

JL Series Auto-Shaping Vacuum Sealer Machine

i. Applications

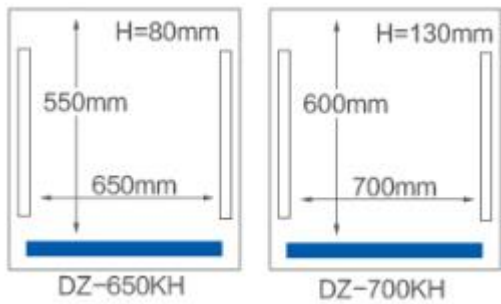

The JL series vacuum sealer machine is used for vacuum packing all kinds of grains and other granule material. Effectively extend the shelf life of the materials.

ii. Technical parameters

Model	JL650KH	JL700KH
Voltage	110V/220V/240V	110V/220V/240V
Pump power	2KW	2.2KW
Chamber size	740*560*80mm	835*655*130mm
Sealing size	650*10mm	700*10mm
Packing capacity	1-3bags/min	1-3bags/min
Overall size	865*695*930mm	960*795*930mm
Weight	125kg	140kg

iii. Function and features

- * Use 3.9 inch touch screen, all the information are displayed clearly.
- * Made of food grade 304 stainless steel. Clean and longer service life.
- * Automatic capping-sealing-shaping-vacuumping-opening cap.
- * Multi-function, suitable for packing flat shape and brick shape (need moulds) bags.
