

Auto Bath Machine

Bath Chamber

Lifting Bed

Introduction:

Automatic bath machine is a nursing equipment developed for disabled people. It can safely and conveniently take a bath for some disabled people, greatly reducing the risk of accidental falls during bathing, and reducing the labor intensity and psychological pressure of nursing staff.

Features:

*** Automatic bath**

The upper part of the bath room is equipped with 6 spray heads, and the lower part is equipped with 4 spray heads, which can realize spraying both up and down at the same time. And it is equipped with flower wine for head and topical body washing.

*** Constant-temperature water**

With instant heating module and automatic temperature control system, which can achieve rapid heating, ready to use.

*** LCD touch screen**

Easy to operate, with two procedures of standard bath and custom bath to meet different needs of personnel.

*** Automatic shower gel spray**

*** Automatic hot air drying**

After taking a bath, the hot air can be automatically turned on to dry the body quickly.

*** Automatic cleaning and disinfection**

The cabin body cleaning and disinfection function is provided. After bath, the bath chamber can be cleaned and disinfected with one key.

*** Movable lifting rollaway bed**

With waterproof electric push rod for folding and stretching, to realize the switch of sitting and lying position, facilitating the care for bath personnel.

*** Safety protection**

It has anti-dry, water flow alarm, high-temperature protection, high-sensitive leakage protection and other safety protection devices to protect the users.

Technical Parameters:

Model	BKX-MXW-100PC
Bath Chamber Size(L*W*H)	2180*960*1570mm
Lifting Bed Size(L*W*H)	2320*770*1120mm
Water	Tap-water
Water Inlet Interface	G1/2
Outfall Diameter	32mm
Water Consumption	≤16L/min
Material	S30408, ABS, tarp, nylon, etc.
Power Supply	220V, 50Hz
Power	12kW
Package Size(L*W*H)	Bath Chamber 2350*1160*1880mm Lifting Bed(Folded) 2000*910*1580mm
Gross Weight	Bath Chamber 450kg Lifting Bed 285kg
