INTRODUCTION

INTRODUCTION

Our **esco**® story

Teaming Up to Create **Better Learning Environments**

In 2015, several architects, interior designers, educators, product designers and furniture manufacturers met together and joined forces to become what would later be known as the **esco**® team.

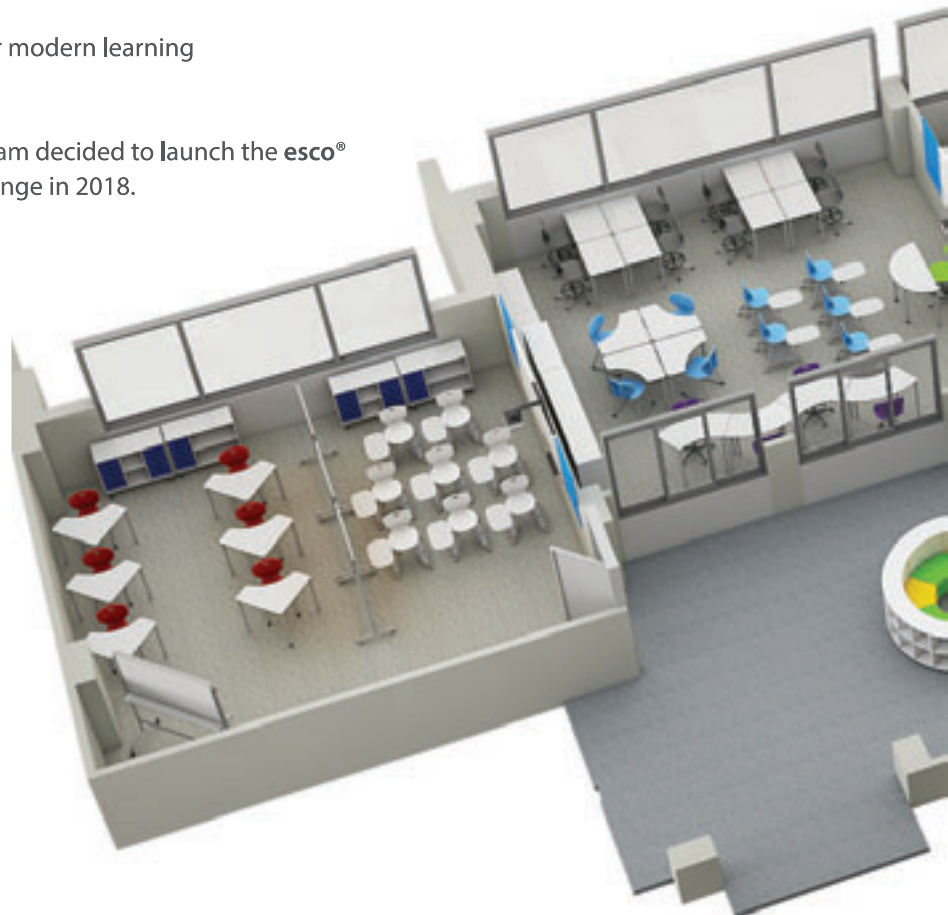

Our highly experienced school furniture experts have joined hands to analyse local customer needs and market trends to help us shape future-focused learning. Based on the insightful findings from a series of extensive interviews, school visits, observations, workshops and research, hand in hand with our endless efforts to ideate and prototype, the **esco**® brand was born.

