

## LZB-700-R6

### Semi-auto Cubic Shape Weighing & Vacuum Packing Machine

i. Applications

Suitable for purified rice, foods, coarse cereals processing industry of cubic package

ii. Technical Information

Model No.	LZB-700-R6
Weighing Range (kg)	0.5-2.5
Packing Speed (bag/h)	660-720
Power Supply	4N-AC 380V 50Hz、 5.0KW
Air ,Air Consumption	0.4-0.6MPa 3m <sup>3</sup> /h
Product Size (MM)	2400 (silo not included)

iii. Basic configure:

No.	Name	Supplier
1	Touch screen 10 "	Japan / Omron
2	Weighing controller	Canada/General
3	PLC	Japan / Omron
4	Switching Power Supply	Japan / Omron
5	Solid state relay	Japan / Omron
6	Intermediate relay	Japan / Omron
7	Load cell	USA/ Celtron
8	Phase sequence protection relay	France / Schneider
10	Vacuum pump	Germany/ (BECKER)
11	Cylinder	Taiwan /Airtac
12	Solenoid valve	Taiwan /Airtac
13	Linear Slides	Taiwan/ABBA
14	Miniature geared motors	Taiwan / ruiyong

iv.

v. Function &Features

- ▲ Unique design cubic shaping institution, flexible packing size, big packing weight extend, easy to change the mode
- ▲ Unique duplex design, compact structure, in a smaller space to complete the material angular cubic packaging.

- ▲ Adopt imported load cell, pneumatic element and detective element, reliable and with a self-reduction and safety devices
- ▲ The main structure of aluminum and stainless steel materials based, attractive looking and durable using
- ▲ Reserved RS232/485 serial port can be used with the external management system for data communication
