Use: car tire protection

Application: high shine tire dressing

Consumer Label: YES

Color: red

MOQ: 1000 Kilograms

Details:

The unique formula prevents the tire from turning yellow and browning. It also eliminates splashes, drippings, lines, and driveway dirt. In severe weather, such as storms and flooding, tires can still look perfect for several weeks.

703 Tire Gel has long been the enthusiast's choice.

Long-lasting shine remains for weeks, even through rain!

Controlled application with no runs or drips

Advantage:

- 1- VOC compliant solvent based exterior dressing
- 2- Gives a high gloss shine on tires
- 3- Protects and beautifies vinyl and other parts of the cars

Directions

This multi-use solvent is for vinyl parts, skin, and tires. Apply a small portion with a sprayer or a sponge and wipe with smooth towel and let it rest. Excellent to resist the water.
