

Version 2025-1

INTRODUCTION

BIOBASE Group is a professional manufacturer of rehabilitation products that founded in 1999.

Our main products are flat hospital bed, hospital bed (single/double/three-crank), multifunctional bed, examination bed, manual wheelchair(steel wheelchair/aluminum alloy wheelchair), electric wheelchair, walking stick and walking aid. And every year we have many new products that come into the market.

We have an excellent research team composed of professional engineers.

We have rich production experience and a strong technical production team.

We have more than 6500 employees and 16 factories.

BIOBASE Group provides you with high quality products and services.

Chair

Bath Chair-----	40
Toilet Chair-----	41
Shift Machine-----	42

Optional Accessory

- * Mattress
- * Infusion stand
- * Stretch table
- * Bedside cabinet
- * Case folder
- * Aluminum alloy guardrail, etc.

Introduction

The hospital bed is a bed with certain functions specially designed for the special medical environment and the health needs of patients. The invention of the hospital bed not only brings the Gospel to patients, increases the comfort of patients, but also facilitates the operation of medical personnel and meets the needs of medical personnel for some specific functions.

Features

- The bed frame is welded and formed from high-quality steel, and the surface is electrostatically sprayed with plastic, making it strong, durable, and beautiful.
- The bed board is made of high-quality cold-rolled steel plates that are once stretched and molded. The surface is sprayed with electrostatic plastic to prevent corrosion and is easy to clean.
- The steel bedside elbow is formed with beautiful appearance, locking installation and easy disassembly.
- The rocker screw adopts a metal hidden hand crank with a light and flexible structure, and the screw has a two-way limit protection device.

Technical Parameter

Model	MF1S
External Size	2080*915*500mm(±10mm)
Packing Size	2050*950*150mm
Gross Weight	40kg

Optional Accessory

- * Mattress,
- * Infusion stand,
- * Mobile dining table,
- * Stretch table,
- * Bedside cabinet,
- * Case folder, etc.

Features

- The bed board is made of high-quality cold-rolled steel; Electrostatic spray on the surface, anti-corrosion, easy to clean.
- The head and the end of the bed are made of high-quality plastic, one-time formed; With beautiful appearance and lock-type installation, can insert bedside card.
- Using 5" silent casters, flexible rotation, high safety and stability, wear-resistance, no noise, with four braking device.
- Aluminum alloy folding guardrails are used on both sides, which can be retracted freely and locked tightly to protect the safety of patients.

Technical Parameter

Model	MF3S
Type	Slatted
External Size(mm)	2120*960*500(±10)
Packing Size(mm)	2050*1000*200
Gross Weight (kg)	55

Optional Accessory

- * Mattress
- * Infusion stand
- * Stretch table
- * Bedside cabinet
- * Case folder
- * Aluminum alloy guardrail, etc.

The hospital bed is a bed with certain functions specially designed for the special medical environment and the health needs of patients. The invention of the hospital bed not only brings the Gospel to patients, increases the comfort of patients, but also facilitates the operation of medical personnel and meets the needs of medical personnel for some specific functions.

Features

- The bed frame is welded and formed from high-quality steel, and the surface is electrostatically sprayed with plastic, making it strong, durable, and beautiful.
- The bed board is made of high-quality cold-rolled steel plates that are once stretched and molded. The surface is sprayed with electrostatic plastic to prevent corrosion and is easy to clean.
- The steel bedside elbow is formed with beautiful appearance, locking installation and easy disassembly.
- The rocker screw adopts a metal hidden hand crank with a light and flexible structure, and the screw has a two-way limit protection device.

Technical Parameter

Model	MF101S
External Size	2080*915*500mm(±10mm)
Back Adjustable	0-75°(±5°)
Packing Size	2050*950*150mm
Gross Weight	40kg

Optional Accessory

- * Mattress,
- * Infusion stand,
- * Mobile dining table,
- * Stretch table,
- * Bedside cabinet,
- * Case folder, etc.

Features

- The bed board is made of high-quality cold-rolled steel; Electrostatic spray on the surface, anti-corrosion, easy to clean.
- The head and the end of the bed are made of high-quality plastic, one-time formed; With beautiful appearance and lock-type installation, can insert bedside card.
- Using 5" silent casters, flexible rotation, high safety and stability, wear-resistance, no noise, with four braking device.
- Aluminum alloy folding guardrails are used on both sides, which can be retracted freely and locked tightly to protect the safety of patients.
- ABS concealed hand crank with a light and free structure and two-way limit protection.

