

LED Warning light

Item no.SM-0810-08A

Function and performance	Parameters
Item no.	SM-0810-08A Strobe Flashing Model
Dimension	External diameter $\Phi 83$ * H92.5mm, D3.26" x H3.64" Inch
Working voltage	12 - 36V DC
Theoretical power	10W, 2700K, Amber color, actual power 7.2W
Led lamp chip	0.2W *6 Pcs/Group, 6 Groups, 36 Pcs in total (LED-2835 Color temperature, 2700K)
Components	Transparent housing: PC (Amber); Heat sink: Aluminium; Base: PA (Black)
Flash frequency	120 times/min (Accepted customized)
Waterproof and Dustproof	IP65
Working temperature	-40°C- +65°C
Reverse polarity protection	36VDC
Life span	25000h, Light attenuation $\leq 20\%$, working 8000h
Wiring method	External DT04-2P terminal (1-Positive electrode, 2-Negative) Wire length could be designated by customer, Length 300mm
Installation method	Mounting screw, 250mm mounting holes distance
Application	Engineering vehicle、 Special vehicle、 Agriculture machinery
Packaging	White color box,1set/box, 40sets/carton (20 Pairs)
