HUANGSHI ZHONG JIE MOULD CO., LTD

品质 / 专注 / 质量 / 诚信
Quality / focus / quality / credibility

公司简介

黄石市众捷模具有限公司是一家集科研、设计、生产为一体的专业挤出模具设计制造加工企业。公司拥有优秀的科技队伍，有从事塑料挤出模具行业20多年的专业技术人员5名，对PVC塑钢模具、PPPE/ABS/PVC等异型材模具、双色共挤模具、宽幅门框模具、PVC木粉改性发泡模具、PE(PP)木粉模具、ABS模具等都有独特的设计理念和丰富的调试经验。多年来公司一直对PVC木粉改性发泡、PE(PP)木粉、竹粉等木塑模具有很深的研究，合理的价格、周到的服务，使得公司的模具远销到了欧美及东南亚的多个国家。

根据不同客户的需求，公司可提供各种设备、模具、配方、工艺等一条龙交钥匙工程服务。
公司主营：挤出模具 PE木塑模具 PVC木塑发泡模具 异型材模具 塑钢模具 塑料模具 塑料挤出模具 木塑宽幅门框 木塑地板、薄板挤出模具 木塑移门模具、PVC挤出模具 软质共挤、双色共挤模具的模具制造、模具加工等等。

公司总经理朱积平先生从事模具行业20多年，1969年模具专业毕业，进入模具相关行业，1992年服务于黄石第一家挤出模具制造厂。九十年代朱积平先生一直钻研模具设计，从UPVC塑钢门窗设计到后面的塑钢门窗共挤、全包覆等设计，2000年后新研的木塑产品设计，到后来的PVC木塑产品开发。PE塑木产品等；HDPE/LDPE/ABS/PVC中等异形材等技术点的模具开发。公司PVC木塑改性发泡模具的设计，成为黄石模具行业佼佼者。众捷模具公司，秉承之前的优点，并在新基础上作出进一步的探索，为广大国内外客户提供更优质的模具。

您的心声，我们都能听得到！

COMPANY PROFILE

Huangshi Zhongjie Mould Co., LTD. is a collection of scientific research, design, production as one of professional extrusion mould design and manufacture of processing enterprises, extrusion mould industry more than 20 years of professional and technical personnel there are 5 people. For PVC profile extrusion mould, PPPE/ABS/PVC etc. double-color co-extrusion mould, wide door panel mould, PVC wood plastic composite crust micro foaming extrusion mould, PE (PP) wood plastic composite extrusion mould, ABS mould and so on has a unique design concept and rich experience in debugging. Over the years the company has been on PVC wood plastic composite crust micro foaming, PE (PP) WPC, bamboo WPC, have deep research. Reasonable price, considerate service, make our company's moulds are sold in Europe and the United States and southeast Asian countries.

According to the needs of different customers, the company can provide all kinds of equipment, mould, formulation and process, such as one-stop turn-key engineering services.
Company's main: extrusion mould, PE wood plastic composite extrusion mould, PVC wood plastic composite foaming mould, PVC profile extrusion mould, plastic extrusion mould, WPC wide door panel, WPC floor board, wall panel extrusion mould, WPC sliding door extrusion mould, PVC extrusion mould, soft hard co-extrusion mould, double color co-extrusion mould manufacturing mould processing and so on.

Company general manager Mr. Zhu Jiping has engaged in mould industry for 20 years, graduated in 1969 mould professional, into the mould related industries, in 1992 the service in Huangshi first extrusion mould factory, Mr. Zhu Jiping has been insisting on studying the mould design, from the initial "U" type UPVC doors and windows design to UPVC co-extrusion of window or door, full coated design etc., to two thousand after the emergence of wood plastic product design, and the micro foaming PVC WPC products design, PE, PE WPC products etc. successfully overcome HDPE, LDPE, ABS, PVC, PP and other special-shaped material technologies design etc.

Company PVC micro foaming mould design, become Huangshi mould industry leader. Zhongjie mould Company, the advantages of the inherited before, and make a further exploration, on this basis for the broad masses of customers to provide more high quality mould.
Your voice, we can all hear!

塑料异型材模具

PLASTIC PROFILE EXTRUSION MOULD

PVC 塑钢门、窗、护栏。
PVC 软硬共挤：PMMA、ASA等材料多色共挤；发泡共挤等。

PVC 线缆、线管、通讯管材；一棒多腔管材；发泡管；蜂窝管；板带等。

PVC profile door, window, guardrail.

PVC soft hard co-extrusion; Materials such as multi-color co-extrusion; foaming co-extrusion etc.

PVC cable trunking, line pipe, communications pipe; a multi-cavity pipe; foamed pipe, winding pipe; board tape etc.

◆主要用途：

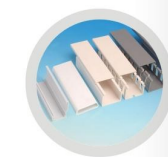

平开门、窗；推拉门、窗；百叶窗、中悬窗；塑钢彩铝门、窗；护栏；线缆、线管等。

MAIN APPLICATION:

side-hung door, window, sliding door, sliding window, shutters, hanging window; pvc profile color door, window, guardrail; slot line pipe and so on.

◆每年近千套的模具制作经验，经过不断改进使模具能适应多种配方及不同的设备。

The mould every year nearly one thousand sets of production experience, through continuous improvement to make the mould can adapt to a variety of formulations and different equipment.

◆合理的尺寸取值及水气排布，保证模具的连续生产能力。
The size and moisture value of reasonable arrangement, and ensure continuous production capacity of mold.

