INTELLIGENT PURIFICATION SINKS

Purification sink is a great product of smart idea and new technology.
Higold is not only the leading company in this area,
but also one of the companies who draft the production
standard of this kind of product .

4 steps of physical purification
Eliminate pathogenic factors in depth

Hydrolysis

OH self-purification factors are generated by electrolysis water molecules

Purification

OH self-purification factors decompose the toxic and hazardous substances by oxygenolysis

Restoration

After purification OH self-purification factors re-combine and restore into water

Sterilization

UV ray shoots bacteria and viruses to achieve disinfection and sterilization

COMPOSITE SINK

Improve the industry standard of quartz stone sinks in one fell swoop, so that the majority of owners will no longer be entangled in choosing stainless steel sinks or stone sinks, using a new type of material, combining the advantages of the two sinks, becoming a worry-free choice for young people's kitchens.
