Installation manual

Shearer 4.0 Tool Drawer

HIGOLD®

Leading design. Perfect experience. The beauty of industrial design.

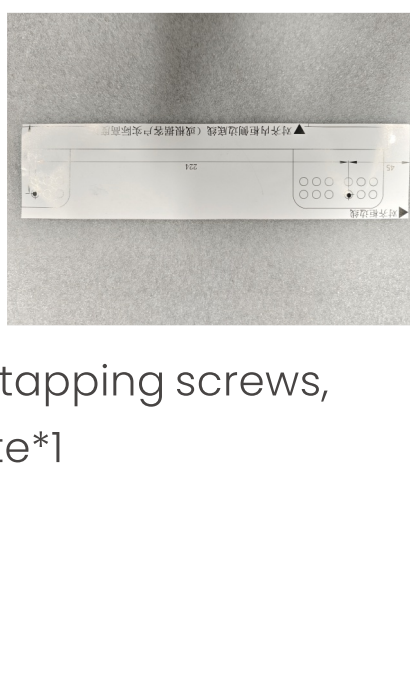

Please note before installation

1. The minimum installation height required for the Shearer 4.0 Tool Drawer is 120mm, and the minimum internal depth is 460mm. The width is selected according to the cabinet size.

2. The accessories for each cabinet vary slightly. For the specific quantity of accessories, please refer to the installation instructions. In this article, the installation is demonstrated for a 900mm cabinet.

