SPARES FOR HEIDELBERG PRESSES

NEW PRESS PARTS TO KEEP YOU RUNNING

ink temperature couplings for CD102, SM102, CD74, XL75

PP9049 SM/PM 74 vacuum feed belt

PP9048 SM102/72 feed tape guide roller

PP6106 PM/QM46 unit 1 fount bottle cap

PP6100/1 SM102 coater cheeks large DS/OS

PP6102/3 SM102 coater cheeks small DS/OS

PP3614 sucker for Komori plate loader

PP6097 Inkliner seal ring

PP6104 Coater cheek screw

PP842 autoplate loader O ring

PP6096 SM102/72 Z roller universal adjuster set

PP6099 SM74/MO/GTO Z roller adjuster set

PP9051 CD74/XL75 feed head valve seal

PP9050 CD74/XL75 sucker carrier

PP7059 CP2000 touch screen membrane

PP7056 PM/QM46 solenoid

PP304 sheet drive roller for Stahl folder

PP8016 CD/SM102 inline filter

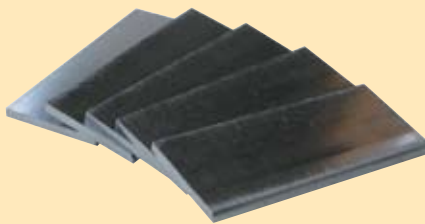

Long lasting high quality oscillating roller for Varn Kompac

PP7057 inverter board for touch screen monitor

PP7058 inverter board for early touch screen monitor

High quality compressor vanes

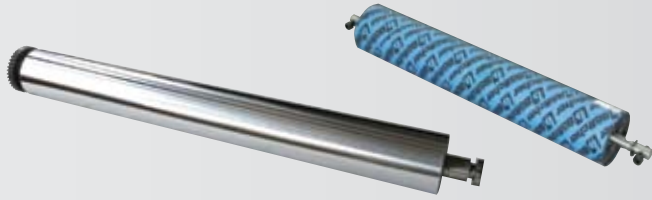

PP8015 filter for Ametec

PP7055 small LED display for CPcompact and delivery panel

INTRODUCING PRESS PARTS ROLLERS

The introduction of our own CERES brand of high quality rollers has been a huge success and we have steadily been increasing the scope of rollers available.

Drawing on our experience we will be able to offer an unrivalled exchange service for Heidelberg presses.

CERES rollers are produced from only the highest quality elastomer compounds - matching the original rollers supplied on a new press.

**TIME IS SAVED ON EVERY WASHUP
WASTAGE IS REDUCED ON EVERY MAKEREADY**

Complete rollers

Ref	Description
PP957	Quickmaster Unit 2 metering exchange
PP960	Quickmaster early plate damper (pin type)
PP5173	QM46 Unit 1 Damping distributor oscillating exch
PP917	GTO52 Numbering rollers (set of 5)
PP914	GTO52 Numbering form
PP915	GTO52 Numbering transfer
PP916	GTO52 Numbering vibrator
PP921	GTO46 Numbering rollers (set of 5)
PP918	GTO46 Numbering form
PP919	GTO46 Numbering transfer
PP920	GTO46 Numbering vibrator
PP5115	GTO52 Varn Kompac form exchange
PP5116	GTO52 Press Parts Kompac III oscillator*
PP5117	GTO46 Varn Kompac form exchange
PP5118	GTO46 Press Parts Kompac III oscillator*
PP5129	GTO DDS Metering early type exchange
PP5169	MO Varn Kompac form exchange
PP5184	MO Press Parts Kompac III oscillator*

* Cashback £100 is available for return of old Kompac III type roller (subject to condition)

Probably the best range of replacement rollers for Heidelberg presses

HARD ROLLERS FOR YOUR HEIDELBERG

Status	Ref	QM/PM46
*	PP5128	QM46 Unit 1 damping distributor
*	PP5128a	PM46 Unit 1 damping distributor

