

Pro Series Class II B2 **Biological Safety** Cabinet

-

LCD Display

7 inch touch screen display is easy to monitor all the safety parameters at a glance and ergonomically sized control panel improves user interface.

Work Zone Work zone, made of 304 stainless steel, is surrounded by negative pressure.

Remote Control

All functions can be realized with it, making the operation much easier and more convenient.

UV Lamp

Emission of 253.7 nanometers for most efficient decontamination.

Front Window

Two-layer laminated toughened glass≥6mm, Anti UV

Footmaster Caster

Universal caster with brake and leveling feet

Foot Switch

Adjust front window height by foot during experiment, to avoid airflow turbulence caused by arm movement.

Waterproof Socket

2 waterproof sockets are located in the side wall, for optimum convenience of using small devices inside the cabinet.

ADVANTAGE

- 1. Larger angle of view, easy to operate and more humanized.
- 2. Motorized front window.
- 3. ULPA filter life and UV life indicator.
- 4. Time reserve function.
- 5. With memory function in case of power-failure.
- 6. Self-locking button switch to solve the trouble of losing the key.
- 7. 7 inch Large touch screen with Intelligent control system: Operators can check detailed status of the cabinet, such as inflow and downflow velocity, work area temperature and humidity, filter pressure, UV working time and filter working time, filter life indicator etc.
- 8. Audio and visual alarm (filter replacement, window over height, abnormal air flow velocity, etc. High filter pressure alarm).
- 9. Remote control. All functions can be realized with it, making the operation much easier and more convenient.
- 10. Interlock function: UV lamp and front window; UV lamp and blower, LED lamp; blower and front window
- 11. Foot switch. Adjust front window height by foot during experiment, to avoid airflow turbulence caused by arm

TECHNICAL DADAMETEDS

Display inflow and downflow velocity, filter life, humidity and temperature, system working time etc. Control System Airflow System O% air re-circulation, 100% air exhaust Alarm Abnormal airflow velocity; Filter replacement; Front window at unsafe height; High filter pressure alarm. Exhaust Duct 4 meters PVC duct, Diameter:300mm Work Zone: 304 stainless steel Main Body: Cold-rolled steel with anti-bacteria powder coating Work Surface Height 750mm(Size can be customized according to requirements) Caster Power Supply AC 220V±10%, 50/60Hz; 110V±10%, 60Hz (110V/60Hz is not applicable to BSC-1800IIB2-Pro) Standard Accessory ED lamp*2, UV lamp*2, base stand, remote control, foot switch, exhaust blower, exhaust duct, drain valve, waterproof sockets*2, pipe strap*2 Optional Accessory Water and gas tap, Electric height adjustable base stand Gross Weight 265kg;50kg 420kg;60kg	TECHNICAL PARAMETERS
