BAIANDA 6115 OV Chemical Cartridge

Use For

Respiratory protection from certain organic vapors according to NIOSH approvals, OSHA/governmental limitations, or other applicable regulations and BAIANDA instructions

Do Not Use For

Concentrations of contaminants which are immediately dangerous to life and health are unknown.

Use Limitations

1. These cartridges do not supply oxygen. Do not use in atmospheres containing less than 19.5% oxygen.
2. Do not alter, abuse or misuse these cartridges and/or respirator.
3. Do not use with beards or other facial hair or other conditions that prevent a good seal between the face and the face seal of the respirator.

Special Limitations:

Do not wear for protection against organic vapors with poor warning properties or those that generate high heats of reaction with sorbent.

Time Use Limitations

Replace cartridge in accordance with an established change schedule or earlier if smell, taste or irritation from contaminants is detected.

Packageing information

- * 2 Pcs / Bag
- * 36 Bags / Box

Features/Benefits

* **Comfort**

The swept back design of the cartridges improves balance and visibility.

* **Lower breathing resistance**

The unique internal air guide groove structure makes the breathing resistance lower

* **Compatibility**

The 6115 can be used with BAIANDA's wide variety of half mask designs.

* **Exceptional filter efficiency**

Passing NIOSH's OV test criteria.

* **Safety**

The evacuated aluminum foil packaging bag makes the product more protected from light and moisture.
