

RZCUT6-30I6EF-2H-30C

瑞洲智能数控切割机

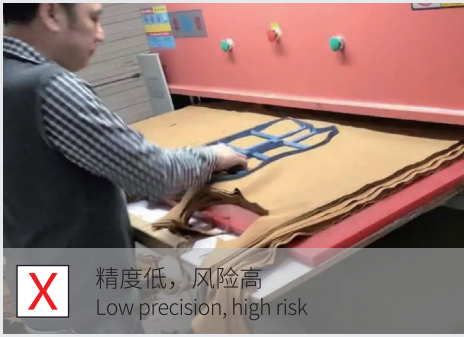

RUIZHOU INTELLIGENT CNC CUTTING MACHINE

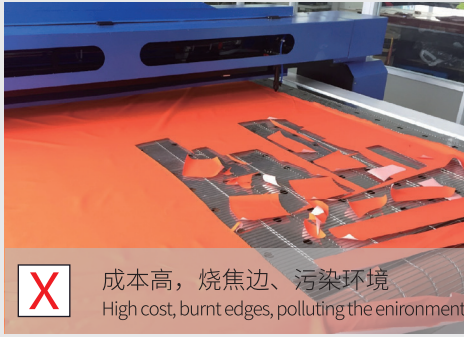

优劣对比
COMPARISON OF ADVANTAGES AND DISADVANTAGES

✗ 手工裁、效率低
Hand-cutting, low efficiency.

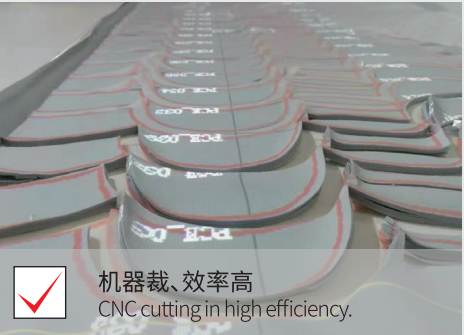

✗ 精度低，风险高
Low precision, high risk

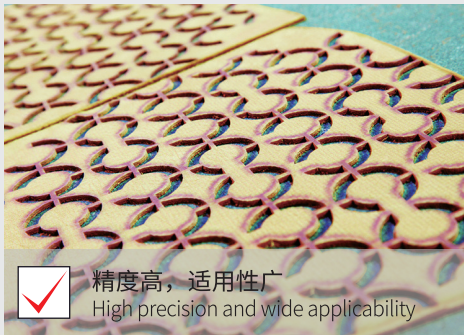

✗ 成本高，烧焦边、污染环境
High cost, burnt edges, polluting the enironment

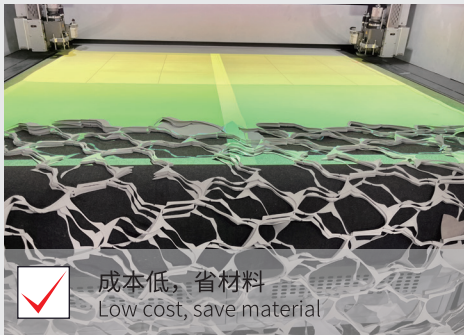

瑞洲智能数控切割机 RUIZHOU INTELLIGENT CNC CUTTING MACHINE

✓ 机器裁、效率高
CNC cutting in high efficiency.

