

HIGOLD®

Piniz Sink 1.0

Endow new usage for chopping board

Change from quantitative to qualitative

HIGOLD®

Creative slide lip

New usage for chopping board

3MM thick panel

185mm big drain hole

304 stainless steel

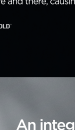

Backward drainage system

Creative design with slide lip Small change, big creativity

Keep innovation for new prospect of sink

HIGOLD®

New design with slide lip
Upgrade function without occupying extra space

Old model with lowered step
Sacrifice part of the sink space

Cutting vegetable and meat in the sink With chopping board at fixed place, no sliding

Proper place to avoid chopping board sliding
When cutting with hard pressure

HIGOLD®

Drying upright in the sink Keeping the countertop clean

No need to move the wet chopping board here and there, causing water all over

HIGOLD®

An integrated colander Dual partition for single bowl sink

SS304 colander with dense holes, for more convenient washing and draining
Take it out to become big bowl sink, no limitation for washing big pots and pans.

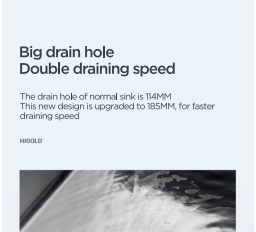

HIGOLD®

Accompanied with one PC basin Water-saving to wash small things

Fast washing by big bowl, and water saving by small basin washing

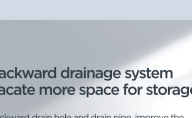

HIGOLD®

Thick panel fits tightly to the countertop Prevent deformation or leakage

Thick panel with high intensity, prevent the sink against deformation
Avoid leakage from the gap between the sink and countertop

HIGOLD®

Big drain hole Double draining speed

The drain hole of normal sink is 114MM
This new design is upgraded to 185MM, for faster draining speed

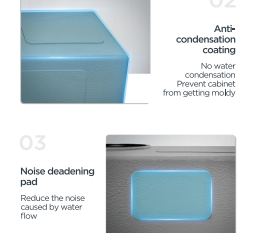

HIGOLD®

Backward drainage system Vacate more space for storage

Backward drain hole and drain pipe, improve the storage space under the sink

HIGOLD®

Small detail, big progress

HIGOLD®

01

X draining lines

Draining water fast without leftover

02

Anti-condensation coating

No water condensation
Prevent cabinet from getting moldy

03

Noise deadening pad

Reduce the noise caused by water flow
