Product Certificate

TECHNOLOGY AND PROCESS

WASTE & OVERFLOW

The sink becomes waste if you can't find a good waste for it. With stainless steel shell, our waste set perfectly match the sinks in color and style. Rubber gasket inside design seals the gap to avoid any leakage.

Overflow, with or without, choice is yours. Redundant water drains from this hole in case you forget to turn off the faucet.

HANDMADE SINKS

Kitchen Sink

In this series, every sink embodies the philosophy of life.

Normal single bowl sinks feed the taste of simplicity and purity. Sinks with drain board illustrate the streamline design and crave for pragmatism.

We know what you want, that's why we can be your best kitchen sink provider.

Get one now to be your own kitchen master.

PINIZ SERIES HANDMADE SINKS

Kitchen Sink

Creation, a combination of wisdom and imagination, is the wheel of human development. Since the founding of Higold, we have been upholding "think big, do something new" as our core value, thanks to that, we have successfully won Reddot Award for several times and solidified our dominant position in kitchen hardware industry.

This Piniz series is a collection of smart ideas and new technologies.

You've never been so proud and confident until you choose a Higold Piniz sink.

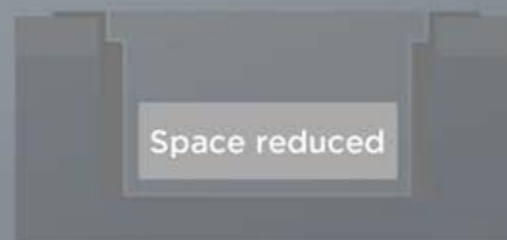

Creative slide lip design
Smart accessories accommodations

Big bowl space

New creative slide lip

· More functions, without shrinking space

Space reduced

Traditional step sink

· Smaller space to use

PRESSED SINKS

Kitchen Sink

Pressed sinks or so-called drawn sinks or machine sinks are stamped by toolings. Its thickness ranges from 0.6mm to 1.0mm with numerous designs.

People love it for various reasons, namely, artistic-looking, beautiful curve and the unique sense of integration...

If these advantages are not enough to fascinate you, there are more to come, such as easy to handle, energy saving and cost efficient.

Higold pressed sinks, born for perfectionists only!

Gloden Hook Prize

Drawn Kitchen Sink

In the hands of the international fashion masters, even a small metal decorative piece could also be clever to make thoughts. Unique shape, access to visual enjoyment but also have a superior quality. Placed in space regardless of any corner, people can not ignore.

Pressed Kitchen Sink

DESIGN

The double sink design takes full account of the different needs of the kitchen and adds agility to kitchen life. Elegance is evident in such a confined space.

TECHNIQUE

Adopting one-piece stretch forming process, the product is flawless, seamless (no joints, watertight) and durable.

QUALITY

304 stainless steel sheets are used. With cold stretching technology, steel sheets are stretched at room temperature and the material is more stable and durable.

FUNCTION

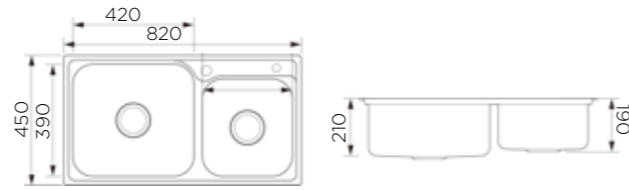

The double sink design realizes reasonable space matching, allowing you to freely enjoy comfortable life in a more scientific space.

FEATURES

HIGOLD uses a simpler water drainage system with higher reliability, large-diameter drainage pipe, stainless steel drainage lift cage, making the sink easier to drain water and remove slags.