SWITCHES AND SENSORS

Pos	Ref	Description
a	PP458	Limit switch smooth action
	PP459	Limit switch snap action
b	PP7019	Roller to convert PP443 to position switch
c	PP491	GTO Switch under feedboard for counter
	PP7016	MOE Switch under feedboard
d	PP7024	SM52 Roller switch
e	PP483	Microswitch under feeder GTO "sniffer valve"
f	PP428	Delivery pile motion switch (feed pile chain S-line)
g	PP442	Limit switch AT11
h	PP443	Limit switch AT11a new style
i	PP7039	SM74/52 Front lay monitor
j	PP489	Limit switch AT0 used on guard interlocks
k	PP7023	Limit switch used on guard interlocks
l	PP423	Moeller roller lever
m	PP7012	Visolux RL-2 front lay eye
n	PP7021	SM74/SM102 Delivery pile height sensor
o	PP7020	SM52 Water level sensor
p	PP7014	SM/CD102/SM74 water level sensor 12mm
q	PP7030	CD74/XL75 water level sensor

Pos	Ref	Description
1	PP7022	Speed indicator 48mm square
2	PP466	GTO/MO/S/SM Tacho for speed indicator/damping
3	PP451	Job counter 6 digit with reset button
4	PP444	Machine total counter 8 digit
5	PP472	Electronic batch counter for GTO
6	PP7031	Circumferential register potentiometer

SWITCHES

Pos	Ref	Description
a	PP406	CPC button square (new style) plug in leads
b	PP407	Clear lens for PP406
c	PP476	CPC button rectangular plug in leads
d	PP481	CPC signal lamp plug in leads
e	PP482	Lens for PP476 and PP481 (state colour)
f	PP402	CPC button (old style) for soldered on leads
g	PP403	Clear lens for PP402
h	PP408	Removing tool for wedge type bulbs
i	PP463	Removing tool for bi-pin bulbs
j	PP424	Illuminated blue button
k	PP425	Illuminated white button
l	PP7017	Illuminated blue locking down button
m	PP7018	Illuminated white locking down button
n	PP456	Flush button black
o	PP7006	Reverse inch recessed button
p	PP7005	Flush button red
q	PP7004	Flush button blue
r	PP455	Emergency stop button
s	PP7032	Fitting/removal tool for CPC snap-fit buttons
t	PP433	Safety selector switch
u	PP7010	Membrane sub panel switch
v	PP7011	Membrane sub panel switch with LED
w	PP7013	Membrane surface mount switch
x	PP7034	Membrane panel emergency stop button
y	PP7047	Membrane surface mount stop button (operator)
z	PP404	Bi-pin lamp for CPC control buttons 12v
\$	PP405	Bi-pin lamp for CPTronic control buttons 24v
Ω	PP401	Wedge lamp for older CPC buttons PP402
	PP7037	Wedge lamp for older CPTronic buttons 24v PP402
¶	PP409	Lamp for large buttons and indicators