Technical Parameter

Model	MF103S
Type	Slatted
External Size (mm)	2120*960*500(±10)
Back Adjustable	0-70°
Packing Size (mm)	2050*1000*220
Gross Weight (kg)	58

Optional Accessory

- * Mattress,
- * Infusion stand,
- * Mobile dining table,
- * Stretch table,
- * Bedside cabinet,
- * Case folder, etc.

Features

- The bed board is made of high-quality cold-rolled steel, punching formed; Electrostatic spray on the surface, anti-corrosion, easy to clean.
- The head and the end of the bed are made of high-quality plastic, one-time formed; With beautiful appearance and lock-type installation, can insert bedside card.
- Using 5" silent casters, flexible rotation, high safety and stability, wear-resistance, no noise, with four braking device.
- Aluminum alloy folding guardrails are used on both sides, which can be retracted freely and locked tightly to protect the safety of patients.
- ABS concealed hand crank with a light and free structure and two-way limit protection.

Technical Parameter

Model	MF104S
Type	Punching
External Size (mm)	2120*910*500(±10)
Back Adjustable	0-70°
Packing Size (mm)	2050*1000*250
Gross Weight (kg)	60

Optional Accessory

- * Mattress,
- * Infusion stand,
- * Mobile dining table,
- * Stretch table,
- * Bedside cabinet,
- * Case folder, etc.

Features

- The bed board is made of high-quality cold-rolled steel, punching formed; Electrostatic spray on the surface, anti-corrosion, easy to clean.
- The head and the end of the bed are made of high-quality plastic, one-time formed; With beautiful appearance and lock-type installation, can insert bedside card.
- Using 5" silent casters, flexible rotation, high safety and stability, wear-resistance, no noise, with four braking device.
- Aluminum alloy folding guardrails are used on both sides, which can be retracted freely and locked tightly to protect the safety of patients.
- ABS concealed hand crank with a light and free structure and two-way limit protection.

Technical Parameter

Model	MF201S
Type	Punching
External Size (mm)	2120*910*560(±10)
Back Adjustable	0-70°
Leg Adjustable	0-30°
Packing Size (mm)	2050*1000*250
Gross Weight (kg)	70

Optional Accessory

- * Mattress,
- * Infusion stand,
- * Mobile dining table,
- * Stretch table,
- * Bedside cabinet,
- * Case folder, etc.

Features

- The bed board is made of high-quality cold-rolled steel; Electrostatic spray on the surface, anti-corrosion, easy to clean.
- The head and the end of the bed are made of high-quality plastic, one-time formed; With beautiful appearance and lock-type installation, can insert bedside card.
- Using 5" silent casters, flexible rotation, high safety and stability, wear-resistance, no noise, with four braking device.
- Aluminum alloy folding guardrails are used on both sides, which can be retracted freely and locked tightly to protect the safety of patients.
- ABS concealed hand crank with a light and free structure and two-way limit protection.

Technical Parameter

Model	MF202S
Type	Slatted
External Size (mm)	2120*960*500(±10)
Back Adjustable	0-70°
Leg Adjustable	0-30°
Packing Size (mm)	2050*1000*220
Gross Weight (kg)	67

Optional Accessory

- * Mattress,
- * Infusion stand,
- * Mobile dining table,
- * Stretch table,
- * Bedside cabinet,
- * Case folder, etc.

Features

- The bed board is made of high-quality cold-rolled steel, punching formed; Electrostatic spray on the surface, anti-corrosion, easy to clean.
- The head and the end of the bed are made of high-quality plastic, one-time formed; With beautiful appearance and lock-type installation, can insert bedside card.
- Diameter 125mm luxury central control caster, flexible rotation, synchronous braking, convenient and stable locking.
- Aluminum alloy folding guardrails are used on both sides, which can be retracted freely and locked tightly to protect the safety of patients.
- ABS concealed hand crank with a light and free structure and two-way limit protection.

