400mm	345mm
450mm	395mm

Minimum cabinet depth>550mm

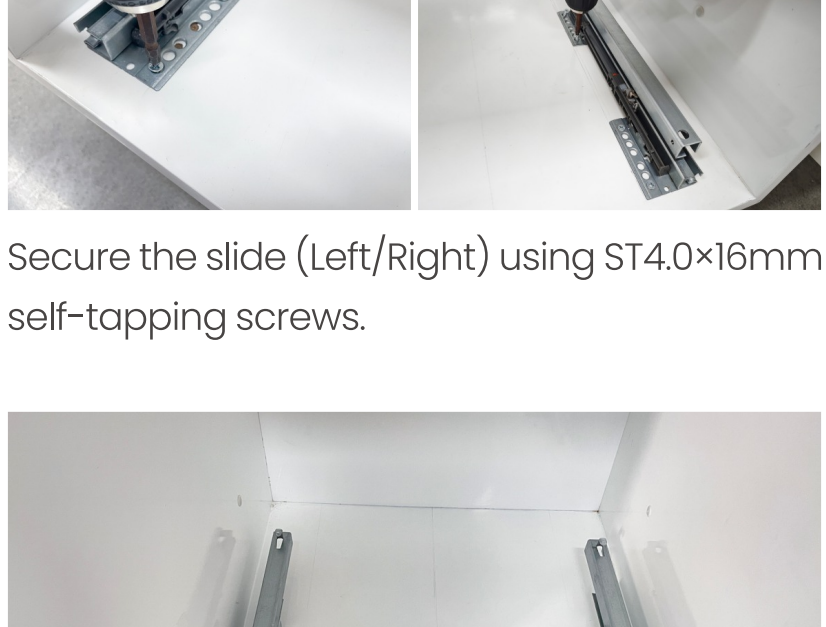

STEP - 01 -

Accessory list

Assembly note,install in a 400mm cabinet.

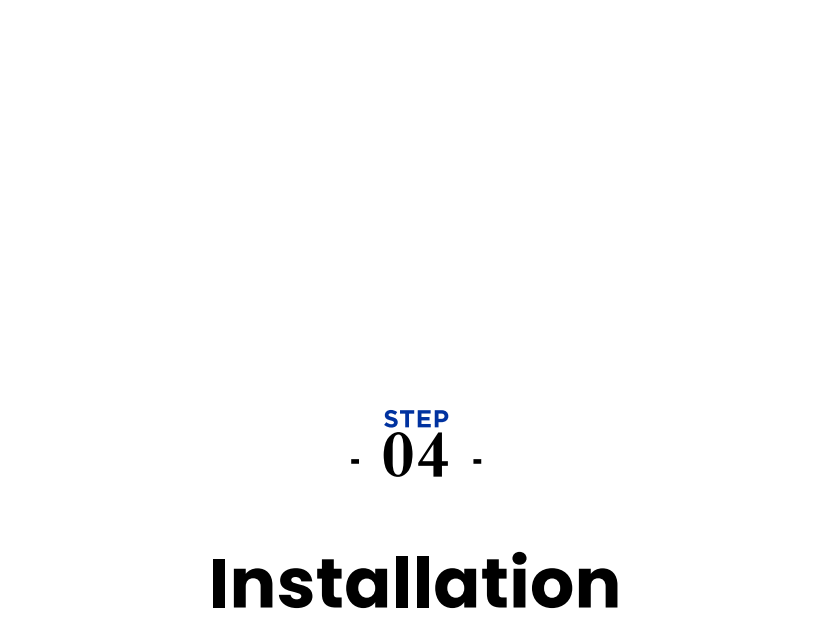

Seasoning basket*1,Tall bottle storage box *1, Divider inserts *2,Slide *1 SET

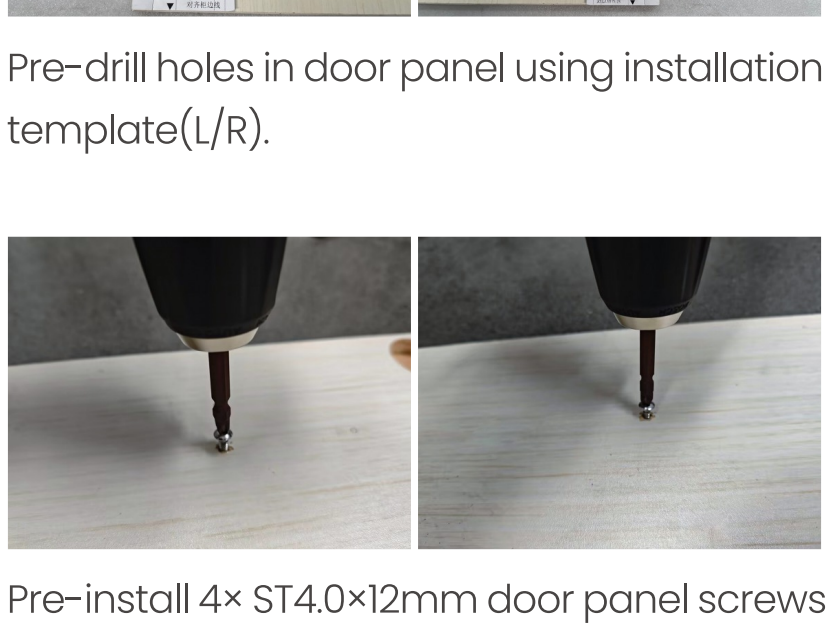

Installation template *1,M4.0*10mm screws *6, ST4.0*12mm self-tapping screws *4,ST4.0*16mm self-tapping screws *24

