Who am I?

# Introduction

Sinuo Art (MATTEO) is a factory that has been engaged in lighting customization for 15 years, supplemented by home decoration customization. A professional company that provides a complete set of customized solutions for customer needs, from deepening design, production and manufacturing, engineering installation to after-sales service. The design team is highly forward-looking and creative, tailoring high-quality lighting art for specific spaces. At the same time, attention should be paid to the integration of form, color, light, shadow, and dynamics, in order to achieve artistry and marketization.

2007

Start a business and establish a glass blowing factory, mainly producing handmade glass, large glass sculptures, glass lighting and other large-scale themed art design, customization, and after-sales services.

2012

With a deeper understanding of the industry, break through habitual thinking. From a single glass material artwork, it has been adjusted to be dominated by space utilization, product design and deepening, production, installation, etc.

2023

Provide a complete set of customized solutions for customer needs. Based on the design plan, recommend suitable and cost-effective main and auxiliary materials, and control the overall effect from intelligent applications, interaction to artistry. We have professional experience in deepening design teams, production, quality inspection, and installation after-sales management.

## Design and deepening

With over 15 years of industrial design team experience, from deepening the design of infrastructure and appearance to engineering installation and embedment, we have extensive practical experience in practical projects, aiming to better enhance customer experience and service.

## Manufacturing and processing

Whether it's crystal polishing, pure handmade glass customization, or stainless steel polishing electroplating, all undergo strict inspection from semi-finished products to finished products, and only when they meet the standards can they enter the next production process.

## Resource cooperation

Relying on the Chinese manufacturing market with a full range of products, we will select the most suitable and professional partners to work together to complete every piece of art with high cost-effectiveness.

# Teamwork

Through activities such as group building, group focused learning, and social welfare, we aim to promote employee motivation and self-discipline, enabling them to feel more responsible for society and make changes accordingly.

# Operation Flow

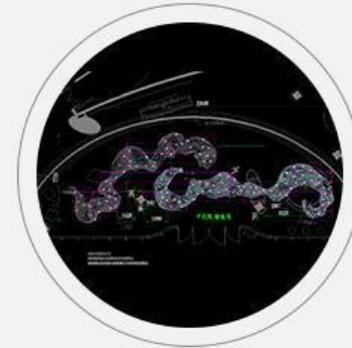

Customers provide project pictures or plans.

## Market

Tooling; Hotels, museums, real estate, auditoriums, commercial squares, and other projects account for 75% of the total

Home decoration: villas, luxury homes, ordinary home decoration, etc. account for 25%

## **Installation art customization**

The large-scale installation art that combines shape, color, lighting, and programming, perfectly combined with space, will be a unique protagonist whether it is "Dream Journey to the West" or "Cosmic Starry Sky".

## **Lighting customization**

Not limited to materials, but more focused on large-scale themed lighting, customized according to demand.

## **Sculpture customization**

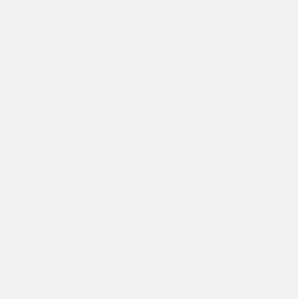

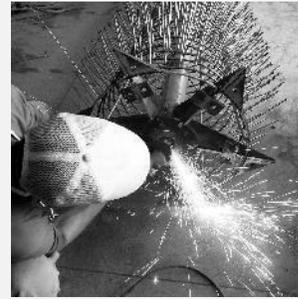

Select the most effective materials according to the plan or customer needs to highlight the theme. Materials such as wood chips, crystals, imported paper, and imported acrylic.

## **Customized screen partition**

Use crystal art screens to differentiate spatial functions. Perhaps, pure handmade glass walls can be customized to make the space more luxurious and enjoyable.

# Production Process

Whether it is processed by Sinuo Art Factory or customized semi-finished products according to demand in the supply chain, unified acceptance will be carried out in stages according to professional quality control standards.
