

◆ EMU Carriage Video Surveillance System (RHV) ◆

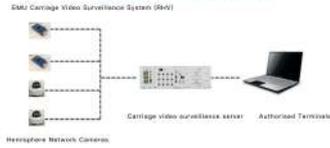

Product Introduction

The video surveillance system (RHV) is installed inside the train compartment. Our company has developed different models of a video surveillance system according to different train models. The system integrates NVR host, hard disk, power module, switch module, matching panoramic network camera, and dome network camera; with the authorized terminal, it can realize video query, storage, playback, and download functions.

MAIN FEATURES

- 1) Support for 1080P or 720P resolution HD network cameras, M12 interface;
- 2) Support for 1 network interface; access to authorized terminals, M12 interface;
- 3) Support for 1 hard disk cassette with a built-in 2TB hard disk; the cassette has vibration isolation measures.
- 4) Support 1 USB 3.0 interface.

System components

Main features

PANORAMA WEBCAMS

PANORAMA CAMERA SPECIFICATIONS

Item	Parameter	
Taking lens	field angle	180°
	azimuth field angle	360°
	focus	Within the range of 1.2-1.4mm
	clear aperture	2.0
Sensor parameters	Fastening method	With locking device to meet the requirements of a vibrating train environment
	Sensor type	1/3" CMOS imaging target
	Shutter	1/50 second to 1/200,000 second
	Image pixels	Progressive scan over 2 million pixels
SNR	>60dB	
Codestream type	Supports dual-stream	
Character overlay	Supports train number, camera position number, date, time	
Alarm function	Provides video blocking and video screen loss alarms	
Other functions	Support dual-stream, anti-flicker, heartbeat signal, multi-level user management	
Security level	Protection level IP54 (positive)

CARRIAGE SERVER SPECIFICATIONS

Technical		Technical specifications	
Model number		RHV	
System	Operating system	Linux3.0.8	
Video	Input	8-channel IPC (2 reserved, 6 channel 1080P)	
	Operating interface	External authorised terminals	
Video	compression formats	Video H.264	
	Image resolution	1080P@720P	
Network	Ethernet	M12(100M)X9	
Storage	Hard Drive	2.5" SATA hard drive X1	
Interface	Interface	USB 3.0 (reserved)	
	Voltage	DC67.2-143V (Wide voltage input range)	
Power supply	Current	Input DC110V@0.72A	
	Output	DC+24V	
Power consumption	Maximum power consumption	110V power supply Maximum power consumption in normal operation <80W
