

# Defoamer Series

China Rise Surface Technologies Co.,Ltd.  
wechat/whatsapp: +86 15714017827  
<https://china-rise.en.alibaba.com>

Focus on surface treatment technology, Offer Solution for foam problem.

# RISE

## Factory Introduction

- 1) Since 2004.
- 2) 4 line, annual production value 1.2 million US dollar.
- 3) Boss was engineer for 30 years, strict at production and quality.
- 4) R & D department all abover master degree.
- 5) High standard for sales, give support and good service.
- 6) Always develop new product environmental & good quality.

# APPLICATIONS FIELD

power plant ▲

Waste treatment plant ▲

Hydraulic machinery ▲

paper making ▲

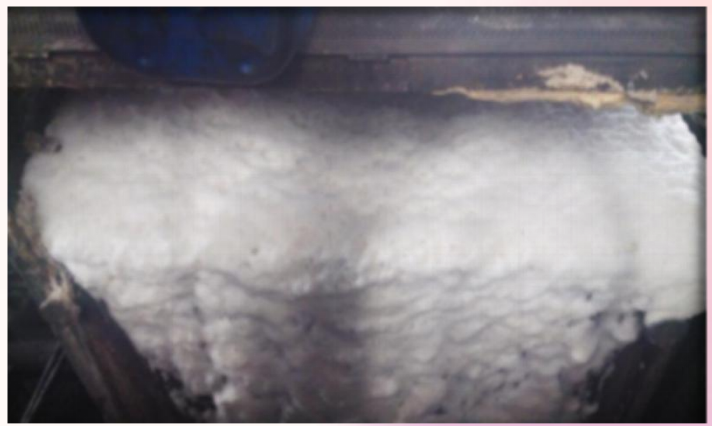

machining ▲

steel rolling ▲

# SUCCESSFUL CASES

reduce foams obviously

# How to Choose Defoamer

	organic silicone	Silicon mixed polyether	polyether	fatty alcohol	Solid powder
Papermaking	*	*	*	*	
Water treatment	*	*	*		
Petroleum industry	*	*	*		
power plant desulfurization		*	*		
Mining and mineral processing	*	*	*		
Fermentation industry			*		
Pesticide industry	*	*	*		
Industrial cleaning	*	*	*		
Textile printing and dyeing	*				
Coating ink	*	*	*		
High molecular polymer	*	*	*		
concrete	*	*			*
food processing	*	*	*		*

# Detifoamer Item No.

Silicone Defoamer						
Item No.	Effective content %	pH	Solubility	Defoaming speed	Antifoam	Application
AF-1810	≥10	6.0-8.0	***	****	*	Sewage treatment, oil exploitation, industrial cleaning, pesticide
AF-1820	≥20	6.0-8.0	***	****	**	Pulping, mining and mineral processing, industrial cleaning, landfill leachate treatment, rubber processing
AF-1830	≥30	6.0-8.0	***	****	***	Landfill leachate treatment and industrial cleaning
AF-1840	≥40	6.0-8.0	***	*****	****	Textile printing and dyeing
AF-1850	≥50	6.0-8.0	***	*****	*****	High temperature polymer reaction
AF-1760	-	6.0-8.0	***	****	**	Industrial cleaning, concrete
Polyether Defoamer						
Item No.	Effective content %	pH	Solubility	Defoaming speed	Antifoam	Application
AF-2150	≥50	6.0-8.0	****	**	***	Paper making, water treatment, industrial cleaning
AF-2170	≥70	6.0-8.0	****	**	****	Power plant desulfurization, mining and mineral processing, PVA / PVC polymerization production, ink printing and dyeing
AF-2100	≥99	6.0-8.0	****	**	*****	Desulfurization and biological fermentation in power plant

## Silicone mixed Polyether Defoamer

Item No.	Effective content %	pH	Solubility	Defoaming speed	Antifoam	Application
AF-1610	≥10	6.0-8.0	***	***	*	Industrial cleaning, mineral processing and mining
AF-1620	≥20	6.0-8.0	***	***	**	High temperature pulping
AF-1630	≥30	6.0-8.0	***	****	***	Printing and dyeing, power plant desulfurization
AF-1640	≥40	6.0-8.0	***	****	***	High temperature evaporation
AF-1650	≥50	6.0-8.0	***	*****	****	Coking process

## Fatty Alcohol Defoamer

Item No.	Effective content %	pH	Solubility	Defoaming speed	Antifoam	Application
AF-3020	≥20	6.0-8.0	****	**	***	Paper making in paper mills
AF-3030	≥30	6.0-8.0	****	***	***	Paper making in paper mills

# Contact us

Shenyang Rise Surface Technology Co.,Ltd.

Address: No.38 building, liandong U valley, shenbei district, shenyang, China
