BIOBASE CHINA

Version 2024-1

About Us

BIOBASE is a global leading innovative company founded in 1999. We focus on the laboratory and medical fields and are committed to providing customers with efficient, high-quality and customized solutions.

Meanwhile, incubator and oven occupy an important position for laboratory series of products. Incubators include CO₂ incubator, tri-gas incubator, constant temperature and humidity incubator, multifunctional incubator, constant temperature incubator, biochemistry incubator, lighting incubator, climate incubator, mould incubator, shaking incubator, medicine stability test chamber, etc. Ovens include vacuum drying oven, constant temperature drying oven, forced air drying oven, high temperature drying oven, drying oven/incubator (dual purpose), etc.

In the past few years, we have established a good reputation in the industry with our continuous investment in technology research and development and our insistence on quality. We are customer-centric and help them stand out in the increasingly fierce market competition through continuous innovation and optimization.

Currently, BIOBASE has 25 factories and incubator and oven covers an area of more than 10,000 square meters, has 2 Class I medical device registrations and 14 Class II medical device registrations. It attaches great importance to the construction of the technology research and development center, focuses on technological innovation, continues to increase research and development investment, and has more than 140 patents. BIOBASE has passed certificates including ISO9001, ISO13485, CE, etc. for various products.

In the future, we will continue to uphold the concept of "Service for health and future", meet challenges with a more open attitude, provide high-quality services with a more professional spirit, and create a better future with global partners.

Incubator
CO₂ Incubator

Introduction:

The CO₂ incubator simulates the growth environment of cells/tissues in vivo by simulating in the incubator. The incubator requires a stable temperature (37°C), a stable CO₂ level (5%), a constant pH (pH: 7.2~7.4), and a high relative saturated humidity (95%). It is a device for cell/tissue culture in vitro.

Application:

It is suitable for a wide range of fields such as cytology, biology, oncology, genetics, immunology, virus research and genetic engineering research. It is an ideal device for the cultivation of cells, tissues and bacteria in scientific research units and industrial production departments such as modern medicine, pharmaceutical industry, biochemistry and agricultural science.

Features:

- * IR infrared sensor, using dual-channel dual-filter infrared technology.
- * The design of multiple small doors reduces the amount of air exchange between the outside space and the inside of the incubator during the opening process.
- * Inner tank is made of 304 mirror finish stainless steel, featuring a semi-circular corner design for faster and more effective bottom cleaning and sterilization.
- * The design of the 3D airflow channel ensures uniform CO₂ distribution, enhancing the accuracy of IR sensor data collection.
- * The interior is heated uniformly by aluminum foil-wrapped silicone heating wires, ensuring rapid temperature increase and excellent uniformity.
- * High quality HEPA filter ensures the inside gas quality.
- * SMC brand solenoid valves ensure more stable gas concentration and less consumption of gas.
- * Equipped with leakage current and over-voltage protectors. Features over-temperature, under-temperature, over-concentration and under-concentration alarms.
- * The water reservoir in the bottom chamber ensures high humidity.

Technical Parameters:

Model	BJPX-C100M	BJPX-C160M	BJPX-C200M	BJPX-C260M	BJPX-C300M
Type	Medical series, air jacket				
Sterilization Type	90°C moist heat sterilization				
Capacity	100L	160L	200L	260L	300L
Temp. Sensor	PT100				
Temp. Range	RT+5~60°C				
Temp. Fluctuation	±0.3°C (@37°C)				
Temp. Uniformity	±0.5°C (@37°C)				
Temp. Precision	0.1°C				
Timing Range	0~999h or continuous				
Display	7-inch touch screen				
CO ₂ Control	IR infrared sensor with calibration certificate				
CO ₂ Range	0~20vol%				
CO ₂ Uniformity	0.2vol%				
CO ₂ Control Resolution	0.1vol%				
Ambient Temperature and Humidity	Ambient temperature: 5~30°C (Recommendation: 25±2°C) Ambient humidity: ≤80%				
Filter	CO ₂ gas filter				
Power Supply	AC 220V, 50/60Hz (Standard); 110V, 50/60Hz (Optional) (External transformer) Wiring method: plug				
Consumption	800W	820W	840W	1380W	1800W
Shelves	2pcs, adjustable		3pcs, adjustable

Gross Weight	120kg	135kg	155kg	190kg	210kg

CO₂ Incubator

Features:

- * IR infrared sensor, using dual-channel dual-filter infrared technology.
- * The CO₂ incubators of the water jacket series feature an alarm function for both high and low water levels in the water jacket.
- * The inner tank material of the water jacket series CO₂ incubator is 304 brushed stainless steel with a full rounded corner design. The inner tank material of the air jacket CO₂ incubator is 304 mirror finish stainless steel with a semi-rounded corner design.
- * The bottom of the gas jacket series has a water reservoir, and the water jacket series has a water tank.
- * Equipped with leakage current and over-voltage protectors. Features over-temperature alarm. The water-jacket series CO₂ incubator also features under-temperature alarm, over-concentration alarm and under-concentration alarm.

CO₂ Incubator

Features:

- * IR infrared sensor, using dual-channel dual-filter infrared technology.
- * With humidity display function, it shows the humidity level inside the incubator in real-time.
- * The inner tank is designed with semicircular corners and the surface is made of 304 stainless steel with electrochemical treatment.
- * The bottom water reservoir design eliminates the need for repeated water replenishment, saving time.
- * The water level alarm design alerts the operator to refill water in time, providing more comprehensive protection for the samples.
- * Equipped with leakage current and over-voltage protectors. Features over-temperature, under-temperature, over-concentration and under-concentration alarms.

Low Temperature CO₂ Incubator

Features:

- * IR infrared sensor, using dual-channel dual-filter infrared technology.
- * The inner tank is designed with semicircular corners and the surface is made of 304 stainless steel with electrochemical treatment.
- * Sloped bottom design for smooth drainage, preventing evaporator icing, and improved temperature uniformity.
- * The evaporator's intake pipe uses a Sanhua solenoid valve to work in coordination with the evaporator's compartmentalized operation, preventing icing, ensuring rapid cooling, and maintaining stable temperatures.
- * The timed segmented control program allows for the cultivation time and temperature to be preset and automatically adjusted according to requirements, providing convenience for the operator.
- * High-efficiency heating tubes are used to evenly heat all sides of the inner chamber.
- * Equipped with leakage current and over-voltage protectors. Features over-temperature, under-temperature, over-concentration and under-concentration alarms.

Standard Accessories: * USB port

Dry Heat CO₂ Incubator

Features:

- * IR infrared sensor, using dual-channel dual-filter infrared technology.
- * The inner tank is designed with semicircular corners and the surface is made of 304 mirror finish stainless steel.
- * Adopt double heating module, six side heating.
- * The cavity is uniformly heated by silicone rubber heating wire heater with aluminum foil-wrapped, offering rapid temperature rise and good uniformity.
- * Equipped with leakage current and over-voltage protectors. Features over-temperature, under-temperature, over-concentration and under-concentration alarms.

Technical Parameters:

Model	BJPX-C80D	BJPX-C160D
Type	Dry heat CO ₂ incubator, air jacket	
Sterilization Type	140℃ dry heat sterilization	
Capacity	80L	160L
Temp. Sensor	PT100	
Temp. Range	RT+5~60℃	
Temp. Fluctuation	±0.3℃ (@37℃)

Tri-Gas CO₂ Incubator

Introduction:
 By simulating the growth environment of microorganisms, tissues and cells, the three-gas incubator provides stable temperature and humidity, carbon dioxide concentration and oxygen concentration, and is widely used for the propagation and cultivation of cells, tissue cultures and some special microorganisms.

Application:
 Tri-gas incubator is commonly used in microbial culture, cell dynamics research, collection of mammalian cell secretions, carcinogenic or toxicological effects of various physical and chemical factors, research and production of antigens, cultivation of hybridoma cells to produce antibodies, in vitro fertilization (IVF), stem cells, tissue engineering, drug screening and other research fields.

- Features:**
- * IR infrared sensor, using dual-channel dual-filter infrared technology.
 - * ZrO₂ sensor was used for oxygen concentration information acquisition.
 - * The inner tank is designed with fully rounded corners and the surface is made of 304 stainless steel with electrochemical treatment.
 - * The bottom water reservoir design eliminates the need for repeated water replenishment, saving time.
 - * The water level alarm design alerts the operator to refill water in time, providing more comprehensive protection for the samples.
 - * Equipped with a gas switching function, it can connect to two bottles of carbon dioxide gas simultaneously.
 - * Equipped with leakage current and over-voltage protectors. Features over-temperature, under-temperature, over-concentration and under-concentration alarms.

Technical Parameters:

Model	BJPX-C80T	BJPX-C160T
Type	Tri-gas series, air jacket	
Sterilization Type	90°C moist heat sterilization	
Capacity	80L	160L
Temp. Sensor	PT100	
Temp. Range	RT+5~60°C	
Temp. Fluctuation	±0.3°C (@37°C)

Constant Temperature and Humidity Incubator

Introduction:

The constant temperature and humidity incubator has a precise temperature and humidity control system. It provides various environmental simulation conditions required for industrial research and biotechnology testing. Therefore, it can be widely used in sterile tests and stability inspections for pharmaceuticals, textiles, and food processing. As well as testing of raw material properties, product packaging, and product life of industrial products.