REPLACES

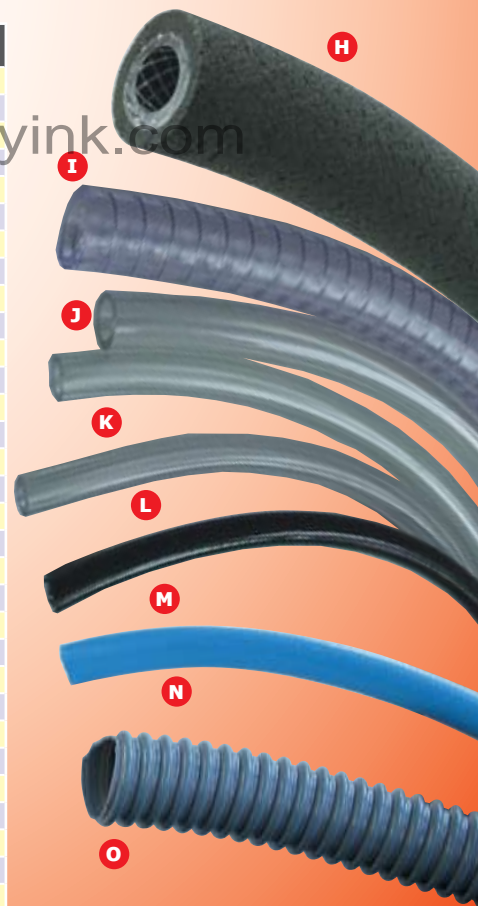

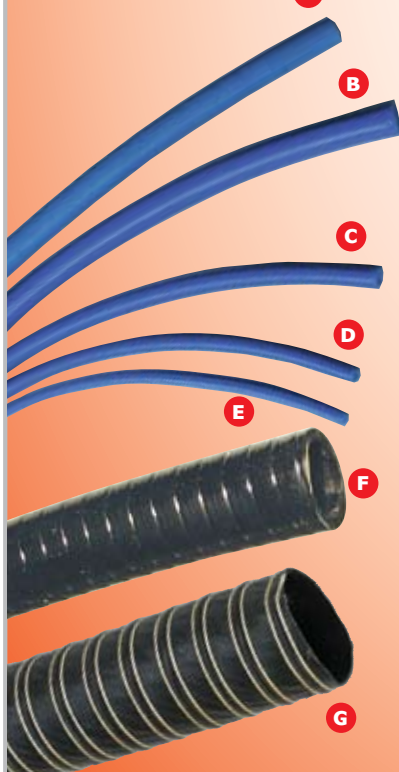

Our new technology valve features a balanced action, powerful spool action which overcomes the contamination issues suffered by the old 1980s design.

CERES PRECISION PLATE AND BLANKET HEIGHT GAUGE

At last, a blanket packing gauge which is really accurate and simple to use.

It is now so easy to check vital printing pressures - without removing the blanket!

PRINTER PAT'S CERES CLEANING GUN

The gun comes complete with the correct connections to plug into the pneumatic compressor and has 7 metres of reinforced hose which is normally sufficient for a 4 unit press. We can supply a longer hose on request.

A special branch connector is supplied enabling the press to remain connected with the compressor. Extra connectors are available allowing use of the Puffer gun on several presses.

Ref	Description

PERFECTING JACKETS

Hi-Tech surface for any press

Our jackets are topped with Liquified Metal Coating CERES on ceramic base for best ink repellency and durability.

The CERES top coat gives the ideal lotus effect ink repellency, with a texture for best quality print and toughness exceeding any other manufacturer.

CERES Jackets offer outstanding resistance to common solvents and heat up to 700 C.

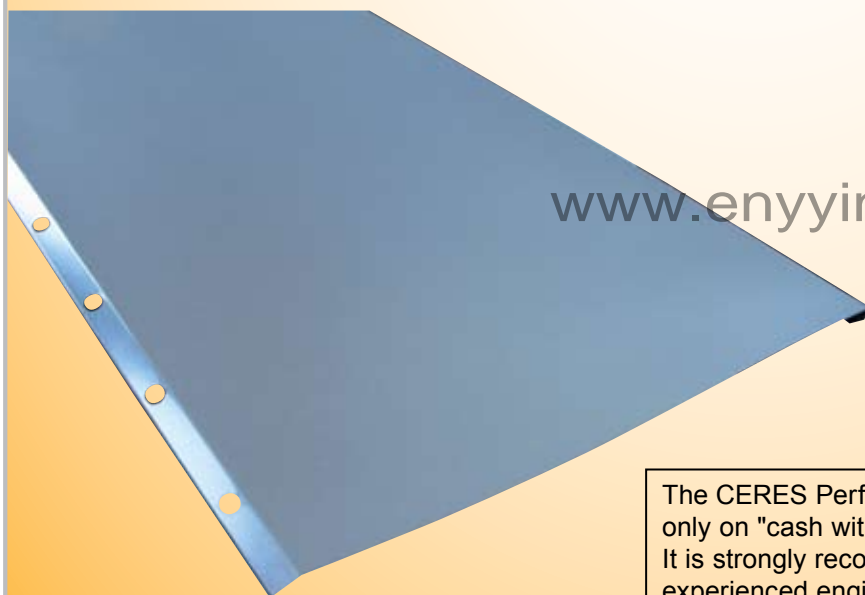

CERES Jackets are easily cleaned, manually or automatically, with commercially available washing agents.

