

Thermostatic Water Bath

Introduction:

Thermostatic water bath is one of the commonly used equipment for laboratory sample pretreatment. It is widely used in drying, concentration, distillation, impregnation of chemical reagents, impregnation of drugs and biological products, etc.

Feature:

- * Power off memory function, improve efficiency.
- * Using digital PID control, rapid heating, accurate temperature control, lasting constant temperature.
- * With timing function, timing range is 1~999min.
- * The shell is made of high-quality sheet and plastic spray, and the inner liner is made of stainless steel, with the characteristics of high temperature resistance and corrosion resistance.

Technical Parameters:

Model	BK-S1
Capacity	3L
Temp. Range	RT+5°C~100°C
Temp. Fluctuation	≤±1°C
Display	LED display
Anti-dry Function	NO
Timing Range	1~999min
Consumption	300W
Power Supply	AC220V,50/60Hz; 110V,50/60Hz
Internal Size(L*W*H)	160*160*120 mm
External Size(L*W*H)	200*215*200mm
Net Weight	2.3kg
Packing Size(L*W*H)	260*260*265mm
Gross Weight	3kg
