

**Optional Accessory**

- \* Mattress
- \* Infusion support
- \* Removable dining table
- \* Stretching table
- \* Bedside cupboard
- \* Medical record folder

**Features**

- The bed frame is made by welding high-quality steel sections and is coated with electrostatic powder on the surface. It is sturdy, durable and has a beautiful and elegant appearance.
- The bed board is made of high-quality cold-rolled steel plate, which is formed by a single stretching process. The surface is electrostatically painted for corrosion resistance and easy cleaning.
- The head and foot of bed are made of engineering plastic and are formed in one piece. They have an attractive appearance and are installed with a locking mechanism. They can be easily disassembled and can accommodate a bedside card.
- The casters are equipped with 5-inch silent casters, which are highly flexible in rotation, stable and durable, with excellent wear resistance and no noise. Each corner is equipped with a braking device.
- Aluminum alloy folding guardrails are installed on both sides, which can be easily folded and retracted, and are securely locked. This design ensures the safety of patients during use.
- The rocker lead screw adopts a ABS concealed hand crank, featuring a lightweight and flexible structure. The lead screw is equipped with a bidirectional limit protection device, ensuring safety and reliability.

**Technical Parameter**

| Model                | MF207S                |
|----------------------|-----------------------|
| External Size(W*D*H) | 2120*970*500mm(±10mm) |
| Back Adjustable      | 0~70°(±5°)            |
| Leg Adjustable       | 0~35°(±5°)            |
| Packing Size(W*D*H)  | 2050*1000*460mm       |
| Gross Weight         | 80kg                  |