Technical Parameter

Model	MF203S
Type	Punching
External Size (mm)	2120*910*560(±10)
Back Adjustable	0-70°
Leg Adjustable	0-35°
Packing Size (mm)	2100*1000*600; 2100*1050*700(with wooden support)
Gross Weight (kg)	85; 125

Optional Accessory

- * Mattress,
- * Infusion stand,
- * Mobile dining table,
- * Bedside cabinet,
- * Case folder, etc.

Features

- The bed board is made of high-quality cold-rolled steel, punching formed; Electrostatic spray on the surface, anti-corrosion, easy to clean.
- The head and the end of the bed are made of high-quality plastic, one-time formed; With beautiful appearance and lock-type installation, can insert bedside card.
- Diameter 125mm luxury central control caster, flexible rotation, synchronous braking, convenient and stable locking.
- Four PP guardrails, dampers can control speed and noise when lifting, providing safety protection.
- ABS concealed hand crank with a light and free structure and two-way limit protection.

Technical Parameter

Model	MF204S
Type	Punching
External Size (mm)	2180*1030*560(±10)
Back Adjustable	0-70°
Leg Adjustable	0-35°
Packing Size (mm)	2100*1000*600; 2100*1050*700(with wooden support)
Gross Weight (kg)	95; 135

Optional Accessory

- * Mattress
- * Infusion stand
- * Stretch table
- * Bedside cabinet
- * Case folder
- * Aluminum alloy guardrail, etc.

Introduction

The hospital bed is a bed with certain functions specially designed for the special medical environment and the health needs of patients. The invention of the hospital bed not only brings the Gospel to patients, increases the comfort of patients, but also facilitates the operation of medical personnel and meets the needs of medical personnel for some specific functions.

Features

- The bed frame is welded and formed from high-quality steel, and the surface is electrostatically sprayed with plastic, making it strong, durable, and beautiful.
- The bed board is made of high-quality cold-rolled steel plates that are once stretched and molded. The surface is sprayed with electrostatic plastic to prevent corrosion and is easy to clean.
- The steel bedside elbow is formed with beautiful appearance, locking installation and easy disassembly.
- The rocker screw adopts a metal hidden hand crank with a light and flexible structure, and the screw has a two-way limit protection device.

Technical Parameter

Model	MF205S
External Size	2080*915*500mm(±10mm)
Back Adjustable	0-75°(±5°)
Leg Adjustable	0-35°(±5°)
Packing Size	2050*950*150mm
Gross Weight	51kg

Optional Accessory

- * Mattress,
- * Infusion stand,
- * Mobile dining table,
- * Stretch table,
- * Bedside cabinet,
- * Case folder, etc.

Features

- The bed board is made of high-quality cold-rolled steel, punching formed; Electrostatic spray on the surface, anti-corrosion, easy to clean.
- The head and the end of the bed are made of high-quality plastic, one-time formed; With beautiful appearance and lock-type installation, can insert bedside card.
- Diameter 125mm luxury central control caster, flexible rotation, synchronous braking, convenient and stable locking.
- Aluminum alloy folding guardrails are used on both sides, which can be retracted freely and locked tightly to protect the safety of patients.
- ABS concealed hand crank with a light and free structure and two-way limit protection.

Technical Parameter

Model	MF303S
Type	Punching
External Size (mm)	2120*910*560-740(±10)
Back Adjustable	0-70°
Leg Adjustable	0-30°
Overall Lifting Range (mm)	500-740
Packing Size (mm)	2100*1000*460; 2100*1050*700(with wooden support)
Gross Weight (kg)	100; 140

Optional Accessory

- * Mattress,
- * Infusion stand,
- * Mobile dining table,
- * Bedside cabinet,
- * Case folder, etc.

Features

- The bed board is made of high-quality cold-rolled steel, punching formed; Electrostatic spray on the surface, anti-corrosion, easy to clean.
- The head and the end of the bed are made of high-quality plastic, one-time formed; With beautiful appearance and lock-type installation, can insert bedside card.
- Diameter 125mm luxury central control caster, flexible rotation, synchronous braking, convenient and stable locking.
- Four PP guardrails, dampers can control speed and noise when lifting, providing safety protection.
- ABS concealed hand crank with a light and free structure and two-way limit protection.