STOP MARKING - START PRINTING Print Area

CERES

The silicone coated glass bead anti-marking jackets with built in packing

These glass bead technology jackets incorporate a special closed cell compressible underlay and fit directly on the cylinders without any further underpacking.

This material is also available as cut sheets (without underlay) for fitting to drums or perfecting cylinders with double sided tape.

Please note: SM102 PrintGuard now supplied without steel rod. If required rod is available as separate item PP1345.

FOLACOAT PLUS PET Coating Blanket

Genuine Folex® stripping blanket for SM74 allows you to create individual formes for the job in no time at all. This unique product can be manually or CAD cut and is able to transfer aqueous and UV coatings. Special purchase: size 605 x 740 - thickness 1.15mm

DIE CUTTING AS FAST AS PRINTING

Perf Print Plus inline on any press

Perforating, Cutting, Die-cutting, Kiss cutting, Creasing, Scoring

Now you can produce that clever in-line finishing which impressed you at IPEX. This super kit makes it possible to produce flat die cut or perforated sheets at high speed from your own or made up cutting formes.

Finishing processes which have, up to now, only been available as slow, expensive off line operations can now be performed inhouse, as part of your printing process.

This smart new way of adding value to your printing is available to you **NOW**

The “double whammy” is that it is even possible to perform partial printing on the same unit!

Starter kits available for all presses and comprise:

- Compensated base foil with millimetre grid lines
- Underlay base set
- Impression cylinder protection foils
- 10 Perforating rules
- 5 cutting rules
- 5 creasing rules and counters
- 1 Felt sheet
- 1 Rubber blanket
- 1 Tool set (5 pieces)
- Starter kit contents may vary

See page 35 for stock list of consumables

Cutting and creasing jacket for LithoPerf available for all makes of press

Consistent quality without any embossing of the sheet can be achieved by mounting this special hard jacket on the blanket cylinder. Precision backing set is also recommended.

When Standard or Precision LithoPerf is mounted on the impression cylinder the sheets stay flat and high stacks can be run.

CD74 (including dampers) 10 rollers
SM102 (including dampers) 12 rollers

Subject to phone confirmation
 Prices above are for supply only
 Carriage is charged on rollers
 All rollers are supplied "press ready"
 Individual rollers available

CERES Roller Service

We pride ourselves on our easy and efficient roller supply. We aim to always have adequate stocks to supply a whole order in one drop.

The spindle deposit is charged on the invoice and refunded when you, the customer, return them to our works, in your own time and at your convenience. The refund will only be withdrawn if the metalwork is damaged but you will always be phoned if this is the case. Fairness is our byword.

Guarantees are not generally given on rubber rollers because manufacturers have no control on the way they are set or the chemicals which are used, but PRESS PARTS rollers are made from the highest grades of graphic compound **anywhere** in the world - GUARANTEED!

Why give profits away? Keep profits where you want them – in-house. Perfect Perf Offset rules attach to the impression cylinders of the press and enable the operator to perf, score, slit and die-cut on press – while you print! Quality manufacturing steps provide you with products you can count on to perform consistently. This translates into lower costs and higher quality for your clients.

- Heat-treated for strength
- Sharpened with diamond-wheel sharpeners
- Available in the original Side Series (SS) or Center Series (CS) for increased pressure and longer runs
- Available in a variety of configurations for a multitude of applications.