Features:

- * The 7.0-inch color LCD touch screen can monitor the temperature curve in real time.
- * Universal castors for easy movement.
- * Adopt double-layer door structure, built-in toughened glass door, and enlarged perspective windows on the outer door, making it easier to observe.
- * Use safe and environmentally friendly polyurethane insulation board (moisture-proof, flame-retardant, high temperature resistance 250 °C), better insulation effect.
- * Sterilization system: optional UV sterilization lamp.
- * Well-known brand compressors, environmentally friendly refrigerants, automatic frosting function.
- * Internal SUS-304 mirror stainless steel material, external cold-rolled powder-coated steel plate
- * Equipped with an alarm system: high temperature alarm, low water level alarm, independent overheat protection device, and overcurrent protection.

Technical Parameters:

Constant Temperature and Humidity Incubator

Introduction:

The constant temperature and humidity incubator has a precise temperature and humidity control system. It provides various environmental simulation conditions required for industrial research and biotechnology testing. Therefore, it can be widely used in sterile tests and stability inspections for pharmaceuticals, textiles, and food processing. As well as testing of raw material properties, product packaging, and product life of industrial products.

Features:

- * The LCD display screen features an interface for displaying real-time temperature and set temperature.
- * Equipped with PID microcomputer temperature control. It has a timing function, parameter memory function, and can automatically resume operation when power is restored.
- * The inner chamber is crafted from high-quality stainless steel with a semicircular four-corner design.
- * The inner door is of tempered glass structure, while the outer door adopts a magnetic door seal design.
There is a hollow glass observation window for easy observation of the internal conditions of the equipment.
- * It comes standard with lighting for convenient observation and a BOD socket(Typ1609) for convenient internal power supply.
- * Equipped with an alarm system: high temperature alarm, low water level alarm, independent overheat protection device, and overcurrent protection.

Constant Temperature and Humidity Incubator

Applications:

The constant temperature and humidity incubator has a precise temperature and humidity control system. It provides various environmental simulation conditions required for industrial research and biotechnology testing. Therefore, it can be widely used in sterile tests and stability inspections for pharmaceuticals, textiles, and food processing. As well as testing of raw material properties, product packaging, and product life of industrial products.

Features:

- * The 7-inch color LCD touch screen can monitor temperature and humidity curves in real-time and query operation history records on one screen.
- * The PID microcomputer-controlled temperature allows fixed-value and segmented operations. It has a parameter memory function and can resume operation automatically after power-on.
- * There are a built-in steam humidification system and an independent PID humidity control system.
- * Three levels of operation interface permissions (administrator, experimenter, operator) prevent test interruption or equipment malfunction caused by unauthorized operations.

- * The inner liners are made of high-quality stainless steel with a semi-circular and four-corner design.
- * The unique refrigeration system has an automatic defrosting function and a blower for forced convection to make the temperature more uniform.
- * Equipped with an alarm system: high temperature alarm, low water level alarm, independent overheat protection device, and overcurrent protection.

Technical Parameters:

Refrigerant	R404a
Heating System	Stainless steel heater
Timing Range	0~5999min
Control Type	Microcomputer PID controller
Display	7.0-inch color LCD touch screen
Material	External cold-rolled steel with painting; internal stainless steel
Power Supply	AC220V±10%, 50/60Hz (Standard); AC110±10%, 60Hz (Optional, External transformer)
Consumption	1800W
Shelves	2 pcs/ adjustable
Standard Accessories	USB port /LAN interface
Optional Accessories	UV lamp / LED lamp/ Printer/ Shelves /Automatic water supply system
Internal Size(W*D*H) mm	1200*600*1400
External Size(W*D*H) mm	1343*1046*1985
Package Size(W*D*H) mm	1420*1070*2150
Net Weight(kg)	227.5
Gross Weight(kg)	300

Multifunctional Incubator

Introduction:

The multifunctional incubator is widely used in the storage of medicines, reagents, vaccines, dialysate heating, physiological saline heating, heat preservation and preservation of medical equipment in the operating room, normal saline 37°C~42°C heating, and washing fluid 35°C~37°C heating, heating of mannitol at 37°C~42°C, heating of B-ultrasonic liquid, etc.

Features:

- * The unique air duct design makes the temperature more uniform.
- * The non-slip separator design prevents the sample from falling off when the shelves is pulled.
- * The 7.0-inch color LCD touch screen can monitor the temperature curve in real time, and the menu-type operation interface is simple and easy to understand, which is convenient for observation and operation.
- * Three-level operation interface authority (administrator, experimenter, operator), to prevent the operation of irrelevant personnel from causing test interruption or equipment failure.
- * Equipped with an interconnected PC interface for remote operation monitoring.

Technical Parameters:

Model	BJPX-Y100	BJPX-Y150	BJPX-Y200	BJPX-Y300
Capacity	100L	150L	200L	300L
Temp. Sensor	PT100			
Temp. Range	0~100℃			
Temp. Fluctuation	≤±1℃ (at 37℃)			
Temp. Uniformity	≤±2℃ (at 37℃)			
Temp. Precision	0.1℃			
Timing Range	1-999h59min			
Control Type	Microcomputer controller			
Display	7.0-inch color LCD touch screen			
Alarm	Audible and visual alarm: Over-temperature alarm			
Material	External cold-rolled steel with painting; internal stainless steel			
Door	Double tempered glass doors with heating function			
Sterilization Type	UV lamp sterilization			
Ambient Temp. & Humidity	15~30℃, suggest 25±2℃; relative humidity ≤80%			
Caster	Universal caster			
Power Supply	AC220V±10%, 50/60Hz(Standard); AC110±10%, 60Hz(Optional, External transformer))			
Consumption	1100W	1100W	1200W	1450W
Shelves	3 pcs/ adjustable			
Standard Accessories	UV lamp / Lamp / USB port / LAN port			
Optional Accessories	Shelves			
Internal Size(W*D*H)mm	495*400*535	495*400*685	495*500*775	475*490*1240
External Size(W*D*H)mm	598*690*1229	623*690*1391	598*797*1475	761*606*1900
Packing Size(W*D*H)mm	700*790*1380	723*790*1540	700*900*1635	706*861*2054
Net Weight(kg)	90	100	110	132
Gross Weight(kg)	115	120	130	156

Constant-Temperature Incubator

Features:

- * Clever integration greatly improves product quality.
- * Unique air duct design makes the temperature more uniform.
- * The studio adopts a semicircular four-corner design for easy cleaning.
- * The inner cavity is filled with high-quality insulation cotton on all sides, which has a good insulation effect.
- * PT100 temperature sensor ensures that the product has extremely high reliability.
- * Equipped with leakage current and overvoltage protectors.
- * With over-temperature alarm, the alarm will be activated when the temperature in the box exceeds the set temperature.
- * Add a temperature control switch. When the temperature is too high, the switch is disconnected to prevent damage to the instrument caused by excessive temperature.

Technical Parameters:

Model	BJPX-H30L
Capacity	30L
Temperature Sensor	PT100
Temperature Range	RT+5~85°C
Temperature Fluctuation	±0.2°C (at 37°C)
Temperature Uniformity	±0.5°C (at 37°C)
Temperature Precision	0.1°C
Timing Range	0~9999min/h
Display	LCD
Power Supply	AC220V±10%, 50/60Hz(Standard); AC110±10%, 60Hz(Optional)
Consumption	150W
Shelves	2pcs
Standard Accessories	Shelf
Optional Accessories	Shelf, Footmaster caster
Internal Size(mm)	310*310*310
External Size(mm)	432*538*570
Packing Size(mm)	510*680*620
Net Weight(kg)	28
Gross Weight(kg)	40

Introduction:

The constant temperature incubator provides stable temperature control and can accurately adjust the temperature within a certain temperature range to meet different experimental needs.

Applications:

This series of products can be used for scientific research such as storing strains and biological cultivation in laboratories and laboratories of scientific research institutions, colleges and universities, biology and agriculture.

Touch Screen Constant-Temperature Incubator

Double-layer Door (D type)

Glass Viewing Window Door (G type)

Standard Accessories:

Optional Accessories:

Test port

Base stand

Footmaster Caster

UV lamp

Introduction:

The constant temperature incubator provides stable temperature control and can accurately adjust the temperature within a certain temperature range to meet different experimental needs.

Applications:

This series of products can be used for scientific research such as storing strains and biological cultivation in laboratories and laboratories of scientific research institutions, colleges and universities, biology and agriculture.

Features:

- * Large LCD touch screen.
- * Stainless steel chamber, easy to clean.
- * D type: with inner glass door.
- * G type: with viewing window.
- * Multi-stage temperature calibration, smaller temperature deviation in different temperature ranges.
- * Anti-slip partition design, adjustable spacing, flexible and convenient.
- * Test port is standard on the side of the box for detection and calibration.
- * Over temperature alarm, independent limit temperature alarm system, leakage current and over-voltage protector.