STEP - 01 -

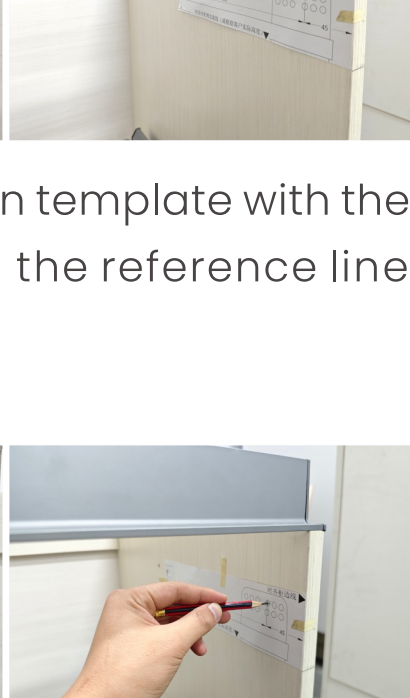

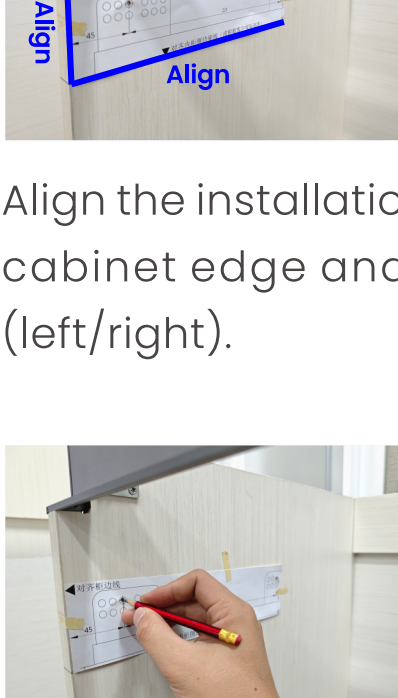

Accessory list

Tool drawer basket*1 pc, slides*1SET

Divider-long*1, Divider-medium*6

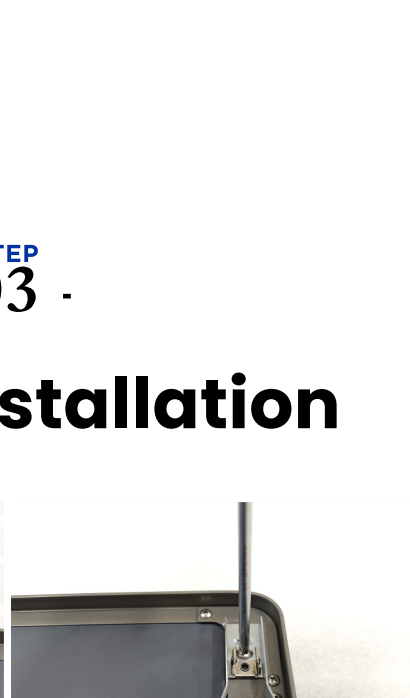

Divider-short*3, tool box*3

12 pcs ST4.0*16 self-tapping screws, installation template*1

STEP - 02 -

Slides installation

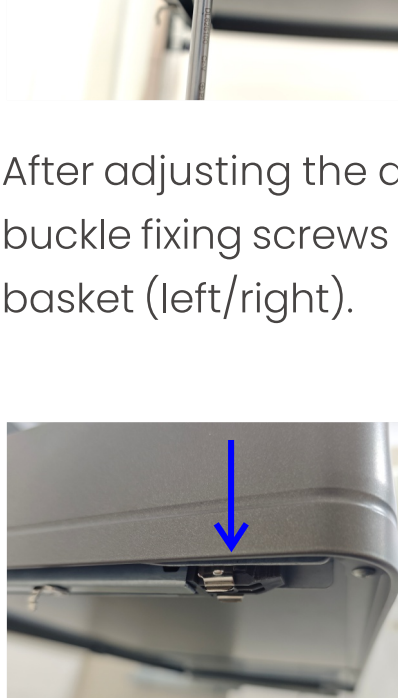

Measure the same installation height reference line of the left and right side panels.

Align the installation template with the cabinet edge and the reference line (left/right).

Use a carpenter's pencil to mark the rail fixing hole locations (left/right).

Align the slides holes to the marking points and use ST4.0*16 self-tapping screws to lock and fix the slides (left/right). Use at least 6 pcs self-tapping screws to fix the slides on one side.

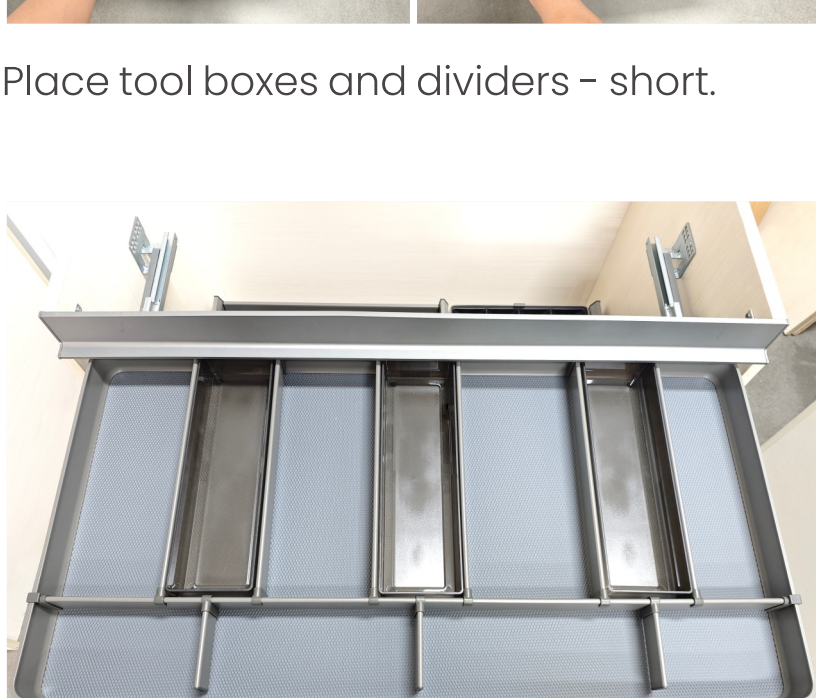

Slides installation completed.