STEP - 02 -

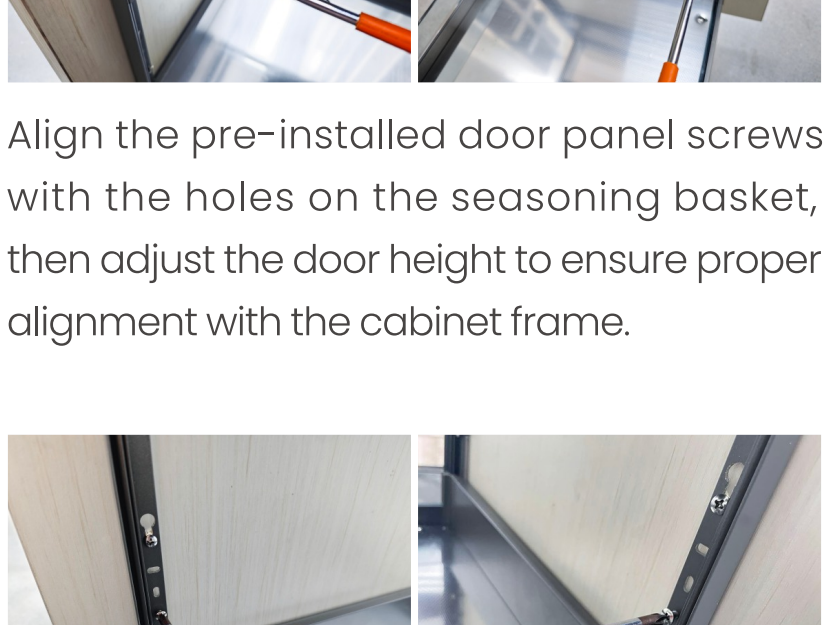

Installation of slide rail

Pre-drill holes using installation template(L/R)

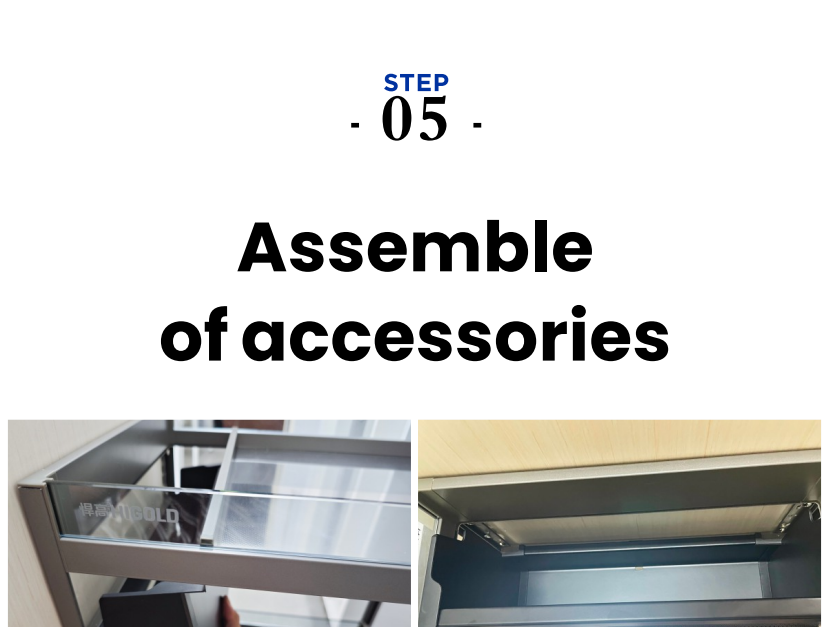

Secure the slide (Left/Right) using ST4.0*16mm self-tapping screws.

Slide installation is now complete.

STEP - 03 -

Installation of seasoning basket

Engage the rail end hook into the seasoning basket's rear slot (L/R).

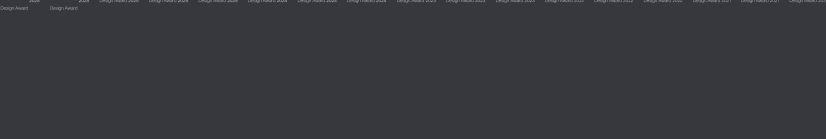

The front end of the seasoning basket is locked and fixed on the slide rail with two M4.0*10mm screws.

Seasoning basket installation is now complete.

STEP - 04 -

Installation of door panel

Pre-drill holes in door panel using installation template(L/R).

Pre-install 4x ST4.0*12mm door panel screws (do not fully tighten - leave 5mm gap for adjustment).

Align the pre-installed door panel screws with the holes on the seasoning basket, then adjust the door height to ensure proper alignment with the cabinet frame.

Secure the door panel using four M4.0*10mm screws, then adjust the tilt angle (front-to-back alignment) as needed.

After completing door height and angle adjustments, firmly secure the door panel using 4x ST4.0*16mm self-tapping screws.

STEP - 05 -

Assemble of accessories

Insert from the bottom and hang the tall bottle storage box in place.

Insert from the bottlInstall divider inserts inside the basket as needed for organization.

Installation of Shearer 3.0 mini Seasoning Pull Out Basket is now complete.
