Z-type Bucket Elevator

Z型斗式提升机

产品描述 Product Description

Z型斗式提升机是在封闭的壳体内，通过悬挂在链条上的上料小斗输送物料。能水平——垂直——水平组合输送。可以单点或多点加料，通过卸料装置完成单点或多点卸料。全封闭、无泄露、无污染。

Z-type bucket elevator transports materials in a closed shell through feeding hoppers suspended on a chain. It can be horizontal-vertical-horizontal combined transport. Single-point or multi-point feeding can be performed, and single-point or multi-point unloading can be completed by the unloading device. Fully enclosed, no leakage, no pollution.

产品特点 Feature

- 结构简单，维护方便，使用寿命长，还可以节省输送空间，提高厂房的使用率。
- 机壳钢板加厚、刚性好。
- 具有极高的抗拉强度和耐磨性能。
- Simple structure, easy maintenance, long service life. It can save conveying space, improve the utilization rate of the plant.
- The casing steel plate is thickened and good rigid.
- High tensile strength and wear resistance.

应用范围 Application Range

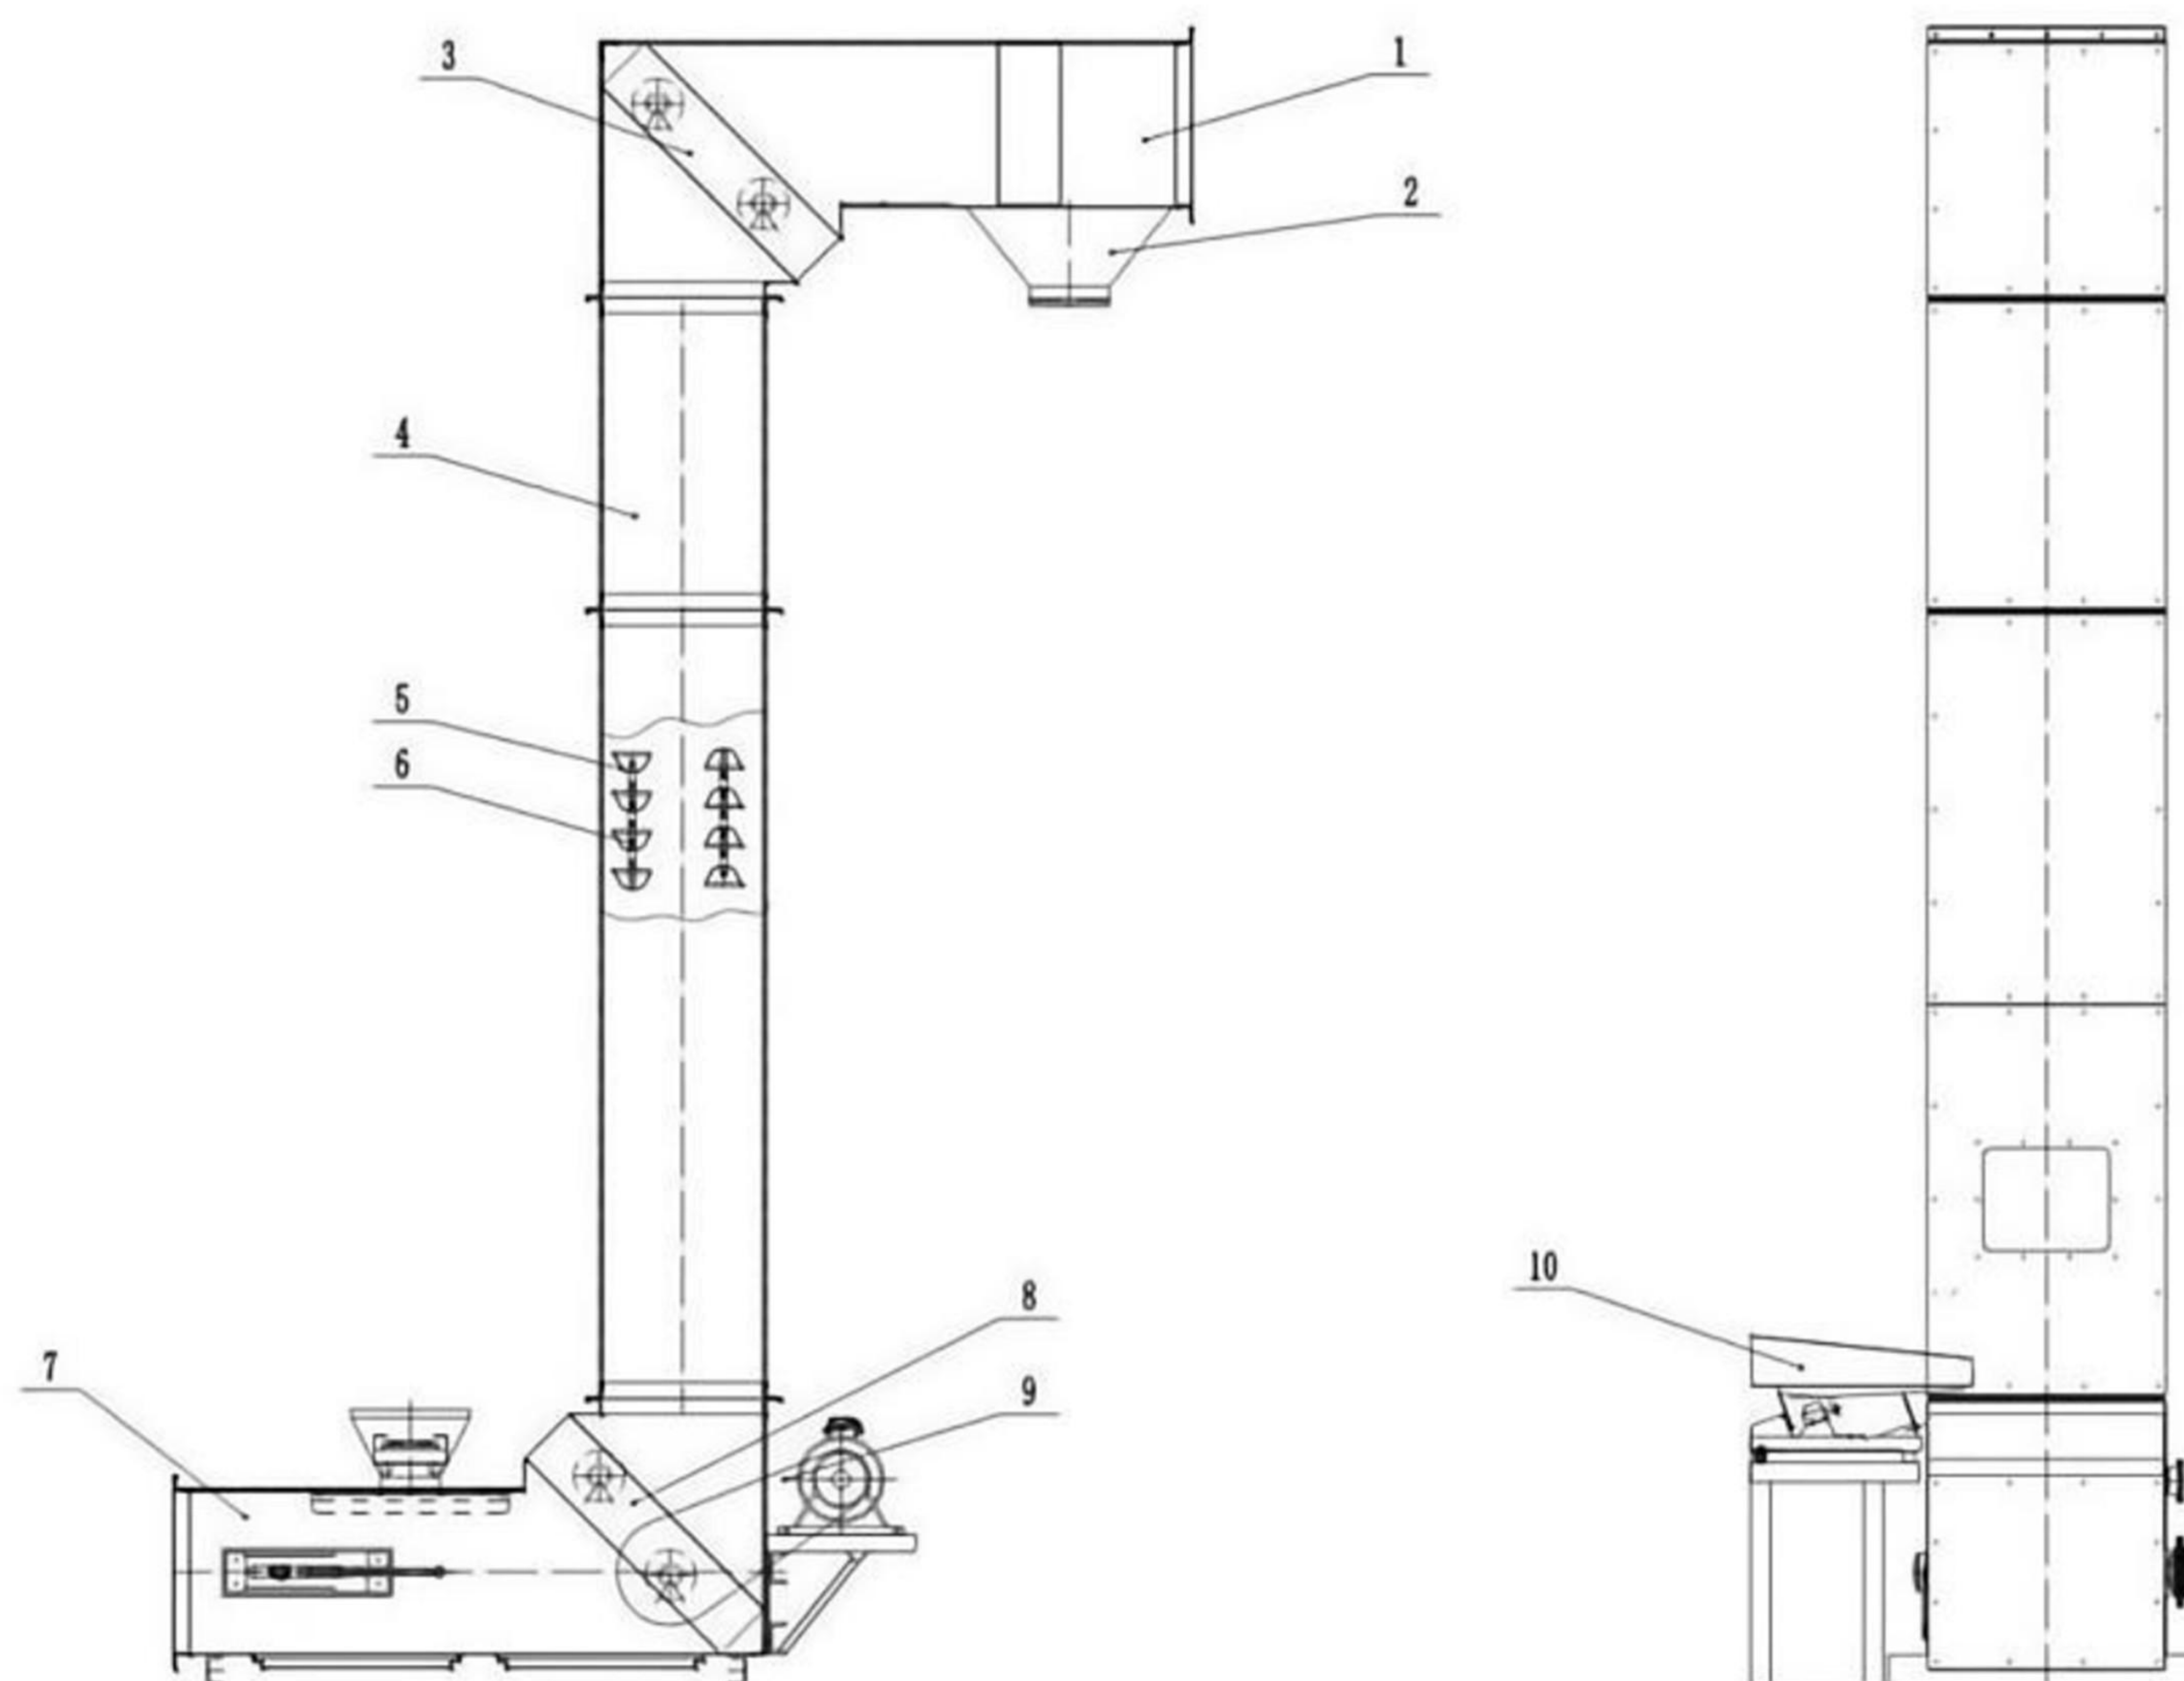

广泛应用于宠物食品业，膨化食品业，饲料行业，糖果行业，干鲜果品业，保健食品业，粮食精加工处理业，化工医药业，五金电料业，军工制造业等等。

Widely used for pet food industry, puffed food industry, feed industry, confectionery industry, dried and fresh fruit industry, health food industry, food processing industry, chemical and pharmaceutical industry, hardware and electrical materials industry, military manufacturing industry, etc.