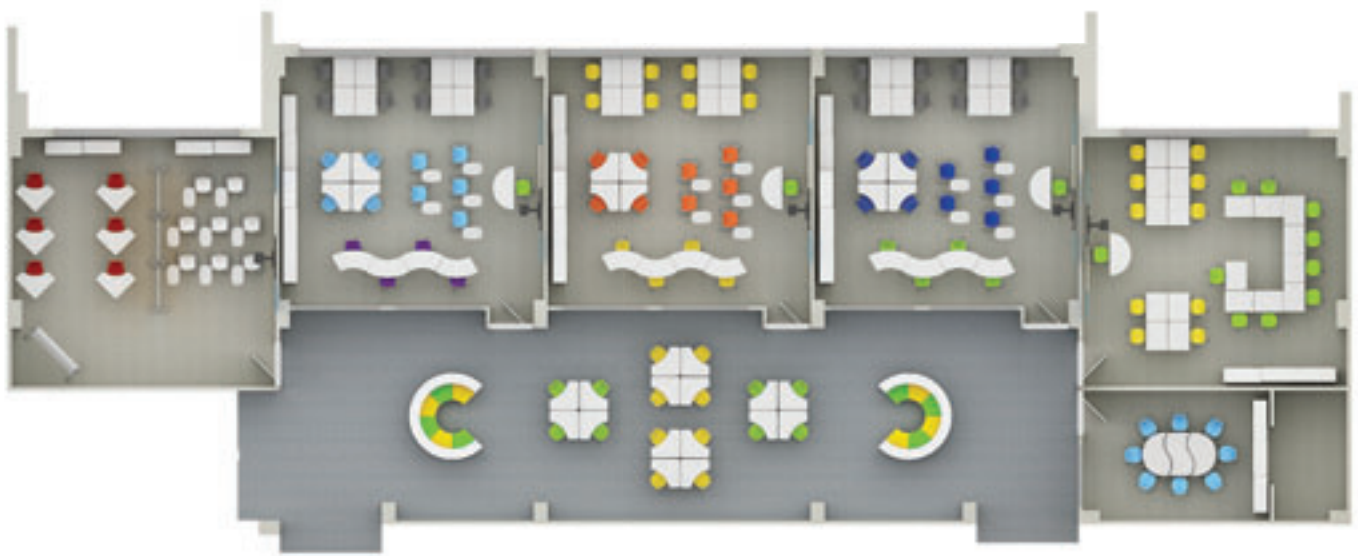

The **esco**® ten essential concepts:

1. Embody modern teaching and learning strategies.
2. Improve learning effectiveness.
3. Maximise the utilisation of educational buildings through extended learning beyond the classroom.
4. Provide learning environment solutions for every level of education and mixed-age learning environments.
5. Provide flexible solutions that adapt to various curriculums and learning needs.
6. Merge informal and formal learning spaces.
7. Enable active learning.
8. Stimulate face-to-face interactions.
9. Expand peer-to-peer and group learning options.
10. Foster individual and self-learning.

Our **mission** to create new solutions for better modern learning environments is no longer a dream.

After three years of close collaboration, the team decided to launch the **esco**® learning environment concept and product range in 2018.

INTRODUCTION

Diversity

At **esco**®, we believe that diversity improves creativity and accelerates innovation. We value the unique background and experiences everyone brings. It gives us a better understanding and greater empathy and can fuel the best ideas; we are biased toward educational projects that are increasingly diverse and inclusive.

Service

Clients are at the heart of everything we do and every decision. We are committed to delivering personalised services to all our customers. We carefully listen to our customer feedback across all channels so that we may continue to develop and improve our products and services. Our dedicated teams go above and beyond expectations to ensure every customer is always happy.

Durability

esco® durability originates with the engineers and designers as they carefully select materials, design the construction of each item, and study the movements, habits, uses and misuses of students. Our products undergo strenuous testing to ensure your learning environments will look and feel new for years to come.

Sturdy light metal frame

Environment / Ecology

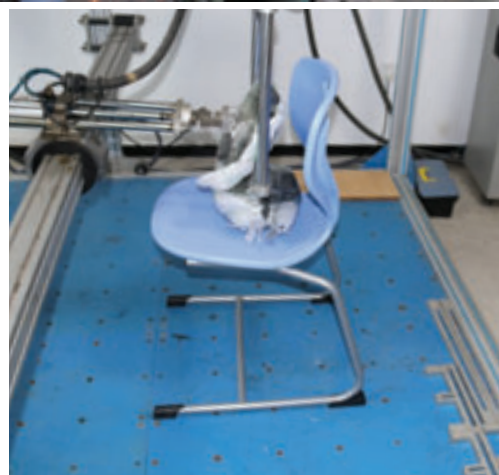

esco® environmentally friendly designs uphold our global responsibilities. As we attempt to minimise our ecological footprint, we prefer recyclable and sustainable materials in our selection process. Together with durable products and replaceable parts, we conserve resources and reduce waste, bettering our environmental impact.

We create for you

The finest textures and most durable materials come together to give you a beautiful learning environment that will last a lifetime.

Our products maximise sustainability and minimise maintenance efforts and costs with replaceable glides, shells and frames.

International Furniture Standards

BS EN 1729

We proudly serve you

Wherever you are located, we aim to be near you.

Our global offices first opened in Australia, Hong Kong, Dubai and Germany and will soon be available worldwide to serve all our clients. For us, each client is important.

COBRA - C

Durable Cantilever Frame for Stability and Flexibility

This chair features a sleek and contemporary design, blending functionality with aesthetics. The seat and backrest are crafted from durable, molded plastic material in nine vibrant colors, providing both comfort and visual appeal. The ergonomic curvature of the backrest offers excellent lumbar support, promoting good posture and reducing strain during extended use.

The cantilever frame is designed for enhanced stability and effortless movement. Constructed from high-quality metal tubing, the frame ensures durability while maintaining a lightweight structure. The open-front leg design allows for natural flex, providing slight movement for added comfort.

The cantilever frame distributes weight evenly, reducing pressure points on the floor, making it ideal for both carpeted and hard surfaces. Additionally, the frame is equipped with protective foot caps that prevent scratches and enhance grip, ensuring safe and smooth repositioning.

Integrated Handgrip for Easy Mobility

The ergonomic handgrip seamlessly integrated into the backrest allows users to effortlessly move the chair, enhancing mobility in classrooms, offices, and collaborative spaces. The handgrip is strategically positioned to ensure a comfortable grip while maintaining the chair's sleek and modern aesthetic.