Technical Parameters:

Constant-Temperature Incubator

Introduction:

The constant temperature incubator provides stable temperature control and can accurately adjust the temperature within a certain temperature range to meet different experimental needs.

Applications:

This series of products can be used for scientific research such as storing strains and biological cultivation in laboratories and laboratories of scientific research institutions, colleges and universities, biology and agriculture.

Features:

- * Microcomputer-based smart temperature controller.
- * LCD displays the set temperature and the temperature inside the box. It has parameter memory for protection against power outages, freezes, and data loss, and a call recovery function. It has over-temperature, sensor failure, electricity leakage, over-curent protection, sound and light alarm functions, and a timing function.
- * Separate temperature limiting and alarming system, automatic suspension in time of exceeding temperature limit(optional).
- * UV sterilizing system(optional).
- * RS-485 port, capable of being connected with printer or computer, recording variations of temperature parameters(optional).
- * Double door(optional).

Technical Parameters:

Model	BJPX-H50IV	BJPX-H80IV	BJPX-H160IV	BJPX-H270IV
Capacity	50L	80L	160L	270L
Temperature Range	RT+5~65℃

Introduction:

The constant temperature incubator provides stable temperature control and can accurately adjust the temperature within a certain temperature range to meet different experimental needs.

Applications:

This series of products can be used for scientific research such as storing strains and biological cultivation in laboratories and laboratories of scientific research institutions, colleges and universities, biology and agriculture.

Features:

- * LCD display.
- * PID control, precise temperature control with small fluctuation
- * Double door design and magnetic door sealing.
- * The working chamber adopts round angle structure, easy to clean.
- * Over temperature protection
- * RS485/232 port, printer, USB: can only choose one of these three for BJPX-H35

Technical Parameters:

Model	BJPX-H35	BJPX-H50II	BJPX-H80II	BJPX-H160II	BJPX-H270II
Capacity	35L	48L	84L	160L	270L

Biochemistry Incubator

Applications:

It's suitable for environmental protection, agricultural and animal, drug testing, aquatic and other scientific research institutions, laboratories and production departments, is the water analysis BOD determination of bacteria, mold, microbial culture, preservation, plant cultivation, breeding experiment general thermostatic equipment.

Features:

- * Touch screen: 7.0-inch touch screen operation, multiple groups of data one screen display, temperature curve can be viewed.
- * Double glass door design: Adopt double door structure, built-in toughened glass door, outer door to enlarge the perspective window for easy observation.
- * Defrosting design: Evaporator upper and lower plate automatically switch defrosting design, no need to stop defrosting.
- * With limited temperature system, when the studio temperature exceeds the specified temperature, the equipment stops heating function to prevent excessive temperature damage to the instrument.
- * In the working state, the outer door will not affect the normal work of the incubator, the glass door is standard with mechanical door lock, to prevent the glass door arbitrary switch.

Technical Parameters:

Model	BJPX-B100	BJPX-B150	BJPX-B200	BJPX-B250
Capacity	100L	150L	200L	250L
Temperature Control Mode	PT100 sensor and PID adjustment			
Temperature Control Range	0~60℃			
Temperature Display Resolution	0.1℃			
Temperature Fluctuation	±1℃			
Temperature Uniformity	±2℃			
Ambient Temperature	18~30℃(only suitable for indoor use)			
Timing Range	0~999h59min			
Refrigerant Disinfection	R134a/270g UV disinfection device can be optional			
Controller	Programmable 7.0 inch touch screen controller			
Power Supply	AC220V, 50/60Hz(Standard); AC110V, 50/60Hz (Optional) (External transformer)

Gross weight	117kg	135kg	150kg	165kg

LCD touch screen

Built-in printer

Test port

Double door

Biochemistry Incubator

LCD Display

- Features:**
- * Display mode: LCD display, with real-time temperature, set temperature display interface.
 - * Temperature control mode: PID microcomputer temperature control; with timing function, timing range 9999 min/h, with parameter memory function, call automatic recovery operation.
 - * Temperature sensor type: PT100 temperature sensor.
 - * Heating method: stainless steel heating tube direct heating type.
 - * The inner tank is made of high quality stainless steel, half round four corners design;
 - * Hollow glass observation window, easy to observe the internal situation of the equipment.
 - * Equipped with alarm system: high temperature alarm, independent overheating protection device, over current protection.
 - * The inner box is equipped with standard lighting for easy observation and standard BOD socket for easy internal power supply.
 - * Unique refrigeration circuit, with fan to form forced convection, make the average temperature in the working room better.

Technical Parameters:

Model	BJPX-I-80	BJPX-I-100	BJPX-I-150	BJPX-I-200	BJPX-I-250	BJPX-I-300	BJPX-I-400

Remark	*The performance parameters are tested under no-load condition and the ambient temperature is 20℃, the ambient humidity was 50%RH *It can not be used for long periods of refrigerated storage, and it can not be used for culture of human origin samples						

Lighting Incubator

Large LCD screen

Mechanical lock (Standard)

Test port (Optional)

Shelf (Standard)

Technical Parameters:

Model	BJPX-L200BK	BJPX-L200BKII
Capacity	200L	
Temperature Control Range	With illumination: 10~60℃; Without illumination: 0~60℃	
Temperature Display Resolution	0.1℃	
Temperature Fluctuation	±0.5℃	
Temperature Uniformity	±1.0℃	
Ambient Temperature	5~30℃, 25±2℃ is recommended	
Timing Range	0~9999min/h or continuous	
Temperature Controller	PID controller, 30-segment program	
Display	LCD display	
Lighting Type	Top lighting	Three-sided illumination
Intensity of Illumination	Top vertical LED cold light source: 0~20000lx	Three side(left, right and front) LED cold light source: 0~20000lx
Illumination Adjustment Grade	10-grade adjustable	5-grade adjustable
Refrigerant	R134a/250g	
Circulation Mode	Forced convection	
Alarm	Independent temperature limit alarm system, leakage current and over voltage protector, Over-temperature alarm(>2℃)	
Material	External material: cold rolled steel; Internal material: 304 stainless steel	
Power Supply	AC220V±10%, 50/60Hz (Standard); AC110V±10%, 50/60Hz(Optional)	
Consumption	1200W	
Shelves	521*435mm, 2pcs(one with LED cold light source, one without), can be optional	515*435mm, 2pcs,can be optional
Standard Accessories	Shelf*2, Mechanical lock	
Optional Accessories	Shelf, Test port, RS485 interface, USB interface, Printer(USB must also be optional)	
Internal Size (W*D*H)	548*476*778mm	548*476*778mm
External Size (W*D*H)	750*760*1500mm	750*760*1530mm
Package Size (W*D*H)	870*885*1700mm	870*885*1700mm
Net Weight	135kg	175kg
Gross Weight	160kg	200kg

Applications:

The product is a high precision thermostat equipment with light function. It can be used for plant germination, seedling cultivation, microbial culture, water quality monitoring BOD determination, and other uses of thermostatic test. It is an ideal experimental equipment for biological genetic engineering, medicine, agriculture, forestry, environmental science, animal husbandry, aquatic production, scientific research and teaching departments.

Features:

- * The incubator is designed with circular arc structure for easy cleaning.
- * LED light plate cold light source lighting, irradiation surface more uniform, less heat, making the box temperature more stable.
- * The illumination grade is adjustable, it can be adjusted by controlling the on and off of different light lines to simulate day and night.
- * Large screen LCD display, multiple groups of data display in one screen, menu type operation interface, simple and easy to understand, easy to operate.
- * The operation interface has automatic lock function to ensure the safety of operation.
- * Imported compressor, CFC-free refrigerant,eco-friendly and highly efficient.
- * Pull-out movable shelf, adjustable spacing, equipped with casters, easy to move.
- * Non-slip off shelf design, prevent the petri dish slip, more secure.
- * Small front door design, both thermal insulation and can prevent the loss of light.(BJPX-L200BK).
- * There is a door on the front, left and right, and each door has lamp tubes(BJPX-L200BKII).

Lighting Incubator

BJPX-L150/II BJPX-L250/II
BJPX-L300/II BJPX-L400/II

Shelf (Standard)

LCD display

Printer (Optional for BJPX-LII)

Applications:

The product is a high precision thermostat equipment with light function. It can be used for plant germination, seedling cultivation, microbial culture, water quality monitoring BOD determination, and other uses of thermostatic test. It is an ideal experimental equipment for biological genetic engineering, medicine, agriculture, forestry, environmental science, animal husbandry, aquatic production, scientific research and teaching departments.

Features:

- * External material: cold rolled steel surface spray; Internal material: SUS304 stainless steel plate.
- * The inner box is equipped with a fan to form a micro-air circulation to improve the temperature uniformity in the box.
- * Microcomputer intelligent P.I.D temperature controller, accurate temperature control, with parameter memory function, call automatic recovery operation.
- * The incubator is designed with circular arc structure for easy cleaning.
- * Pull-out movable shelf, adjustable spacing, equipped with casters, easy to move.
- * Imported compressor, CFC-free refrigerant,eco-friendly and highly efficient.

