally by different arrangement and combination, providing the beauty of marble veins extending for each space, and offering more design possibilities.

RANDOM CONNECTED VEINS

New features of GANI 12th Generation 900*1800mm collection!

It's possible to lay all the pieces in any order and always get veins connected with no repetition, perfectly to show the beauty of space extension. Also, easiness in installation.

GANI Seamless Joint Paving Technology

What is seamless joint paving?

KEY WORDS:

**GAP 0.5MM, NATURAL STONE EFFECT,
SPACE AESTHETICS, EXCLUSIVE BY GANI**

- ◆ Gap can be controlled within 0.5mm of seamless joint paving services, which can effectively implement the marble tile paving effect like natural stone, owning the sense of oneness, so that GANI obtains more advantages in showing products effect.
- ◆ From a tile to a space, GANI provides a perfect solution for space aesthetics.
- ◆ The ultimate experience of product, service and effect.

SOLUTION & APPLICATION

The aesthetic application of Gani Continuous Big is not limited to size, space and design. It is a holistic solution to constantly optimize, pursue the ultimate and perfect effect.

01 Big Areas And Double Height Walls

Imagine a big and uninterrupted block of marble. Not limited by the size of natural marble blocks.

02 Highlighting Some Elements Of Your Design

Used on decorative panels, the fully connected veins of our big slabs offer a wonderful key to highlight the most important parts of your projects.

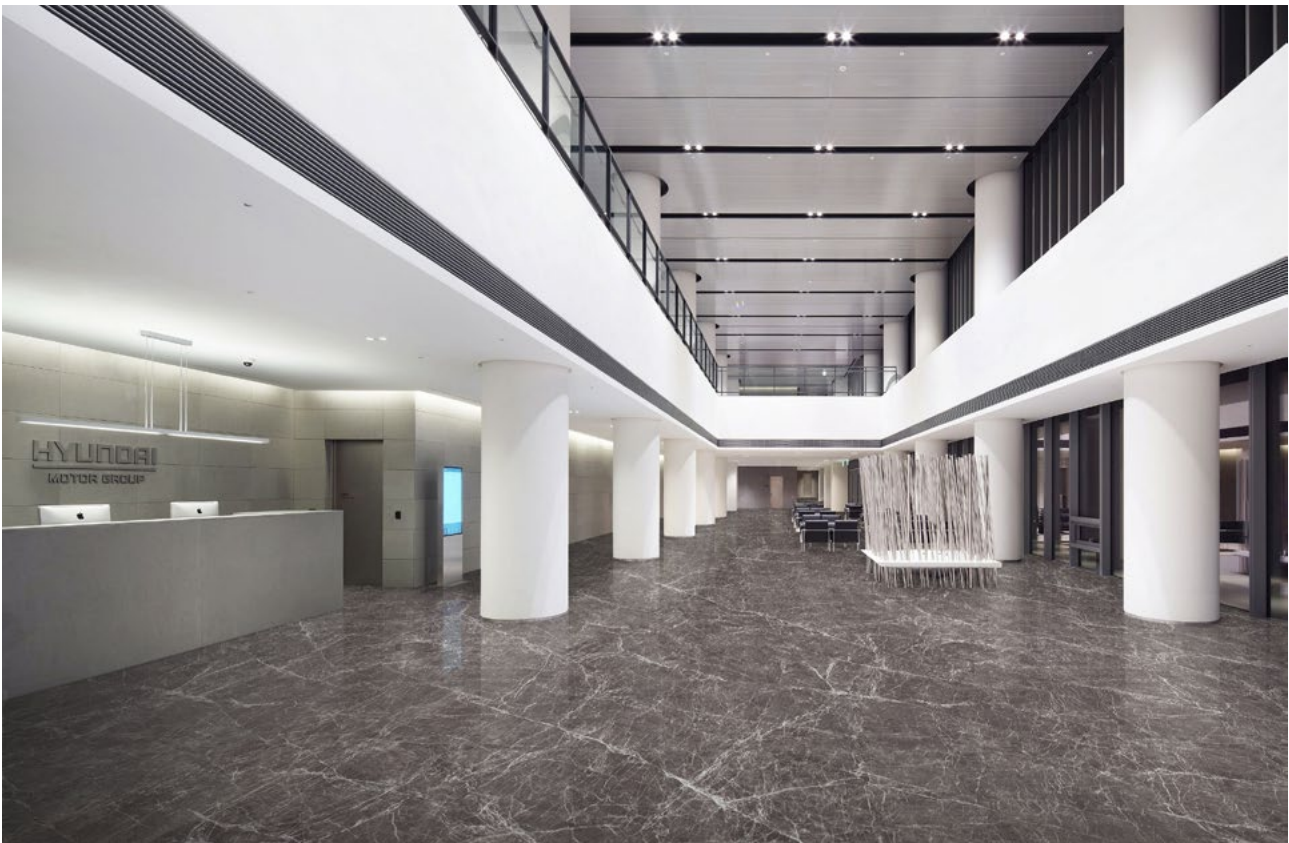

03 Bath And Shower Areas

900x1800 is a perfect size to create amazing full marble bath and showers. Bath backgrounds and top, as well as connected shower walls and floors.

04 Corridors And Hallways

The special design of our patterns which allows connecting not only 4 but 8 patterns in row with no repetition, allow very long connected veins element.

05 Connecting Floor And Walls

The connected vein pattern can be used to create a very strong connection between floors and walls, which can be a very good way to divide the space according to the different functions.