Technical Parameter

Leg Adjustable	0-30°
Overall Lifting Range (mm)	500-740
Packing Size (mm)	2100*1000*460; 2100*1050*700(with wooden support)
Gross Weight (kg)	122; 160

MF401S

MF402S

Features

- Bed frame made of high quality steel welding molding, electrostatic spraying surface, firm and durable, beautiful and generous.
- The head of the bed and the end of the bed are molded by high-quality engineering plastic, beautiful appearance lock type installation, easy to disassemble.
- Casters adopt 5 inch silent casters, flexible rotation, safe and stable, high wear resistance, no noise, four corners with brake device.
- Aluminum alloy folding guardrail is adopted on both sides, which can be easily closed and locked firmly to protect the safety of patients.
- ABS concealed hand crank with a light and free structure and two-way limit protection.
- The bed plate is made of high quality cold rolled steel plate. The surface is electrostatic sprayed, anti-corrosion and easy to clean.

Technical Parameter

Model	MF401S	MF402S
External Size (mm)	2120*960*560 (±10)	2010*960*500 (±10)
Back Adjustable	0-70°	0-70°
Leg Adjustable	-55°-25°	-55°-25°
Roll Over Angle	0-60°	0-60°
Packing Size (mm)	2050*1000*250	2050*1000*420
Gross Weight	77kg	85kg
Difference	Avoid sliding when lifting the back (Only MF402S)	

Optional Accessory

- * Nightstand,
- * Mattress.

Features

- Bed frame made of high quality steel welding molding, electrostatic spraying surface, firm and durable, beautiful and generous.
- ABS concealed hand crank with a light and free structure and two-way limit protection.
- Casters adopt 5 inch silent casters, flexible rotation, safe and stable, high wear resistance, no noise, four corners with brake device.
- The head of the bed and the end of the bed are molded by high-quality engineering plastic, beautiful appearance lock type installation, easy to disassemble.
- Aluminum alloy folding guardrail is adopted on both sides, which can be easily closed and locked firmly to protect the safety of patients.

Technical Parameter

Model	MFE202S
External Size (mm)	1886*900*650(±10)
Back Adjustable	0-70°
Leg Adjustable	0-35°
Packing Size (mm)	①. 2050*1000*320 (pieces, installation is required when the pieces arrive) ②. 1950*1300*980 (finished product,the finished product does not need to be installed upon arrival)
Gross Weight	98kg
Bed surface size (mm)	1786*796(±10mm)

Introduction

The multifunctional electric bed is a device that changes the position of the bed through an electrical control system. The multifunctional electric bed provides complex postures for clinical needs such as back, bent legs, full lift, full forward tilt, full back tilt, etc., which is convenient for nursing staff to operate and can effectively reduce the labor intensity of nursing staff.

Leg down function

Leg up function

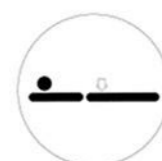

Back panel and leg panel down at the same time

Back panel and leg panel up simultaneously

Whole bed rise function

Whole bed down function

Trendelenburg position (manual)

CPR , one-key reset

Features

- Use high-quality materials: the bed frame and the bed board are made of high-quality steel plate, and the surface is electrostatically sprayed; the head and foot of the bed are made of ABS high-quality engineering plastics for one-time molding.
- Casters: 125MM central control casters, flexible rotation, one-foot brake, four-wheel brake, safety, stability, high wear resistance, no noise.
- Guardrails: Butterfly-shaped lifting guardrails are used on both sides to keep up and down synchronously with the bed board. The angle display accurately displays the angle of each part and can be easily lifted.
- Electronic control system: using high-quality motors and control systems, the system runs stably and has high safety.

Technical Parameter

Model	MF301DS-22
Instrument Size	2165*1115*530~770 (±10) mm
Back Panel Adjustable Angle Range	0°~70°
Thigh Panel Adjustable Angle Range	0°~30°
Calf Panel Adjustable Angle Range	0°~10°
Trendelenburg Position	≥12°(manual)
Lifting Range	520~770mm
Guardrail Height (above the bed)	380mm(±10mm)
Safe Load	175kg
Power Supply	110~220V, 50/60Hz
Net Weight	145kg
Package Size	2200*1200*730mm
Gross Weight	192kg

