

Food Dryer

Features:

- * Frequency conversion saves energy and electricity, reduces processing costs
- * Multi-stage temperature control, control the taste of ingredients
- * Upgraded dual fans 360° three-dimensional circulation drying
- * Upgraded 20-layer large capacity, satisfying one-time drying of hundreds of flavors
- * Built-in explosion-proof baking lamp, real-time monitoring of ingredient changes
- * All stainless steel body, sturdy and durable, no deformation

Technical Parameters:

Model	BK-FDS20
Temperature Range	30~90℃
Timing Range	1h~24h, the increment is 30min
Material	Stainless steel
Control Method	Touch screen
Power	1500W
Power Supply	Standard: 220V 50/60Hz; optional: 110V 50/60Hz
Product Size(W*D*H)	370*465*864mm
Packing Size(W*D*H)	3 types of packing: Plywood: 600*680*920mm; Wooden: 530*660*1030mm; Carton: 600*680*920mm
Gross Weight	3 types of packing: Plywood:37kg; Wooden:42kg; Carton: 36kg
