

Visual Disc Polarimeter

Features:

It adopts the method of visual aiming and manual measurement, which is easy to use.

Technical Parameters:

Model	BK-P4S
Measurement Mode	Optical Rotation
Light source	sodium lamp + color filter, wavelength 589.44nm
Measurement range	$\pm 180^\circ$
Diagram value	1°
Dial vernier reading value	0.05°
Magnifying glass magnification	4×
Test tube	200mm, 100mm
Power supply	220V \pm 22v, 50Hz+1Hz
Instrument size	540mm \times 220mm \times 380mm
Instrument weight	5kg