Climate Incubator

Introduction:

The climate incubator is a high-precision device designed to create a controlled environment for the incubation and growth of biological and plant samples. It is essential for laboratories, research institutions, and agricultural studies that require stable and specific climate conditions.

Features:

- * The shell is sprayed with cold-rolled steel plate, the chamber is made of stainless steel.
- * Microcomputer program control, 9 selectable operation modes, with a control method that cycles between day and night.
- * Refrigeration unit adopts brand compressor, the use of fluorine-free environmental protection refrigerant, adaptive ring temperature change for constant temperature control, 180s refrigeration shutdown protection.
- * It has alarms for over-temperature, under-temperature and sensor failure.
- * The external water tank is directly connected to the interior, ensuring more uniform humidity levels inside the cabinet.
- * The horizontal micro-perforated air outlet structure combined with vertical air return circulation ensures uniform airflow across every layer of the samples.

Technical Parameters:

Model	BJPX-A1000CI	BJPX-A1500CI
Capacity	1000L	1500L
Temp. Sensor	PT100	
Temp. Range	0~50℃(No Light: 0~50℃, with light: 10~50℃)	
Temp. Fluctuation	±1℃(Experimental conditions: no load, environmental temperature 20℃, humidity 50%RH)	
Temp. Uniformity	7℃	
Temp. Resolution	0.1℃	
Timing Range	Timing 0~99 hours 59 minutes/continuous operation	
Humidity Range	50~95%RH	
Humidity Control Accuracy	±1%RH	
Humidity Fluctuation	±3~±7%RH	
Light	20000lux	
Working Environment	10~30℃	
Power Supply	AC220V, 50Hz(Standard); 220V, 60Hz(Optional)	
Consumption	2056W	4210W
Shelf	3	
Standard Accessory	Manual intake control valve, external large-capacity water tank	
Optional Accessory	Touch screen, 99-segment program control, printer, USB port, wireless alarm system (SMS alerts), CO ₂ control module, UV lamp, timed ventilation function, 220V power outlet inside chamber, M50 test port, double-door design with inner glass door	
Internal Size(W*D*H)	1200*620*1200mm	1730*620*1300mm
External Size(W*D*H)	1300*780*1830mm	1830*780*1930mm
Package Size(W*D*H)	1500*820*2150mm	2160*900*2080mm
Net Weight	243kg	370kg
Gross Weight	263kg	390kg

Climate Incubator

Introduction:
The climate incubator is a high-precision device designed to create a controlled environment for the incubation and growth of biological and plant samples. It is essential for laboratories, research institutions, and agricultural studies that require stable and specific climate conditions.

Features:

- * Microprocessor PID control, accurate and stable.
- * Magnetic door sealing.
- * LED display for BJPX-A series, LCD display for BJPX-AII and AIII series.
- * CFC-free refrigerant, eco-friendly and highly efficient.

Technical Parameters:

Model	BJPX-A250/II	BJPX-A300/II	BJPX-A300III	BJPX-A400/II
Capacity (L)	248L	290L	300L	403L
Temp. sensor	PT100			
Temp. Range	With illumination: 10~50°C, Without illumination: 5~50°C		With illumination: 10~50°C, Without illumination: 4~50°C	With illumination: 10~50°C, Without illumination: 5~50°C
Temp. Fluctuation	±0.5°C		±1°C	±0.5°C
Temp. Uniformity	±2°C			
Temp. Precision	0.1°C			
Timing Range (min/h)	0~99			
Humidity Range	With illumination: 50%~80%(18~45°C); Without illumination: 50%~90%(15~45°C)		50~90%RH	With illumination: 50%~80%(18~45°C); Without illumination: 50%~90%(15~45°C)
Humidity Control Accuracy	±1%RH			
Humidity Control Fluctuation	±3%RH		±5~7%RH	±3%RH
Light(Lux)	BJPX-A250/300/400: 0~6000Lux(6-grade adjustable) BJPX-A250II/300II/400II: 0~12000Lux(5-grade adjustable) BJPX-A300III: 0~20000(6-grade adjustable)			
Working Environment	5~30°C			
Power Supply	BJPX-A and All series: AC220V, 50/60Hz(Standard) BJPX-AIII series: AC220V, 50Hz(Standard)			
Consumption	2400W	2900W	1500W	3400W
Shelves	3	3	3	3
Standard Accessories	Three shelves, one mainframe			
Optional Accessories	RS485, RS485 to USB switching port, thermal printer		U disk, RS485/232, printer (three can only choose one), CO2 controller	RS485, RS485 to USB switching port, thermal printer
Internal Size(W*D*H)	470*449*1178mm	490*464*1278mm	520*550*1140mm	560*600*1198mm
External Size(W*D*H)	672*892*1825mm	691*907*1925mm	830*850*1850mm	764*1032*1860mm
Package Size(W*D*H)	800*1010*1990mm	790*1040*2090mm	950*930*2100mm	890*1150*2030mm
Gross Weight	185kg	195kg	300kg	230kg

Mould Incubator

Application:
 This series of products are widely used in medical and health, epidemic prevention and inspection, animal husbandry research, environmental protection, agricultural scientific research and other fields.

- Features:**
- * The 7-inch LCD touch screen can monitor the temperature and humidity curves in real time, which is convenient for observation and operation.
 - * Accurate control: equipped with a microcomputer temperature control system and an independent PID humidity control system.
 - * Three-level operation interface authority (administrator, experimenter, operator), to prevent the operation of irrelevant personnel from causing test interruption or equipment failure.
 - * Equipped with an interconnected PC interface for remote operation monitoring and optional mobile APP control program.
 - * The upper and lower slices of the evaporator are automatically switched to defrost, without stopping the defrost.
 - * Ultraviolet lamp sterilization, effectively prevent pollution during culture.

Technical Parameters:

Model	BJPX-M100P	BJPX-M150P	BJPX-M200P	BJPX-M250P
Capacity (L)	100	150	200	250
Temp. sensor	PT100			
Temp. Range	0~60℃(Microcomputer PID control)			
Temp. Fluctuation	±0.5℃			
Temp. Uniformity(at 37℃)	±1℃			
Temp. Precision	0.1℃			
Timing Range(min/h)	1~5999			
Humidity Range	50%~95%			
Humidity Control Accuracy	1%RH			
Humidity Control Fluctuation	±3%~±5%RH			
Refrigerant	R134a(CFC-free environmentally friendly refrigerant)			
Sterilization Method	UV sterilization lamp(Timetable setting)			
Power Supply	AC220V, 50/60Hz(Standard); AC110V, 60Hz(Optional)			
Consumption	1200W	1200W	1500W	1500W
Shelves	2	2	2	2
Standard Accessories	USB interface, remote PC port			
Optional Accessories	External ultrasonic humidifier, printer			
Internal Size(W*D*H)	448*405*580mm	518*418*700mm	598*445*770mm	598*447*940mm
External Size(W*D*H)	635*667*1335mm	705*677*1485mm	785*767*1525mm	762*767*1637mm
Package Size(W*D*H)	775*805*1515mm	845*815*1660mm	925*905*1705mm	890*905*1815mm
Net Weight	100kg	120kg	140kg	150kg
Gross Weight	125kg	140kg	165kg	180kg

* Notice:It cannot be used for long-term refrigeration and storage;This product is not recommended for the cultivation of samples of human origin.

Mould Incubator

Application:
 This series of products are widely used in medical and health, epidemic prevention and inspection, animal husbandry research, environmental protection, agricultural scientific research and other fields.

- Features:**
- * Structural design: The box shell material is made of cold-rolled steel plate, which is environmentally friendly sprayed, and has strong corrosion resistance; the studio is made of SUS304 mirror stainless steel plate.
 - * Energy-saving design: Non-fluorine environmentally friendly high-efficiency refrigerant, fast cooling speed, high cooling efficiency, low power consumption.
 - * Humanized design: The height of the shelf can be adjusted at will and free assembly; the outer door adopts a magnetic door seal with good airtightness; the outer door is equipped with an observation window.
 - * Safety guarantee: The equipment is equipped with a leakage protection device and a buzzer alarm system.

Technical Parameters:

Model	BJPX-M100B	BJPX-M150B	BJPX-M200B	BJPX-M250B

Gross Weight	115kg	140kg	150kg	170kg

* Notice:It cannot be used for long-term refrigeration and storage;This product is not recommended for the cultivation of samples of human origin.

Mould Incubator

Application:

This series of products are widely used in medical and health, epidemic prevention and inspection, animal husbandry research, environmental protection, agricultural scientific research and other fields.

Features:

- * LCD display.
- * The refrigeration adopts a new fluorine-free design to ensure green and environmental protection.
- * With parameter memory function, the call will automatically resume operation.
- * The inner box is designed with a circular arc structure, which is easy to clean.
- * Pullable movable shelves with adjustable spacing.
- * The inner box is equipped with a fan to form a micro air circulation to improve the temperature uniformity in the box.
- * Outer box material: cold-rolled steel plate sprayed on the surface; internal material: SUS304 stainless steel plate.

