公司诚挚希望与全球客户建立长期友好的互利合作关系，通过业务往来与技术交流，携手开发医疗器械产业发展机遇，实现互利共赢、协同发展。

Guangdong Yadeng Medical Apparatus Co., Ltd. is a professional manufacturer and service provider of medical equipment, dedicated to providing high-quality services and integrating R&D, manufacturing, and marketing. Our main products include integrated dental treatment units, suction systems, and air supply systems for oral care. We also act as an agent for the sale of related medical equipment products from both domestic and international manufacturers. We constantly strive for excellence and are customer-centric, providing our partners with professional and efficient product solutions.

Core Strengths and Production Guarantee

The company is equipped with a professional human resources team, mature technical capabilities, and a comprehensive after-sales service team. It possesses approximately 8,000 square meters of standardized production and manufacturing facilities, ensuring stable product production, delivery, and after-sales service. The company has a complete manufacturing system, including metalworking workshops, injection molding workshops, PU processing workshops, painting workshops, and product assembly and testing workshops. Through standardized equipment manufacturing processes, the company controls product quality, providing multi-faceted support and guarantees for quality improvement.

Market Presence and Service Capabilities

Our company's business covers multiple countries and regions, with a professional sales team and service network spanning large, medium, and small cities both domestically and internationally, ensuring a wide service reach. We also have a professional sales and after-sales team to provide customers with comprehensive, tailored services throughout the entire process, covering pre-sales consultation, in-sales support, and after-sales maintenance.

Qualifications and Compliance Assurance

The company has obtained the three required business licenses in accordance with the latest domestic registration policies and standards. It has also obtained the EU ISO 13485 international quality system certification for medical devices, the latest CE MDR certification, and US FDA certification, becoming one of the few companies in the domestic dental industry to hold these three certifications. This multi-dimensional certification system meets market access requirements in different countries and regions, providing customers with quality assurance from a compliance perspective.

Cooperation Vision

Our company sincerely hopes to establish long-term, friendly, and mutually beneficial cooperative relationships with global customers. Through business interactions and technical exchanges, we aim to jointly develop opportunities in the medical device industry, achieving mutual benefit and collaborative development.

牙科诊室管路布置及空间要求: Dental clinic piping layout and space requirements:

- 1、供水 / 供气管: PPR 热熔管, 预留 4 分铜内牙接口;
Water supply/gas supply pipe: PPR hot melt pipe, with 4 points of copper internal tooth interface reserved;
- 2、排污管: PVC 排水管, 主管 $\geq 75\text{MM}$, 支管 50MM;
Sewage pipe: PVC drainage pipe, main pipe $\geq 75\text{MM}$, branch pipe 50MM;
- 3、VGA 视频及 USB 数据线管 (如有需要): PVC 穿线管 $\geq 32\text{MM}$, 可备用一条后期维修使用;
VGA video and USB data cable tube (if necessary): PVC threading tube $\geq 32\text{MM}$, a spare one can be used for later maintenance;
- 4、电动负压管: UPVC 给水管, 主管道 50MM, 支管 32MM, 接入牙椅管 25MM;
Electric negative pressure pipe: UPVC water supply pipe, main pipe 50MM, branch pipe 32MM, connected to the dental chair pipe 25MM;
- 5、电动负压信号线 / 输入电源线: PVC 穿线管, 4 分管套 $2 \times 1.5 \text{ m}^2$ 线;
Electric negative voltage signal line/input power line: PVC threading pipe, 4-piece pipe set with $2 \times 1.5 \text{ m}^2$ wire;

注意事项: 排水管和负压接管处不能用直角接头, 应该用 45° 接头; 供水供气要预留独立开关。

Note: Right-angle joints cannot be used for drainage pipes and negative pressure pipes, and 45° joints should be used; independent switches should be reserved for water and gas supply.

供水供气要预留独立开关。
