

666

3 IN 1

Product Name: 666 3 IN 1

Model: 666

Product Type: 3 IN 1 Wax (Decontamination, Scratch Removal, Maintenance)

Application: Automotive Exterior Decontamination, Scratch Repair, Paint Maintenance & Glazing

Product Description

666 3 IN 1 is a professional all-in-one automotive exterior care product, integrating decontamination, scratch removal, and paint maintenance into a single easy-to-use formula. Designed for both professional detailers and car enthusiasts, it effectively simplifies car care routines by eliminating the need for multiple products, delivering comprehensive protection and a brilliant shine in one application.

Formulated with advanced abrasive and cleaning agents, this yellow wax is engineered to remove light to moderate surface contaminants, including road grime, tree sap, bird droppings, and oxidation, while efficiently eliminating P3000 grit sanding marks and minor surface scratches. Its gentle yet effective formula ensures it does not damage the original paint or clear coat, making it suitable for all automotive paint surfaces.

Beyond cleaning and scratch removal, this 3 IN 1 wax provides long-lasting maintenance by forming a protective barrier on the paint surface, enhancing paint gloss and depth, and safeguarding against UV rays, dirt, and environmental pollutants. It applies smoothly, spreads evenly, and wipes off cleanly without leaving streaks or residues, leaving behind a smooth, high-gloss finish that restores the vehicle's original luster. With its balanced performance and user-friendly design, it is the ideal choice for regular car maintenance and light scratch repair.

Key Features & Benefits

- **3 IN 1 All-in-One Performance:** Integrates decontamination, P3000 grit scratch removal, and paint maintenance in one formula, simplifying car care routines.
- **Effective Decontamination:** Removes road grime, tree sap, bird droppings, oxidation, and other surface contaminants, restoring a clean surface.
- **Scratch Removal Capability:** Efficiently eliminates P3000 grit sanding marks and minor surface scratches, improving paint appearance without damaging the clear coat.
- **Paint Maintenance & Protection:** Forms a protective barrier to shield paint from UV rays, dirt, and environmental damage, enhancing gloss and longevity.
- **Yellow Wax Formula:** Smooth, easy-to-apply consistency, spreads evenly and

wipes off cleanly with minimal effort.

- **Paint-Safe Formula:** Gentle on all automotive paint surfaces and clear coats, suitable for regular use without causing marring or discoloration.
- **High-Gloss Finish:** Restores the vehicle's original shine, enhancing paint depth and clarity for a showroom-worthy appearance.

Technical Specifications

- **Color:** Yellow
- **Density:** 0.95 kg/L
- **Form:** Smooth Wax
- **Scratch Removal Capacity:** P3000 Grit Sanding Marks & Minor Surface Scratches
- **Shelf Life:** 3 years (when stored properly)
- **Storage Conditions:** 15–25°C, sealed, avoid frost and direct sunlight
- **Compatible Surfaces:** All automotive paint surfaces, clear coats, and painted trim (excluding matte finishes)
- **Application Method:** Hand application or DA polisher (low speed)

Recommended Usage

1. **Surface Preparation:** Ensure the vehicle exterior is cool to the touch and free of loose dirt and debris. Rinse the surface with clean water and dry thoroughly with a clean microfiber towel.
2. **Application Tool:** Use a clean microfiber applicator pad for hand application, or a soft foam pad for DA polisher use (low speed).
3. **Application:** Shake well before use. Apply a small amount of wax onto the applicator pad, then spread evenly over the surface in small, circular motions, working in 30×30 cm sections.
4. **Scratch Removal & Cleaning:** For areas with P3000 grit marks or contaminants, apply slight pressure while working the wax into the surface until the marks are eliminated and contaminants are lifted.
5. **Finishing:** Allow the wax to dry to a light haze (approximately 2–3 minutes, depending on temperature). Wipe away the haze with a clean, plush microfiber towel using light buffing motions to reveal a high-gloss finish.
6. **Maintenance Schedule:** For optimal results, reapply every 4–6 weeks or as needed, depending on environmental conditions and vehicle usage.

Packaging Options

- 1 Liter
- 1 Gallon
- 20 Liter

Important Notice

This product is designed for automotive exterior use only. Do not use on matte paint finishes, plastic trim (test on an inconspicuous area first), or glass. Avoid application in direct sunlight or on hot surfaces to prevent streaking. For deep scratches (deeper than clear coat) or heavy oxidation, additional repair products may be required before using this wax. Store in a sealed container at the recommended temperature to maintain product consistency and performance. Keep out of reach of children and avoid contact with eyes.
