

SHAN DONG JIE HAN METAL MATERIAL CO.,LIMITED

Production of aluminium paste and powder
zinc paste , zinc powder , aluminium mg alloy powder

TECHNICAL DATA SHEET

PRODUCT NAME : ALUMINUM PASTE JH09

DESCRIPTION :JH09 is silver dollar shape , leafing aluminium powder, have excellent whiteness and excellent hiding power

APPLICATION : it is main use for dacromet coating , cr-free zinc al coating, powder coating and plastic industrial .

PRODUCTION SPECIFICATION

| characteristics | typical value | unit | test way |
|-------------------|---------------|------|--------------------|
| solid | 99 | % | 150 degree 2 hours |
| particle size D50 | 9 | UM | ISO13320 |
| leafing value | 80 | MIX | company standard |
| Watercontent | 0.1 | MAX | ISO760 |
| 325mesh sieving | 0.1 | max | ISO1247 |

application guide :

during do disperse ,please use lower mix speed , the high speed mix will be broken aluminium flake .

storage :

aluminium powder is class 4.1 danger goods , please put far away any fire source . details please follow msds .

SHELF LIFE :

12months(from production date- applicable to closed drums)
