1. LED cold light source has no infrared radiation, with radiator and excellent heat dissipation effect;
2. The specific color rendering index is more than 90, which makes the tissue of human body more lifelike and clear under the light of shadowless lamp;
3. It has deep lighting function, good chip heat dissipation, and ensures the LED lamp bead life up to 100000 hours.
4. The detachable handle coat can be sterilized at a high temperature of 135 °C;

Type	LED5	LED3
Illuminance (Lux)	120000	100000
Color Temperature (Kelvin)	3800-4800	3800-4800
Chromogenic index (CRI)	≥90	≥90
Red reduction index (Ra)	≥90	≥90
Head temperature rise (°C)	≤1	≤1
Temperature rise of operative field (°C)	≤2	≤2
Effective work focus depth (mm)	≥600	≥600
Spot diameter (mm)	120-230	120-230
Bulb average life (h)	100,000	100,000
Bulb power (W)	1W/pc	1W/pc
Power input	100-240VAC 50/60Hz	100-240VAC 50/60Hz
Min installation height	2700mm	2700mm
