

## PZB-900-F10 FULLY AUTO VACUUM PACKING MACHINE

**i. Applications**

ii. Appliance for the quantitative vacuum packaging in the industry of rice, grains, peanuts, and food etc.

**iii. Technical Parameter:**

Model No.	PZB-900-F10
Weighing Range	5~10
Packing Speed(bags/h)	Regular packing:700~900 Vacuum Packing:600~800
Power Supply	4N-AC 380V 50Hz、 9.45KW
Air ,Air Consumption	0.5~0.6MPa 50m <sup>3</sup> /h
Product Size (MM)	3050(silo not included)

**iv. Basic Configure:**

序号	Name	Brand
1	Touch Screen	Japan/Omron
2	PLC	Japan/Omron
3	Electrical parts	Japan/Omron、 France / Schneider
4	Vacuum Pump	Germany/BECKER Lybold
5	Cylinder	Taiwan/Airtac
6	Linear Slides	Taiwan/ABBA
7	Miniature geared motors	Taiwan / ruiyong

**v. Functions and Features**

- Fully automatic
- One machine can do 3 types of bags: regular , gas-filling, vacuum bags
- Omron touch screen, Omron PLC centralized control, intelligent control weighing, filling, Vacuum, heat sealing, unloading bags, the whole process of transportation, real-time tracking system working state, friendly interface, easy to operate;
- high reliability and long service life;
- imported from Germany, vacuum pumps, stable and reliable;
- device with fault self-test function, maintenance is simple and convenient;
- intelligent control information presentation system;

vi. Installation Sizes
