

Wastewater Treatment Plant

Introduction:

It efficiently treats the wastewater generated during dental medical treatment. It effectively removes harmful substances from the wastewater to ensure the wastewater meets national discharge standards.

Advantages:

- * High equipment integration level, small floor area, strong functionality, convenient transportation, and simple installation.
- * High configuration, stable operation, durable equipment, and guaranteed qualified effluent.
- * The sterilization function integrates ozone and chemical disinfection functions, with a 100% qualification rate, avoiding the trouble of unqualified random inspections.

Technical Parameters:

Model	BKX-WS05	BKX-WS10
Supported Number of Dental Chairs	1~5 units	6~10 units
Treatment Method	Pre-filtration+Ozone+Hand Disinfection	
Water Inlet Mode	Gravity flow/Self-priming	
Water Outlet Mode	Gravity flow	
Power Supply	AC220V 50Hz(Standard); AC220V 60Hz(Optional); AC110V 50/60Hz(Optional)	
Consumption	260W	380W
External Size(W*D*H)	500*455*600mm	500*455*600mm
Package Size(W*D*H)	630*590*650mm	630*590*650mm
Net Weight	30kg	35kg
Gross Weight	35kg	40kg
