

Vibration Mill

Features:

- * It has good horizontal grinding force, high grinding efficiency, comfortable control button feel, simple operation, and a clamping device that achieves fast pressing, sturdy and durable.
- * The appearance and posture are generous, and the feet are equipped with pulleys, making it easy to move.

Technical Parameters:

Model	BK-VBM01
Grinding Disc Speed	1480r/min
Control Device	Master switch/button switch/digital time controller
Motor Phase Loss/Overcurrent Protection	Have
Cover opening and shutdown	Have
Grinding Disc Seat	Single
Clamping Device	Quick clamping
Grinding Disc Material	Tungsten carbide Outsourced steel sleeve
Grinding Disc Specifications	100ml (1-50g)
Optional Grinding Disc Material	High chromium steel, agate, zirconia, corundum, and high manganese steel
One Grinding Time	60-180S
Feed Particle Size	≤8mm
Grinding Particle Size	≤0.074mm
Equipment support feet	4 fixed and sliding feet
Power Supply	AC 380V±5%, 50Hz, three-phase, external air switch, no plug
External Dimensions (mm)	680*620*915
Net Weight(kg)	160
Packing Size(mm)	840*740*1090
Gross Weight(kg)	185

* Remarks: There are two power options, 1.1KW and 1.5KW. 1.1KW corresponds to 960 rpm, 1.5KW corresponds to 1480 rpm, and the prices of both are the same.