◆定型模型采用雕刻成型代替传统的线切割，产品可视度平整度更能得到保证。
Setting model is adopted instead of the traditional sculpture moding line cutting, product visual surface flatness can be better guaranteed.

◆精良的加工设备及先进的制作工艺，保证了模具的定位精度。
The excellent processing equipment and advanced production technology, to ensure the return precision mould.

品质 / 专注 / 质量 / 诚信
Quality / focus / quality / credibility

PP·PE 木塑模具

PP·PE WOOD PLASTIC MOULD

PE+木粉
PP+木粉
PE+wood powder
PP+wood powder

◆主要用途:

园林景观、凉亭、护栏、栈道板、葡萄架、工业托盘、门板、建筑装饰板材、及泡板、家具板材等。

MAIN APPLICATION:

Landscape, a pavilion, guardrail, plank road board, a grape, industrial tray, floor plank, architectural decoration board, foam board, furniture board, etc.

◆模具先进的冷却系统设计, 保证冷却效果的同时, 能方便快速的更换水管及清理水垢。
Advanced mold cooling system design, to ensure that the cooling effect at the same time, the quick and easy replacement of the pipe and clean water.

◆独特的芯棒耐磨处理技术, 有效提高模具的耐磨性能。
Unique mandrel wear-resisting processing technology, effectively improve the wear resistance of the mould.

品质 / 专注 / 质量 / 诚信
Quality / focus / quality / credibility

PVC木塑、发泡模具 PVC WOOD PLASTIC COMPOSITE, FOAMING MOULD

PVC+木粉
PVC发泡
PS发泡
PVC发泡：内外结合；共挤发泡等。
PVC+wood powder
PVC foaming
PS foaming
PVC foaming：inner and outer crust；extrusion foaming etc.

◆主要用途：
建筑装饰门框、线条、仿木地板、发泡百叶窗、吊顶材料、镜框、室内楼梯、扶手等。

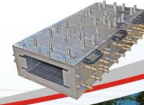

MAIN APPLICATION:
Building decoration door frames, lines, imitation wood floor, foaming shutters, cornice top material, spectacle frame, indoor staircases, handrails, etc.

◆以专业的配方技术为基础，可提供各类复杂断面及不同壁厚的模具。
The basis of professional formula technology, can provide all kinds of complicated cross-section and mould with different wall thickness.

◆为客户从材料配方、操作技术、设备选型、模具技术等方面提供“交钥匙”工程。
For the customers to material formulation, operation technology, equipment selection, mold technology to provide "turn-key" project.

◆在不要改模具的前提下，通过调整配方，可获得不同密度的制品。
In the premise of not changing the mould, by adjusting the formula, can obtain products with different density.

品质 / 专注 / 质量 / 诚信
Quality / Focus / Quality / Credit

中空格子板模具、木塑门板模具
HOLLOW GRID BOARD EXTRUSION MOULD,
WPC DOOR PANEL EXTRUSION MOULD

PVC 木塑门板
PVC 窗台板
PVC 格子板
异型中空格子板
PVC-WPC door panel
PVC hollow board
PVC profile grid board
Special hollow grid board

◆ **主要用途：**

中空整体门、折叠门、中空橱柜板、家具中空板、材等。

MAIN APPLICATION:
Hollow overall door, folding door, Hollow cabinets board, furniture hollow board etc.

◆ **应用性强**

衣架式流道，出料更均匀，更易成型，不堵料不糊料。

THE APPLICATION OF STRONG
Hanger type flow passage, a discharge more uniform. More easy moulding, don't lag material paste.

◆ **易操作**

拆装方便且定位精准，更换部件即可做不同壁厚产品。

EASY OPERATION
Easy disassembly and positioning precision, replacement of parts can be of different wall thickness products.

◆ **省电节能**

电加热棒植入模具内部，省电50%。

THE ENERGY SAVING
The electric heating rod implantation within the mould, saving 50%.

Quality / Focus / Quality / Credit

PVC结皮发泡板材模具 PVC CRUST FOAMED BOARD MOULD

WPC 建筑模板
PVC 结皮发泡板
PVC 木塑板
PVC 硬板、片材
WPC Building template
PVC crust foamed board
PVC wood-plastic panel
PVC board, sheet

◆主要用途：
橱柜板、建筑模板、家具板材、卫生洁具板等。
MAIN APPLICATION:
Cabinet board, building template, furniture board, sanitary ware cabinet board etc.

◆独家拥有国内发泡板材模具调试生产线，不断进行研发和改进。
Exclusive domestic foam sheet mould debugging production line, the ongoing development and improvement.

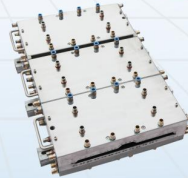

◆可实现在线调整板材厚度，无需更换部件。
It can realize the on-line adjustment board thickness, no need to replace parts.

◆衣架式流道设计使物料均匀，适合于各种不同配方。
The clothes rack channel design makes the material evenly, suitable for a variety of different formula.

◆为客户从材料配方、操作技术、设备选型、模具技术等方面提供“交钥匙”工程。
For the customer to the material formulation, operation technology, equipment selection, mould technology and other areas to provide "turn-key" project.

技术可以改变世界

TECHNOLOGY CAN CHANGE THE WORLD

我们的目标：做顶级的挤出模具制造商；
我们的精神：专业、高效、守信；
Our vision: to be the top of extrusion mould manufacturer;
Our spirit: professional, efficiency, faith;
Our style: quick, accurate, durable.
