Advantage:

1. The outer box is made of high-quality cold-rolled steel plate, and the surface is treated with environmentally friendly ceramics and spray coating. The inner box is made of international standard SUS304 stainless steel.
2. Precise temperature control, setting accuracy reaches 0.1°C.
3. Internationally renowned brand compressor, environmentally friendly and efficient hydrocarbon refrigerant, fast refrigeration speed, high refrigeration efficiency and low power consumption.
4. It has the functions of high and low temperature alarm in the box, sensor failure alarm, power outage alarm (supports 48 hours), and compressor failure alarm.
5. Safety double lock design ensures the safety of stored items.

Technical Parameters

Model	BDF-40H300
Capacity	300L
Temperature Range	-15~-40°C
External Size	1209*778*876mm
Net Weight	76kg
Alarm Method	Sound, light
Cooling Method	Direct cooling
Shelves No.	No
Noise	55dB(A)
Ambient Temperature	10-32°C
Display Method	Digital display
Power	280W
Power Supply	Standard:220V 50Hz, optional: 220V 60Hz, 110V 50/60Hz
Packing Size	1325*885*1015mm
Gross Weight	101kg