STEP - 03 -

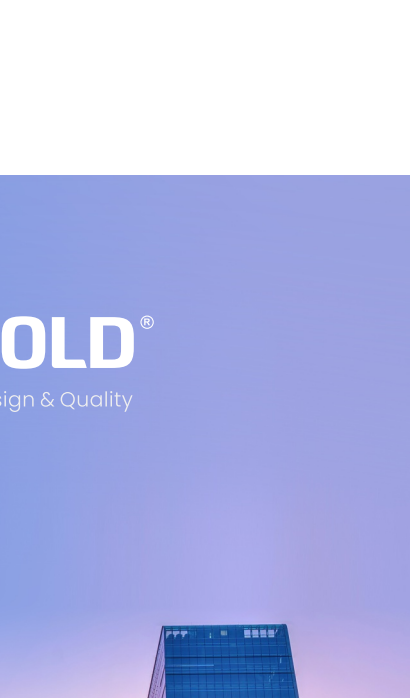

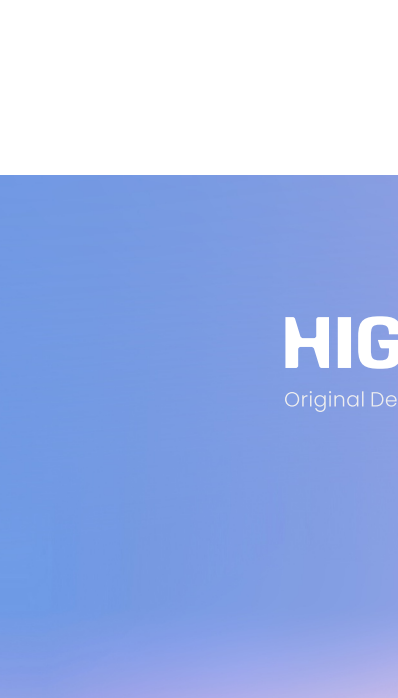

Basket installation

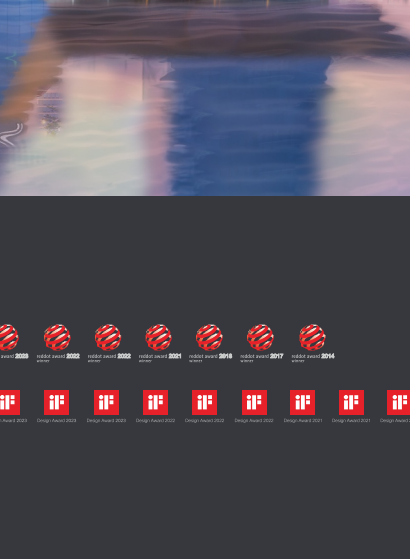

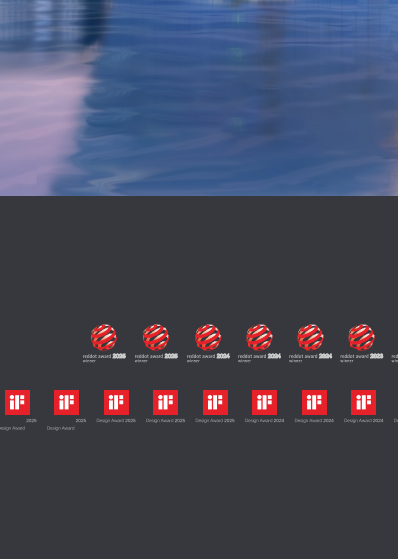

Before installation, loosen the fixing screws of the front buckle of the basket (left/right).

The basket is aligned with the slides on both sides and pushed backwards.

Insert the tail hook of the slides into the groove of the metal part at the rear of the basket (left/right).

Adjust the front buckle of the basket to align with the front plastic part of the slides (left/right).

After adjusting the alignment, tighten the buckle fixing screws at the front end of the basket (left/right).

Press the basket down so that the front buckle of the basket clamps the front plastic part of the slides.

Basket installation completed.

STEP - 04 -

Accessory Installation

Place Divider-Long and Divider-Medium.

Place tool boxes and dividers - short.

Shearer 4.0 tool drawer installation completed.
