## THE PAST WAS ROOTED IN THE HISTORY OF CERAMICS.

The history of GANI stretches back to the year of 2002 when President Li zhilin, a R&D specialist engaged in ceramic tiles for more than 30 years, strived to meet the increasing demand for exclusive, top-quality natural materials while protecting the environment with continuous product innovations. Research and development, product innovation, environmental sustainability are the core values that identify GANI. Since then, it has constantly consolidated its role in the ceramics industry and experienced progressive growth and strong international expansion.

2020

## THE PRESENT IS LOOKING AHEAD FOR ARCHITECTURAL SURFACE.

Since the research and development on first piece of marble tile in 2009, today GANI witnesses its 12-years technical innovation with exceptional quality and aesthetic excellence. Firmly focusing on the future, GANI is able to anticipate the new trends of market requirement, service upgrade, and increasing living needs. The incomparable values and determination have always led us as one of the world's leading company in marble tiles industry.

## CORPORATE PHILOSOPHY

Inspired in marble, GANI MARBLE TILES collection comes up, with its luxury and elegance, as marble's nobility and sophistication.

Marble is fascinating the human kind since the rise of every civilization. Marble's beauty is universal and we can't renounce to it, but at the same time it is extremely fragile. So many wonderful marbles don't exist anymore. Our mission is to create an alternative option, which doesn't require the destruction of that beauty we admire so much, without renouncing to it.

As a kind of building decorating material, GANI MARBLE TILES can applied to almost all floors and walls, in interior and exterior, and also can be used as functional materials in furniture, kitchen and bath's platforms. GANI develops hundreds of marble tiles with various patterns, veins, sizes and textures which can be transformed into many artistic works.

## COPPER DUNE 静雅棕 / 900X1800mm

■ Polished 石材光

Coming from the northeast of Brazil, Copper Dune has an irreproducible texture and color change. With clear layers and natural texture, it is as delicate as silk, but also wild and random. It is both rigid and soft without losing elegance. Just like an oil painting, with flexible straight and oblique stone texture, it can be used as a great element for indoor and outdoor design: the overall bathroom design, the decorative wall of the hotel lobby and the ground of the public areas, the new Chinese style interior design and so on.

源于巴西东北部的天然石材静雅棕，有着不可复制的纹理及色彩变化，浑然天成的纹理，层次分明，如丝绸般细腻，狂野随性，刚柔并济不失优雅，棕色石纹拼凑成油画般的质感，直斜错落的石纹层次，更为灵动。可用于室内和室外设计：整体浴室设计、酒店大堂背景墙及公共区域地面、新中式风格室内设计等作为很好的装饰元素。

Kashmir granite is a granite from Brazil. The white surface is dotted with streamline texture, which has a strong sense of hierarchy. It is easy to find that there are also dark patterns of color in it. Black and white are not real black and white when viewed from a distance. The lines contain dark green and dark blue, while the hidden colors in white are light yellow and light blue. With soft curvilinear beauty, they contain a kind of beauty of Yin-Yang(Taiji), which is in line with the traditional Chinese culture of "Tao generates all things". It can be used to decorate high-end outdoor balcony and as table top..

幻彩白麻是来自印度的花岗岩，洁白的表面分布着点状型流线纹理，层次感强烈，细细鉴赏不难发现其中还蕴藏着彩色的暗纹。远看时的黑白两色不是真正的黑白，线条中蕴含的是墨绿色与深蓝色，白色中暗藏的却是淡黄色与淡蓝色，配以柔和的曲线美，蕴含着一种阴阳太极的美感，符合中国传统文化中“道生万物”。可用于装饰高档室外阳台和作为台面使用。

Roman Jade is a marble quarried in Sardinia, the second biggest island of Italy, near Orosei. One of the better known among the Italian stones, even if it is a quite recent stone in terms of excavation period by the terms of Italian stones, dating back to around the 60's.

It is a sedimentary rock which color might slightly vary on different shades of warm beige.

It generally comes in three veining categories, Classic, Venato and Nuvolato. For our product we decided to develop the "Venato" variety presenting a more regular and diagonal vein structure, making it perfect for big areas applications.

Perfect stone for exterior applications, ensuring a very warm and welcoming effect.

香格娜米黄是在意大利第二大岛撒丁岛 (Sardinia)，靠近奥罗西 (Orosei) 开采的大理石。是意大利的石材中比较有名的一种，即使它按意大利石材的说法是一款相当新的石头，它的挖掘时期可以追溯到 60 年代左右。它是一种沉积岩，拥有深浅不同，轻微变化的暖米色调。它通常分为三种纹理类型，经典类，直纹类和云状类。对于我们的产品，我们决定开发“直纹”品种，呈现更规则和对角线的纹理结构，使其非常适合大面积应用。是一款完美适用于外部应用的石材，带来温暖和热情的效果。
