

Gel Card Incubator

Features:

- * Real-time temperature value display, countdown display.
- * Control temperature PID microprocessor;
- * Automatic fault detection and alarm function;
- * With temperature deviation calibration function;
- * LCD Display;
- * Powder coated steel shell, durable;

Technical Parameters:

Model	BJPX-SK24
Sample Capacity	24 cards
Temp. Control Type	PID control
Temp. Control Range	RT+5C -60C
Temp. Control Accuracy	±0.5℃
Display Precision	0.1℃
Timing Range	1~9999 minutes (hours) or continuous operation
Heating Time	≤25 minutes (30℃ to 60℃) ≤10 minutes (30℃ to 37℃)
Power Supply	220/110V, 50/60Hz
External Size	370*290*145mm
Net Weight	7.5kg
Packing Size	450*330*330mm
Gross Weight	8.5kg