Technical Parameters:

Small Capacity Thermostatic Shaking Incubator

Features:

- * Visible transparent window, three transparent acrylic cover, can be observed from multiple angles.
- * Large screen is easy to operate, can be simple and intuitive parameter setting.
- * Microcomputer is used to control temperature and oscillation frequency, with timing function; With power failure protection function, it can automatically resume operation after the normal power supply.
- * It has the functions of historical data, curve, alarm record query, data storage and export (U disk), password lock screen protection and Chinese and English switching.
- * Smooth operation, rubber shock absorber foot, ensure that the machine can run smoothly at high speed.
- * Micro switch to open the door to stop, over-temperature alarm, protect the safety of experimental materials.
- * The refrigeration system conforms to the trend of environmental protection, and the new fluorine-free design.
- * Standard of USB for BJPX-ST10/11/20

Technical Parameters:

Model	BJPX-ST10-L	BJPX-ST11-L	BJPX-ST10	BJPX-ST11	BJPX-ST20
Capacity	22L		104L		109L
Temperature Control Range	RT+5~60℃				4~60℃
Temperature Display Resolution	0.1℃				
Temperature Uniformity	≤±1℃ (at 37℃)				
Temperature Fluctuation	≤±0.5℃				
Ambient Temperature	15~35℃				
Timing Range	0~9999min (h)		0~999h59min		
Control Mode	PID microcomputer control				
Display	LCD display		5.0-inch touch screen		
Circulation Mode	Forced convection				
Oscillation Mode	Rotary shaking				
Curve Programming Setting	Fixed value control temperature velocity		Fixed value and multi-stage control temperature velocity		
Speed Range	30~300 rpm				
Speed Accuracy	±1 rpm				
Swing Amplitude of The Plate	Φ26mm	Φ50mm	Φ26mm	Φ50mm	Φ26mm
Shaking Plate	245*245mm		566*363mm	566*343mm	566*363mm
Refrigerant	/				R290/75g
Max Capacity	Flask holder: 50ml*16, 100ml*9, 150ml*8, 200ml*6, 250ml*6, 500ml*3, 1000ml*2, 96-well plate*4	Flask holder: 50ml*14, 100ml*7, 150ml*7, 200ml*5, 250ml*5, 500ml*3, 1000ml*1, 96-well plate*5	Flask holder: 50ml*54, 100ml*33, 150ml*28, 200ml*23, 250ml*23, 500ml*18(BJPX-ST10/20), 500ml*15 (BJPX-ST11), 1000ml*11, 2000ml*7(BJPX-ST10/20), 2000ml*6(BJPX-ST11), 3000ml*6(BJPX-ST10/20), 3000ml*4(BJPX-ST11), Tube rack*2, 96-well plate*10, clamping rod shaking plate*1		
Defrost Function	/				Automatic defrosting
Alarm	Over-temperature alarm, Power failure protection, Automatic stop upon opening door				
Material	External material: Cold rolled steel plate spray; Internal material: 304 stainless steel				
Power Supply	AC220V, 50Hz (Standard); 110V, 50/60Hz (Optional)(External transformer)				
Consumption	500W		800W		1000W
Standard Accessories	Flask holder: 50ml*6 or 100ml*6 or 150ml*5 or 200ml*5 or 250ml*4 (Default) or 500ml*2 or 1000ml*1		Flask holder: 50ml*20 or 100ml*20 or 150ml*16 or 200ml*16 or 250ml*12 (Default) or 500ml*10 or 1000ml*6 or 2000ml*4 or 3000ml*4

Package Size (W*D*H)	485*630*600mm	485*630*600mm	840*830*730mm	840*830*730mm	840*910*730mm
Net Weight	31.5kg	38kg	64kg	90kg	89kg
Gross Weight	39kg	45.5kg	78kg	104kg	107kg

Small Capacity Thermostatic Shaking Incubator

Features:

- * Smooth acceleration, effectively prevent liquid splashing rubber cushioning foot, to ensure that the machine can run smoothly at high speed.
- * Low heat dissipation DC motor, large starting torque, wide speed regulation, maintenance free.
- * 7.0-inch touch screen, accurate reading, easy operation real-time display of temperature and speed.
- * Independent temperature limit alarm system, automatically cut off the heating after exceeding the limit temperature with a micro switch, when the door is opened, the oscillation system stops working.
- * High-definition chemical floor glass mouth has right pole ten hole home now observe the experimental situation at a glance.
- * With historical data, curves, alarm records can be queried, data can be stored and exported, Chinese and English switching functions.
- * Mobile phone remote control, UV disinfection lamp, lighting lamp, tray plate custom collocation, purple makes the experiment more convenient.
- * Uniform heating, high safety, precise temperature control.
- * Large window, small size, hidden water collection box (for BJPX-ST80B).

Technical Parameters:

Model	BJPX-ST68B	BJPX-ST80B
Capacity	80L	
Temperature Control Range	RT+5~50℃	4~65℃(at 25℃)
Temperature Control Accuracy	±0.1℃	
Temperature Uniformity	±1℃(at 37℃, effective working surface)	
Temperature Fluctuation	≤0.5℃(at 37℃)	
Timing Range	1~999 h/min	
Control Mode	PID microcomputer control	
Display	7.0-inch touch screen	
Circulation Mode	Forced convection	
Oscillation Mode	Rotary shaking	
Control System	Standard mode; Custom mode(multi-section temperature, speed, time control)	Standard mode; Program control mode (multi-section temperature, speed, time control)
Cyclotron Frequency Range	50~250rpm	35~300rpm
Cyclotron Frequency Accuracy	±1rpm	
Swing Amplitude of The Plate	Φ26mm	
Refrigerant	/	R134a/150g
Max Capacity	100ml*23 or 250ml*15 or 500ml*9 or 1000ml*6 or 2000ml*4	
Defrost Function	/	Automatic defrosting
Auxiliary Function	Professionally designed side air vents to meet the sample's demand for oxygen, with temperature limit alarm system function, exceeding the limit temperature is automatically interrupted to prevent the temperature is too high to cause damage to the instrument, high-definition tempered glass door, convenient for customers to check the operating status of the box	
Material	Carbon steel spray	External material: Carbon steel spray; Internal material: Stainless steel
Power Supply	AC220V, 50/60Hz(Standard); 110V, 50/60Hz(Optional)	
Consumption	500W	650W
Shaking Plate	450*410mm, 1pc	
Standard Accessories	Flask clamp: 500ml*9, Shaking Plate*1, Safety door	Flask clamp: 500ml*3, 250ml*4, 100ml*5, 50ml*5, Shaking Plate*1, Safety door, Concealed water collecting box
Optional Accessories	Mobile phone remote control shaker program, Ultraviolet lamp disinfection, Lighting lamp, Universal spring clamp, Shaking Plate	
Internal Size (W*D*H)	500*450*350mm	
External Size (W*D*H)	750*570*550mm	720*700*580mm
Package Size (W*D*H)	867*702*771mm	
Net Weight	60kg	104kg
Gross Weight	92kg	115kg

Small Capacity Thermostatic Shaking Incubator

Features:

- * The first cutting-edge USB data recording system. The data of the whole experiment process was automatically recorded.
- * U disk to record the whole process of experimental data (temperature, speed, time can be recorded).
- * Download data automatically tabulated to save and print. Mouse click to easily replay the experiment process.
It is convenient to optimize reaction conditions, screen experimental methods, and confirm the experimental process.
- * Super low speed start, the speed is out of control, automatic lock, adjustable starting speed. Unique dynamic balance design to ensure smooth operation.
- * Multi-section speed, temperature, time control system. A variety of different speed, temperature and time experimental modes can be set at one time, and the operation mode can be automatically changed during operation.
- * Silent fan design, forced convection mode and unique air duct design ensure good temperature uniformity.
- * Automatic refrigeration mode, using environmentally friendly refrigerant, can automatically adjust the opening and closing of the refrigeration system according to the change of environmental temperature, without manual operation. (for BJPX-200N)
- * Intelligent refrigeration frost-free operation technology, automatic defrosting function, defrosting time and defrosting interval can be set freely, so that the equipment can run stably for a long time under low temperature. And has the refrigeration delay start function, effectively protect the compressor. (for BJPX-200N)
- * Users can freely set three operation modes: forward, reverse and forward and reverse.
- * LCD liquid display, temperature, time, speed with the interface display.

