Enterprise Introduction

Strength guarantee

JSlocker, a brand under JS Group, specializes in high-quality steel cabinet furniture solution. Offering a wide range of steel cabinets, JSlocker focuses on delivering durable, secure, and customizable storage options for various industries, including offices, schools, and public spaces. With a commitment to innovation and precision, JSlocker provides practical storage products designed to meet diverse organizational needs.

JS Group was founded in 2003, It has more than 400 professional employees, 150,000 square meters of factory buildings, and 5,000 square meters of exhibition hall. It has exported to 132 countries and has the strongest international sales talents and management team. It has passed ISO9001, ISO14001 , OHSAS18001 and environmental product certification.

JS Locker is equipped with advanced manufacturing and testing facilities, including CNC bending machines, laser cutting machines, automatic flexible bending machines, laser welding machines, and fully automatic phosphating coating lines. All products are made from high-quality cold-rolled steel and produced through professional mechanized processes, ensuring precision, durability, and environmental safety. The electrostatic powder coating technology ensures odorless, non-toxic, and eco-friendly production.

With a strong design and R&D team, advanced equipment, and solid technical capabilities, JS Group develops products that meet international market standards. Committed to innovation and customer satisfaction, the company provides reliable storage solutions trusted by businesses and institutions worldwide.

Tablet And Laptop Charge Cabinet

SF-9005
Size: W690*D580*H1250*H1250mm

Supports simultaneous charging for 64 tablets.
The main body is made of galvanized steel, welded into a seamless structure.
The front features a double-door design with individual handle locks.
The top of the cabinet adopts a curved design, with raised edges on both sides to prevent external devices from falling.
Safety: The power switch includes a power indicator and a leakage protection system with software copyright certification (national-level certificates provided). Strong and weak currents are isolated to ensure user safety.

- Digital timer rotates power to avoid circuit overload
- Listed to UL 60950 standard

Tablet And Laptop Charge Cabinet
Size: W720*D540*H930mm

Mobile Laptop Charging stations can charge, securely store, and move your laptops from room to room. Cabinet features two locking doors that fold flat to sides for easy loading and unloading. Store and charge up to 12, 18, 30 or 42 laptops or tablets at a time. Locking front and rear doors with all steel construction. Surge suppressing electric outlet assembly. Ventilated walls to avoid overheating. Adjustable shelves and non-slip top surface that serves as a work station. Lifetime warranty. Assembled.

This cart is compact so it fits through doorways easily and can be maneuvered around with little effort.

- Digital timer rotates power to avoid circuit overload
- Listed to UL 60950 standard
