

HW-LED Series Medical Examination Cold Surgical Headlight is a new generation of LED surgical Light.

Surgical headlight can be applied to various large and medium-sized operations in various operating rooms.

And the human tissue in the shadowless lamp lighting more realistic.

Technical Parameter:

Type:	LED500
Illumination (Lux):	120,000
Color Temperature (Kelvin):	3800-4800
Operator's Head Temperature Rise(°C):	≤1
Surgical Field Temperature Rise (°C) :	≤1
Effective Working Depth of Focus(mm):	≥800
Spot Size Adjustment Range (mm):	110-250
Average Life of Light Bulb (h):	100,000
Bulb Power (W):	1W/pc
Power Input:	220V, 50Hz