MFZC1S

MFZC2S

Features

- The bed frame is formed by high-quality rigid welding, and the surface is electrostatically sprayed.
- The foot cover adopts wear-resistant and non-slip outer foot cover, which can better protect the foot of the bed and the ground.
- The bed surface is made of artificial leather, and the inner lining is made of 3cm thick sponge, which rebounds quickly.
- A storage rack is added at the bottom to place items, which is more convenient.(MFZC2S)

Technical Parameter

Model	MFZC1S	MFZC2S
Product Size (mm)	1900*600*600(±10)	
Loading	≤175kg	
Packing Size(mm)	1960*660*200	
Gross Weight(kg)	30	35

MFZC3S

MFZC4S

Introduction

The examination bed is generally placed in the consultation room to check the specific condition of the patient. From small clinics to large hospitals, it is suitable for use in various departments of outpatient clinics, and can be used as lying or lying on patients during pre-diagnosis.

Features

- The bed frame is formed by high-quality rigid welding, and the surface is electrostatically sprayed.
- The foot cover adopts wear-resistant and non-slip outer foot cover, which can better protect the foot of the bed and the ground.
- The bed surface is made of artificial leather, and the inner lining is made of 3cm thick sponge, which rebounds quickly.
- A storage rack is added at the bottom to place items, which is more convenient.(MFZC4S)

Type I

Type II

Introduction

Wheelchair is an important mobile tool for home rehabilitation, turnover transportation, medical treatment, and outing activities for the wounded, sick, and disabled. It not only satisfies the mobility of the physically disabled and people with mobility impairments, but more importantly, it is convenient for family members to move and take care of patients. Allow patients to use wheelchairs to exercise and participate in social activities.

Features

- The tire is non-inflatable tire with strong seismic buffering capacity.
- The skeleton adopts high strength carbon steel structure, which is light, simple and durable.
- The cellular breathable cushion is used for the seat cushion, which has better moisture absorption and air permeability and makes the patient more comfortable.
- The back can be folded, the cushion can be removed, the foot pedal can be opened and closed, easy to carry and simple operation.

SYIV100-MFL822

Introduction

The manual wheelchair is designed for the elderly and the disabled, which is convenient for home life, travel, supermarket shopping, to make the life of patients more comfortable. It is suitable for home, hospital, nursing home.

Features

- Free-inflatable tires, with strong shock-absorbing performance.
- High quality welding, exquisite workmanship, light and simple body, more durable.
- Honeycomb breathable cushion, which has better moisture absorption and air permeability, making the patient more comfortable.
- Armrests can be lifted back and pedal can be removed.

Technical Parameter

Model	SYIV100-MFL822
Front Wheel Diameter	8 inches, rubber integrated wheel
Rear Wheel Diameter	24 inches, PU tires
Seat Width	460mm
Seat Depth	410mm
Backrest Height	430mm
Folded Width	310mm
Seat Height	500mm
Loading Capacity	100kg
Armrest	PU
Pedal	ABS plastic
Folded Size	800*310*720mm
Unfolded Size	1050*600*890mm
Net Weight	14kg
Package Size	810*320*730mm
Gross Weight	17kg

SYIV100-MFLG813

Introduction

Wheelchair is an important mobile tool for home rehabilitation, turnover transportation, medical treatment, and outing activities for the wounded, sick, and disabled. It not only satisfies the mobility of the physically disabled and people with mobility impairments, but more importantly, it is convenient for family members to move and take care of patients. Allow patients to use wheelchairs to exercise and participate in social activities.

Features

- The stepless adjustment lever allows you to adjust the angle of back, full or half-lying as you wish.
- The pull-out type enlarges the toilet bowl. The toilet bowl is deepened and enlarged to prevent side leakage. The pull-out type design is clean and hygienic and does not release odor.
- The aluminum alloy wheel frame is equipped with air-free high-quality PU tires, which are easy to care for and maintenance-free.
- It folds compactly and can be placed in the trunk, making it easy to carry when traveling to meet various travel needs.