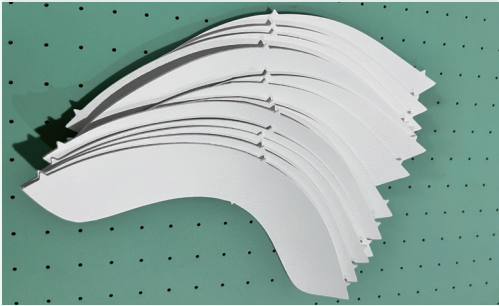

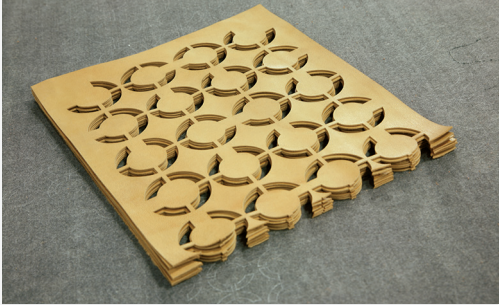

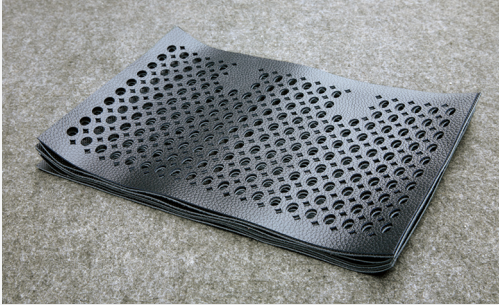

✓ 精度高，适用性广
High precision and wide applicability

✓ 成本低，省材料
Low cost, save material

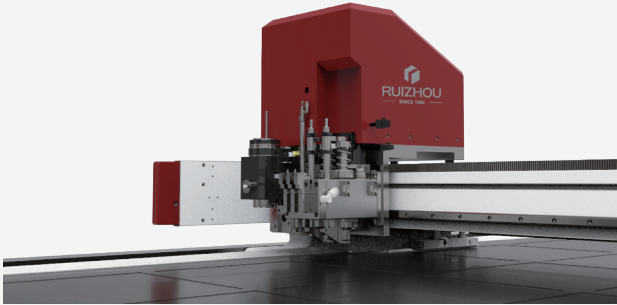

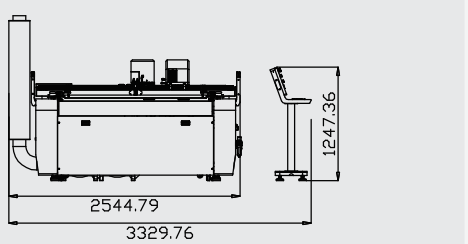

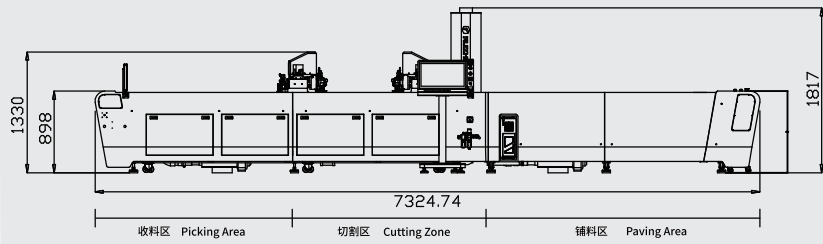

切割效果
CUTTING EFFECT

产品参数
PRODUCT PARAMETERS

切割+收料尺寸 Effective working area	(3000mm+3000mm)*1600mm
机器尺寸 Machine dimension	7056mm*2210mm*1402mm
机器重量 Machine weight	≈2400KG
切割厚度 Cutting thickness	0.5-6 mm
主机工作电压/频率 Machine working voltage /Frequency	220V / 50HZ
气泵工作电压/频率 Vacuum pump working voltage/Frequency	380V / 50HZ
气泵功率 Vacuum pump power	7.5kW*2

结构示意图
Structure diagram

- 通过投影仪投射切割图形影像，可实时体现图形的排版位置，排版高效快速，省时、省力、省材料。
- 可用于真皮及其他多种柔性材料的切割。广泛应用于制鞋行业、服装行业、箱包行业、装饰行业等。
- 满足少批量，多订单、多款式的生产目标。
- The auto nesting effect is time, labor and materials saving, and visible on the leather through the projector system.
- It has been widely used in the cutting of soft materials such a clothing,luggage, footwear,decoration, etc.It meets the product target of small-batch production,Various order and pattern.
- With programmable multi-axis linkage controller, the stability operability reaches an advanced level domestic and abroad.
