## PRODUCT PERFORMANCE

### Low engineering cost:

The cost of the sheet metal project is about one-third of the cost of the aluminum-plastic panel curtain wall project, and the decorative effect is very good.

### Light weight:

The weight is extremely light, convenient to transport and easy to install.

### Fast construction:

The construction speed is only less than half of the similar materials.

### Long service life:

15 years without fading, plate life is more than 30 years.

Thermal insulation, sound insulation and noise reduction:

Equivalent to the thermal insulation effect of 5cm polystyrene board.

### Rich colors and patterns:

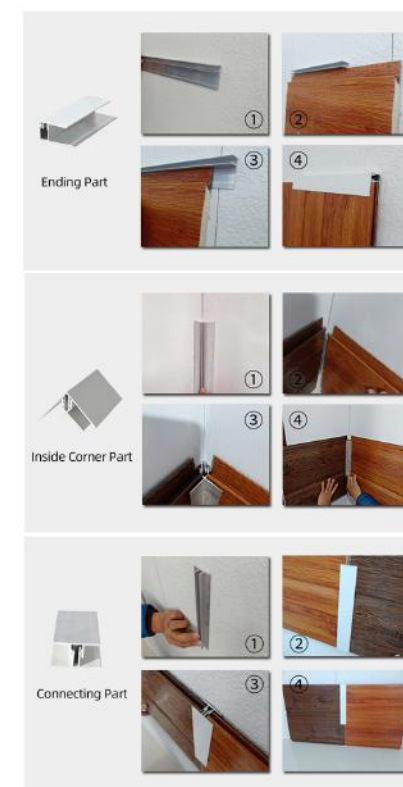

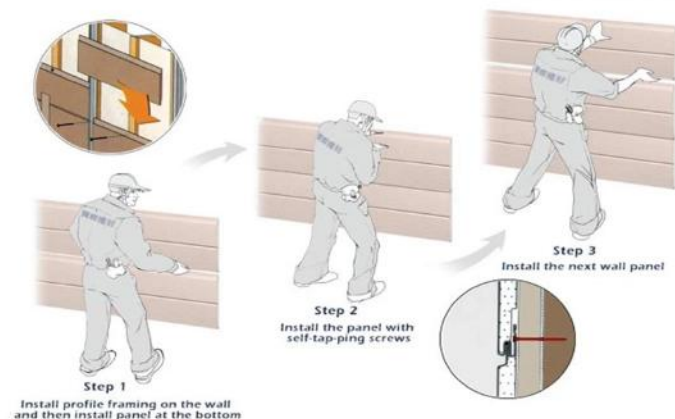

Any combination: brick, stone, marble, bark, smear, cultural stone, wood etc.

### Wide range of applications:

Renovation of old buildings, indoor and outdoor wall decoration, various new buildings, movable rooms, villa, sentry boxes, container houses, environmentally friendly toilets, modular and prefabricated buildings.