Technical Parameters:

Model	BJPX-100N	BJPX-200N
Capacity	70L	
Temperature Control Range	Ambient temperature+5~65℃	4~65℃ (at 20℃)
Temperature Control Accuracy	±0.1℃	
Temperature Uniformity	±0.5℃(at 37℃, effective working surface)	
Temperature Fluctuation	≤0.1℃(at 37℃)	
Timing Range	0~9999 h/min (can be untimed, continuous operation)	
Control Mode	PID microcomputer control	
Display	LCD display	
Circulation Mode	Forced convection	
Oscillation Mode	Rotary shaking	
USB Data Download Processing System	YES	
Control System	Standard mode; Static mode; Persistent mode; Program control mode (multi-section temperature, speed, time control)	
Cyclotron Frequency Range	0, 20~450rpm (can do static culture, cross or alternate operation)	
Cyclotron Frequency Accuracy	±1rpm	
Swing Amplitude of The Plate	Φ26mm	
Refrigerant	/	R134a/130g
Max Capacity	Clamp flask: 100ml*23 or 250ml*15 or 500ml*9 or 1000ml*6 or 2000ml*4 Haftplatte: 100ml*30 or 250ml *20 or 500ml*9 or 1L*8 or 2L*4	
Defrost Function	/	Automatic defrosting
Auxiliary Function	Ultra-low speed start, Adjustable start speed, Over-speed automatic protection, Monitoring timer, Parameter memory, Call recovery, Refrigeration unit overload protection and call delay start (for BJPX-200N), Upper and lower limit over-temperature sound and light alarm, Automatic stop upon opening door, Set parameters to check, Monitor temperature and ambient temperature correction.	
Material	External material: ABS; Internal material: Stainless steel	
Power Supply	AC220V, 50Hz (Standard); AC220V,60Hz(Optional); 110V, 50/60Hz (Optional) (External transformer)	
Consumption	550W	650W
Shelves	450*410mm, 1pc	
Standard Accessories	Clamp flask: 500ml*3, 250ml*3, 100ml*4, 50ml*4, Shelf*1	Clamp flask: 500ml*3, 250ml*4, 100ml*5, 50ml*5, Shelf*1
Optional Accessories	Lighting function, UV disinfection function, Printer,Haftplatte	
External Size (W*D*H)	750*710*520mm	
Package Size (W*D*H)	870*870*705mm	
Net Weight	90kg	
Gross Weight	120kg	

Vertical Type Shaking Incubator
(Single Door & Double Layer)

Features:

- * The first cutting-edge USB data recording system. The data of the whole experiment process was automatically recorded.
- * U disk to record the whole process of experimental data (temperature, speed, time can be recorded).
- * Download data automatically tabulated to save and print. Mouse click to easily replay the experiment process.
It is convenient to optimize reaction conditions, screen experimental methods, and confirm the experimental process.
- * Multi-section speed, temperature, time control system. A variety of different speed, temperature and time experimental modes can be set at one time, and the operation mode can be automatically changed during operation.
- * Super low speed start, the speed is out of control, automatic lock, adjustable starting speed. Unique dynamic balance design to ensure smooth operation.
- * Silent fan design, forced convection mode and unique air duct design ensure good temperature uniformity.
- * Automatic refrigeration mode, using environmentally friendly refrigerant, can automatically adjust the opening and closing of the refrigeration system according to the change of environmental temperature, without manual operation. (Refrigeration type)
- * Intelligent refrigeration frost-free operation technology, automatic defrosting function, defrosting time and defrosting interval can be set freely, so that the equipment can run stably for a long time under low temperature. And has the refrigeration delay start function, effectively protect the compressor. (Refrigeration type)
- * Users can freely set three operation modes: forward, reverse and forward and reverse.
- * LCD liquid crystal display, temperature, time, speed with the interface display.

Technical Parameters:

Model	BJPX-1102D	BJPX-2102D
Capacity	175L

Display	LCD display	
Circulation Mode	Forced convection	
Oscillation Mode	Rotary shaking	
USB Data Download Processing System	YES	
Control System	Standard mode; Static mode; Persistent mode; Program control mode (multi-section temperature, speed, time control)	
Cyclotron Frequency Range	0, 20~350rpm(can do static culture, cross or alternate operation)	
Cyclotron Frequency Accuracy	±1rpm	
Swing Amplitude of The Plate	Φ26mm(Can be customized Φ35 (20-250rpm), Φ50 (20-200rpm)	
Refrigerant	/	R134a/210g
Max Capacity	Clamp flask: 100ml*60 or 250ml*38 or 500ml*22 or 1000ml*16 Haftplatte: 100ml*60 or 250ml *36 or 500ml*24 or 1L*16	
Defrost Function	/	Automatic defrosting
Auxiliary Function	Ultra-low speed start, Adjustable start speed, Over-speed automatic protection, Monitoring timer, Parameter memory, Call recovery, Refrigeration unit overload protection and call delay start (for BJPX-2102D), Upper and lower limit over-temperature sound and light alarm, Automatic stop upon opening door, Set parameters to check, Monitor temperature and ambient temperature correction.	
Material	External material: ABS; Internal material: Stainless steel	
Power Supply	AC220V, 50Hz (Standard); AC220V, 60Hz(Optional); 110V, 50/60Hz (Optional) (External transformer)	
Consumption	600W	850W
Shelves	500*360mm, 2pcs	
Standard Accessories	Clamp flask: 250ml*24, Shelf*1	
Optional Accessories	Lighting function, UV disinfection function, Printer, Haftplatte	
External Size (W*D*H)	700*580*1280mm	
Package Size (W*D*H)	825*720*1490mm	
Net Weight	180kg	
Gross Weight	220kg	

Large Capacity Vertical Type Shaking Incubator
(Double Door & Double Layer)

Features:

- * The first cutting-edge USB data recording system. The data of the whole experiment process was automatically recorded.
- * U disk to record the whole process of experimental data (temperature, speed, time can be recorded).
- * Download data automatically tabulated to save and print. Mouse click to easily replay the experiment process.
It is convenient to optimize reaction conditions, screen experimental methods, and confirm the experimental process.
- * Multi-section speed, temperature, time control system. A variety of different speed, temperature and time experimental modes can be set at one time, and the operation mode can be automatically changed during operation.
- * Super low speed start, the speed is out of control, automatic lock, adjustable starting speed. Unique dynamic balance design to ensure smooth operation.
- * Silent fan design, forced convection mode and unique air duct design ensure good temperature uniformity.
- * Automatic refrigeration mode, using environmentally friendly refrigerant, can automatically adjust the opening and closing of the refrigeration system according to the change of environmental temperature, without manual operation. (Refrigeration type)
- * Intelligent refrigeration frost-free operation technology, automatic defrosting function, defrosting time and defrosting interval can be set freely, so that the equipment can run stably for a long time under low temperature. And has the refrigeration delay start function, effectively protect the compressor. (Refrigeration type)
- * Users can freely set three operation modes: forward, reverse and forward and reverse.
- * LCD liquid crystal display, temperature, time, speed with the interface display.

Technical Parameters:

Model	BJPX-1102X	BJPX-2102X
Capacity	335L	
Temperature Control Range	Ambient temperature+5~65℃	4~65℃ (at 20℃)
Temperature Control Accuracy	±0.1℃	
Temperature Uniformity	±0.5℃(at 37℃, effective working surface)	
Temperature Fluctuation	≤0.1℃(at 37℃)	
Timing Range	0~9999 h/min (can be untimed, continuous operation)	
Control Mode	PID microcomputer control	
Display	LCD display	
Circulation Mode	Forced convection	
Oscillation Mode	Rotary shaking	
USB Data Download Processing System	YES	
Control System	Standard mode; Static mode; Persistent mode; Program control mode (multi-section temperature, speed, time control)	
Cyclotron Frequency Range	0, 20~350rpm (can do static culture, cross or alternate operation)	
Cyclotron Frequency Accuracy	±1rpm	
Swing Amplitude of The Plate	Φ26mm(Can be customized Φ35 (20-250rpm), Φ50 (20-200rpm)	
Refrigerant	/	R134a/210g
Standard Capacity	250ml*28, 500ml*22	
Max Capacity	Clamp flask: 100ml*100 or 250ml*56 or 500ml*44 or 1000ml*30 Haftplatte: 100ml*120 or 250ml *70 or 500ml*44 or 1L*24	
Defrost Function	/	Automatic defrosting
Auxiliary Function	Ultra-low speed start, Adjustable start speed, Over-speed automatic protection, Monitoring timer, Parameter memory, Call recovery, Refrigeration unit overload protection and call delay start (for BJPX-2102D), Upper and lower limit over-temperature sound and light alarm, Automatic stop upon opening door, Set parameters to check, Monitor temperature and ambient temperature correction.	
Material	External material: ABS; Internal material: Stainless steel	
Power Supply	AC220V, 50Hz (Standard); AC220V,60Hz(Optional); 110V, 50/60Hz (Optional) (External transformer)	
Consumption	900W	1150W
Shelves	710*455mm, 2pcs	
Standard Accessories	Clamp flask: 250ml*28, 500ml*22, Shelf*1	
Optional Accessories	Lighting function, UV disinfection function, Printer, Haftplatte	
External Size (W*D*H)	950*700*1280mm	
Package Size (W*D*H)	1050*820*1490mm	
Net Weight	240kg	
Gross Weight	280kg	

Stacked Large Capacity Shaking Incubator

Introduction:

The Stacked Large Capacity Shaking Incubator is a high-performance device designed for large-scale cell culture, microbial fermentation, and other temperature-sensitive shaking applications. With its stacked design, this incubator maximizes space efficiency in laboratories while offering increased capacity for simultaneous experiments.