Technical Parameter

Model	SYIV100-MFLG813
Rear Wheel Configuration	PU wheel
Instrument Size (W*D*H)	1190*670*1200mm
Folded Size (W*D*H)	880*370*1000mm
Seat Size (W*D*H)	460*400*390mm
Seat Height	570mm
Seat Width	470mm
Seat Depth	470mm
Front Wheel Diameter	8 inches
Rear Wheel Diameter	24 inches
Loading Capacity	100kg
Net Weight	18.3kg
Gross Weight	21kg
Package Size(W*D*H)	920*370*1000mm

MFN800L

Features

- Humanized intelligent controller, one-hand button operation, electromagnetic brake, 360° sensitive control.
- Manual/electric dual mode switch, sensitive control.
- Folding before and after, small volume, easy to follow.
- High elastic memory sponge, sedentary, easy to remove and clean.
- The frame is made of aluminum alloy, bearing 120KG without deformation.

Technical Parameter

Model	MFN800L
Front Wheel Diameter	8 inches
Rear Wheel Diameter	12 inches
Seat Width	420mm±10mm
Seat Depth	500mm±10mm
Seat Height	530mm±10mm
Instrument Size	970*620*935mm±10mm
Max Speed	4.5km/h
Endurance Mileage	12-15km
Climbing Ability	≥3°
Loading Capacity	120kg
Battery	Lithium batteries Standard: 12A Optional: 6A, 20A
Power Supply	AC100~240V, 50/60Hz
Package Size(W*D*H)	610*425*800mm±20mm
Net weight	25.5±1kg
Gross Weight	28±1kg

MFN801L

Features

- Humanized intelligent controller, one-hand button operation, electromagnetic brake, 360° sensitive control.
- Manual/electric dual mode switch, sensitive control.
- One-step folding, designed for use in small Spaces such as home.
- High elastic memory sponge, sedentary, easy to remove and clean.
- The frame is made of aluminum alloy, bearing 120KG without deformation.
- Control handle remote start speed regulation.

Technical Parameter

Model	MFN801L
Front Wheel Diameter	6 inches
Rear Wheel Diameter	12 inches
Seat Width	480mm±10mm
Seat Depth	410mm±10mm
Seat Height	460mm±10mm
Instrument Size	900*590*855±10mm
Max Speed	4.5km/h
Endurance Mileage	12-15km
Climbing Ability	≥3°
Loading Capacity	120kg
Battery	Lithium batteries Standard: 12A Optional: 6A, 20A
Power Supply	AC100~240V, 50/60Hz
Package Size(W*D*H)	670*460*710±20mm
Net weight	22±1kg
Gross Weight	24±1kg

Features

- * Humanized intelligent controller, 360° sensitive control, mobile APP control.
- * Front wheel honeycomb wheel, rear wheel aluminum alloy hub tires, good shock absorption function.
- * High efficiency energy-saving dual motor, hand/electric mode one key switch.
- * Intelligent electromagnetic brake system.
- * Durable lithium battery, stable power supply performance, easy to disassemble.
- * High elastic memory sponge back cushion, cushion comfortable and smooth.
- * Aviation aluminum alloy frame, bearing 120KG, optional color can be customized.

Adjustable headrest

Leg lift device

Water cup holder

Umbrella stand

Introduction

The electric wheelchair is designed for the elderly and the disabled, which is convenient for home life, travel, supermarket shopping, to make the life of patients more comfortable. It is suitable for home, hospital, nursing home.

Features

- Humanized intelligent controller, 360° sensitive control, mobile APP control, optional wireless telecontroller.
- The front wheels are 10-inch aluminum alloy wheel with free-inflation PU tires, with good obstacle crossing ability and shock-absorbing function; the rear wheels are 16-inch inflation tires.
- The backrest is fixed and low so that user can not lie back.
- 250W high efficiency energy-saving dual motor.
- Durable battery (Lead-acid or lithium battery alternative), stable power supply performance, easy to disassemble.
- High-elastic memory sponge back cushion, breathable and indeformable, comfortable and stable.
- Detachable footrest, livable armrest and folding backrest, convenient to assemble and carry.
- High-quality carbon steel frame, folded left and right, bearing 120KG without deformation, optional color can be customized.

Introduction

The cane is a must-have for many elderly people when going out, and is suitable for people with strong upper limb muscle grip.

Features

- Lightweight and easy to carry.
- A variety of structures to choose from.
- 10 steps height adjustable.
- The foot pad is made of wear-resistant, elastic, non-slip rubber material with a high surface friction coefficient, which is convenient and durable.