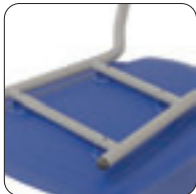

Designed for versatility, this chair is ideal for modern workspaces, educational settings, or home offices. Its combination of lightweight materials and strong structural integrity makes it a practical yet stylish seating solution.

Sturdy Four-Leg Frame for Stability and Versatility

This chair features a classic four-leg frame, offering exceptional stability and strength. Constructed from durable metal tubing, the frame provides reliable support while maintaining a lightweight design for easy movement. The seat and backrest are crafted from durable, molded plastic material in nine vibrant colors, providing both comfort and visual appeal. The ergonomic curvature of the backrest offers excellent lumbar support, promoting good posture and reducing strain during extended use.

The four-leg frame structure ensures even weight distribution, making it a practical choice for various surfaces, including classrooms, offices, and collaborative workspaces. The slightly angled legs enhance balance, while protective foot caps prevent floor damage and provide a secure grip. With a sleek yet robust design, this frame combines durability, functionality, and a timeless aesthetic, making it ideal for long-term use in dynamic environments.

Integrated Handgrip for Easy Mobility

The ergonomic handgrip seamlessly integrated into the backrest allows users to move the chair effortlessly, enhancing mobility in classrooms, offices, and collaborative spaces. The handgrip is strategically positioned to ensure a comfortable grip while maintaining the chair's sleek and modern aesthetic.

COBRA-N-HI

Ergonomic & Versatile High Chair Design

This high chair is a perfect blend of modern aesthetics, comfort, and functionality, making it an excellent choice for various environments. The seat and backrest are crafted from durable, molded plastic material in nine vibrant colors, providing both comfort and visual appeal. The contoured seat and curved backrest are designed to provide optimal lumbar support, encouraging good posture for prolonged seating. The smooth, high-quality plastic shell ensures easy maintenance and effortless cleaning. Despite its sturdy construction, the chair remains lightweight, allowing for effortless mobility and reconfiguration of seating arrangements.

Durable Four-Leg Frame

The chair is supported by a robust four-leg metal frame, ensuring excellent stability and durability. The slightly angled legs provide a balanced structure while maintaining a sleek, minimalistic look.

Integrated Footrest for Support

A built-in footrest is strategically placed to enhance user comfort, preventing leg strain and making it accessible for individuals of various heights.

Integrated Handgrip for Easy Mobility

The ergonomic handgrip seamlessly integrated into the backrest allows users to move the chair effortlessly, enhancing mobility in classrooms, offices, and collaborative spaces.

MOBILE STORAGE SERIES

STORAGE SERIES

Trayoo provides premium trays designed to meet the organizational needs of educational environments. Constructed from tough, impact-resistant plastic, these trays are made to withstand the daily demands of busy classrooms. Available in five vibrant colors, they offer easy color-coding and are designed to be stackable, maximizing space in classrooms, libraries, or resource centers.

Key Features:

1. Durable Construction:

Made from strong, impact-resistant plastic that can handle the rigors of everyday use.

2. Color Variety:

Available in 5 bright colors, making it easier to organize and identify different materials.

3. Stackable and Stable:

Designed with a sturdy base and reinforced sides, allowing for safe stacking without losing stability.

4. Versatile Applications:

Ideal for storing various materials such as books, stationery, and craft supplies. Perfect for both primary and secondary school settings.

5. Compatible with Shelving Units:

Trayoo trays fit seamlessly into most standard storage and shelving units.

6. Easy to Clean:

Smooth surfaces make cleaning simple, ensuring a hygienic and tidy environment.

Trayoo trays provide an efficient and colourful solution for managing classroom resources while enhancing space utilization.

MOBILE STORAGE FRAME SERIES

This multi-purpose tray storage unit is designed to offer efficient organization, mobility, and durability, making it ideal for classrooms, offices, workshops, and healthcare environments.

- **Customizable Storage Options** – Available in single, double, and triple-column configurations, catering to different space and storage needs.
- **Durable Construction** – Built with a heavy-duty steel frame, ensuring long-lasting performance even in high-traffic areas.
- **Spacious & Accessible Trays** – Equipped with deep, high-quality plastic trays that smoothly slide in and out for easy access and organization of supplies, tools, or learning materials.
- **Smooth Mobility** – Fitted with lockable caster wheels, allowing for effortless movement and stability when stationary.
- **Sleek & Modern Design** – The open-frame structure ensures quick identification of stored items, keeping spaces tidy and clutter-free.
- **Multi-Use Workspace** – The top provides additional workspace, making it perfect for writing, sorting, or placing equipment.

Ideal for schools, offices, hospitals, and makerspaces, this practical and stylish storage solution enhances organization while maintaining a clean and efficient workspace.