Features:

- * Brushless DC motor, low noise, lasting operation.
- * 5"touch screen, clear and intuitive interface.
- * Run parameter encryption lock, parameter memory function.
- * With power failure recovery function.
- * Motor overheat, temperature control, abnormal over temperature instrument automatically cut off their power supply.
- * With USB data export function to achieve data traceability.
- * With ultraviolet disinfection function.
- * Standard equipped with LED light, open the door of the box light automatically open.

Technical Parameters:

Model	BJPX-SDT10	BJPX-SDT20
Capacity (L)	80	
Temp. sensor	PT100	
Temp. Range	RT+5~60℃	4~60℃
Temp. Fluctuation	≤±0.5℃	
Temp. Uniformity	≤±1℃(37℃)	
Temp. Precision	0.1℃	
Timing Range	0~999min	
Controller	PID	
Display	5-inch touch screen	
Circulation Mode	Forced convection	
Shaking Mode	Rotary shaking	
Drive Mode	Single axis balanced drive type	
Vibration Range	Φ26mm	
Rotating Speed	30~300r/min	
Rotating Accuracy	±1r/min	
Shaking Plate Size	420*400mm	
Shaking Plate Quantity	1pc	
Max. Capacity	250ml*16 or 500ml*9 or 1000ml*9 or 2000ml*5(Flask clamp) Tube rack*2 96-well plate*8 Clamping rod shaking plate*1	
Standard. Capacity	500ml*9	
Lighting Mode	LED lamp*1	
Sterilization Mode	UV lamp*1	
Refrigerant	/	R290
Ambient Temp.	15~35℃	
Internal Material	304 stainless steel	
External Material	Cold rolled steel sheet	
Safety Function	High/low temperature, abnormal shutdown, motor failure, equipment door is not closed properly automatic alarm, alarm mode is sound and light alarm	
Consumption	1000W	1600W
Power Supply	Standard: AC200~240V, 50/60Hz Optional: AC110V, 50/60Hz	
Internal Size	495*455*370mm(per unit)	
External Size	580*830*600mm(per unit)	
Package Size	705*975*865mm(per unit)	
Net Weight	138kg(per unit)	158kg(per unit)
Gross Weight	168kg(per unit)	188kg(per unit)

Shaking Plate Size	460*450mm	
Max. Capacity	Single layer shaker plate	250ml*20 or 500ml*14 or 1000ml*9 or 2000ml*6 or 5000ml*4(Flask clamp) Tube rack*2 96-well plate*12 Clamping rod shaking plate*1
	Double layer shaker plate	Upper layer: 50ml*60 or 100ml*60 or 250ml*40 or 500ml*30(Flask clamp) Lower layer: Universal spring clamp
Standard. Capacity	500ml*14(single layer)	
Lighting Mode	LED lamp*1	
Sterilization Mode	UV lamp*1	
Refrigerant	/	R290
Ambient Temp.	15~35℃	
Internal Material	304 stainless steel	
External Material	Cold rolled steel sheet	
Safety Function	High/low temperature, abnormal shutdown, motor failure, equipment door is not closed properly automatic alarm, alarm mode is sound and light alarm	
Consumption	1200W	1800W
Power Supply	Standard: AC200~240V, 50/60Hz Optional: AC110V, 50/60Hz	
Internal Size	560*500*555mm(per unit)	
External Size	650*840*810mm(per unit)	
Package Size	775*1005*1070mm(per unit)	
Net Weight	195kg(per unit)	215kg(per unit)
Gross Weight	225kg(per unit)	245kg(per unit)

Stacked Large Capacity Shaking Incubator

Introduction:
It is widely used in bacterial culture, fermentation, hybridization, biochemical reaction, enzyme and celltissue research. It has extensive and major applications in research and application fields such as biology, molecular science, food, and environment.

- Features:**

 - * High quality servo motor.
 - * Multi-steps rotate speed, temperature and time control systems.
 - * Slow accelerate and decelerate design.
 - * Advantaged air duct design.
 - * Automatic defrosting function.
 - * High-precision speed control.
 - * High-precision temperature control.
- * Unique drive system.
 - * Open door protection.
 - * LCD display with bright illumination.
 - * Memorized and protected operating parameters.
 - * Continuously running or timing.
 - * Unique slow-start design.
 - * Standard of illumination and UV light.

Technical Parameters:

Model	BJPX-2012N	BJPX-2012RN
Capacity (L)	180	
Temp. sensor	PT100	
Temp. Range	RT+5~60℃	4~65℃(at 25℃)
Temp. Fluctuation	≤0.1℃(37℃)	
Temp. Uniformity	±0.6℃(at 37℃)	
Temp. Precision	±0.1℃	
Timing Range	0~999.9h/min	
Controller	PID	
Display	LCD	
Circulation Mode	Forced convection	
Shaking Mode	Rotary shaking	
Drive Mode	Multidimensional drive	
Vibration Range	Φ26mm(Can customize φ35(20~250rpm/min); φ50(20~200rpm/min))	
Rotating Speed	20~350rpm(Top layer 20~300rpm, static culture, reverse rotation or alternate operation)	
Rotating Accuracy	±1rpm	
Shaking Plate Size	610*460 mm	
Shaking Plate Quantity	1pc	
Max. Capacity	250ml*32 or 500ml*20 or 1000ml*13 or 2000ml*7(Flask clamp) 250ml*32 or 500ml*20 or 1000ml*12 or 2000ml*8 (haftplatte)	
Standard Capacity	500ml*20	
Internal Material	Stainless steel	
External Material	Sprayed steel plate	
Refrigerant	/	R134a
Heating Consumption	800~900W	
Safety Function	Audio and visual alarm for over-temperature Alarm for over-speeds Independent over-temperature protector Shutdown protection for door opening Leakage or over-current protection Ultraviolet disinfection function Calibration of monitoring temperature and ambient temperature Overload protection of refrigeration unit and delayed start of incoming call(only BJPX-2012RN)	
Consumption	1000W	1200W
Power Supply	Standard: 220V±10%, 50/60Hz Optional: 110V±10%, 60Hz	Standard: 220V±10%, 50Hz Optional: 110V±10%, 50Hz
Internal Size(W*D*H(mm))	715*580*450(per unit)	
External Size(W*D*H(mm))	1120*790*620(per unit)

Gross Weight(kg)	220(per unit)	

BJPX-SDW10/20

BJPX-SDW10/20-L

- * Multiple methods to monitor equipment temperature, complete recording of information and traceability of quality control data.
- * High quality brushless DC motor, low vibration, low noise, high efficiency, maintenance free, energy saving, lasting operation.
- * 5 inch touch screen /LCD screen, clear and intuitive interface, easy to operate.
- * With UV disinfection function, the cavity to maintain a clean and sterile environment.
- * LED lighting function, open the door and turn on the light automatically.
- * With power failure recovery function, the equipment can automatically resume operation according to the original program.
- * Electric heating toughened glass perspective window, easy to observe, good temperature insulation effect, anti condensation.

Model		Specification	Model	Tube rack	Specification
Flask Clamp	BS-A10	50ml	Tube Rack	BS-A20	54-well, for 10ml centrifuge tube
	BS-A11	100ml		BS-A21	54-well, for 15ml centrifuge tube

Medicine Stability Test Chamber

Introduction:

Medicine stability test chambers are scientifically designed to create an environment of stable temperature, humidity and light levels over a long period of time for failure assessment of pharmaceuticals. It is suitable for accelerated test, long-term test, high humidity test and strong light irradiation test of pharmaceutical companies for pharmaceutical products and new drugs.

Adjustable shelf

Fluorescent lamp

High water-proof grade illumination sensor

Build-in printer

Features:

- * The shell is sprayed steel plate, the inner chamber is made of 304 stainless steel, full arc design, convenient for cleaning and maintenance.
- * With three-level password authority management function, can be graded operation.
- * Remote monitoring via mobile phones and computers.
- * With temperature alarm, humidity alarm, illumination and ultraviolet alarm, water shortage alarm, open door alarm, overload protection, compressor overload protection.
- * Comply with the national pharmacopoeia, GMP, FDA, ICH and other relevant standards in the long-term test, intermediate test, accelerated test, with stable and reliable performance to meet the requirements of a number of pharmaceutical tests for temperature, humidity and light and other environmental conditions.

Technical Parameters:

Model	BJPX-MT250
Sterilization Type	UV sterilization
Capacity	250L
Temp. Range	5~60°C with light source; 0~60°C without light source
Temp. Fluctuation	±0.5°C
Temp. Precision	0.1°C
Humidity Range	40~90%RH
Humidity Fluctuation	±5%RH
Illumination	Cool white fluorescent lamp, 0~6000Lux adjustable
Illumination Fluctuation	±500Lux
UV Irradiance	0~100μW/cm ²
UV Spectral Range	320~400nm
Refrigeration System	Dual refrigeration cycle system
Timing Range	0~9999h/min
Display	7-inch touch screen
Power Supply	AC 220V, 50/60Hz (Standard); 110V, 50/60Hz (Optional) (External transformer)
Consumption	2200W
Shelves	2pcs, adjustable
Standard Accessories	Shelves, fluorescent lamp, pin printer, USB port, PC port, φ30mm test hole, external water tank
Internal Size(W*D*H)	465*650*830mm
External Size(W*D*H)	800*850*1560mm
Package Size(W*D*H)	930*980*1750mm
Net Weight	200kg
Gross Weight	250kg

Medicine Stability Test Chamber

Features:

- * The shell is sprayed steel plate, the inner chamber is made of 304 stainless steel, full arc design, convenient for cleaning and maintenance.
- * Using SECOP refrigeration compressor, high efficiency, low consumption; non-fluorine environmentally friendly refrigerant.
- * Microcomputer intelligent PID temperature and humidity controller, accurate temperature control, with parameter memory function, automatically resume operation after restoring electricity.
- * Automatically disconnects power to the humidifier heater when no humidification water is available.
- * Over-temperature alarm, under-temperature alarm, temperature probe damage alarm, humidity probe damage alarm.
- * Temperature and humidity real-time curve display and 600-day historical data query function; 600-day historical data USB export function; ethernet-based remote monitoring function.

Technical Parameters:

Model	BJPX-MS120A	BJPX-MS288A	BJPX-MS500A
Sterilization Type (Optional)	UV sterilization		
Capacity	173L	288L	504L
Temp. Range	-20~65℃		
Temp. Fluctuation	±0.5℃		
Temp. Precision	0.1℃		
Humidity Range	40~95%RH		
Humidity Fluctuation	3%RH		
Illumination	Single-side illumination 4500Lux, 4-level adjustable		
Refrigeration System	R404a refrigerant, CFC-free		
Timing Range	The timer can be set for a maximum of 99 hours for a single step, with a total of 100 steps available		
Display	7-inch touch screen		
Power Supply	AC 220V, 50/60Hz (Standard); 110V, 50/60Hz (Optional) (External transformer)		
Consumption	2100W	2600W	3500W
Shelves	3pcs, adjustable		
Standard Accessories	Shelves, LED lamp, φ35mm test hole, built-in water tank, automatic water replenishment interface, USB port, PC port		
Optional Accessories	Miniature thermal printer or miniature pin printer, external temperature protection device, external temperature and humidity SMS alarm module		
Internal Size(W*D*H)	500*450*700mm	600*600*800mm	800*710*910mm
External Size(W*D*H)	830*660*1590mm	980*760*1610mm	1090*960*1820mm
Package Size(W*D*H)	920*750*1740mm	1080*860*1860mm	1190*1070*1970mm
Net Weight	158kg	195kg	253kg
Gross Weight	187kg	230kg	298kg

Medicine Stability Test Chamber (Economical Type)

Features:

- * The shell is sprayed steel plate, the inner chamber is made of 304 stainless steel, full arc design, convenient for cleaning and maintenance.
- * Using SECOP refrigeration compressor, high efficiency, low consumption; non-fluorine environmentally friendly refrigerant.
- * Microcomputer intelligent PID temperature and humidity controller, accurate temperature control, with parameter memory function, automatically resume operation after restoring electricity.
- * Automatically disconnects power to the humidifier heater when no humidification water is available.
- * Over-temperature alarm, under-temperature alarm, temperature probe damage alarm, humidity probe damage alarm.

Oven

Vacuum Drying Oven

BOV-30V/BOV-50V

BOV-90V/BOV-215V

BOV-90VL/BOV-215VL

Introduction:

Vacuum drying oven is a kind of laboratory equipment for drying and heating treatment under vacuum environment, specially designed for drying heat-sensitive, easy to decompose and easy to oxidize substances, when working, it can keep a certain degree of vacuum in the working chamber, especially some items with complex composition can also be dried quickly.

Features:

- * Outer material : cold rolled steel plate with spraying surface; inner material : SUS stainless steel plate.
- * PID microprocessor temperature control with LED display.
- * Integral molded silicone rubber door seal ring for good air tightness.
- * Toughened bulletproof double glazed doors.
- * With parameter memory function, automatically resume operation when power restoration.
- * The heater is located in the chamber on the shelf, and separate temperature control, with a short heating time, the same level of temperature uniformity is good. (Except BOV-30L/50L)

Technical Parameters:

Model	BOV-30V	BOV-50V	BOV-90V	BOV-215V	BOV-90VL	BOV-215VL
Capacity	23L	53L	91L	213L	91L	213L
Temp. Range	RT+10~200℃	RT+10~250℃	RT+10~200℃			
Temp. Fluctuation	±1℃					
Vacuum Degree	<133Pa					
Vacuum Display	Pointer-type vacuum pressure gauge		Pointer-type differential pressure vacuum gauge with rotatable vacuum value		LED digital display, push button input of the vacuum value	
Vacuum Control	Manual control		Automatic differential pressure control		Pressure sensor+deviation control	
Timing Range	0~9999min					
Power Supply	AC 220V, 50/60Hz (Standard); 110V, 50/60Hz (Optional) (External transformer)					
Consumption	500W	1400W	1600W	2200W	1600W	2200W

Constant-Temperature Drying Oven

Application:
It is suitable for drying samples of powders, insects and other tiny objects to avoid the samples flying up due to wind. This product is used for drying and melting wax of non-flammable and non-explosive items and non-volatile items in industrial and mining enterprises, colleges and universities, biopharmaceuticals, scientific research units, food processing, medical units and various laboratories.

- Features:**
- * LCD temperature display, with built-in temperature deviation calibration function.
 - * Over-temperature alarm and automatic fault detection alarm function, equipped with leakage current and overvoltage protector.
 - * Accurately control the heating time, timing error ≤1%.
 - * Bottom heating, natural convection.
 - * Cold-rolled steel plate surface sprayed with plastic, stainless steel plate liner material, arc structure design, easy to clean.
 - * The box door has a double-layer high-temperature resistant glass observation window.
 - * It has parameter memory function and automatically recovers when power is on.

Application:
It is suitable for drying samples of powders, insects and other tiny objects to avoid the samples flying up due to wind. This product is used for drying and melting wax of non-flammable and non-explosive items and non-volatile items in industrial and mining enterprises, colleges and universities, biopharmaceuticals, scientific research units, food processing, medical units and various laboratories.

- Features:**
- * The top air outlet switch is convenient.
 - * With door observation window.
 - * LED digital tube display P.I.D temperature controller, precise temperature control.
 - * Continuous operation or timed operation.
 - * With parameter memory function, automatic recovery operation when the call comes.
 - * The inner box adopts arc structure design, which is easy to clean.
 - * Pull-out movable shelves with adjustable spacing.

Forced Air Drying Oven

BJPX-HGZ23/45/54/75/88/138/160/225/270

BJPX-HGZ30L

Applications:

This product is used for drying, disinfecting, melting wax and sterilizing non-flammable and non-explosive items and non-volatile items in industrial and mining colleges and universities, biopharmaceuticals, enterprises, scientific research, food processing, medical institutions and various laboratories. For example, drying of experimental samples, food, glassware, thermal hardening, thermal denaturation, thermal softening and water removal of chemical substances; dry heat sterilization of instruments and utensils in bioengineering; aging and drying of electronic components, etc.

Features:

- * LCD display screen, with built-in temperature deviation calibration function.
- * The inner tank is made of high-quality stainless steel, with semi-circular four-corner design.
- * It has an over-temperature alarm system function to prevent damage to the instrument due to excessive temperature.
- * The unique thermal circulation circuit has a fan to form forced convection, so that the average temperature in the working room is better.
- * The perspective window structure design is convenient for observing the internal situation of the equipment.
- * Good thermal insulation performance and low surface temperature of the equipment.

High Temperature Drying Oven

BOV-H50/100

BOV-H226

Features:

- * Outer material: cold-rolled steel plate sprayed on the surface; inner material: SUS stainless steel plate.
- * PID microprocessor temperature control, precise and reliable temperature control.
- * The inner box is designed with a circular arc structure, which is easy to clean.
- * Optional printer or RS485 interface for software connection (For BOV-H50/100)

Technical Parameters:

Model	BOV-H50	BOV-H100	BOV-H226
Capacity	50L	100L	226L
Temp. Range	RT+20~400℃		50~500℃

Drying Oven/Incubator (Dual Purpose)

BOV-D35

BOV-D53/87/149/248

Application:

The drying oven/incubator can be used as an incubator for the incubation of bacteria, molds, microorganisms, and tissue cells. As a drying oven, it can be used for baking, drying, heat treatment, disinfection and sterilization. Applicable to universities, research and production department.

Features:

- * Outer material: cold-rolled steel plate sprayed on the surface; inner material: SUS stainless steel plate.
- * Air inlet and outlet on the back, the air volume can be adjusted.
- * Adopt silicone rubber sealing strip and double glass door observation window, easy and clear observation.
- * Microcomputer controller, precise and reliable temperature control.
- * The inner box is designed with a circular arc structure, which is easy to clean.

Technical Parameters:
